	<hr/>
	\$93,759.04

Property under lease used for educational purposes:

2022 G Street, at \$1800 per annum  
714 20th Street, at \$1020 per annum

Temporary Investments of General Funds were increased \$88,150.00 for the reason that instead of liquidating these investments as the need for additional cash arose, the investments were maintained and the necessary cash was obtained by short term borrowing.

**Notes Payable** secured by mortgages in the amount of \$406,370.00 are outstanding against the General Funds of the University, a decrease over the previous year of \$36,130.00.

Temporary loans secured at the Riggs National Bank amounted to \$150,000.00. Of this sum \$100,000.00 was used to restore the working capital of the General Funds because of the non-liquidation of temporary investments purchased from the General Funds during the year. The balance of \$50,000 being used to pay off maturing Real Estate Notes. Interest is at the rate of 5%.

# GENERAL ACCOUNTS

5

Notes Payable against the Lewis Endowment Fund amount to \$45,000. The property bequeathed by Dr. Samuel E. Lewis is valued at \$148,304.15. To clear the estate and enable the Executor to transfer the property to the University, the Board of Trustees authorized the placing of the \$45,000.00 mortgage, leaving a net valuation of the Lewis Endowment Fund of \$103,304.15.

The Liability of the University to the University Endowment Funds was reduced from \$336,881.55 to \$333,361.56 during the year, a decrease of \$3,519.99. This was accomplished by using the proceeds of the Endowment Restoration and Accretion Fund for that purpose.

Laboratory Equipment and Furniture are valued, after depreciation, at \$225,510.02, an increase of \$10,220.85.

Books in the Libraries are valued, after depreciation, at \$81,496.81, an increase of \$4,577.46.

Equipment transferred from General Funds to the University Duplicating Bureau amounted to \$1,468.31.

The equity of the University in property on Sherman Avenue, N. W., adjoining Garfield Hospital, was increased \$2,675.10 because of a payment of that amount to the Collector of Taxes, District of Columbia.

Contributions other than those reported under Trust Fund increases were received during the year as follows: For prizes, \$160.00; for books, \$1,005.00; for landscaping in front of Lisner Hall, \$260.00; for salary of Alumni Secretary, \$100.00; for special investigation in Psychology, \$1,000.00; a total of \$2,525.00.

Accounts Receivable from students amount to \$5,173.67 or .00565 percent of the total student charges at the close of the fiscal year, August 31, 1930, the lowest deficiency ever reported.

Cash Receipts and Payments for the fiscal year are summarized as follows:

Cash on Hand, August 31, 1929 . . .	\$22,329.31	
Cash Received 1929-30 . . . . .	1,224,169.15	\$1,246,498.46

Comptroller.

## Certificate of the Auditor

January 26, 1931

---

We have examined the books of the GEORGE WASHINGTON UNIVERSITY and made the usual verification of Assets and Liabilities and reviewed the general accuracy of the Revenue and Expense accounts.

Cash was verified by actual count or by certificates from the Depositories and Securities and notes by inspection. Additions to Land, Buildings and Equipment were examined and found to be proper charges thereto. Trust Notes Payable were verified by letter from the holders thereof or by documents pertaining thereto.

We hereby certify that, in our opinion, the annexed Balance Sheet, as compiled from the accounts of the University reflects the true financial condition of the GEORGE WASHINGTON UNIVERSITY as at August 31, 1930 and that the relative Revenue Account states the Net Revenue for the year ended on that date and that the Statement of Cash Receipts and Payments summarizes the Cash Transactions for the year ended August 31, 1930.

(2) Because of the absence of much of the athletic and social activities of the regular sessions, there is every incentive to concentrate upon scholastic work. The Freshman will find himself stimulated by a large group of serious-minded students who are intent upon deriving the greatest benefit from their classroom work.

(3) Time is saved. The time required to obtain a degree may be considerably shortened by attending the summer sessions. This is extremely important to the student who must support himself during his college course, or who plans to continue his education in professional schools, such as Law or Medicine.

The George Washington University is this year offering courses for Freshmen in many subjects which are required for academic and professional degrees. If you wish a catalogue announcement sent to you, please send your name and address to the Director of Summer Sessions. Additional information can be readily obtained at the Office of the Registrar, 2033 G Street, Northwest.

TRAINING FOR PATENT LAW

WASHINGTON, D. C.  
1930

*Patent Law Practice:* Two hours a week throughout the year. This course consists of the trial in Moot Court of patent cases. The students in the class act as counsel, and the member of the faculty in charge acts as the judge. Students who are preparing for the practice of Patent Law are permitted to count this course as fulfilling the Moot Court requirement for the degree of Bachelor of Laws.

*Practical Experience in the United States Patent Office:* The courses are given as part of the late-afternoon curriculum of the Law School, the classes meeting from 5:10 to 7:00 p. m. They are thus available to employed students, especially those in the United States Government offices. In order to secure employment adequate for self-support and at the same time obtain experience in the practical administration of the Patent Laws, students with sufficient technical training who desire to prepare to enter patent practice are strongly urged to secure appointments as assistant examiners of patents in the United States Patent Office. These positions are filled from lists of eligibles made up as a result of Civil Service examinations in scientific and technical subjects. The three-year course in the School of Engineering has been planned and developed to give students sufficient technical training to pass these examinations. Thus students may secure, at the same time, experience in the actual administration of the Patent Laws, theoretical instruction in Patent Law, and adequate general legal training.

THE SUMMER SESSIONS  
PRELIMINARY ANNOUNCEMENT  
1930

---

WASHINGTON, D. C.

## THE SUMMER SESSIONS

---

### *General Statement*

This is a preliminary announcement of The George Washington University Summer Sessions of 1930. The Summer Sessions will be held as follows:

#### All Schools (except Law)

Nine Weeks term, June 16 to August 16

Six Weeks term, June 30 to August 9

#### The Law School

First term, June 16 to July 30

Second term, July 31 to September 13.

A complete announcement of courses and schedules, with a detailed statement of requirements for admission, of fees and expenses, and other necessary information, will be ready for distribution about March 20. This announcement will be sent to you if you desire it.

### *Academic Credit*

The Summer Sessions are an integral part of the University. Since the courses offered are the equivalent of the corresponding courses offered in the regular terms, academic credit for the completed work will be given toward the appropriate degrees in the various Schools and Divisions of the University.

### *Courses of Instruction*

Members of the University faculty and visiting professors from other institutions will offer approximately one hundred and thirty courses in the following departments of instruction: Botany, Chemistry, Economics, Education, Engineering, English, Fine Arts including Architecture and Graphic Art, Geology, German, History, Law, Library Science, Mathematics, Music, Philosophy, Physics, Political Science, Psychology, Public Speaking, Romance Languages including French and Spanish, Sociology, and Zoology.

These courses will be conveniently arranged throughout the entire day and in the early evening. In addition to the regular college subjects, many courses for art students, teachers and librarians are available. Provision for special research is made in the Graduate School of Letters and Sciences. During the Summer Sessions the resources of the University, including laboratories, libraries and other equipment, will be at the disposal of the students.

### *Summer Study in Washington*

The Summer Sessions offer to students an opportunity to continue university work during the summer period. The educational value of a term of study in the national capital is of great importance, as the knowledge gained

forms a background for both intelligent and appreciative citizenship. History, political science, literature, and current events are all vivified by a first-hand knowledge of Washington and its national institutions. The schedule of classes will give the student ample time to visit libraries and observe the departments and bureaus of the federal government in operation. Many places of historic association and beauty in nearby Virginia and Maryland are easily accessible.

#### *Social and Recreational Life*

Provision is made for the social and recreational side of student life during the Summer Sessions. The University reception and dance is an annual event. The University's athletic facilities and equipment are available to summer students. Tours and excursions to places of interest under the direction of competent guides will be organized for out-of-town students. The numerous parks and golf courses of Washington, the riding trails, water sports on the Potomac and at nearby beaches, offer a wide choice of outdoor recreation.

#### *Living Quarters and Costs*

The University has no dormitories. For the benefit of out-of-town students, the Residence Bureau maintains a list of rooms and apartments near the University. Single rooms usually cost from twenty to thirty dollars a month, and double, from ten to twenty dollars a month a person. Rooms with board, including breakfast and dinner, cost from forty to fifty dollars a month a person.

### ADMISSION

The University is open to men and women.

Entrance requirements: The fifteen units offered for admission to the Department of Graphic Art shall include: English 3 units; Language 2 units; Algebra 1 unit; Plane Geometry 1 unit; Electives 8 units; Total 15 units. The fifteen units offered for admission to the Department of Architecture shall include: English 3 units; Foreign Language (preferably French) 2 units; Chemistry 1 unit; Physics 1 unit; Plane and Solid Geometry  $1\frac{1}{2}$  units; Elementary and Advanced Algebra 2 units; Plane Trigonometry  $\frac{1}{2}$  unit; Electives 4 units; Total 15 units.

Students not having these requirements may be admitted to the courses but they will receive no University mark or credit for the work.

Tuition Fee for each semester hour	\$7.00
Registration Fee	3.00
Special Fee for Architecture 1-2, 4, 25, 26, 27, 28, 125, 126, 127, 129, 141, 142	4.00
Special Fee for Graphic Art 5-6, 21, 22, 105-106, 121-122, 123	3.00

Numbers in parentheses after course numbers indicate the number of semester hours.

All classes in the Summer Sessions are held daily with the exception of Saturday and Sunday, unless otherwise noted.

Courses for which there is insufficient enrollment may be withdrawn.

The George Washington University, through its Department of Sociology, offers basic courses in sociology and specialized courses dealing with sociology in its civic applications, designed to assist the social worker in his contact with modern social problems.

The social worker who desires to familiarize himself with the history of sociological thought, and to acquire the administrative skill which is a necessary part of the equipment of the social executive today, is afforded the opportunity to acquire broad knowledge and technical training in the field.

A number of new courses will be offered by the Department during the second semester. Descriptions of these courses are given below.

Registration for the second semester will take place on February 3 and 4, and classes will open on February 5.

Courses offered during the second semester, academic year 1929-30:

#### *Social Organization*

Willard

A study of group and community life from the standpoint of regional integration; constituent institutions and processes; organization, disorganization, and social control. Open to students who have had *Introduction to Sociology* or its equivalent. Monday, Wednesday and Friday at 9:10 A. M.

#### *Educational Sociology*

Willard

Social problems of curricula, pupil population, teachers and the teaching profession, educational organization and method, control and administration of schools, and educational extension. Tuesday, Thursday and Saturday at 9:10 A. M.

*City Planning*

Kern

Garden city and metropolitan city planning. Principles of zoning. Monday, Wednesday and Friday at 11:10 A. M.

*History of Social Work*

Street

Development of charity and social work from earliest recorded times. Thursday, 7:10 to 9:00 P. M.

*Behavior Problems in Social Work*

Sherman

Psychiatric and psychological principles underlying the development of behavior problems in social work; objective observation of behavior problems in social work; analysis of case studies; outline of the principles of treatment of behavior problems, especially in relation to social conditions. Friday, 7:10 to 9:00 P. M. Laboratory period to be arranged.

*Contemporary Culture and Cultural Change*

Willard

Studies of contemporary culture and methods of cultural analysis. Local institutions and usages will be the subject matter of problem assignments. Tuesday, 7:10 to 9:00 P. M.

*Seminar in Sociology*

Kern

Hours to be arranged.

During the Summer Session of the University the Department of Sociology will offer the following courses: *Introduction to Sociology*, *Educational Sociology*, *School and Community*, *Forum in Social Problems*.

The *Forum in Social Problems* is a course offered jointly by the Department of Sociology and the Department of Public Speaking, intended to meet the needs of social workers in committee work, in group discussion, in public assemblages and community meetings, and in various relationships in which it is necessary to handle the subject matter of social problems.

The Summer Session will open June 16. For further details, write to the Director of the Summer Session, The George Washington University, Washington, D. C.

The George Washington University offers a four-year course leading to the Bachelor of Science degree with a major in Physical Education. The purpose of this course is to qualify women for positions in the fields of physical education and educational recreation in schools and colleges, and on playgrounds.

The curriculum for training in Physical Education is made up of courses in biological sciences, the theory and practice of teaching, practice work in physical education, and such cultural subjects as provide the intellectual and social background necessary for leadership.

Practice teaching opportunities are available in the undergraduate classes of the University and in the schools and playgrounds of Washington. Students in the therapeutic gymnastic classes have unusual opportunities for observation work in the medical clinics of the University Medical School. The playgrounds in the city furnish opportunities for training for those interested in preparing themselves for playground direction.

The Women's Athletic Association of the University offers a broad field of activities including tennis, archery, golf, rifle, hockey, soccer, basketball, volley ball, baseball, track, bowling, and swimming. Opportunities to participate in the activities of the Riding Club, the Swimming Club, and the Outing Club of the University are offered to girls having these special interests.

The Summer Session for 1930 will cover a period of thirteen weeks, divided into two terms of six and one-half weeks each. Classes in the first term will begin Monday, June 16, and end Saturday, July 26. Examinations will be held July 28, 29, and 30. Classes in the second term will begin Thursday, July 31, and end Wednesday, September 10. Examinations will be held September 11, 12, and 13. Friday, July 4, and Monday, September 1, will be holidays.

The Summer Session is a regular part of the work of the school. The character of the instruction and the amount and grade of work required are the same as that of the regular academic year. Rules and regulations as to attendance upon classes and grades are the same as in other parts of the academic year. Full credit is given for subjects completed by regularly qualified students in the Summer Session. Attendance credit is given for one-fifth of a part-time year for attendance upon one term of the Summer Session.

### ADMISSION

The Law School is co-educational. Both men and women are admitted to the Summer Sessions and to the regular sessions upon the same terms.

The requirements for admission are the same as those for the regular sessions. For candidates for the degree of Bachelor of Laws the requirement is the completion before admission of two years of college work. Students from other law schools may be admitted for the Summer Sessions only as regular or as unclassified students. In all cases the credentials required for admission must be filed.

## REGISTRATION

Before attending classes each student must present himself in person for registration. No student will be registered in the Law School until proper credentials have been filed and approved by the proper officers of the Law School. Registration is not completed until the registration fee and the tuition fee for the term have been paid. Registration days for the Summer Session will be Friday and Saturday, June 13 and 14, and Tuesday and Wednesday, July 29 and 30. Except where special permission is given, students must register on the regular registration days. A late registration fee of \$5.00 will be charged each student who registers after the regular registration days. No registration may be made after the first week of a term of the Summer Session.

*Change of Registration.* Registration may be changed only with the permission of the Dean. A fee of \$2.00 will be charged for each change authorized after registration.

## FEES

1. Registration fee	\$3.00
2. Tuition fee, per semester credit	8.00
3. Late registration fee (for registration after the registration days)	5.00

Fees for each session are payable in advance at the beginning of the session.

A student who is compelled to withdraw before the end of a term should apply to the Dean of the Law School at once for permission to withdraw. Until this application for withdrawal has been made and approved, the student is treated as still in registration. In case of a withdrawal during a term no credit of the fees for that term will be granted.

## CREDIT

Students may obtain a maximum of four semester hours credit in each session by attendance in two subjects aggregating ten periods per week or by attendance in one subject ten periods per week.

## HOURS OF RECITATION

The schedule is so arranged that work may be taken in the morning or in the late afternoon, or part in the morning and part in the late afternoon.

Classes in morning subjects are held from Tuesday to Saturday, inclusive; classes in afternoon subjects from Monday to Friday, inclusive.

## COURSES OF INSTRUCTION

The figures in parenthesis indicate the number of semester credits given for the completion of the subject.

### FIRST TERM—JUNE 16 TO JULY 30

(July 28, 29, and 30, will be used for examinations.)

#### FIRST YEAR SUBJECTS

*Domestic Relations* (See under Second and Third Year Subjects).

*Torts* (4)

Mr. Hunter

Bohlen's Cases on Torts. Monday to Friday, inclusive, 5:10 and 6:10 P. M. (The completion of this subject will satisfy the requirement of Torts for the degree.)

#### SECOND AND THIRD YEAR SUBJECTS

COLUMBIAN COLLEGE  
AND  
THE GRADUATE COUNCIL

## FOREWORD

To the Members of the University:

The ordinances, providing for the organization of The Junior College, Columbian (senior) College, and The Graduate Council (School of Graduate Studies), have been adopted after a careful study of the needs of the University on the part of the administration and the faculties. These ordinances bring into being a program that returns to the "master-apprentice" relation of the guild system for its principles, and they so define the administrative procedures that they are constantly recognized as facilitating devices not to be confused with the educational principles involved.

The organization of The Junior College makes possible a closer relationship between the University and the secondary schools, between the officers of the University and the parents, and between the staff of instruction and the students.

Columbian College forms a new unit consisting of the junior and senior years of study which lead to the Bachelor's degree, and one year of advanced work leading to the Master's degree. In this senior college, subjects are ordered in related groups for effective teaching and fields of knowledge are organized to facilitate research. An Independent Study Plan provides for students having special aptitudes or interests.

The organization of the Graduate Council on the basis of a master-apprentice relationship emphasizes and fosters through cooperative endeavor creative ability in scholarship in both staff members and students. Under the plan, the work leading to the Doctor's degree is set apart as distinct professional training for the future research worker.

The George Washington University plan will succeed only in so far as the instructional staff remembers that the teacher's province is to order the university environment so that the student will be inspired to train himself, to be enthusiastic in the use of his mind, and to be fearless in the pursuit of knowledge. The freedom and companionship gained under the new plan provide opportunity for the stimulation of scholarly personality through the impact of character.

CLOYD H. MARVIN,  
*President.*

15 June 1930.

## THE NEW PROGRAMME

The faculties of Columbian College and The Graduate School of Letters and Sciences of The George Washington University have made the following fundamental changes in organization: (1) The freshman and sophomore years have been separated from the junior and senior years and assigned to an autonomous Junior College. (2) The title "Columbian College" has been retained and assigned to the Senior College, which will include not only the work of the junior and senior years leading to the Bachelor's degree, but also the additional year leading to the Master's degree. (3) Within the Senior College the departments of instruction have been organized into four divisions: The divisions of Languages and Literatures, of Mathematics and the Physical Sciences, of the Natural Sciences, and of the Social Sciences. (4) An Independent Study Plan has been established, which permits a closer and more personal relation between instructors and those of their students who are qualified to profit by exemption from formal course requirements because of demonstrated ability to do original work under guidance. (5) A council for graduate study has been organized, based entirely upon a "master-apprentice relation" between the professor and the student, which conceives the work for the doctor's degree as professional research training. Considered separately, there is nothing entirely new in any of these proposals, but their association in a comprehensive plan is a distinct educational advance.

## THE JUNIOR COLLEGE

The Junior College includes the work of the freshman and sophomore years. It not only prepares students to enter the Senior College and the professional schools but also provides general education for those who do not look forward to four years of college. The courses of study are organized to furnish the basic training considered by the various higher divisions as necessary prerequisites for their work, together with such other cultural subjects as will make well-rounded curricula suited to these purposes. For such students the certificate awarded on the completion of the Junior College work is in the nature of a diploma.

The Junior College, which has been in successful operation in the West, has not gained such rapid acceptance in the East. A number of secondary schools have added Junior Colleges, but the universities have been slow in doing so, though the university Junior College has distinct advantages over the independent Junior College. This change is planned to provide a breadth of outlook and a maturity of instruction which are more difficult to attain in those Junior Colleges whose contacts are primarily with secondary schools.

Inasmuch as the Junior College acts as a service school to the professional schools and to the Senior College there is of necessity a revision of faculty alignment, resulting in part in an overlapping personnel composed, on the one hand, of instructors primarily engaged in Junior College work, and on the other, of representatives from the Senior College and from the professional schools. The Junior College faculty includes general and pre-professional advisers and other officers who deal with students in a personal way; such are the Director of Admissions, the Registrar, the Director of Women's Personnel Guidance, the Adviser to Students from Foreign Countries, and the Directors of Physical Education.

The Junior College affords a better transition between the secondary school and the University and provides a complete two-year course for those who want more training than the secondary school gives but cannot take a full college course. It makes for a more homogeneous grouping of students. Prior to the junior year, it provides for a more effective guidance of students through an effective advisory system with a board of advisers always available, and enables those who for one reason or another cannot or should not go further to terminate their work at a logical point without personal discredit.

Under the new plan the problems of admissions and advanced standing are greatly simplified and clarified for the Senior College, inasmuch as the completion of the Junior College course or its equivalent is required of students before they are admitted to the Senior College.

The unification, through the organization of the Junior College, of the lower division student bodies of the several schools and colleges of the

University makes possible the correlations of the social and recreational activities of freshmen with the problems of scholarship so that they may be handled with greater effectiveness. Technically, it simplifies registration, makes possible a better administration of physical education requirements, helps in attendance supervision and, it is believed, brings into being a closer cooperation with the parents, and with the secondary schools.

## THE SENIOR COLLEGE

The Senior College continues the name and the traditions of Columbian College and embodies the principles of the new order in education without destroying the ideals of the past. It strikes a new note not only in its combination of the divisional organization, the Independent Study Plan, and the inclusion of the work for the Master's degree, but also in the progressive spirit which this combination brings about. The student is encouraged to go on for the third year, leading to the Master's degree.

### DIVISIONAL ORGANIZATION

The Senior College includes the following divisions of instruction:

**THE DIVISION OF LANGUAGES AND LITERATURES** composed of:

- The Department of Classical Languages and Literatures
- The Department of English
- The Department of Germanic Languages and Literatures
- The Department of Romance Languages and Literatures

**THE DIVISION OF MATHEMATICS AND THE PHYSICAL SCIENCES**  
composed of:

- The Department of Chemistry
- The Department of Mathematics
- The Department of Physics

**THE DIVISION OF THE NATURAL SCIENCES** composed of:

- The Department of Botany
- The Department of Geology and Geography
- The Department of Psychology
- The Department of Zoology

**THE DIVISION OF THE SOCIAL SCIENCES** composed of:

- The Department of Anthropology
- The Department of Economics
- The Department of History
- The Department of Philosophy
- The Department of Political Science
- The Department of Public Speaking
- The Department of Sociology

This grouping of departments into divisions provides for the instructional organization of the University as distinct from its administrative organization, and is based upon such factors as the relationship of content, the interrelation of methods and of prerequisites, and similarity of background and viewpoint. These groups are not considered as unrelated and self-sufficient, and it would be fatal to the whole plan so to consider them. It must be recognized that many contacts between divisions arise, and the full value of the organization, both for the instructors and for the students,

is realized only to the extent that such contacts are fostered and improved. With the small number of divisions, the allocations of departments may not prove consistent. If, in the light of experience, they prove to be inconsistent, and to hinder the proper development of such departments, other disposition may be made by the faculties of the University.

The divisional plan shifts the responsibility for courses and methods of instruction from the general faculty to the division, and coordinates isolated departments more intimately into the developing fields of knowledge. The plan recognizes the responsibility of both the departments and the divisions for methods of instruction, for the coordination of courses offered, for the individual courses to be given, and for the administration of the Independent Study Plan.

The appropriate divisional and departmental officers administer the educational requirements for the students majoring within the division. The general regulations for granting degrees, applied and carried out by the divisions and the departments, are determined by the faculty of the Senior College. Under this plan, control of instruction is primarily the function of the faculty, while the Dean is a student personnel officer.

The growth of fields of knowledge in recent years, together with the increase of specialization, has destroyed the community spirit of earlier faculties; while on the other hand, the lessened distinctions between the humanities, and the new developments of experimental science, have initiated movements in the direction of the institute type, wherein limited groups of scholars, whose primary interests were developed in remotely related fields, are brought together for work on common problems. Similar advantages are gained in this divisional grouping, in that scholars who understand each other's problems are brought together in mutually helpful ways. Fields of knowledge are substituted for highly specialized branches, and there are reestablished the old intellectual and functional contacts that gave the smaller colleges certain educational advantages which have been lost to a considerable degree by larger institutions.

Another important purpose of this plan is to strengthen the hands of the individual instructor by placing him in a sympathetic and helpful atmosphere, thereby encouraging him to do stronger and more creative work. So far as the institution is concerned, it maintains a democratic flexibility in organization, which assists the instructor to do good teaching.

In general, then, the divisional grouping makes for a simplification and a better definition of educational and administrative channels, and clarifies the distinction between personnel administration which falls to the Dean, and educational responsibility which falls to the faculty. It converts a heterogeneous collection of scholars into a community having coherence of interest, and creates a stimulating intellectual atmosphere which cannot but promote creative effort and produce a closer cooperation between related groups. It breaks down the artificial boundaries in the humanities

and in the sciences; it prevents duplication of courses and promotes such cooperation as already has begun in the University in the study of linguistics in The Division of Languages and Literatures and in courses given jointly by the Departments of Public Speaking and of Sociology in The Division of the Social Sciences.

### INDEPENDENT STUDY PLAN

Under the Independent Study Plan in the Senior Collage a student of demonstrated capacity, with special interest in a course, may, upon approval of his project by the instructor in charge and by the Committee on Independent Study, be permitted to undertake independent study under the personal direction of the instructor.

The number of students who have flocked to our universities in the last two decades has created a situation which has made it almost impossible to pursue anything but mass education. Instead of the small classes of a generation ago there are now hundreds of students in many of the courses in our large universities. Individual contacts have largely disappeared and the personal relation between teacher and student, which was the essential factor in the development of so many of the great educators and leaders in America, has largely been lost.

The basic principle in any Independent Study Plan is that of the Guild System, the intimate relation of "master" and "fellow," of teacher and student. It is the oldest principle in education.

The Independent Study Plan does not contemplate any reorganization of the curriculum or of the courses now being given. The present course system will be maintained for no changes of present procedure are necessary. The fundamental courses, however, may now be highly individualized and vitalized wherever an individual student is obviously capable of going further than the average. The plan is one of selection, both on the part of the faculty member and on the part of the student. If the student has the capacity for carrying on independent study in any of the courses offered in the Senior College, and desires to do so, he will make arrangements for one semester at a time with those professors whose work he desires to carry, in one course or in more, according to his desire. With the work thus organized, any project may be terminated at the end of any semester at the option of either student or instructor. The professor to whom he applies may or may not accept the student, depending on his judgment as to the student's ability to carry the work and on his own resources as to time and material.

The fundamental reason for such a plan of master-fellow relationship is to encourage the development of the student of exceptional ability or of marked interest. The plan does not mean that all students capable of making high marks will elect to follow the Independent Study Plan, nor does

it mean that the professor must take the most brilliant student, unless he has the time and facilities, and feels assured that the student has the aptitude that will enable him to profit by the independent work. The project does not emphasize distinctions between superior and average students but gleans the creative minds from the student body, and gives them free opportunity to develop under mature guidance.

It further enables the individual members of the faculty, responsible for the development of the student, to evaluate the student's ability, to foster his self-confidence, to create in the student body an interest in the material dealt with in place of a desire for credits, to give a greater variation to the program offered to the student, to take cognizance of exceptional ability in individual students, and to recognize that work good for one student may not be of equal value to another.

The flexibility of the project makes it capable of as much expansion as may be desirable. It does not put a burden upon any individual member of the teaching staff.

It allows greater freedom to the instructor, since it permits him to concentrate his course instruction in the absolutely essential subjects, carrying the special topics, which now have to be organized into courses, through the Independent Study Plan.

It makes for better and freer teaching on the part of the faculty and creates a more wholesome reaction to that teaching on the part of the student body. It enables the teacher to recognize achievement on the part of the student as the fundamental objective, instead of conformity to rigid and formal course requirements.

## MASTER OF ARTS DEGREE

There are different conceptions of the Master's degree. Some institutions regard it as a "little Ph.D.," others as a fifth year of college, and still others as a degree preparing for secondary school teaching.

Under the varied conceptions that prevail, the work for the Master's degree is more closely allied to the course system of instruction than to the research method. In many instances research methods are introduced into some of the courses taken by candidates for the Master's degree and into the thesis, but on the whole, the student works under the closest supervision of his instructor. On the other hand, the accepted idea of the disciplines for the Doctor's work is that they are to be measured in terms of creative abilities demonstrated through research and although much of the instruction has been conducted in courses, the student has been finally judged by what he has acquired on his own initiative. This requires a different organization of instruction from that required for the work of the Master's degree. The separation of the work for the Master's and the Doctor's degrees under the control of different organizations will

give free rein for the development of the latter into mature and creative research.

The conferring of the Master's degree by the Senior College is not a new and untried procedure. Many institutions without graduate faculties or organizations have for a long time been giving the Master's degree.

The transfer of the Master's degree from the Graduate School to the Senior College does not result in any way in a lowering of standards for the rules already adopted in the Graduate School will be carried over into the Senior College.

This transfer to the Senior College is also in harmony with the divisional organization and with the Independent Study Plan, and allows flexibility and definition in accordance with the methods and aims of the different divisions. Instead of taking, as he has in the past, a course primarily organized for juniors and seniors, with the addition of a term-paper, the candidate for the Master's degree is absorbed naturally into the Independent Study Plan and is enabled, by a combination of course work and independent study, to get an earlier introduction to the methods of research.

## THE GRADUATE COUNCIL

An essential part of the new programme of the University is the organization of a Graduate Council or guild of scholars responsible for the direction of graduate students in research. The City of Washington, as is universally recognized, possesses unparalleled resources in trained personnel available for the direction and prosecution of scholarship work, and in source materials with which to work. These resources the council makes available for a carefully selected group of mature students.

The principles underlying the University programme, particularly the intimate "master-fellow" relationship between teacher and student and the discovery and development of creative ability, are applicable in a special sense to the field of research, and will be consistently followed in graduate work leading to the degree of Doctor of Philosophy. A statement of the graduate study programme is in preparation.

## THE SUMMER SESSIONS

1930

### GENERAL STATEMENT

#### THE UNIVERSITY

The George Washington University is the successor of The Columbian College in the District of Columbia, which was chartered by an act of Congress approved February 9, 1821. In 1873 the name was changed to Columbian University and in 1904 to The George Washington University.

#### THE SUMMER SESSIONS

The Summer Sessions are an integral part of the University, and all courses given are similar to the corresponding courses given during the regular session. Courses are offered in Columbian College, the Graduate School of Letters and Sciences, the Law School, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, and the Division of Fine Arts.

The Summer Sessions offer to students an opportunity to continue university work during the summer period. For teachers and librarians a wide range of professional courses is available. The educational value of a visit to the nation's capital is of great importance, as the knowledge gained forms a background for both intelligent and appreciative citizenship. History, geography, literature, civics, and current events are all vivified by a first hand knowledge of Washington and its environment.

#### THE UNIVERSITY LIBRARY

The University Library containing 85,000 volumes consists of the general library, which includes special collections in Classical Philology, German, English, French, and Spanish; and departmental collections in Fine Arts, Library Science, and Engineering; and laboratorial collections in Botany, Zoology, and Chemistry; and the professional libraries in Law, Medicine, and Pharmacy. The Library is open from 8:30 A. M. to 9:30 P. M. every day except Saturday and Sunday throughout the summer terms.

Students have access to many other libraries in the District of Columbia, including the Library of Congress. Among the governmental and institutional collections are some of the most important special libraries in existence. The Public Library of the District of Columbia offers many advantages to students.

## INFORMATION AND REGULATIONS

*Reservation of Right to Change Rules.* Registration in the University Summer Sessions is for one term at a time. Acceptance of a student does not in any way obligate the University to accept the student for any subsequent session. The right is reserved to drop any student, whenever, in the interest of the student or the University, the Faculty deems it advisable to do so. The Faculty reserves the right to modify or change requirements, rules, or fees of the University Summer Sessions.

### ADMISSION

All departments of the University are open to men and women.

*Registration Period.* Students may enter Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, and the Division of Library Science at the beginning of either semester or of the summer terms. For the time of admission to the School of Medicine, the Law School, the School of Pharmacy, and the Division of Fine Arts, see the announcements of the schools.

*General Requirements.* The requirement for admission to Columbian College, the School of Engineering, the School of Pharmacy, the School of Government, and the Division of Fine Arts, is a certificate of graduation from a four-year high school course, or its equivalent, amounting to at least fifteen units. A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. It includes in the aggregate not less than 120 sixty-minute hours of prepared class room work. For prescribed studies, see the specifications of each school.

Candidates for admission may present certificates of admission or take entrance examinations.

*Certificates.* Certificates will be accepted only from accredited schools and must give in detail the grades obtained by the student, must specify the passing grade and the certifying grade, and must contain definite recommendations from the principal in regard to admission to college. The Director of Admissions will furnish, on application, certificate blanks to the principals of such schools. All records shall be certified on the blank provided by the University and must come directly to the Director of Admissions from the school concerned. Applicants presenting certificates from unaccredited schools will be admitted only on passing entrance examinations.

*Examinations.* Candidates for admission who do not furnish certificates of graduation from accredited high schools will take the examinations in the entrance subjects offered by the College Entrance Examination Board.

The examinations of the College Entrance Examination Board are held each spring in Washington and other centers. These examinations will be given in Washington at The George Washington University June 16-21, inclusive, 1930. Applications for examinations should be addressed to the College Entrance Examination Board, 431 West 117th Street, New York City.

*Conditions.* A graduate from an approved high school who does not have the proper distribution of subjects to meet the prescribed units may be admitted, on condition, to courses other than the medical courses, if such irregularity is in not more than two units.

All conditions must be removed by the end of the freshman year (completion of 30 semester hours).

*Description of Requirements.* The fifteen units offered for admission to Columbian College, the School of Pharmacy, the School of Government, and the Division of Fine Arts, except the Department of Architecture, shall include: English 3 units; Language 2 units; Algebra 1 unit; Plane Geometry 1 unit; Electives 8 units; Total 15 units.

The fifteen units offered for the entrance to the School of Engineering shall include: English 3 units; Language 2 units; Physics 1 unit; History 1 unit; Chemistry 1 unit; Algebra 2 units; Plane and Solid Geometry  $1\frac{1}{2}$  units; Trigonometry  $\frac{1}{2}$  unit; Electives 3 units; Total 15 units.

The requirements for admission to the Department of Architecture shall include: English 3 units; Foreign Language (preferably French) 2 units; History 1 unit; Chemistry 1 unit; Plane and Solid Geometry  $1\frac{1}{2}$  units; Elementary and Advanced Algebra 2 units; Plane Trigonometry  $\frac{1}{2}$  unit; Electives 4 units; Total 15 units.

Detailed description of the requirements in each subject will be found in the general catalogue of the University.

*Graduate and Professional Schools.* For requirements for admission to the Graduate School of Letters and Sciences, the School of Medicine, the Law School, and the School of Nursing, see the announcements of the schools.

#### ADVANCED STANDING

Applicants for admission with advanced standing to undergraduate curricula are required to present certificates of standing and honorable dismissal from the school or college last attended. Credit in accordance with the rules of the various schools may be given for properly certified courses of study in accredited colleges and universities.

### SPECIAL STUDENTS

Persons at least 21 years of age may apply for admission as special students. They must present a statement of work completed in accredited schools or colleges on the regularly accepted form of the University. If this certificate does not show that they have had the proper preliminary courses for the work they wish to pursue, they must obtain the permission of the department involved.

Special students may qualify for candidacy for a degree by meeting all the entrance requirements, but not more than one year's credit (thirty semester hours) earned as a special student may be counted toward a degree.

### AUDITORS

With the permission of the instructor a person may register as an auditor in a class without being required to take active part in the exercises or to pass examinations, but no credit will be allowed for such attendance.

### RIGHT TO REFUSE ADMISSION

The University reserves the right to refuse admission to any student whose preparatory work has been of such grade as to create doubt of his ability to pursue college work successfully, or who for any other reason would not be a desirable student.

### REGISTRATION

Before attending any University class each student must present himself in person for registration. Students who have not previously filed satisfactory credentials (see Admission) are not eligible to register as candidates for degrees.

#### *Registration period for the Summer Sessions:*

Students in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, and the Division of Fine Arts, will register in Corcoran Hall, 725 21st Street N.W. The time for registration is as follows: from 8 A. M. to 12 and from 2 to 6 P. M., June 13 and 14 for the nine-weeks term, and June 27 and 28 for the six-weeks term.

Registration for credit in any classes offered by Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, or the Division of Fine Arts, closes on the third day after the class has started, and no change in program will be permitted after that time. For registration procedure in the Law School consult the announcement of the School, page 26.

The Summer Sessions constitute a regular short term of the University. Students dropped or suspended from any department of the University for any reason may not register in the Summer Sessions during the period of suspension.

### FEES AND EXPENSES

All fees are payable at the office of the Comptroller, 2033 G Street N.W.

A statement of the fees and regulations in the Law School will be found in the announcement of the school on page 27. The fees and regulations in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, and the Division of Fine Arts are as follows:

Tuition Fee for each semester-hour of work taken	\$7.00
Registration Fee	3.00
Late Registration Fee	5.00
Reinstatement Fee	4.00

#### Laboratory Fees:

Architecture 1-2, 4, 25, 26, 27, 28, 125, 126, 127, 128, 141, 142	\$4.00
Botany 1 and 2, each	5.00
Chemistry 5 and 6, each	8.00
Chemistry 35, 36, 41, 42, 135, 136, 145, 146, 297, and 298, each	10.00
Civil Engineering 5	2.00
Education 136	2.00
Geology 1 and 2, each	3.00
Graphic Art 5-6, 21, 22, 105-106, 121-122, 123	3.00
Library Science	1.00
Physics 7 and 8, each	5.00
Physics 9 and 10, each	8.00
Psychology 120	3.00
Zoology 121-122	10.00

Breakage Deposits, the amount paid in excess of breakage to be returned:

Chemistry 5-6, 35-36, 135-136	\$15.00
Chemistry 41-42, 145-146, 297-298	20.00

#### Microscope Rental:

Zoology	\$7.00
---------	--------

### FINANCIAL REGULATIONS

Fees are due upon registration, but the nine-weeks students may pay their fees in three equal installments: at the time of registration, July 1, and July 15; and the six-weeks students in two equal installments, at the time of registration and July 15. Students whose fees are not paid in full three days after the final dates mentioned and who have not made arrangements with the Comptroller for later payment will be dropped.

*Delinquency.* No student may register in any department of the University who owes fees in any other department of the University, and no student may reregister in any year who owes fees from any previous year.

Auditors are charged the same fees as students who register for credit.

High school and other scholarships do not apply to work taken during the Summer Sessions.

### WITHDRAWAL

Students who are compelled to withdraw before the end of the session should promptly notify the Dean of the college or school in which they are registered. Refunds of periodical payments will not be made. As the fiscal year of the University ends August 31, no requests for refunds can receive consideration after that date.

No permission to withdraw and no certificate of work done will be given a student unless all fees and dues chargeable up to the date of official withdrawal have been paid. A STUDENT IS LIABLE FOR ALL CHARGES FOR COURSES FOR WHICH HE HAS REGISTERED UNTIL DUE NOTICE OF WITHDRAWAL IS RECEIVED BY THE DEAN. NOTICE TO AN INSTRUCTOR OF WITHDRAWAL DOES NOT CONSTITUTE DUE NOTICE OF WITHDRAWAL.

### EMPLOYMENT

The University maintains an employment bureau, which will assist prospective students to find employment. Prospective students should have the means of support for at least half a year to give them time to secure positions. Summer students are advised to plan on earning only a small proportion of their expenses during the Summer Sessions.

Many out-of-town students take the United States Civil Service examinations in their various states and secure positions in the Government departments in Washington, where the hours of employment enable them to pursue a limited college course in the late afternoon.

### HOUSING FACILITIES

The George Washington University maintains no dormitories. For the benefit of non-resident students, registers of rooms which have been inspected and approved are kept in the office of the Director of Women's Personnel Guidance, where inquiries in respect to housing facilities should be addressed. Satisfactory accommodations can be found near the University.

Single rooms usually cost from twenty to thirty dollars a month, and double, from ten to twenty dollars a month a person. Rooms with board, including breakfast and dinner, cost from forty to fifty dollars a month a person.

The Director of Women's Personnel Guidance will mail lists of houses on request. Since renting by mail is unsatisfactory students are advised to make personal inspection before engaging rooms.

All women students under twenty-three years of age must have their residence approved by the Director of Women's Personnel Guidance, unless they are living with family or relatives. Registration is not complete until such approval is given.

#### AMOUNT OF WORK

- a. No student may take more than three courses aggregating 9 semester-hours of credit. No part-time student may take more than two courses aggregating 6 semester-hours of credit.
- b. Students registered only during the six-weeks term may take not more than three courses aggregating 6 semester-hours of credit. Part-time students in the six-weeks term may take not more than two courses aggregating 4 semester-hours of credit.
- c. Students in the Law School may take not more than 4 semester-hours in each summer term.

#### ATTENDANCE

Students are not permitted to attend classes until registration has been completed and the first tuition payment has been made. Regular attendance is required.

#### GRADES

As soon as possible after the close of the Session reports are issued to students through the office of the Registrar. Grades are not given out by instructors.

The following grades are given in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, and the Division of Fine Arts:

A (90-100), excellent; B (80-89), good; C (70-79), average; D (60-69), passing; E (below 60), condition, not passing; F, failure; Incomplete.

A condition may be made up with the grade D by compliance with conditions set by the instructor. The grade F may not be made up and credit may be received only by repeating the course. No graduate credit is given for courses with the grade D.

#### TRANSFER OF RECORDS

Official transcripts of student records will be forwarded on request direct to other institutions. Copies of records will be furnished to students on request. No charge is made for the first transcript or copy; a fee of one dollar is charged for each one thereafter.

### REGULATIONS GOVERNING STUDENTS

*Conduct.* A student enrolled in the University is required to obey the general University regulations and to comply with the rules and regulations of the faculty of the college in which he is registered and to conduct himself at all times with decorum and propriety. On failure to comply with any regulation, or because of unseemly conduct, the student may be placed on probation by the Dean of his college, or may be recommended for suspension or expulsion from the University.

*Personal Property.* The University is not responsible for the loss of personal property belonging to students in any building occupied by the University.

### CLUB PRIVILEGES

For the benefit of out-of-town students, summer privileges (subject to certain limitations) have been granted by the Washington Branch of the American Association of University Women and by the University Club of Washington. Under this arrangement many students may enjoy the use of these club houses and contact with its membership by applying to the Director of the Summer Sessions.

## COLUMBIAN COLLEGE

HENRY GRATTAN DOYLE, A.M., *Acting Dean of the College.*

Columbian College, the college of letters and sciences of The George Washington University, was founded in 1821. This college offers courses leading to the degrees of Bachelor of Arts, Bachelor of Science, and pre-professional courses.

### ADMISSION

See general admission requirements on page 16.

### REQUIREMENTS FOR GRADUATION

To be recommended for a degree, the student must satisfy the admission and curriculum requirements. The curriculum requirements include 120 semester-hours of undergraduate courses, at least 30 semester-hours of which must be completed in Columbian College. The requirements in Physical Education must also be fulfilled. Residence may be satisfied in whole or in part in the Summer Sessions by periods aggregating not less than thirty weeks. For additional information regarding requirements, see the Columbian College announcement in the general catalogue.

### COURSES OF INSTRUCTION

Statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

## THE GRADUATE SCHOOL OF LETTERS AND SCIENCES

JOHN DONALDSON, Ph.D., *Acting Dean of the School.*

The Graduate School of Letters and Sciences was founded in 1893. Higher degrees conferred in course by the University in this school are Master of Arts and Doctor of Philosophy.

### ADMISSION

To be admitted to candidacy for a higher degree a student must usually present a Bachelor's degree from an accredited institution. Students from non-accredited institutions may be admitted, at the discretion of the Graduate Council. Such students will be required to take such extra work above minimum requirements for the degree sought as may be prescribed, and will not be admitted to candidacy for a higher degree unless so recommended by the major department after the completion of at least one semester's work. The course of study pursued for the Bachelor's degree must have been such as to qualify the candidate for pursuing the subjects chosen for the higher degree sought.

Candidates must present certificates of the degrees they hold from the institutions conferring such degrees. Candidates requesting advanced standing must present detailed certificates of the work for which they ask credit.

Candidates for admission to courses for the degrees of Master of Arts and of Doctor of Philosophy must make application to the Dean of the Graduate School of Letters and Sciences.

Properly qualified students may be admitted as *Students in Attendance*, without becoming candidates for degrees.

### REQUIREMENTS FOR GRADUATION

The requirements for the degree of Master of Arts may be satisfied by Summer Session attendance. These requirements include, in addition to the thesis, the satisfactory completion of 24 semester-hours of work forming a consistent plan of study, or one semester and one summer term of nine weeks, or three summer terms of nine weeks each, or four summer terms of six weeks each; and a final general examination on the major subject. The candidate's choice of subjects must be approved by his major department and by the Dean of the Graduate School of Letters and Sciences. Students should consult the Dean and the Chairman of the major department before registering. For a detailed statement of the requirements for the degrees of Master of Arts and of Doctor of Philosophy, the student is referred to the announcement of the Graduate School of Letters and Sciences in the general catalogue.

### COURSES OF INSTRUCTION

#### *Credit*

Courses numbered 1-99 may under no circumstances count toward any higher degree, though a graduate student may be allowed to take them without receiving credit. Courses numbered 100-199 may count toward a higher degree only when the candidate secures at the time of registration the written approval of the department concerned and completes the extra work required for graduate credit in such courses. All courses numbered 200 or above may be counted toward a higher degree.

#### *Courses Offered*

Statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

## THE LAW SCHOOL

CHARLES SAGER COLLIER, A.B., LL.B., *Acting Dean of the School.*

The Law School, established in 1865, is the oldest in the District of Columbia. It is a member of the Association of American Law Schools, and is approved by the Council of Legal Education of the American Bar Association. The degrees of Bachelor of Laws and Master of Laws are conferred.

The Summer Sessions will cover a period of thirteen weeks, divided into two terms of six and one-half weeks each. Classes in the first term will begin Monday, June 16, and end Saturday, July 26. Examinations will be held July 28, 29, 30. Classes in the second term will begin Thursday, July 31, and end Wednesday, September 10. Examinations will be held September 11, 12, 13. Friday, July 4, and Monday, September 1, will be holidays.

The Summer Sessions are a regular part of the work of the School. The character of the instruction and the amount and grade of work required are the same as that of the regular academic year. Rules and regulations as to attendance upon classes and grades are the same as in other parts of the academic year. Full credit is given for subjects completed by regularly qualified students in the Summer Sessions. Attendance credit is given for one-fifth of a part-time year for attendance upon one term of the Summer Sessions. A part-time year is three-fourths of a full-time year and one-fourth of the attendance requirement for the degree of Bachelor of Laws.

### ADMISSION

The requirements for admission are the same as those for the regular session, as stated in the Law School announcement in the general catalogue. For candidates for the degree of Bachelor of Laws the requirement is the completion before admission of two years of college work, 60 semester-hours. Students from other law schools may be admitted for the Summer Sessions only as regular or as unclassified students.

Registration should be completed on the registration days, June 13 and 14, and July 29 and 30. Students may register for one or both terms. No students will be permitted to register after the first week of a term.

### REQUIREMENTS FOR DEGREES

See the Law School announcement in the general catalogue.

## FEES

1. Registration fee .....	\$3.00
2. Tuition fee, per semester credit .....	8.00
3. Late registration fee .....	5.00

Fees for each term are payable in advance at the beginning of the term.

A student who is compelled to withdraw before the end of a term should apply to the Dean of the Law School at once for permission to withdraw. Until this application for withdrawal has been made and approved, the student is treated as still in registration. In case of a withdrawal during a term no refund of fees will be granted.

## CREDIT

Students may obtain a maximum of 4 semester-hours credit in each term by attendance in two subjects aggregating ten periods per week, or by attendance in one subject ten periods a week.

## COURSES OF INSTRUCTION

The schedule is so arranged that work may be taken in the morning or in the late afternoon, or part in the morning and part in the late afternoon.

Classes in morning subjects are held from Tuesday to Saturday, inclusive; classes in afternoon subjects from Monday to Friday, inclusive.

Statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

## LIBRARY

The Law School Library contains the decisions of the highest courts of all the States, the reports of the United States Supreme Court and other federal courts, the English Reprints and English Law Reports, the United States statutes, the statutes of several states, the English statutes, the principal English and American digests, legal encyclopedias and collections of annotated cases, and the leading text books and legal periodicals.

The library is open from 9:00 A. M. to 10:00 P. M., Monday to Friday, inclusive, and from 9:00 A. M. to 1:00 P. M. on Saturday.

## THE SCHOOL OF ENGINEERING

JOHN RAYMOND LAPHAM, M.S. in C.E., *Dean of the School.*

The School of Engineering was organized in 1884 under the name of the Corcoran Scientific School of the University. This school offers courses leading to the Bachelor of Science degree in Civil Engineering, Electrical Engineering, and Mechanical Engineering.

### ADMISSION

See general admission requirements on page 16.

### REQUIREMENTS FOR GRADUATION

To be recommended for a degree a student must satisfy all entrance requirements and complete at least 144 semester-hours of undergraduate work in accordance with the curriculum specifications of the degree for which he is registered. At least 35 semester-hours must be completed at The George Washington University.

Full description of requirements for degrees will be found in the announcement of the School of Engineering in the general catalogue.

### COURSES OF INSTRUCTION

Statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

## THE SCHOOL OF EDUCATION

WILLIAM CULLEN FRENCH, Ph.D., *Acting Dean of the School.*

The School of Education in The George Washington University was established in 1907. It is the purpose of this school to prepare teachers, supervisors, and administrators for the higher ranges of educational service. The schedule of courses is arranged so as to meet the convenience of both full-time and part-time students. By attending the Summer Session, afternoon, and Saturday classes, teachers in the schools of Washington and vicinity may complete all the requirements for a degree without giving up their positions. Both undergraduate and graduate courses are offered.

### DEGREES GRANTED

The degrees of Bachelor of Arts in Education, Master of Arts, and Doctor of Philosophy are granted.

### ADMISSION

Admission to the undergraduate division is based on the completion of two years of approved college work or on graduation from an approved two-year normal school. Others may be admitted as special students to certain classes on the presentation of evidence that they are qualified to pursue the work to advantage.

For admission to graduate standing a candidate must possess a baccalaureate degree from an accredited school or college or have equivalent academic standing. For admission to candidacy for the degree of Doctor of Philosophy special oral and written examinations are required.

### REQUIREMENTS FOR GRADUATION

Including the work completed in a normal school or in the freshman and sophomore years in college, and the specified curriculum requirements, the degree of Bachelor of Arts in Education is conferred on the satisfactory completion of at least 126 semester hours of work. A minimum of 30 semester-hours of work must be completed in residence. Summer session work may be counted on residence but the periods of attendance may not aggregate less than thirty weeks.

For a detailed statement of the requirements for graduation, including the degrees of A.M. and Ph.D., see the general catalogue.

### COURSES OF INSTRUCTION

Courses offered in the Summer Sessions are listed in alphabetical order beginning on page 34.

## THE SCHOOL OF GOVERNMENT

\_\_\_\_\_, *Dean of the School.\**

The School of Government was organized in 1928. The purpose of the School is to help men and women prepare for public service through a study of the history and economics, the structure and function of government and social organization. A four-year course of study is offered, leading to the degree of Bachelor of Arts in Government.

### ADMISSION

See general admission requirements on page 16.

### REQUIREMENTS FOR GRADUATION

To be recommended for a degree, the student must satisfy the admission and curriculum requirements. Curriculum requirements include 120 semester-hours of work, at least 30 semester-hours of which, or 24 hours in the combined courses, and one year of residence, must be completed in the School of Government. Physical education requirements must be satisfied as in Columbian College. Residence may be satisfied in whole or in part, in the Summer Session by periods aggregating not less than thirty weeks. For additional information regarding requirements, see the School of Government announcement in the general catalogue.

### COURSES OF INSTRUCTION

A statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

\*For information, write to the office of the President

## THE DIVISION OF LIBRARY SCIENCE

ALFRED FRANCIS WILLIAM SCHMIDT, A.M., *Director of the Division.*

The courses in Library Science are designed to give to students professional training in conjunction with a general background required of majors, that will prepare and equip them to enter as University graduates upon the work of Library Service. A two-year course is offered, leading to the degree of Bachelor of Arts in Library Science.

### ADMISSION

*Requirements.* The Certificate of Junior Standing from Columbian College or its equivalent will be accepted for admission to The Division of Library Science. It is recommended that students expecting to enter the division should have at least two years of either French or German, courses in general psychology, principles of sociology, and a knowledge of typewriting.

*Special Students.* Persons not candidates for degrees may do the work as special students. Such students must be twenty-one years of age or over and must satisfy the department of their fitness to undertake the course.

### REQUIREMENTS FOR GRADUATION

To be recommended for a degree the candidate must have obtained the certificate of junior standing and satisfied the residence and the curriculum requirements of the Division, which include 60 semester-hours of work. Not less than 30 semester-hours must have been acquired in the Division of Library Science. Residence may be satisfied in the Summer Session by periods aggregating not less than thirty weeks.

For full description of the requirements for the degree, see the announcement of the Division of Library Science in the general catalogue.

### COURSES OF INSTRUCTION

Statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

## THE DIVISION OF FINE ARTS

NORRIS INCERSOLL CRANDALL, M.Arch., *Director of the Division.*

The Division of Fine Arts is composed of the Department of Architecture which offers a four-year professional course leading to the degree of Bachelor of Architecture; and the Department of Graphic Art which offers courses in which the student may earn the degree of Bachelor of Arts with a major in Art.

### ADMISSION

For general admission requirements see page 16.

### REQUIREMENTS FOR GRADUATION

To be recommended for a degree, the candidate must have satisfied the admission, residence, physical education, and scholarship requirements, and have completed the course of study prescribed. For the degree of Bachelor of Architecture, 140 semester-hours of credit are required. For the degree of Bachelor of Arts, 124 semester-hours of credit are required. For full details of the requirements for the degrees, see the announcement of the Division of Fine Arts in the general catalogue.

### COURSES OF INSTRUCTION

A statement of courses offered in the Summer Sessions will be found listed in alphabetical order beginning on page 34.

## COURSES OF INSTRUCTION

Courses preceded by a star (\*) begin on June 30, all other courses begin on June 16, unless otherwise stated. Courses corresponding approximately to those offered during the regular session of 1929-1930 are given corresponding numbers. The number of semester-hours credit given is indicated in parenthesis following the name of the course.

Courses in which the registration is less than ten students may be withdrawn.

Unless otherwise stated classes meet daily except Saturday.

*Major:* Candidates for degrees taking major work in any of the divisions of instruction in which summer courses are given are advised to consult the statement of major requirements in the general catalogue before selecting courses.

## HISTORY AND ORGANIZATION

### HISTORY

In the year 1817 the Reverend Luther Rice, a graduate of Williams College, conceived the idea of founding in the City of Washington a college for the education of ministers of the Baptist denomination and for the teaching of the classics, science and philosophy.

In 1819, in company with a number of other ministers and lay citizens of Washington, he formed an association for the purpose of buying land adjoining the city, with the understanding that it should be held for the use of an institution of higher learning.

Among the contributors to the seven thousand dollar fund which was raised for the purchase of the land upon which to place the college, are found the names of John Quincy Adams, William H. Crawford and John C. Calhoun (members at that time of President Monroe's Cabinet), together with thirty-two members of Congress and many of the leading citizens of Washington.

A tract embracing nearly forty-seven acres, extending about one-half mile northwest from Boundary Street, between Fourteenth and Fifteenth Streets, was purchased, and in February, 1821, a charter of "The Columbian College in the District of Columbia" was granted by Congress.

The first bulletin of the college, issued January 27, 1821, stated that "This institution, originated by the Baptist General Convention, but of National locality, consideration, and benefit, is founded on the most liberal principles," and quoted the provision of the charter that "persons of every religious denomination shall be capable of being elected Trustees, nor shall any person either as President, Professor, Tutor or pupil, be refused admittance into said College or denied any of the privileges, immunities or advantages thereof for or on account of his sentiments in matters of religion."

By 1822 the main building, begun early in 1820, was completed sufficiently to be used for purposes of instruction. Dr. William Staughton, a native of England and an eminent pulpit orator, was elected first President of the institution.

The first commencement of the college was held December 15, 1824, the President of the United States, members of the Cabinet, and the Marquis de Lafayette, then on his farewell visit to the United States, being among the distinguished guests in attendance.

The Medical School, established in 1821, was formally opened in 1825. It has been in continuous operation since that time.

The Law School, organized in 1826, was discontinued a year later, to be re-established in 1865. It is the oldest law school in Washington and was the first in the country to establish a graduate course in law.

The name of the institution was changed to The Columbian University in 1873.

In 1884 the University was removed from its first location on the outskirts of the city to the heart of Washington, a new University hall being built at Fifteenth and H Streets, and near it buildings for the Medical and Preparatory Schools. Subsequently the University sold this property and removed to its present location.

By act of the Congress of the United States in 1904, the University was removed from denominational control, placed under a self-perpetuating Board of Trustees, and the name changed to The George Washington University.

General George Washington during his public life had urged the establishment of an institution of higher learning in the national capital, and in his last will and testament bequeathed fifty shares of stock in the Potomac Company for the endowment of a university to be established within the limits of the District of Columbia, "to which the youths of fortunes and talents from all parts might be sent for the completion of their education in all the branches of polite literature in arts and sciences—in acquiring knowledge in the principles of Politics and good Government—and (as a matter of infinite importance in my judgment) by associating with each other and forming friendships in Juvenile years, be enabled to free themselves in a proper degree from those Local prejudices and habitual jealousies which have just been mentioned and which when carried to excess are never failing sources of disquietude to the Public mind and pregnant of mischievous consequences to this Country."

It was in recognition of this idea that the name of the Columbian University was changed to The George Washington University.

## GOVERNMENT

The government and general educational management of The George Washington University is vested in a Board of Trustees consisting of twenty-seven Trustees elected by the Board with the President of the University an ex-officio member. The twenty-seven elected members of the Board are named for a period of three years and are divided into three classes of nine members each. The members of one class shall be elected at each annual meeting to fill the places of the members whose terms of office expire. Two members of each of the above classes are nominated by the Alumni Association. "Persons of every religious denomination shall be capable of being elected Trustees."

## ENDOWMENT

The endowment of The George Washington University, not including the value of buildings, grounds, and equipment is \$1,616,661.12 (1930).

## THE COLLEGES, SCHOOLS, AND DIVISIONS

The George Washington University offers courses in twelve colleges, schools and divisions, including: The Junior College; Columbian College, the undergraduate college of letters and sciences; The Graduate School of Letters and Sciences; The School of Medicine, including The School of Nursing; The Law School; The School of Engineering; The School of Pharmacy; The School of Education; The School of Government; The Division of Library Science; The Division of Fine Arts; The Division of Special and Extension Students; and The Summer Sessions.

## LOCATION

The George Washington University is located in the heart of the city of Washington, a short distance from the Potomac River and the Mall. Within a few blocks are the White House, many of the departments of government, including the State, War, and Navy Departments, the Treasury Department, the Department of Commerce, the Department of the Interior, the Department of Labor and the United States Civil Service Commission. The Corcoran Gallery of Art, the Pan American Union Building, and the National Academy of Sciences are nearby. The United States Capitol and the Library of Congress can be reached by car in a few minutes from any of the University Buildings.

## EDUCATIONAL FACILITIES

## BUILDINGS

Buildings, grounds, and equipment are valued at \$2,950,000.00.

The buildings of The Junior College, Columbian College, The Graduate School of Letters and Sciences, The Law School, The School of Engineering, The School of Pharmacy, The School of Education, The School of Government, The Division of Library Science, and The Division of Fine Arts, are grouped in the vicinity of 21st and G Streets Northwest. The School of Medicine, The University Hospital and the Dispensary are situated at 14th and H Streets Northwest.

*Administration Building*, Building A, 2100 G Street.

The Offices of the President, Dean, Provost, and Alumni Secretary.

The Adviser to Foreign Students, Publications.

### THE UNIVERSITY LIBRARY

The University Library comprises the General Library, consisting of the libraries of The Junior College, Columbian College, The Graduate School of Letters and Sciences, The School of Education, The School of Pharmacy, The School of Engineering, The School of Government, The Division of Library Science and The Division of Fine Arts; the Medical Library and the Law Library. It contains 89,000 volumes.

*The General Library* is open from 8:45 a. m. to 10:30 p. m., each school day, and from 3:00 to 9:00 p. m. on Sundays.

*Columbian College*. In addition to the general collection the Library of Columbian College includes the *Library of the late Professor Richard Heinzel*, of the University of Vienna, containing 7,200 books and pamphlets in Germanic philology and literature, and cognate branches; the *Library of the late Professor Curt Wachsmuth*, of the University of Leipzig, containing 7,900 books and pamphlets in Greek and Roman literature, archaeology and history; the *Mount Vernon Alcove*, containing 4,000 volumes in political history, international law, and the social sciences; and a representative collection of Spanish-American books, the gift of the Government of the Argentine Republic.

*Medical Library*. Open for study and reading from 9:00 a. m. to 4:00 p. m., with a librarian in charge. It contains more than 2,700 volumes, and provision is made to add to it as published the important new works on medicine. The standard medical periodicals are regularly received.

*The Law Library*, containing more than 13,500 volumes, is open from 9:00 a. m. to 11:00 p. m., each school day, and from 2:00 to 6:00 p. m. on Sundays.

*The Engineering Library* on the first floor of Building P is open from 9:00 a. m. to 12:00 o'clock and from 1:00 to 6:00 p. m.

*The Library of The Division of Fine Arts* contains over 2,000 volumes and the Russell Sturgis collection of 7,500 mounted photographs. About 1,000 of these volumes constitute a collection made available by the American Institute of Architects, to whom the Library is always accessible.

#### *Departmental and Seminar Libraries:*

ARCHITECTURE—Building E, 2101 G Street, second floor.

BOTANY—Building H, 2025 G Street.

CHEMISTRY—Corcoran Hall, fourth floor.

GEOLOGY—Lisner Hall, Building J, Room 34.

MATHEMATICS—Building V, Room 23.

PHARMACY—Building T, Room 1.

PUBLIC SPEAKING—Building L, Room 34. This room contains the Chauncey Mitchell Depew Public Speaking Library of approximately 500 volumes, the gift of Mrs. Chauncey M. Depew.

ZOOLOGY—Building H, 2025 G Street.

*Other Library Facilities.* University students have access also to the Library of Congress, the Public Library of the District of Columbia and its branches, the Library of the Carnegie Endowment for International Peace, the Library of the Pan American Union, and the Library of the Bureau of Railway Economics, as well as the Library of the United States Department of Agriculture with its scientific departmental collections, the Library of the United States Bureau of Education, the Army Medical Library, and the other great special collections of the government departments.

## GOVERNMENTAL INSTITUTIONS ACCESSIBLE TO UNIVERSITY STUDENTS

In order to promote research and the diffusion of knowledge, the Congress of the United States has made the scientific resources of the Government accessible to students under the terms of the following joint resolution, approved April 12, 1892:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the facilities for research and illustration in the following and any other governmental collections now existing or hereafter to be established in the city of Washington for the promotion of knowledge shall be accessible, under such rules and restrictions as the officers in charge of each collection may prescribe, subject to such authority as is now or may hereafter be permitted by law, to the scientific investigators and to students of any institution of higher education now incorporated or hereafter to be incorporated under the laws of Congress or of the District of Columbia, to wit:

1. Of the Library of Congress.
2. Of the National Museum.
3. Of the Patent Office.
4. Of the Bureau of Education.
5. Of the Bureau of Ethnology.
6. Of the Army Medical Museum.
7. Of the Department of Agriculture
8. Of the Fish Commission.
9. Of the Botanic Gardens.
10. Of the Coast and Geodetic Survey.
11. Of the Geological Survey.
12. Of the Naval Observatory.

## ADMISSIONS

All departments of the University are open to men and women.

Students may enter The Junior College, Columbian College, The Graduate School of Letters and Sciences, The School of Engineering, The School of Education, The School of Government, The Division of Library Science, and The Division of Special and Extension Students, at the beginning of either semester or either of the summer terms. For the time of admission to The School of Medicine, The Law School, The School of Pharmacy and The Division of Fine Arts see the announcement of the schools.

## REQUIREMENTS

The requirement for admission to the freshman class of The Junior College, The School of Engineering, The School of Pharmacy, and The Division of Fine Arts, is a certificate of graduation from a four-year high school course (or its equivalent) amounting to at least 15 "units." A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. It includes in the aggregate not less than 120 sixty-minute hours of prepared class room work. The studies prescribed for entrance to the several schools and divisions are listed under the admission requirements for each school.

Applicants for admission with advanced standing are required to present certificates of standing and honorable dismissal from the school or college last attended. Credit in accordance with the rules of the various schools and divisions may be given for properly certified courses of study in accredited colleges and universities.

For requirements for admission to Columbian College, The Graduate School of Letters and Sciences, The School of Medicine, The Law School, The School of Government, The Division of Library Science, The School of Education, and The School of Nursing see the announcements of the schools.

The University reserves the right to refuse admission to any student whose preparatory work has been of such grade as to create doubt of his ability to pursue college work successfully, or who for any other reason would not be a desirable student.

## METHODS OF ADMISSION

Candidates for admission may present certificates of admission or take entrance examinations.

### CERTIFICATES

Certificates will be accepted from accredited schools subject to the following conditions: (1) If the school is accredited by the Regional Association, the student must have attained a rank not lower than the fourth

fifth of his class. (2) If the school is not on the Regional Association list, but has been accredited by the State Accrediting Agency, the student shall be required to have attained a rank in the upper fifth of his class; if he has attained a rank below this, College Entrance Board Examinations will be required for admission.

All certificates must give in detail the grades obtained by the student, must specify the passing grade, the certifying grade, the rank of the applicant in his graduating class, with the number in the class, and must contain definite recommendations from the principal in regard to admission to college. The Director of Admissions will, on application, furnish certificate blanks to the principals of such schools. All records shall be certified on the blank provided by the University and must come directly to the Director of Admissions from the school concerned.

#### EXAMINATIONS

Candidates for admission who do not furnish satisfactory certificates of graduation from accredited high schools will take the examinations in the entrance subjects offered by the College Entrance Examination Board. An applicant who fails to pass in at least 15 units in the entrance examination may not be admitted.

The examinations of the College Entrance Examination Board are held each spring in Washington and other centers. These examinations will be given in Washington at The George Washington University June 15 to 20, inclusive, 1931. Applications for examinations should be addressed to the College Entrance Examination Board, 431 West 117th Street, New York City.

#### CONDITIONS

A graduate from an approved high school who does not have the proper distribution of subjects to meet the prescribed units may be admitted, on condition, to courses other than the pre-medical courses, if such irregularity is in not more than two units.

All conditions must be removed by the end of the freshman year (completion of 30 semester hours).

#### DEFINITION OF REQUIREMENTS

Below is the description of courses of study which may be presented for entrance. (Students taking the spring examinations given by the College Entrance Examination Board should consult the statement of required subject matter issued by the Board.) Credit by certificate or examination to the extent indicated will be allowed in the following subjects:

##### ENGLISH

(Three Units)

The requirement in English is that recommended by the National Conference on Uniform Entrance Requirements in English. This prescribes habits of correct, clear, and truthful expression calling for a carefully

graded course in oral and written composition, and for instruction in practical essentials of grammar. It requires also ability to read with intelligence and appreciation works of moderate difficulty, and familiarity with a few masterpieces, calling for a carefully graded course in literature.

The examination will include the writing of short compositions on topics selected by the student from a list based on his reading and personal observation, together with more detailed questions on books selected from those recommended by the National Conference on Uniform Requirements in English. With his application the student will be required to submit a list of books which he offers as a basis for his examination.

#### HISTORY

- Ancient* (one unit) { a. Greek  
                              b. Roman  
*Medieval European History* (one unit)  
*Modern European History* (one unit)  
*English History* (one unit)  
*American History* (one-half to one unit)  
*American History and Civics* (one unit)

Special importance is attached to preparation in geography.

#### LANGUAGE

##### FRENCH

*Elementary* (two units). Candidates in Elementary French must have a knowledge of the essential parts of grammar, with stress on pronouns and on regular verbs and the common irregular verbs. They must know the principles of pronunciation, must be able to translate simple English sentences or easy connected prose into French, and to translate accurately ordinary modern French prose. Candidates must have translated not less than 450 duo-decimo pages by at least four different authors, of which amount at least one-third must be history. Candidates must have had a two-years' course of five periods per week.

*Advanced* (two units). Candidates in advanced French must have partly translated, partly read, in addition to the requirements for Elementary French, at least 1,000 pages of difficult French of several different authors, including history, fiction, and drama. Candidates must have had a four-years' course of five periods per week.

Fraser and Squair's French Grammar is recommended.

##### GERMAN

*Elementary* (two units). Candidates in Elementary German must have had a two-years' course of five periods a week. An accurate knowledge of the elements of German grammar and the ability to translate simple prose

into German are requisite. About 300 pages of graduated narrative prose, and such poetry as is usually found in a First Reader will be considered an adequate preparation.

*Advanced* (two units). Candidates in Advanced German must have had a four-years' course of five periods a week. They should be well trained in the grammar of the language, have read about 800 pages of good literature, including at least one drama each by Lessing, Schiller, and Goethe, and a good anthology of German poetry.

## GREEK

*Elementary* (two units). Grammar: The topics of the examination in Greek grammar are similar to those detailed under Latin grammar. Greek Prose Composition: Consisting principally of detached sentences to test the candidate's knowledge of grammatical constructions. The examination in grammar and prose composition will be based on the first two books of Xenophon's *Anabasis*. Xenophon: The first four books of the *Anabasis*.

*Advanced* (one unit). Homer: The first three books of the *Iliad* (omitting II, 494 to end). Sight Translation, based on prose of no greater difficulty than Xenophon's *Anabasis*.

## LATIN

*Elementary* (two units). Grammar: The inflections; the simpler rules for composition and derivation of words; syntax of cases and the verb; structure of sentences in general, with particular regard to relative and conditional sentences, indirect discourse, and the subjunctive. Prose Composition: Translation into Latin of detached sentences and easy continuous prose based on Caesar. Caesar: Any four books of the *Gallie War*, preferably the first four.

*Advanced* (two units). Cicero: Any six orations from the following list, but preferably the first six mentioned—the four orations against Catiline, Archias, the Manilian Law, Marcellus, Rosius, Milo, Sestius, Ligarius, the Fourteenth Philippic. Virgil: The first six books of the *Æneid*. *Advanced Prose Composition*, consisting of continuous prose of moderate difficulty based on Cicero. *Sight Translation*, based on prose of no greater difficulty than the easier portions of Cicero's orations.

## SPANISH

*Elementary* (two units). Candidates in Spanish must have a knowledge of grammar, including syntax, with stress on pronouns and verbs, regular and irregular. They must know the principles of pronunciation. They must be able to translate simple English sentences or easy connected prose into Spanish, and to translate accurately fairly difficult modern Spanish. Candidates must have translated not less than 500 pages by at

least four different authors, of which amount at least one-fourth must be history or drama. Candidates must have had a two-years' course of five periods per week.

*Advanced* (two units). Candidates in Advanced Spanish must have partly translated, partly read, at least 1,000 pages in addition to the requirements for Elementary Spanish. This material should be moderately difficult fiction, drama and poetry selected from several different authors. Candidates must have had a four-years' course of five periods per week.

#### MATHEMATICS

*Elementary Algebra* (one unit). Algebra to Quadratics.

*Intermediate Algebra* (one-half unit). Quadratic equations and equations containing one or more unknown quantities that can be solved by the methods of quadratic equations, problems depending upon such equations; ratio and proportion; and the binomial theorem for positive integral exponents.

*Advanced Algebra* (one-half unit). The progressions; the elementary treatment of permutations and combinations; the use of four and five-place tables of logarithms; undetermined coefficients; the elementary treatment of infinite series; the binomial theorem for fractional and negative exponents; the elementary treatment of the theory of equations.

*Plane Geometry* (one unit). General text propositions, including the solution of simple original exercises and numerical problems.

*Solid Geometry* (one-half unit). General text propositions, including the solution of simple original exercises and numerical problems.

*Plane Trigonometry* (one-half unit). The six trigonometrical functions as ratios, proof of important formulas, theory of logarithms and use of tables, solution of right and oblique plane triangles.

#### SCIENCE

*Chemistry* (one unit). The requirement is substantially that of the College Entrance Examination Board both in extent and character of the work.

It consists of: The study of at least one standard textbook, supplemented by demonstrations and recitations; individual laboratory work comprising at least thirty experiments. Applicants for admission by examination must present their laboratory note books properly certified by the instructors. One-half the number of laboratory hours plus the number of hours devoted to demonstrations and recitations should equal 120 hours.

*Physics* (one unit). Preparation should include: Individual laboratory work, comprising at least 35 exercises well distributed over the topics of physics; instruction by lecture-table demonstrations; study of at least one standard textbook, including the solution of many numerical problems; use of the metric system.

## ELECTIVES

Credit may be allowed to the maximum extent indicated in additional subjects, as follows:

*Botany*, one unit; *Civics*, one-half unit;  
*Commercial subjects*, four units;  
*Domestic Science*, two units; *Drawing*, two units;  
*Economics*, one-half unit; *Geography*, one unit;  
*Music*, two units; *Physiology*, one unit;  
*Shop Work*, two units; *Zoology*, one unit.

Credit may be allowed also in other accredited secondary school subjects.

## CLASSIFICATION

## REGULAR STUDENTS

Regular students are those who have met all the entrance requirements for candidates for degrees and have been regularly assigned a class standing as freshmen, sophomores, juniors, or seniors.

## SPECIAL STUDENTS

Persons of mature age, as specified by the rules of the college, school, or division involved, may apply for admission as Special Students. They must present a complete statement of work previously pursued on the regularly accepted form of the University.

## AUDITORS

In special instances, with the permission of the instructor a person may register as an auditor in a class without being required to take active part in the exercises or to pass examinations, but no credit will be allowed for such attendance.

## STUDENTS WITH LIMITED PROGRAMS

In all divisions of the University, except The School of Medicine, The School of Nursing and The School of Pharmacy, the class hours are so arranged that students who can give only part of their time to college work may, by extending the period of their college work beyond the customary four years, complete full courses for degrees.

## REGISTRATION

Before a student may be admitted to registration he must have satisfied the Admissions Office that he is qualified for entrance to the University. (See Admission.)

Registration is for the semester unless otherwise indicated on the registration paper; no registration is accepted for less than a semester or one summer term.

*Time and Place.* Registration for the first semester in The Junior College, Columbian College, The Graduate School of Letters and Sciences, The School of Engineering, The School of Pharmacy, The School of Education, The School of Government, The Division of Library Science, and The Division of Fine Arts will be conducted from September 20 to 23, inclusive. Registration for the second semester in these divisions will be conducted on February 2 and 3. Registration will be conducted in Corcoran Hall, 725 Twenty-first Street N.W., from 9 a. m. to 12 m., and from 2 to 6 p. m.

For dates of registration and method of procedure in The School of Medicine, The Law School, and The Summer Sessions, consult the announcements of these departments. Registration for The School of Medicine is conducted in the Medical School Building, and for The Law School in Stockton Hall.

*Registration Procedure.* Instructions for registration will be issued to each registrant at the time of registration. A student who has previously matriculated in the University but who has not been in attendance during the semester prior to registration should file an application blank in advance of registration.

*Late Registration.* For registration after September 23 in the first semester, and after February 3 in the second semester a Late Registration Fee of \$5.00 will be charged. Registration in all courses for credit closes on October 8 for the first semester, and on February 18 for the second semester.

*Change in Registration.* Application for a change in registration should be filed in the office of the Dean or the Director. Change may be made only with the permission of the adviser or major professor and the Dean of the School or the Director of the Division concerned. A fee of \$2.00 is charged for each change in program after the last day of regular registration. (See Time and Place, above.)

*Change of College.* Students desiring to transfer from one college or division to another should make application to the Dean of the School or College or the Director of the Division to which transfer is desired. Such change may be made only at the beginning of a semester and with the approval of both Deans concerned.

*Change of Major.* Students desiring to change their major subjects should make application to their Dean or Director. In making such change all requirements specified in the course of study to which the change is made must be satisfied before graduation.

## FEES

By authorization of the Board of Trustees, the following fees have been adopted, effective at the beginning of the academic year 1930-31.

## 1. UNIVERSITY FEE.

*For all students for each semester or for any part thereof	\$6.00
For the Summer Sessions	3.00

## 2. TUITION FEES.

## FINANCIAL REGULATIONS

## PAYMENT OF FEES

(a) All fees are payable at the Office of the Comptroller, 2033 G Street N.W., or in the case of fees in The School of Medicine, to the Comptroller's Assistant at 1335 H Street N.W.

(b) No student is permitted to complete registration or to attend classes until all fees due are paid.

(c) Fees for each semester are due and payable in advance, at the time of registration.

(d) In exceptional cases, subject to the approval of the Comptroller, students registering for more than three semester hours may sign contracts for semester charges, except for the University fee, permitting installment payments as follows:

*First Semester*

One-third at the time of registration, plus the University fee.

One-third on November first

One-third on December first

*Second Semester*

One-third at the time of registration, plus the University fee

One-third on March first

One-third on April first

Students registering for three hours or less are not privileged to sign contracts for installment payments.

(e) Students who fail to meet installment payments by the tenth of the month will be suspended, and may not attend classes until they have paid all accrued fees, a reinstatement fee of \$4.00, and have been officially reinstated. A suspended student may not be reinstated for the semester after two weeks from the date of suspension. Applications for reinstatement are to be made to the Dean of the School or Director of the Division in which the student is registered.

(f) No student may register in any department of the University who owes fees in any other department of the University.

(g) Auditors pay all fees chargeable to students registered for credit, except the late registration fee.

## REFUNDS

No part of an installment payment shall be returnable. In no case will tuition be reduced or refunded because of non-attendance upon classes.

## WITHDRAWALS

All applications to withdraw, in order to receive prompt financial adjustment, must be in the hands of the Dean before the end of the period for which payment has been made.

No permission to withdraw and no certificate of work done will be given a student who has not a clear financial record.

In authorized withdrawals all financial adjustments will be made on the principle of the three installments per semester.

## FELLOWSHIPS, SCHOLARSHIPS, PRIZES, LOANS

## FELLOWSHIPS

The following fellowships are available in the University. Forms on which to make application for these fellowships will be supplied, on request, by The Registrar of the University. Having been properly filled out they should be submitted for consideration not later than March 1 of any year for the academic year beginning the following September.

*Isabella King Research Fellowship.* A fellowship of the value of \$1,200 annually is offered in Biology. It is open to candidates holding the Bachelor's degree, and is intended to foster research for which the libraries and scientific establishments in Washington offer special facilities.

*Thomas Bradford Sanders Fellowships.* These fellowships and scholarships were established by Miss Addie Sanders in memory of her late brother, Thomas Bradford Sanders. They are offered in the following departments, each with a stipend of \$600 in addition to tuition:

*Architecture*, one fellowship; *Chemistry*, four fellowships; *Economics*, one fellowship; *English*, one fellowship; *History*, three fellowships; *Physics*, two fellowships; *Psychology*, two fellowships.

## SCHOLARSHIPS

*Application and Award.* Student scholarships are administered by the University Committee on Student Loans and Scholarships. Application for scholarships must be made on forms which may be obtained from The Registrar of the University, and must be filed in the office of The Registrar not later than May 15 preceding the academic year for which the scholarship is to be awarded; or, in the case of awards for the second semester, not later than January 1.

Scholarships are awarded for one year, unless otherwise specified. They may be renewed.

Further information may be obtained from The Registrar of the University.

*Elma Lewis Harvey Scholarship.* This scholarship of the annual value of \$200.00 was founded in 1921 by Mrs. Emma Elizabeth Harvey, in memory of her daughter, and is to be awarded every four years, or as often as vacant, to a young woman student in Columbian College of the Protestant faith and of the Caucasian race who shall be selected for scholarship and moral qualifications.

*High School Scholarships.* High school scholarships are awarded annually on the recommendation of the faculties of the respective high schools to a member of the graduating class who intends to enter one of the undergraduate schools or divisions of the University. Students holding these scholarships must maintain a high standard of scholarship and deportment during their tenure.

High School Scholarships are awarded for the entire undergraduate course and the holders are exempt from tuition fees, the Summer Sessions excepted, but pay the University, laboratory, graduation and other fees. They shall be valid for four continuous academic years following the award, subject to all the conditions stated herein. To hold any High School Scholarship a student must carry a full program of study, a full program being defined as at least 15 units of work, unless otherwise determined in individual cases by the Committee on Student Loans and Scholarships upon recommendation of the Dean of the School or College concerned.

*Amos Kendall Scholarship.* Founded by the late Hon. Amos Kendall. Assigned for award to the Central High School, Washington, D. C.

*University Scholarships.* Five scholarships, assigned for award to the Alexandria (Virginia) High School; Business, Eastern, McKinley, and Western High Schools of the District of Columbia.

*John Hitz Metzerott Scholarship.* This scholarship in the amount necessary to cover tuition charges, exclusive of special fees, was established in 1923 in memory of John Hitz Metzerott, M.D. '91, by members of his family, and is to be awarded every six years, or as often as vacant, to a young man preparing to enter the medical profession. The donors reserve the right to nominate the holder of this scholarship. The holder of the scholarship may be a student pursuing a pre-medical course in Columbian College or the professional course in The School of Medicine.

*A. Morehouse Scholarship.* This scholarship was founded by Mr. A. Morehouse, of Washington, D. C., in 1861. It carries an annual stipend of \$60.00 available for an undergraduate intending to enter the Christian ministry.

*The David Spencer Scholarship.* This scholarship in the amount of \$450, established in 1918 by Louisa J. Spencer, is available to the descendants of David and Elizabeth Spencer under conditions stated in the bequest.

The prize essays shall become the property of the University and shall not be printed or published without the written consent of the University. The University reserves the right to withhold the award if no essay attaining the required degree of excellence is submitted.

*Women's Athletic Association Prize.* A cup is awarded annually to the member of the graduating class who has done most in the furtherance of athletics for the women in the University.

#### LOAN FUNDS

Loan funds are administered by the University Committee on Student Loans and Scholarships. Applications upon the required forms should be filed in the office of the Registrar at least three days before the first day of registration, in the case of the University Loan Fund; and at least two weeks before, in the case of loans from other sources. Loans will be limited to the amount required for tuition in each case.

Applicants must submit at least four references, one of which must be that of a physician, and in the case of new students, one must come from the head of the institution last attended. Borrowers will sign notes for the amount borrowed. The terms of repayment of interest and principal will be arranged at the time of making the loan.

No candidate shall be approved for graduation by any faculty of the University if they have knowledge that the student is delinquent in a loan obligation incurred for education purposes either at The George Washington University or elsewhere.

*University Student Loan Fund.* The Trustees of The George Washington University have established a loan fund amounting to \$5,000.

*American Bankers Association Loan Scholarship.* The Educational Foundation of the American Bankers Association has established a loan scholarship of \$250.00 for the year 1930-31. Loans are limited to students taking courses in classes of junior or higher grade in Banking and Economics, and who are dependent for their education either in part or wholly upon their own efforts.

*Daughters of the American Revolution Loan Fund.* The District of Columbia Daughters of the American Revolution have established a revolving student loan fund, from which interest-bearing loans will be made to the daughters of members of the Daughters of the American Revolution in the District of Columbia. At present the fund amounts to \$2,409.03.

*Harmon Foundation Loan Fund.* The Harmon Foundation has established a fund of \$1,000 to be loaned to students of junior grade or above in courses leading toward a degree in the liberal arts or one of the professions. Loans are limited to students who are citizens of the United States and whose means of education are dependent either in part or wholly upon their own efforts.

*Henry Strong Educational Foundation.* From this fund established under the will of General Henry Strong of Chicago, an annual allotment of \$540.00 is made to The George Washington University for loan scholarships available for the use of young men and women students under the age of 25 years, preferably in the upper classes, to aid them in obtaining a "practical, literary, scientific, mechanical or business education."

*Henry Strong-William A. Maury Loan Fund.* This fund amounting to \$500.00 a year is also allocated from the funds of the Henry Strong Educational Foundation, to be loaned to students in The George Washington University Law School.

*The Knights Templar Educational Loan Fund.* This fund is contributed and administered by the Grand Commandery of Knights Templar of the District of Columbia and is available for loans to students, preferably in the upper classes. The amount loaned to a student is limited to \$200.00 and the terms of repayment are specially arranged in each instance.

## REGULATIONS

### ATTENDANCE

Students are not permitted to attend classes until registration has been completed and fees due have been paid. Regular attendance is required except in the case of students registered for courses under the Independent Study Plan. For undue absence in any class a student may be dropped from the class. Tuition charges are made on a semester basis and in no case will tuition be refunded or reduced because of non-attendance upon classes.

Students who have been suspended for delinquency in payment of fees or who have been suspended for any other reason are not permitted to attend classes during the period of suspension.

*Non-continuous Attendance.* Students absent for one or more continuous academic years may re-enter and continue their work only under the rules and regulations in force at the time of their return.

For further regulations regarding attendance consult the announcements of the several schools.

### WITHDRAWALS AND CHANGES OF COURSE

All registrations are for the semester, unless otherwise stated in the registration paper. A student is liable for all charges for courses for which he has registered unless changes have been made with the approval of the proper officers.

A student who is obliged to withdraw from the University during the semester, or to drop a course before its completion, should immediately report in person or in writing to the Dean of the college or school in which he is registered for authorization to effect such change of status. Reporting the dropping of a course to an instructor does not effect its discontinuance. No permission to withdraw and no certificate of work done will be given a student who has not a clear financial record. See page 54.

### PHYSICAL EDUCATION REQUIREMENTS

Regular freshman and sophomore courses in Physical Education are arranged for men and women students in The Junior College, The School of Engineering, The School of Pharmacy, and The Division of Fine Arts.

These courses in physical education are required of all freshman and sophomore students, provided only that students taking less than three subjects, and students all of whose work is in the late afternoon hours, are specifically exempt from this provision of requirements in physical education.

Any other exemption from the requirements of physical education for men, and physical education for women, is conditioned on the recommendation of the University Medical Staff to the Executive Officer of Physical Education in the department concerned. This applies equally to men and women.

Students entering the first or second years of either of the departments of the University above mentioned with advanced standing are not exempt from the physical education requirements unless they have satisfactorily met the requirement elsewhere.

The required medical and physical examinations are given beginning September 20, and should be completed before October 8, 1930.

### SCHOLARSHIP REQUIREMENTS

A student who fails to maintain the scholarship requirements of the school in which he is registered is subject to probation or to being dropped from the University.

### EXAMINATIONS

Examinations are scheduled in all courses at the end of each term or the completion of the course.

Students guilty of dishonesty in examinations may be deprived of credit for the courses in which dishonesty occurs, and suspended or expelled from the University.

For further regulations regarding examinations consult the announcements of the several schools.

### GRADES

As soon as possible after final examinations reports are issued through the office of the Registrar. Grades are not given out by instructors. For detailed information concerning the grading system consult the announcements of the several schools.

### CONDITIONS AND FAILURES

Students who do not make a passing grade in any course are either conditioned or have failed. A condition may be removed and credit for the course received in accordance with the requirements of the several schools. A failure may not be removed, and credit for the course may be received only after repeating the course with a passing grade.

Entrance Conditions—See "Admissions."

### GRADUATION REQUIREMENTS

Application for graduation should be filed at the time of registration for the first semester of the senior year, and may not be later than thirty days before the date of graduation.

On request the Registrar will furnish to students balance sheets showing the amount of work completed and the amount necessary to complete the requirements for a degree.

To be recommended for graduation in any department of the University, a student must have met the admission and residence requirements of the school in which he is registered; have completed satisfactorily the requirements for the degree for which he is registered; and be free from all indebtedness to the University.

The University reserves the right of refusing to confer a degree upon a candidate whose attendance or conduct has been unsatisfactory.

Candidates are expected to be present at the graduation exercises, unless special arrangements have been made through the Dean of their college for conferring the degree "in absentia."

#### CREDIT

Credit toward a degree is given only after regular registration for, attendance in, and satisfactory completion of the required work of classes in the University, or upon the granting of advanced standing in accordance with the regulations of the several schools.

#### TRANSFER OF RECORDS

Official transcripts of student records will be forwarded on request to other institutions. Copies of records will be furnished to students on request. No charge is made for the first transcript or copy; a fee of one dollar is charged for each one thereafter. (See page 54, "Withdrawal.")

#### THE LIBRARY

A modified Cutter classification system is used and the books are on open shelves of the reading room. The catalogue contains in one general alphabetical list the names of authors, subjects, and titles.

See announcements of The School of Medicine and The Law School for information concerning the use of the special libraries.

#### CIRCULATION

When a desired book has been found in the catalogue, the classification number or call number and the author and title should be copied from the card and handed to the attendant.

##### *Books for Home Use.*

1. Books, pamphlets, and periodicals not reserved for reference may be withdrawn by students, faculty, and alumni of the University for a period of one week. They may be renewed for the same period, except when there is a special demand for them.

2. Books, pamphlets, and periodicals shall be recorded at the Librarian's desk before they are taken from the Library.

3. Books withdrawn from the Library shall, upon their return, be brought to the Librarian's desk to be discharged.

4. A record is not clear as long as there is an over-due charge for books or magazines against a student, and the failure to return them will be referred for action to the Dean of the college in which the student is registered and to the Comptroller of the University.

#### *Reserve and Reference Books.*

1. Books assigned for supplementary reading are reserved. Books will be placed on reserve as they are requested in writing by the professors.

A reserve book may be secured by filling out a reserve book slip at the reserve section. The book may not be taken from the reading room of the Library. It must be returned to the reserve section by the reader to whom it is charged, and the signed slip will be returned as a receipt. Any student taking a reserve book from the room will be reported for suspension to his Dean. When a book is in great demand, the period of use may be restricted.

2. The Reference section consists of dictionaries, encyclopedias, guides, indexes, yearbooks, almanacs, atlases, and other standard reference books. They are kept on the shelves of the reading room at all times, and may be used only in the room.

## STUDENT LIFE

### LIVING ACCOMMODATIONS

The George Washington University is an urban institution. It maintains no dormitories. For the benefit of non-resident students registers of rooms which have been inspected and approved are kept in the office of the Director of Women's Personnel Guidance where inquiries in respect to housing facilities should be addressed. Satisfactory accommodations can be found near the University.

Single rooms usually range in price from twenty to thirty dollars a month, and double from ten to twenty dollars a month a person. Rooms with board, including breakfast and dinner, cost from forty to fifty dollars a month a person.

It is advisable for students to reach the University two or three days before the opening of the term in order that they may become established in satisfactory living quarters before class work begins. Renting by mail is unsatisfactory. Lists of houses will be mailed on request, but students are advised to make personal inspection before engaging rooms.

*Women Students.* All women students under 23 years of age must have their residences approved by the Director of Women's Personnel Guidance, unless they are living with family or relatives. Registration is not complete until such approval is given.

### APPOINTMENT BUREAU

The Appointment Bureau is maintained to assist graduates and students in finding positions for which their college work has prepared them, and to cooperate with employers who wish to fill vacancies. A teacher placement service is included in the work of this department. Enrollment is open to graduates and students without charge for placement.

*Student Employment.* An employment service is operated to assist self-supporting students in finding employment. The University offers every possible assistance, but success in self-support depends upon the student himself. Earnings in full-time work range from sixty to one hundred and twenty-five dollars a month; in part-time and occasional work, an average of about forty dollars a month can be earned under favorable circumstances.

Prospective students who expect to earn any part of their expenses, and who do not have definite appointment to positions before coming to Washington, should have the means of support for at least one semester. A minimum budget of one hundred dollars a month is recommended.

Many out-of-town students take the United States Civil Service examinations in their home states and secure positions in the Government depart-

ments in Washington, where the hours of employment enable them to pursue a limited college course in the late afternoon.

For further information address:

The Appointment Clerk,  
The George Washington University,  
Washington, D. C.

### HEALTH ADMINISTRATION

The University maintains a staff of medical officers and a hospital.

The payment of the University fee entitles the student to certain health services described under the Department of Health Administration, page 266.

### STUDENT ACTIVITIES

*Privileges.* Payment of the University fee charged all students secures to them the following student activity privileges:

1. Gymnasium privileges, including participation in intra-university athletic sports, and the use of the University tennis courts.
2. The University Hatchet, the official student newspaper issued weekly.
3. Admission to home athletic contests.
4. Admission to University debates.
5. Admission at special rates to other University events.

*Eligibility.* No person who is not regularly enrolled as a student and who has not met the eligibility requirements of the school or division in which he is registered may participate in student activities or represent the University on its athletic teams or other student activity.

In order to be eligible to represent the University in any activity, a student must be registered for at least 60 per cent of the number of hours constituting a full course in his department. No man student who has not been registered and in attendance in the University for at least one academic year shall represent the University on a Varsity athletic team in an inter-collegiate contest.

*Control.* Control and direction of all student activities are vested in the Committees on Extra Curricular Activities, which in turn are subject to the supervision and control of the President's Council.

### ASSEMBLIES

*Chapel exercises* will be held on Fridays at 12:10 o'clock in Corcoran Hall.

*University Assemblies* will be held from time to time. The attendance of students may be required.

*Assemblies for Freshman Women* will be held on Wednesdays at 12:10 o'clock in Corcoran Hall. The attendance of all freshman women is required throughout the year.

### PERSONAL PROPERTY OF STUDENTS

The University is not responsible for the loss of personal property belonging to students in any University building.

### CONDUCT OF STUDENTS

A student enrolled in the University is required to conform to the general University regulations and to comply with the rules and regulations of the college in which he is registered.

The right is reserved to drop any student whenever, in the interest of the student or the University, the Faculty deems it advisable to do so.

### RESERVATION OF RIGHT TO CHANGE RULES

The University and its various colleges and schools reserve the right to modify or change the requirements, rules and fees of the University. Such regulations shall go into force whenever the proper authorities may determine and shall apply to all students in the University.

## INTRODUCTORY STATEMENT

The Junior College includes the first two years of college work. Its curriculum is intended to continue the studies of a general cultural nature begun in the elementary and secondary schools, and to lay the foundation for the more specialized work which is to follow. During the freshman and sophomore years emphasis is accordingly laid (1) upon the social, cultural, and physical background of civilization (history, political science, physical and biological sciences, literature, etc.) and (2) upon the mental tools necessary to the effective prosecution of more advanced work (English rhetoric and composition, foreign language, mathematics, etc.).

The Junior College also provides the pre-professional work required for admission to the respective Schools of Law, Medicine, Education, Government, and Library Science.

In addition, it provides several two-year courses of study, leading to the Junior Certificate, intended to meet the needs of students who do not look forward to a four-year college course.

In order that students may have abundant opportunities, not only for assistance in planning their courses of study at the time of registration, but also for technical and vocational advice in every phase of their academic work during the first two years, a number of members of the faculty serve as members of the Board of Advisers to Junior College Students. Students are ordinarily expected to consult with the same advisers throughout their freshman and sophomore years, it being understood that these members of the faculty act in the capacity of educational advisers rather than as representatives of their respective departments of instruction.

### ADMISSION REQUIREMENTS

Candidates for admission to The Junior College must submit 15 units of accredited secondary school work which shall include:

*For Courses other than the Pre-Medical Course:*

English, 3 units; Foreign Language, 2 units (both in the same language); Algebra, 1 unit; Plane Geometry, 1 unit; Electives, 8 units.

*For the Pre-Medical Course:*

English, 3 units; Foreign Language, 2 units (Latin is desirable and both units must be in the same language); Algebra, 1 unit; Geometry, 1 unit; History, 1 unit; Science, 1 unit; Botany, Chemistry, Physics or Zoology). Two additional units must be in English, Foreign Language, Mathematics, Science, or History; Electives, 4 units.

No candidate will be accepted with any condition in secondary school work.

A unit represents a year's study in any subject in a secondary school constituting approximately a quarter of a full year's work. It includes in the aggregate not less than 120 sixty-minute hours of prepared class room work.

For general regulations regarding admission and filing of credentials and description of prescribed studies, see page 43.

### REGISTRATION

See page 49.

### FEES AND FINANCIAL REGULATIONS

See pages 50-54.

### SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Scholarships.* The following scholarships may be assigned in The Junior College:

Byron Andrews Scholarship; Maria M. Carter Scholarship; Citizens' Military Training Camps Scholarship; Isaac Davis Scholarship; Robert Farnham Scholarship; Elma Lewis Harvey Scholarship; John Hitz Metzerott Scholarship; A. Morehouse Scholarship; David Spencer Scholarship; Mary Lowell Stone Scholarship; William Walker Scholarship; John Withington Scholarship; Ellen Woodhull Scholarship.

For particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For information concerning application for loan funds and their administration, see page 63.

### CERTIFICATE OF JUNIOR STANDING

Upon the satisfactory completion of the requirements of The Junior College, a Certificate of Junior Standing is granted. This certificate is required for admission to the junior class of Columbian College and to the professional schools which require two years of pre-professional work. See curriculum requirements.

*Honorable Mention with the Junior Certificate.* Honorable mention will be granted with the Junior Certificate in accordance with the regulations of the faculty.

### REQUIREMENTS FOR THE CERTIFICATE

To be recommended for a Certificate, the student must satisfy the admission, scholarship and curriculum requirements. The curriculum requirements include at least 64 semester hours of credit. A semester hour of credit is one recitation or lecture a week or one laboratory period a week for one semester.

*Scholarship.* At least as many quality points as hours of credit are required for graduation. Quality points are figured as follows: A—3 points, B—2 points, C—1 point, D—0 point for each semester hour of credit.

*Physical Education.* The physical education requirement consists of the prescribed freshman and sophomore assignments (see Announcement of Physical Education Courses), to be taken in the freshman and sophomore years by all students.

*Application for the Junior College Certificate.* Application for the Junior College Certificate should be filed at the time of registration for the first semester of the sophomore year.

## JUNIOR COLLEGE CURRICULA

The following courses lead to a Junior Certificate and, with the exception of the specialized Junior College Curricula, certify the holder for admission to Columbian (the senior) College and the Professional Schools and Divisions. Provision is made for certain differentiations to meet the needs of preparing for the several professional fields.

## A. The Junior College Curricula (2 years)

I. *General Course.*

This course is intended for students who do not look forward to a four-year college course or to advanced study. Through study with the best thought in the fields of human endeavor, it aims to provide the essential intellectual background of an educated person, and to lay the foundations upon which may be built a solid structure of broad knowledge and good citizenship.

II. *Secretarial and Business Course.*

This course, when supplemented by adequate training and experience in shorthand, typewriting, office practice, etc., is intended to furnish a fundamental business education in preparation for positions as secretaries and minor business executives.

## B. Curricula for admission to Columbian College.

I. *Bachelor of Arts, Curriculum leading to the*

This course comprises the first two years of a standard four-year course in arts and letters, leading to the degree of Bachelor of Arts, granted by Columbian College.

II. *Bachelor of Science, Curricula leading to the*

These curricula constitute two-year courses with emphasis upon the sciences. Students intending to study in the Senior College for the Bachelor of Science degree in Botany, Geology, or Zoology, should follow Curriculum BIIa. Those desiring the Bachelor of Science degree in Chemistry, Mathematics, or Physics, should follow Curriculum BIIb.

## C. Curriculum for admission to the Medical School

This course covers the required college work for entrance to the Medical School and satisfies the requirements of the first two years of the combined A.B. and M.D. course. (See page 121.)

## D. Curriculum for admission to The Law School

This course satisfies the work of the first two years of the combined A.B. and LL.B. course. (See page 147.)

E. Curricula for admission to The School of Education

I. *Bachelor of Arts in Education*, Curriculum leading to the

This course covers the required college work for entrance to The School of Education. The requirements may be modified in some instances on the basis of the work presented for entrance. In the social sciences it is required that a survey of the world's history be obtained.

II. *Bachelor of Arts in Home Economics*, Curriculum leading to the

This course covers the first two years of preparation for majors in Home Economics, for prospective teachers and others, leading to the degree of Bachelor of Arts.

III. *Bachelor of Science in Physical Education*, Curriculum leading to the

This course covers the first two years of a four-year course in Physical Education for Men and Physical Education for Women, leading to the degree of Bachelor of Science in Physical Education.

F. Curricula for admission to The School of Government

This course covers the work required for entrance to curricula offered in The School of Government, which are: General Course in Government, Foreign Service Course, Domestic Commerce Course, Foreign Commerce Course, Finance Course, and Business Administration Course.

G. Curriculum for admission to The Division of Library Science

This course is planned for students expecting to enter The Division of Library Science. It provides for a reading knowledge of French and German and outlines the work necessary as a basis for the technical work to follow. (See page 192.)

## CURRICULUM REQUIREMENTS

The following curriculum statements include courses intended to meet the respective requirements for entrance to The Senior Colleges and the Professional Schools.

1. *Change of Curriculum.* After having selected a curriculum group a student is not permitted to change to another group except on condition that he fulfill the requirements of the group to which he changes.

2. *Examinations for the purpose of waiving curriculum requirements.* A student desiring to omit a required course may take such examination as the department prescribes and on passing satisfactorily, he may be relieved of the curriculum requirements in that subject, and qualify for registration in an advanced course. Passing of this examination shall not entitle the student to any hours of credit toward the degree. Students desiring to take such examinations should notify the Dean.

A fee of \$10.00 for each examination is to be paid at the Comptroller's Office and the receipt exhibited at the door of Room 27, Building (?), on September 25 or 26, at 2 p. m. for the first semester; and February 5 or 6, at 2 p. m. for the second semester. Two hours will be allowed for the examination. Should a student wish to take more than one examination arrangements will be made accordingly.

3. *Foreign Language Requirements.* A student offering four years of a single foreign\* language or its equivalent for admission is not required to take any foreign language. If he offers two or three years of a single foreign language, he must take one year of the same language.

Every student must also possess a reading knowledge of a modern foreign language and must file with the Registrar a certificate of that fact given by one of the foreign language departments before he may enter upon the studies of his Junior year. For the degree of Bachelor of Science this language work must be in French or German.

Examinations in foreign languages will be given between October 15 and November 1, and April 15 and May 1. Students should consult the Executive Officer of the department concerned.

Students are referred to the foreign language requirements in the Graduate School.

\*"Foreign language" means French, German, Spanish, Greek or Latin. "Modern foreign language" means French, German, or Spanish.

### HOURS OF INSTRUCTION

*Time.* There are morning and late afternoon sections in most courses, so that students may take work during the forenoon and early afternoon or in the periods between 5:10 and 7:00 o'clock. By taking the late afternoon and summer classes, and by extending the time of study beyond the customary four years, a student able to give only part time to college work may complete the full course and obtain a degree.

*Courses Offered.* The courses of instruction listed in alphabetical order and the hours when courses are offered will be found beginning on page 214.

Junior College students may not take second-section courses (courses numbered 100 or above) without previous written permission of the instructor or his representative and the written approval of the Dean of The Junior College.

### REGULATIONS

Students in The Junior College are subject to the University regulations as stated, beginning on page 65.

### AMOUNT OF WORK

1. Fifteen units, not including required Physical Education, constitute normal work. Students in good standing may be permitted by the Dean to take *sixteen* or *seventeen* units.

2. Students on the Honor Roll (see below) may with the permission of the Dean take *eighteen* or *nineteen* units. No student may take more than *nineteen* units except by special permission of the Scholarship Committee of the College.

3. For employed students, working more than twenty-four hours per week, *nine* units, not including required Physical Education, is normal work. Employed students in good standing may be permitted by the Dean to take *ten* units. Employed students on the Honor Roll (see below) may be permitted by the Dean to take *twelve* or *thirteen* units.

4. A student shall not register concurrently in The Junior College and in any other school of this or another institution except by the consent of the authorities of both schools. Allowance of credit for work done concurrently shall be at the discretion of the Committee on Advanced Standing.

## ATTENDANCE

1. The student is held responsible to the instructor in charge for all the work of a course in which he is registered and all absences must be excused before provision will be made for him to make up the work missed.

2. With the exceptions noted below, occasional absences, not to exceed in number for each semester the semester hours of credit for the semester, will be automatically excused. (Where a course has distinct divisions, such as lectures, laboratories, recitations, etc., these excuses apply pro-rata to such separate divisions.) In applying this rule, absences adjacent to holiday periods are to be counted double.

3. Such automatic excuses are intended to cover the occasional minor exigencies and not to constitute an indiscriminate privilege. Students on probation are allowed no automatic excuses, while students on the honor roll are left upon their own responsibility.

4. Excuses for any absence in excess of those automatically excused, as well as for absences from two or more consecutive class periods, and for absences from examinations which have been announced in advance, can be obtained only by making written application to the Dean of The Junior College.

## MAKE-UP EXAMINATIONS

1. Unless sanctioned by special approval of the Dean of the College, examinations given as a means of making up grades of (E) or (Inc.) should be given only after the lapse of a term of study, and only during the examination period at the end of a regular, fall, spring, or summer term, or during the week preceding registration in September. The department concerned will specify the exact date within these periods.

2. Application for such an examination must be made to the department concerned, in writing, at least a week in advance of the date set.

3. A student failing to pass such an examination may not obtain credit for the course except by repeating it in class.

## GRADES

The following grades are given: A (90-100) excellent; B (80-89) good; C (70-79) average; D (60-69) passing; E (below 60) conditioned (not passing); F, failure; Inc., incomplete. A course failed must be repeated in order to be credited. A condition may be removed within one year under conditions set by the instructor, but in this case no final grade above D is given, unless the work is repeated in class. As soon as possible after the close of the term a report is mailed to each student through the office of the Registrar. Grades are not given out by instructors. No student may repeat for credit a course in which he has received a mark above "E."

### SCHOLARSHIP

At least as many quality points as hours of credit are required for graduation. Quality points are figured as follows: A—3 points; B—2 points; C—1 point; D—0 point for each semester hour of credit. This means an average of C.

#### 1. SUPERIOR SCHOLARSHIP.

*Honor Roll.* The names of those who make an average of "A" or "B" in any semester will be placed on an Honor Roll and published. A place on the Honor Roll does not necessarily mean that a student will receive honors upon graduation.

#### 2. POOR SCHOLARSHIP.

a. *Probation.* A student must maintain a total number of quality points within 5 of the total number of hours attempted or he will be placed on probation. A student remains on probation as long as he is more than 5 points behind.

b. *Dismissal.* A student who receives a grade of E or F in two courses in two successive semesters will be dropped.

Students who fall under probation for the third semester, whether successive or after an interval, will be dropped.

Students dropped for poor scholarship may apply for readmission after an interval of a calendar year. A student applying for readmission under this rule must submit evidence to the Committee on Advanced Standing that during this absence from the University he has so conducted himself as to indicate that he will profit by readmission. Students dropped twice for poor scholarship will not be readmitted. For the purpose of these rules a Summer Session will be considered a semester.

3. *Students with Limited Schedules.* In the case of students with limited schedules these scholarship rules will be applied only when the student has undertaken fifteen units or multiples thereof, unless he receives a grade of E or F in two courses in two successive semesters.

4. Courses duly dropped or graded "Incomplete" and required courses in Physical Education will not be considered in any way in computing standing or eligibility under the scholarship rules.

#### 3. SCHOLARSHIP REQUIREMENTS FOR CERTIFICATION.

See Requirements for the Junior certificate, page 79.

#### 4. ELIGIBILITY FOR STUDENT ACTIVITIES.

a. A student on probation shall not represent the University on its athletic teams or in any other student activity, nor shall he serve as a member of a committee or as an officer in any class or student organization.

b. Before a student may participate in any student activity, or serve as an

officer in any class or student organization, he must be certified as eligible by the University Registrar.

c. The Dean of the College may declare a student ineligible to participate in any student activity when in the opinion of the Dean the student's participation in such activity would be detrimental to his own best interests or the interests of the University.

#### CHANGES IN COURSE

1. A student is held responsible for all the work for which he is registered. After the first two weeks of a semester he may not change or drop courses or change his status to that of auditor, except: (a) on the advice of his physician, (b) change in the condition of employment, (c) necessary absence from the city, or (d) withdrawal from the University.

2. Changes in schedule from one section to another of the same course may be made at any time with the consent of the executive officer of the department. See regulations regarding changes and withdrawals on page 54.

#### CLASSIFICATION OF STUDENTS

*Sophomore.* A student who has satisfactorily completed at least 32 semester hours of work including 18 semester hour credits in his curriculum requirements shall be classed as a sophomore.

#### SPECIAL STUDENTS

Persons at least 21 years of age may apply for admission as special students. They must present a statement of work completed in accredited schools or colleges on the regularly accepted form of the University. If this certificate does not show that they have had the proper preliminary courses for the work they wish to pursue, they must obtain the permission of the department involved.

Special students may qualify for candidacy for a degree by meeting all the entrance requirements, but not more than one year's credit (thirty semester hours) earned as a special student may be counted toward a degree.

### INTRODUCTORY STATEMENT

Columbian College, the senior college of letters and sciences of The George Washington University, was founded in 1821, during the presidency of James Monroe. A charter was obtained from Congress establishing "The Columbian College in the District of Columbia," for the "sole and exclusive purpose of educating youth in the English, learned and foreign languages, the liberal arts, sciences and literature," with full power to confer all degrees "usually granted and conferred in colleges."

Since the founding of Columbian College, many other schools and divisions have been established to form the present George Washington University; but the original institution has retained its name and purpose.

### ADMISSION REQUIREMENTS

Candidates for admission to Columbian College must present a Certificate of Junior Standing or its equivalent from an accredited institution. For Certificate of Junior Standing, see page 79.

For general regulations regarding admission and filing of credentials and description of prescribed studies, see page 43.

## REGISTRATION

See page 49.

## FEES AND FINANCIAL REGULATIONS

See pages 50-54.

## FELLOWSHIPS, SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Fellowships.* Fellowships are available in the Departments of Biology, Chemistry, Economics, English, History, Physics, Psychology.

Details regarding qualifications and application for these fellowships will be found on page 55.

*Scholarships.* The following scholarships may be assigned in Columbian College:

Byron Andrews Scholarships; Maria M. Carter Scholarship; Citizens' Military Training Camps Scholarship; Isaac Davis Scholarship; Robert Farnham Scholarship; Elma Lewis Harvey Scholarship; John Hitz Metzerott Scholarship; A. Morehouse Scholarship; David Spencer Scholarship; Mary Lowell Stone Scholarship; William Walker Scholarship; John Withington Scholarship; Ellen Woodhull Scholarship.

For particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For information concerning application for loan funds and their administration, see page 63.

## DIVISIONAL ORGANIZATION

The instructional organization of the Senior College is contained in the Divisions. The divisional and departmental officers administer the educational requirements for students majoring within the Divisions. The Divisions are as follows:

### THE DIVISION OF LANGUAGES AND LITERATURES composed of:

- The Department of Classical Languages and Literatures
- The Department of English
- The Department of Germanic Languages and Literatures
- The Department of Romance Languages and Literatures

THE DIVISION OF MATHEMATICS AND THE PHYSICAL SCIENCES  
composed of:

The Department of Chemistry  
The Department of Mathematics  
The Department of Physics

THE DIVISION OF THE NATURAL SCIENCES composed of:

The Department of Botany  
The Department of Geology and Geography  
The Department of Psychology  
The Department of Zoology

THE DIVISION OF THE SOCIAL SCIENCES composed of:

The Department of Anthropology  
The Department of Economics  
The Department of History  
The Department of Philosophy  
The Department of Political Science  
The Department of Public Speaking  
The Department of Sociology

### DEGREES AND COURSES

The degrees offered are Bachelor of Arts, Bachelor of Science, and Master of Arts. In conjunction with the professional courses the following combined courses are offered: a seven-year course leading to the degrees of Bachelor of Arts and Doctor of Medicine; and a six-year course leading to the degrees of Bachelor of Arts and Bachelor of Laws.

### BACHELOR OF ARTS AND BACHELOR OF SCIENCE DEGREES

#### REQUIREMENTS

To be recommended for a degree, the student must satisfy the admission, residence, scholarship and curriculum requirements. The curriculum requirements include at least 60 semester hours of credit. A semester hour of credit is one recitation or lecture a week or one laboratory period a week for one semester.

*Residence.* One year in residence with at least 30 semester hours, combined courses included, must be completed in Columbian College. Residence may be satisfied, in whole or in part, in the Summer Sessions. The work of the senior year is to be done in residence. Exceptions will require the approval of the Dean. No time limit for the course is prescribed and the degree is given when the total of prescribed and elective studies is completed and the residence requirements satisfied. When the college

work is limited to the last two class periods and the evening laboratory periods, the length of the course is generally six years.

*Scholarship.* At least as many quality points as hours of credit are required for graduation. Quality points are figured as follows: A—3 points, B—2 points, C—1 point, D—0 points for each semester hour of credit.

*Physical Education.* The physical education requirement consists of the prescribed freshman and sophomore assignments (see Announcement of Physical Education Courses), to be taken in the freshman and sophomore years by all students.

*Application for Graduation.* Application for graduation should be filed at the time of registration for the first semester of the senior year.

## HONORS

General and Special Honors may be awarded at graduation as follows: Honors shall be awarded and announced only at the June Commencement but students graduating at the October or February convocations of the same academic year, who have fulfilled the requirements, shall be eligible for Honors equally with students graduating in June.

### GENERAL HONORS

There are three grades of General Honors: (1) "With Highest Distinction," (2) "With High Distinction," (3) "With Distinction."

(1) "With Highest Distinction," shall be granted only to students whose records are extraordinary, and only by special vote of the faculty.

"With High Distinction" and "With Distinction" shall be based upon averages of grades of all work taken, both here and elsewhere, except for the grades of the semester immediately preceding the granting of the degree.

The average shall be computed by dividing the total number of quality points obtained by the total number of credit hours attempted. (This is equivalent to considering A—95 per cent, B—85 per cent, C—75 per cent, and D—65 per cent.)

(2) "With High Distinction" shall be given at the discretion of the faculty to those attaining an average of 2.6 points or higher.

(3) "With Distinction" shall be given at the discretion of the faculty to those attaining an average of 2.3 points or higher.

To be eligible for General Honors, a student must have had at least three-fourths of his work towards the degree at this University, and may have had no grade below "D" after the freshman year.

### SPECIAL HONORS

In addition to "General Honors," "Special Honors" may be awarded in individual fields, e.g., in Chemistry or Economics or English. A student may be awarded both General and Special Honors.

Special Honors shall be awarded only upon recommendation of the major department after the candidate has successfully completed all the special work assigned in connection with honors and has successfully passed a general examination bearing on his major subject in the junior and senior years.

Any student whose work in the freshman and sophomore years, whether done in The George Washington University or elsewhere, is satisfactory in the opinion of his major department, and who spends his junior and senior years at The George Washington University may become a candidate for Special Honors.

In addition to the courses taken as a major for graduation, the candidate shall do such additional reading or other work in the junior and senior years as may be directed by the major department, and such work shall be tested and evaluated as the major department sees fit.

No student shall be awarded Special Honors unless he ranks in the upper one-third of his class at graduation.

#### INDEPENDENT STUDY PLAN

Under the Independent Study Plan a student of demonstrated capacity with special interest in a course, may, upon approval of his project by the instructor in charge and by the Committee on Independent Study, be permitted to undertake independent study under the personal direction of the instructor. Under this plan the student, though relieved of formal class requirements, will cover the essentials of the course and in addition, will develop the particular field of his project. Any project may be terminated at the end of any semester at the option of either student or instructor.

#### CURRICULA

There are five curriculum groups, each leading to the Bachelor of Arts or Bachelor of Science degree. Every candidate for a degree must satisfy the requirements of one of the groups listed below.

The freshman and sophomore years of each curriculum group will be found under the Junior College. Courses listed with numbers 1-99 may be taken by students in Columbian College only with the permission of the Dean.

##### A. Bachelor of Arts.

###### I. General Group.

The work is elective, subject to the following restrictions:

(a) *The Major*. The major should be chosen at the beginning of the junior year. Before graduation a major of not less than 24 semester hours must be completed in an approved subject.

Note: For Curricula in Business Administration, Finance, Domestic Commerce, and Foreign Commerce, see School of Government.

The candidate's choice of studies comprising the major shall be subject to the approval of the major department. Courses of an elementary or introductory character shall not be counted as satisfying the requirement for a major unless specifically approved by the major department.

Students are required to select and file with the Registrar a choice of major subjects at the beginning of the junior year.

The requirements for a major in the several departments of instruction are stated immediately preceding the announcement of courses of instruction offered.

A student may change his major only with the permission of his Dean.

(b) *Advanced Courses.* Not less than 30 semester hours of the required 60 shall consist of second or third section courses, numbered 101 and above.

## II. Combined A.B. and LL.B. Course.

This course contemplates three years of college study and three years in The George Washington University Law School. On the completion of 94 semester hours of work in college, at least 30 semester hours of which must be taken in Columbian College, including 6 semester hours of History, 6 semester hours of Economics, 6 semester hours of Philosophy, and the first year of the regular course in the Law School and the recommendation of its Dean, the degree of Bachelor of Arts will be conferred. Credit is not given for a law course taken at another institution.

In the case of students entering the Law School of the George Washington University with two years or more of pre-professional work of satisfactory quality, who thereupon complete the requirements for the degree of Bachelor of Laws in the George Washington University Law School, and present the recommendation of its Dean, such students may obtain the degree of Bachelor of Arts upon the completion of 30 semester hours of satisfactory work in Columbian College.

## III. Combined A.B. and M.D. Course.

This course contemplates three years of college study and four years in the George Washington University Medical School. On the completion of 94 semester hours of work in college, at least 30 semester hours of which must be taken in Columbian College, including all of the requirements in one of the curriculum groups, and the first year of the regular course in the Medical School and the recommendation of its Dean, the degree of Bachelor of Arts will be conferred. Credit is not given for a medical course taken at another institution.

In the case of students entering the Medical School of the George Washington University with two years, or more, of pre-professional work of satisfactory quality, who thereupon complete the requirements for the degree of Doctor of Medicine in the George Washington University Medical School, and present the recommendation of its Dean, such students may

obtain the degree of Bachelor of Arts upon the completion of 30 semester hours of satisfactory work in Columbian College.

#### B. Bachelor of Science.

The work of the junior and senior years for the Bachelor of Science degree must be arranged by consultation with the major department and must be approved by that department.

The requirements for the Bachelor of Science degree fall under two groups:

##### First group—*Botany, Geology, and Zoology.*

In this group, Geology 11-12 or Geology 21-22, 6 semester hours must be chosen if not elected earlier. A major of at least 24 semester hours in one of the three previously mentioned subjects should be chosen with the guidance of the Executive Officer of the Department concerned. The remaining semester hours required for the degree are electives.

##### Second group—*Chemistry, Mathematics, Physics.*

In this group, if Botany has been elected earlier, Geology 11-12 or Geology 21-22 or Zoology 3-4 must be chosen; if Geology has been elected earlier, either Botany 1-2 or Zoology 3-4 must be chosen. A major of at least 24 semester hours in one of the three previously mentioned subjects should be chosen with the guidance of the Executive Officer of the Department concerned. The remaining semester hours required for the degree are electives.

*Change of Curriculum.* After having selected a curriculum group a student is not permitted to change to another group (except with the permission of his Dean) and on condition that he fulfill the requirements of the group to which he changes.

### MASTER OF ARTS DEGREE

#### ADMISSION

To be admitted to Columbian College with the intention of becoming a candidate for the Master's degree students must usually present a Bachelor's degree from an accredited institution. They should present a transcript of the studies pursued towards the Bachelor's degree. Students from unaccredited institutions may be admitted, in the discretion of the Dean. Such students shall be required to take such extra work above the minimum requirements for the degree sought as may be prescribed.

The course of study pursued for the Bachelor's degree must have been such as to qualify candidates for pursuing the subjects chosen for the higher degree sought. A student taking full work for any other degree, here or elsewhere, shall not be admitted to candidacy for a higher degree here.

Candidates for admission to courses for the Master's degree must make application to the Dean of Columbian College and must present certificates of the degrees they hold from institutions conferring such degrees. Candidates requesting advanced standing must present detailed certificates of the work for which they ask credit. A student is formally recognized as a candidate for the Master's degree only when his application for candidacy has been approved by his major department and the Dean of Columbian College.

Beginning September, 1931, a student before being admitted to candidacy for the Master's degree shall show a reading knowledge of at least one foreign language, to be selected by his major department.

*Students in Attendance.* Properly qualified students may be admitted as Students in Attendance without becoming candidates for degrees.

#### REQUIREMENTS

To attain the degree of Master of Arts candidates must complete successfully 24 semester hours of work, in addition to the thesis, forming a consistent plan of study.

- a. Courses may be elected from one, two, or three departments.
- b. At least 12 semester hours, plus the thesis, must be in the major subject.
- c. At least 12 semester hours must be taken in Columbian College, irrespective of the amount transferred from college or other institutions.
- d. Part of the work for the Master's degree may be taken in The School of Medicine or The Law School, but work so taken cannot be counted both towards the Master's degree and a degree in Medicine or Law. A candidate for the Master's degree may take not more than 12 semester hours in The School of Medicine or The Law School, but the major subject must be taken in Columbian College.
- e. The minimum amount in any one subject (not course) that will be counted toward the Master's degree is six semester hours.
- f. The course of study for the Master's degree must include at least two Third Section courses (numbered above 200), which must count at least 12 semester hours unless the major department gives written permission to count less than 12.
- g. In addition to the course examinations, candidates must pass a general final examination in the major subject. This examination may be either oral or written, or both oral and written.
- h. A student who expects to continue his studies for the degree of Doctor of Philosophy after receiving the Master's degree is strongly advised so to plan his course from the beginning that work done for the lower degree may count for the higher.

#### ADVANCED STANDING

Advanced work in other institutions of learning may be credited toward the Master's degree in this University, to the extent of not more than 12

semester hours. Work completed here, or elsewhere, more than three years prior to the registration for a higher degree here, will be counted towards such a degree only if the candidate successfully passes an examination on the subject matter of the work offered for credit.

Second Section courses (101-200), or their equivalent in other institutions of learning, if taken in the senior year of college may be counted to the extent of not over 12 semester hours toward a higher degree, provided that the student shall notify the Dean of Columbian College at the beginning of such courses of his desire to count them towards a higher degree; and provided that the student shall have done such extra work on the courses as may be prescribed by the department concerned. No work counted towards the Bachelor's degree shall be counted towards a higher degree.

#### RESIDENCE

A candidate for a Master's degree must pass in residence and study at this University at least two semesters, or one semester and one summer term of nine weeks, or three summer terms of nine weeks each or four summer terms of six weeks each. Students who plan to complete their work for the Master's degree in the minimum time, should consult the Dean well in advance of registering. No credit shall be granted for work done in absentia, i.e., without formal instruction here or at some other institution of learning, except for the thesis, which may be completed in absentia with the permission of the department concerned.

#### THESIS

A candidate for a Master's degree must present a thesis in his major subject. The thesis, which counts six semester hours towards the degree and is charged for at the same rate as courses, must be registered for by the candidate by the beginning of his final year. The choice of the thesis subject must be approved in writing by the professor in charge of the major, and recorded at the Registrar's Office no later than the close of the registration period immediately preceding the term in which the degree is to be conferred. The student is expected to consult the professor in charge frequently in regard to the progress of work on the thesis. The thesis in its final form must have the approval of the professor in order to count towards the degree. Attention is called to "Regulations Regarding Thesis," on page 110.

#### HOURS OF INSTRUCTION

*Time.* There are morning and late afternoon sections in most courses, so that students may take work during the forenoon and early afternoon or in the periods between 5:10 and 7:00 o'clock. By taking the late afternoon and summer classes, and by extending the time of study beyond the customary four years, a student able to give only part time to college work may complete the full course and obtain a degree.

*Courses Offered.* The courses of instruction listed in alphabetical order and the hours when courses are offered will be found beginning on page 214.

## REGULATIONS

Students in Columbian College are subject to the University regulations as stated beginning on page 65.

### AMOUNT OF WORK

1. Fifteen units constitute normal work. Students in good standing may be permitted by the Dean to take up to *eighteen* units.
2. Students on the Honor Roll (see below) may with the permission of the Dean take *eighteen* or *nineteen* units. No student may take more than *nineteen* units except by special permission of the Scholarship Committee of the College.
3. For employed students, working more than twenty-four hours per week, *nine* units, not including Physical Education, is normal work. Employed students in good standing may be permitted by the Dean to take *ten* units. Employed students on the Honor Roll (see below) may be permitted by the Dean to take *twelve* or *thirteen* units.
4. A student shall not register concurrently in Columbian College and in any other school of this or another institution except by the consent of the authorities of both schools. Allowance of credit for work done concurrently shall be at the discretion of the Committee on Advanced Standing.

### ATTENDANCE

1. The student is held responsible to the instructor in charge for all the work of a course in which he is registered and all absences must be excused before provision will be made for him to make up the work missed.
2. With the exceptions noted below, occasional absences, not to exceed in number for each semester the semester hours of credit for the semester, will be automatically excused. (Where a course has distinct divisions, such as lectures, laboratories, recitations, etc., these excuses apply pro-rata to such separate divisions.) In applying this rule, absences adjacent to holiday periods are to be counted double.
3. Such automatic excuses are intended to cover the occasional minor exigencies and not to constitute an indiscriminate privilege. Students on probation are allowed no automatic excuses, while students on the honor roll are left upon their own responsibility.
4. Excuses for any absence in excess of those automatically excused, as well as for absences from two or more consecutive class periods, and for absences from examinations which have been announced in advance, can be obtained only by making written application to the Dean of Columbian College.

## MAKE-UP EXAMINATIONS

1. Unless sanctioned by special approval of the Dean of the College, examinations given as a means of making up grades of (E) or (Inc.) should be given only after the lapse of a term of study, and only during the examination period at the end of a regular, fall, spring, or summer term, or during the week preceding registration in September. The department concerned will specify the exact date within these periods.

2. Application for such an examination must be made to the department concerned, in writing, at least a week in advance of the date set.

3. A student failing to pass such an examination may not obtain credit for the course except by repeating it in class.

*Examination for the purpose of waiving curriculum requirements:*

A student desiring to omit a required course may take such examination as the department prescribes and on passing satisfactorily, he may be relieved of the curriculum requirement in that subject, and qualify for registration in an advanced course. Passing of this examination shall not entitle the student to any hours of credit toward the degree. Students desiring to take such examinations should notify the Dean.

A fee of \$10.00 for each examination is to be paid at the Comptroller's Office and the receipt exhibited at the door of Room 27, Building W, on September 25 or 26, at 2 P. M., for the first semester; and on February 5 or 6, at 2 P. M., for the second semester. Two hours will be allowed for the examination. Should a student wish to take more than one examination arrangements will be made accordingly.

## GRADES

The following grades are given on work toward the Bachelor's degree: A (90-100) excellent; B (80-89) good; C (70-79) average; D (60-69) passing; E (below 60) conditioned (not passing); F, failure; Inc., incomplete. A course failed must be repeated in order to be credited. A condition may be removed within one year under conditions set by the instructor, but in this case no final grade above D is given, unless the work is repeated in class. As soon as possible after the close of the term a report is mailed to each student through the office of the Registrar. Grades are not given out by instructors. No student may repeat for credit a course in which he has received a mark above "E."

The grades recorded for the work toward the Master's degree will be Satisfactory, Unsatisfactory, or Incomplete. Satisfactory shall imply a minimum of 80%.

## SCHOLARSHIP

*Honor Roll.* The names of those who make an average of "A" or "B" in any semester will be placed on an Honor Roll and published. A place

on the Honor Roll does not necessarily mean that a student will receive honors upon graduation.

#### POOR SCHOLARSHIP.

a. *Probation.* A student must maintain a total number of quality points within 5 of the total number of hours attempted or he will be placed on probation. A student remains on probation as long as he is more than 5 points behind.

b. *Dismissal.* A student who receives a grade of E or F in two courses in two successive semesters will be dropped.

Students who fall under probation for the third semester, whether successive or after an interval, will be dropped.

Students dropped for poor scholarship may apply for readmission after an interval of a calendar year. A student applying for readmission under this rule must submit evidence to the Committee on Advanced Standing that during this absence from the University he has so conducted himself as to indicate that he will profit by readmission. Students dropped twice for poor scholarship will not be readmitted. For the purpose of these rules a summer session will be considered a semester.

#### STUDENTS WITH LIMITED SCHEDULES.

In the case of students with limited schedules these scholarship rules will be applied when the student has undertaken 15 units or multiples thereof, unless he receives a grade of E or F in two courses in two successive semesters.

Courses duly dropped or graded "Incomplete" and courses in Physical Education will not be considered in any way in computing standing or eligibility under the scholarship rules.

#### SCHOLARSHIP REQUIREMENTS FOR GRADUATION.

See Requirements for Degrees, page 94.

#### ELIGIBILITY FOR STUDENT ACTIVITIES.

a. A student on probation shall not represent the University on its athletic teams or in any other student activity, nor shall he serve as a member of a committee or as an officer in any class or student organization.

b. Before a student may participate in any student activity, or serve as an officer in any class or student organization, he must be certified as eligible by the University Registrar.

c. A student may be declared ineligible to participate in any student activity by the Dean of the College, when in the opinion of the Dean the student's participation in such activity is or would be detrimental to his own best interests or the interests of the University.

## CHANGES IN COURSE

1. A student is held responsible for all the work for which he is registered. After the first two weeks of a semester he may not change or drop courses or change his status to that of auditor, except: (a) on the advice of his physician, (b) change in the condition of employment, (c) necessary absence from the city, or (d) withdrawal from the University.

2. Changes in schedule from one section to another of the same course may be made at any time with the consent of the executive officer of the department. See regulations regarding changes and withdrawals on pages 54 and 65.

## CLASSIFICATION OF STUDENTS

*Junior.* A student who has satisfactorily completed 64 semester hours of work, including all freshman and sophomore required courses, shall be classed as a junior, and if 30 semester hours of this specification have been completed in The George Washington University, he shall be entitled to a certificate that he has completed his sophomore work.

*Senior.* A student who has satisfactorily completed the sophomore work together with 30 semester hours in addition, has registered his major with the Registrar, and taken at least one course in his major, shall be classed as a senior.

*Master.* A student who has satisfactorily completed the work for the baccalaureate degree, and has registered his advanced major with the Registrar, shall be classed as a Master student in course.

### ADMISSION REQUIREMENTS

In order to be admitted to The Graduate School of Letters and Sciences, students must make application to the Dean of that School, and must present certificates of the degrees they hold from other institutions. Students requesting advanced standing must present detailed certificates of the work for which they ask credit.

### CANDIDACY FOR THE DEGREE

For admission to candidacy for the degree of Doctor of Philosophy, see page 107.

### STUDENTS IN ATTENDANCE

Properly qualified students may be admitted, with the permission of the Dean, as students in attendance, without becoming candidates for a degree.

### REGISTRATION

Before registering, a candidate for a degree must secure the written approval of his choice of subjects from his major department. A blank for this purpose may be procured at the office of the Dean.

For the statement of registration procedure, see page 49.

†On sabbatical leave 1930-1931.

## FEES AND FINANCIAL REGULATIONS

See pages 50-54.

## DECREES

The Graduate School of Letters and Sciences confers only the degree of Doctor of Philosophy (Ph.D.).

## DOCTOR OF PHILOSOPHY

## REQUIREMENTS

The degree of Doctor of Philosophy is conferred only upon students who have acquired a broad and thorough knowledge of their field of learning, as evidenced by courses followed or other formal instruction received, and who have shown marked ability in original research in some particular branch of that field, as proved by the results set forth in their theses. Formal requirements of courses and residence, although essential, are wholly subordinate to the above principle.

## RESIDENCE

Before receiving the degree of Doctor of Philosophy, the candidate shall have spent at least three years, since receiving his baccalaureate degree, in graduate study. A part-time student shall be required to devote a proportionately longer time, the amount of additional time to be determined by the student's committee. In part satisfaction of residence requirements, the candidate, in addition to his research work, must follow regular courses, to an amount prescribed by his committee. The candidate may be credited with work done at other accredited institutions to the amount approved by his committee.

## ADMISSION TO CANDIDACY

To be admitted to formal candidacy for the degree, the student must have spent at least two years of full-time study, or its equivalent, since receiving his baccalaureate degree, in graduate study in recognized institutions of learning. The second or last year must have been spent at The George Washington University. In addition to this he must have fulfilled the following requirements not later than November 1, if he expects to receive his degree the following June; and not later than May 1, if he expects to receive his degree the following February:

(a) He must have selected his thesis-subject and have received the written approval of it from the head of the major department.

(b) He must have satisfied the Departments of French and German that he can read understandingly in the original French or German, works pertaining to his special field, and he must have satisfied such other language requirements as his major department shall have prescribed.

(c) He must have passed a general examination testing him for a comprehensive and thorough knowledge of his field of learning, to be conducted by a committee appointed by the Dean of the Graduate School from the members of at least two departments of the University. This examination shall consist of two parts, one oral and one written. The questions and answers to the written examination shall be sent to the Dean and shall form part of the student's file.

#### SCHOLARSHIP

In courses in which grades are assigned, whether followed here or elsewhere, the student must attain the grade "Satisfactory" or its equivalent.

#### CHOICE OF STUDIES

Candidates for the degree of Doctor of Philosophy must in general choose their studies from two departments of one of the divisions enumerated below. With the permission of the Graduate Council, all courses may be in one department, or some in one other division.

##### THE DIVISION OF LANGUAGES AND LITERATURES composed of:

The Department of Classical Languages and Literatures  
The Department of English  
The Department of Germanic Languages and Literatures  
The Department of Romance Languages and Literatures

##### THE DIVISION OF MATHEMATICS AND THE PHYSICAL SCIENCES composed of:

The Department of Chemistry  
The Department of Mathematics  
The Department of Physics

##### THE DIVISION OF THE NATURAL SCIENCES composed of:

The Department of Botany  
The Department of Geology and Geography  
The Department of Psychology  
The Department of Zoology

##### THE DIVISION OF THE SOCIAL SCIENCES composed of:

The Department of Anthropology  
The Department of Economics  
The Department of History  
The Department of Philosophy  
The Department of Political Science  
The Department of Public Speaking  
The Department of Sociology

## GUIDANCE OF STUDENTS

In the pursuit of his studies the student shall be under the guidance of a committee consisting of the professors of his major department and representatives of the other departments in which he will study. This committee shall have power to determine what work he shall complete in regular courses or otherwise.

## EXAMINATIONS

For the general examination, see under Admission to Candidacy, page 107.

After having been admitted to candidacy and before being recommended for the degree, the student must pass, at least three weeks before the awarding of the degree, a special oral examination, conducted by a committee of his division, on his thesis and its related fields. A period of at least six months must elapse between the general and the special examinations.

## DOCTORAL THESES

Not later than the date specified in the University calendar, the candidate for the degree of Doctor of Philosophy shall submit a typewritten copy of his thesis and also a typewritten summary of the thesis consisting of not more than 2,500 words. The summaries of accepted theses will be printed in a volume forming a number of the University Bulletin. The successful candidate for the Ph.D. is required to pay, before receiving his degree, a fee of \$40.00 to cover the expense of printing the summary of his thesis.

Students who have received the degree of Doctor of Philosophy are urged to print their theses in full if possible.

Attention is called to "Regulations Regarding Theses," page 110.

## GRADUATION

The degree of Doctor of Philosophy will be conferred only in February and in June.

## COURSES OF STUDY

*Graduate Credit.*

a. *Third Section* courses (above 200), are primarily for graduate students and may count toward higher degrees.

b. *Second Section* courses (101-200), may count toward a higher degree only when the candidate secures at the time of registration the written approval of the department concerned and completes the extra work required for graduate credit in such courses.

*Courses offered.* The announcement of courses offered will be found beginning on page 214.

## REGULATIONS

Students registered in The Graduate School of Letters and Sciences are governed by the University regulations as stated beginning on page 65.

## AMOUNT OF WORK

Students with limited schedules shall not be allowed to take over 18 semester hours of course work in a year, or 9 semester hours of course work in a semester. No student shall take courses aggregating more than 9 semester hours of course work in one summer term, nor more than 6 semester hours of course work if a student with limited schedule.

## GRADES

The following grades are given: Satisfactory; Unsatisfactory; Incomplete.

The grade "Incomplete" is temporary and if the required work in the course in question is completed within a year of the receipt of this grade, a final grade is given. If the work is not completed within the time specified no credit is given, unless a longer time is allowed by the instructor and approved by the Dean. Except in such instances no grades are changed.

As soon as possible after the close of a term a report is mailed to each student through the office of the Registrar.

## CHANGE OF COURSE AND WITHDRAWAL

A student desiring to change or withdraw from any course must secure the permission of the Dean. In case of withdrawal from the School, students should send prompt notice to the Dean of The Graduate School of Letters and Sciences. Notification to a professor of withdrawal from his course does not effect its discontinuance. See also pages 54 and 65.

## REGULATIONS REGARDING THESES

All theses for the degree sought must, in their final form, be presented by the student to the Dean by the dates announced in the University Calendar. They must previously have been typewritten on official thesis paper, and bound. Paper and binder may be obtained from the University Store Room in Stockton Hall. The title-page must read: (title) by (name of candidate), a thesis submitted to the Faculty of The Graduate School of Letters and Sciences of The George Washington University in part satisfaction of the requirements for the degree of (name of degree). (Date.) The typewritten thesis must be as specified.

The Dean will present theses to the chairman of the committees on the candidates. Accepted theses, with their accompanying drawings, are the property of the University, and will be deposited in the University Library, but the authors of them are permitted to make copies.

In addition see specific regulations regarding Doctor's theses on page 109.

## INTRODUCTORY STATEMENT

## HISTORY

The first course of lectures in The School of Medicine of The George Washington University began in March, 1825, which makes it the eleventh Medical School established in the United States. The School was first known as the National Medical College and subsequently as the Department of Medicine of the Columbian University. In 1904 the Columbian University became The George Washington University.

In order to increase the facilities for bedside and clinical teaching, the University Hospital and the University Dispensary were established in 1898 and made a part of the organization of The School of Medicine.

## EDUCATIONAL STANDING

The School of Medicine of the University is a member of the Association of American Medical Colleges, and is one of the medical colleges which has been designated continuously as "Class A" by the American Medical Association. The degrees of The School of Medicine are recognized by all state examining boards. It is one of the medical schools selected by the Secretary of War to maintain a Reserve Officers' Training Corps Unit, and is accredited for all its work by the Combined (Royal) Medical Examining Boards in England.

## COURSES OFFERED

1. Four-year course leading to the degree of Doctor of Medicine (M.D.).
2. Combined seven-year course leading to the degrees of Bachelor of Arts (A.B.) and Doctor of Medicine (M.D.).

## COMBINED SEVEN-YEAR COURSE

*Registration.* Candidates register in The Junior College for the freshman and sophomore years of the Pre-Medical Course, and in Columbian College for the junior year.

*Admission.* Applicants must meet pre-medical college requirements outlined on page 125.

*Course of Study.* Candidates must complete at least 94 semester hours of prescribed college work, not including Physical Education (at least 30 semester hours and one year of residence must be completed in Columbian College) and the first year of the medical course. On satisfactory completion of the work outlined above the student will be recommended for the degree of Bachelor of Arts. Upon completion of the fourth year in the medical course the student becomes eligible for the degree of Doctor of Medicine. For further information regarding courses in Columbian College, see page 96.

## THE DEGREE

The degree of Doctor of Medicine given by this University admits the holder to all governmental examinations, including those for the Medical Corps of the United States Army and Navy and the Public Health Service and, with evidence of one year of post graduate hospital work in those states which require hospital internship, will admit a graduate to all state examinations.

## LOCATION AND ITS ADVANTAGES

The city of Washington with more than a half million inhabitants provides abundant clinical material for its six thousand hospital beds. Much of this material is used for clinical instruction by faculty members. Adjoining The School of Medicine, in the heart of the city, the University Hospital and Dispensary furnish clinical facilities and a large proportion of the materials studied in the courses in Clinical Chemistry and Microscopy.

The Library of the Surgeon General's office of the United States Army is the most complete general medical library in the world. In addition to its great collections of medical works, all leading medical periodicals of the world are available. This Library as well as The Library of Congress,

The Public Library, and the many excellent libraries of the various Government Departments are open to medical students.

The Army Medical Museum affords opportunity for studying the conditions met with in military and general medicine and surgery. Its collection of anatomical and pathological specimens is unequalled by any other museum in this country. The Museum of Hygiene, The National Museum, The Smithsonian Institution, The Botanic Gardens and The Department of Agriculture, all afford opportunities for study in medicine and its collateral sciences.

Aside from the special advantages offered for the study of medicine, the cosmopolitan character of the city of Washington, its mild climate, its beauty, and as it is the seat of the National Government, its broad interests, make it an ideal place for a medical student to pass four years of study.

### EQUIPMENT

*Medical School Building.* The building housing The School of Medicine is a modern, five-story structure with lecture and class rooms, laboratories, and students' rooms, equipped with modern improvements.

*Laboratories.* The major laboratories are five in number—for anatomy, bio-chemistry and clinical chemistry, histology and embryology, physiology and pharmacology, and bacteriology and pathology. They are fully equipped to enable students to pursue adequately the laboratory courses and acquire the technical skill necessary in modern clinical and research work.

*Medical Library.* The Library, with a librarian in charge, is open for study and reading from 9 a. m. to 4 p. m. It contains a selected reference collection of 2,500 volumes, and provision is made to add to it the important new medical works. The standard medical periodicals are regularly received.

For purposes of advanced study and research the Library of the Surgeon General of the Army is available to all students and teachers.

### CLINICAL FACILITIES

*The University Hospital and the University Dispensary:* The Hospital and Dispensary are part of the educational equipment of the University. They are integral parts of The School of Medicine, are entirely controlled by the Faculty of Medicine, and are used primarily in instructing the students in clinical work. The Dispensary has a large out-patient service in all departments, to which several thousand visits are made annually. The faculty believes that clinical teaching should be as thoroughly systematized as is the teaching in the laboratories. To this end, all clinics are

under the supervision of the Assistant Dean assigned to the Clinical Division. This insures the highest possible utilization of available clinical material for teaching purposes and proper supervision of clinicians and students, brings the individual student into direct contact with patients and requires him to do under authoritative supervision the clinical and laboratory work necessary for diagnosis and treatment, permits proper interpretation of the conditions occurring during the progress of cases, promotes the keeping of adequate records.

Clinical and clinico-pathological conferences are held in which the history of cases, the physical findings, laboratory records and the post-mortem pathology when available, are presented and correlated. The Assistant Dean of the Clinical Division assigns the students to the different clinics, supervises the records, the attendance and instruction of students. Third-year students are assigned in rotation by sections for clinical instruction in the Dispensary.

*Callinger Municipal Hospital* (Municipal Hospital of the District of Columbia): Clinical instruction is open in all branches of medicine.

A great wealth of clinical material is afforded in this hospital by ordinance of the municipal authorities of the District, whereby one-half the patients—upwards of 1,000 in number—are assigned for treatment and clinical teaching to members of the faculty of this School, nominated by this University.

*Casualty Hospital*: Clinical Pathology.

*Children's Hospital*: Clinical instruction in pediatrics, general and orthopedic surgery.

*Emergency Hospital and Central Dispensary*: Clinical instruction in medicine, surgery, particularly in emergency surgery, fractures and dislocations, dermatology and orthopedics.

*Garfield Memorial Hospital*: Clinical instruction in medicine, including contagious diseases, surgery, gynecology and obstetrics.

*Providence Hospital*: Clinical instruction in medicine and surgery.

*St. Elizabeth's Hospital*: Clinical instruction in mental and nervous diseases, medicine, surgery, post-mortem work and gross pathology. This hospital, with 4,000 beds, is maintained by the United States Government. The psychiatric clinic is one of the largest in the country.

*The Episcopal Eye, Ear, Nose, and Throat Hospital*: Clinical instruction in ophthalmology, otology, laryngology and rhinology.

*Tuberculosis Hospital*: Clinical instruction in tuberculosis, in all its phases, both medical and surgical.

### MEDICAL UNIT—RESERVE OFFICERS' TRAINING CORPS, U. S. ARMY

A Medical Unit of the Reserve Officers' Training Corps is established in this School by authority of the Secretary of War, and an officer of the Medical Corps of the Army is detailed to the University for supervision and instruction of the students in the Unit.

The object of the Reserve Officers' Training Corps is to give to students special training which will fit them to become, upon graduation, officers in the Medical Section of the Reserve Corps of the Army if they so desire. The work of this Department is both military and professional and a great portion of it will be found applicable to civil practice, so that a graduate who never elects active duty, will find value in the time given to the subjects covered.

Membership in the Unit is voluntary and is open to any physically fit male student who is a citizen of the United States. The instruction is divided into two courses, the basic and the advanced. The basic course is given in the first and second years, and the advanced course in the third and fourth years. Students who satisfactorily complete the basic course may, up to the quota allowed by the War Department, and if they choose, enter the advanced course. Students who enter the advanced course receive pay from the Government amounting to approximately \$200.00, they are obligated to complete the course and to attend one summer camp of instruction for six weeks for which the students will receive travel allowances, pay at the rate of \$21.00 per month and will be provided with all camp equipment, uniforms and medical attention. Students who successfully complete the course are recommended for commission in the Medical Section, Officers' Reserve Corps, provided they desire appointment. Selected graduates are given preference in appointment for internship in Army General Hospitals where they receive pay and allowance of a First Lieutenant of the Medical Corps.

### ADMISSION REQUIREMENTS

#### LEGAL STANDARDS

The laws relating to the preliminary educational qualifications required of physicians differ in many of the states, and candidates are advised that if they meet the pre-medical and other requirements of this school they will be able to comply with the legal demands of all State Examining Boards in the United States.

#### MORAL REQUIREMENTS

All candidates must be of good moral character, and present evidence that their college work has been of such standard as to give promise of work of high quality in the medical course.

## EDUCATIONAL REQUIREMENTS

The minimum requirements for admission are 15 units of work from an accredited secondary school, and two years of college work, totaling at least 60 semester hours, from an accredited college of arts and sciences.

## SECONDARY SCHOOL REQUIREMENTS

Of the 15 secondary school units\* required, 3 must be in English, 2† in foreign language (ancient or modern), 1 in algebra, 1 in geometry, 1 in history, 1 in science (botany, chemistry, physics or zoology).

a. Eleven of the units offered must be in English, foreign language, mathematics, sciences and history.

b. No candidate will be accepted with any condition in secondary school work.

## PRE-MEDICAL COLLEGE REQUIREMENTS

A. *Chemistry*: 12 semester hours† as follows:

(a) 8 semester hours of general inorganic chemistry, of which at least 4 semester hours are laboratory work. Qualitative analysis may be counted as general inorganic chemistry.

(b) 4 semester hours of organic chemistry, of which 2 semester hours are laboratory work.

B. *Physics*: 8 semester hours, of which at least 2 semester hours are laboratory work. It is recommended that this course be preceded by one in trigonometry.

C. *Biology*: 8 semester hours, of which at least 4 semester hours are laboratory work. This requirement may be satisfied by a course of 8 semester hours in either general biology or zoology, or by a course of 4 semester hours each in zoology and botany, but not by botany alone.

D. *English Composition and Literature*: 6 semester hours. The usual introductory college course, or its equivalent. The student should develop facility in English expression.

E. *Modern Foreign Language*: A reading knowledge, preferably of French or German.

F. *Electives*: It is recommended that the remaining semester hours required include:

\* A unit is the credit value of at least 36 weeks' work of 4 or 5 recitation periods per week each period to be not less than 45 minutes.

† Each of the required units of foreign language must be of the same language. Elementary Latin is desirable.

‡ A semester hour is one hour of lecture or recitation, or at least 2 hours of laboratory work per week for one half-year or 16 weeks. If laboratory periods are longer than 2 hours in length their value in semester hours will be no more than that assigned by the college where the work is taken.

- (a) comparative vertebrate anatomy.
- (b) qualitative and quantitative chemistry.
- (c) social science and psychology.

*Conditions:* No student will be accepted with any condition in college work.

#### ADVANCED STANDING

\* Students who have satisfactorily attended one or more terms at any other Class A medical school, and who have the necessary preliminary educational requirements, may be admitted to advanced standing.

Students who have been in attendance upon an arts course in other accredited colleges or universities may be admitted to advanced standing in any of the pre-medical courses offered by the University upon presentation of properly certified evidence of satisfactory completion of work for which credit is asked.

#### APPLICATION FOR ADMISSION

1. While no standard form for the statement of pre-medical credentials is required, certificates submitted must give complete information as to the number of didactic and laboratory hours taken in each subject, the year in which the subject was pursued, and the grade received in each. Forms for secondary school and college work will be furnished on request.

All credentials submitted are to be made out by the proper school and college authorities and mailed by them direct to the Dean, The School of Medicine, The George Washington University, 1335 H Street N.W., Washington, D. C.

Photostat copies of credentials without the original signature of the certifying authority will not be accepted.

Each form must cover only work done at the school or college which fills out the form.

2. A recent photograph, with signature, is required of each applicant.

3. As the number of qualified applicants for admission to the School each year exceeds its capacity, those who wish to insure admission are urged to secure from the schools and colleges attended completely compiled pre-medical credentials and forward them for evaluation as long a time as possible before the opening of The School of Medicine in September.

#### FEEs

See pages 50-54.

## PAYMENT

1. All fees are payable at the office of the Assistant to the Comptroller at The Medical Building, 1335 H Street N.W.

2. No student is permitted to complete registration or to attend classes until all fees are paid.

3. On account of the many applications for admission, and as the size of the freshman class is limited, places can be reserved only for those qualified applicants who remit the University Fee, the Material and Breakage deposits, and two months' tuition—a total of \$126.00. Should unusual circumstances arise whereby the matriculant is unable to attend, this initial payment, less a charge of \$25.00 for registration, transfer, etc., will be returned up to one month before the opening of the session, or thereafter, provided the place can be filled.

After the initial payment for two months to secure registration in the freshman class, tuition may be paid in monthly installments in advance.

Fees due at registration must be paid within three days after the opening of the session.

There is no charge for the use of microscopes, but students will be required to pay for injury to apparatus and other college property. All breakage and loss not directly traceable to an individual student is assessed pro rata and any unforfeited balance of the breakage deposit will be returned at the expiration of the course.

Beginning with the session 1931-32 payment of fees in The School of Medicine will be as follows:

Fees for each trimester will be due and payable in advance as follows:

	1st, 2nd and 3rd years	4th year
First trimester.....	\$160.00	\$150.00
Second trimester.....	140.00	140.00
Third trimester.....	132.00	132.00
	<hr/> \$432.00	<hr/> \$422.00

In exceptional cases, subject to the approval of the Comptroller, students may make special arrangements for the payment of second and third trimester charges.

## TEXTBOOKS

The minimum cost of necessary textbooks and student equipment (glass slides, clinical thermometers, stethoscope, hemocytometer, etc.) is approximately as follows:

First year	\$50.00
Second year	87.00
Third year	45.00
Fourth year	30.00
Total	\$212.00

### SCHOLARSHIPS, PRIZES, LOAN FUNDS

The following scholarships, prizes, and loan funds are available to students in The School of Medicine:

*Scholarship.* The John Hitz Metzgerott Scholarship.  
For particulars of application and award, see page 35.

*Prizes.* The Ordronaux Prize of \$100.00 is awarded to the member of the graduating class who has the highest scholastic standing.  
For information concerning other prizes, see page 38.

*Loan Funds.* Daughters of the American Revolution Loan Fund, Harmon Foundation Loan Fund, Henry Strong Educational Foundation Loan Fund, University Loan Fund.

For particulars concerning application for loan funds and the administering of the same, see page 63.

### SPECIAL UNDERGRADUATE AND GRADUATE ADVANTAGES IN THE MEDICAL SCHOOL

The payment of the University fee, charged all students, entitles them to certain health services described under the Department of Health Administration, page 263. Payment of this fee secures for students certain student activity privileges, see page 70.

### HOSPITAL APPOINTMENTS

Interns are appointed annually in the University Hospital. Similar appointments are made to graduates and undergraduates of this school in the following hospitals of the District: Casualty Hospital, Children's Hospital, Columbia Hospital for Women, Emergency Hospital, Episcopal Eye, Ear and Throat Hospital, Garfield Memorial Hospital, Providence Hospital, Saint Elizabeth's Hospital, Sibley Hospital, Tuberculosis Hospital, and Walter Reed United States Army General Hospital.

Students who, after graduation, desire internships in hospitals outside the District of Columbia, should apply directly to the institutions which they wish to enter. A list of hospitals approved for intern training is

published annually in the Journal of the American Medical Association and a copy of the list may be consulted in the office of the Dean.

#### COMMISSION ON LICENSURE, DISTRICT OF COLUMBIA

Graduates who wish to take the examinations of the Commission on Licensure, District of Columbia, or desire to use the District license for reciprocity with other states, should apply to the Secretary, Commission on Licensure, Healing Arts Practice Act, District Building, Washington, D. C.

#### UNIVERSITY MEDICAL SOCIETY

The George Washington University Medical Society was established in 1905. All alumni and members of the faculty are eligible for membership on election.

Meetings of the Society are held in the Medical Building on the third Saturday of each month from October to May.

Senior students are invited to attend the meetings of this Society, that they may have the opportunity of hearing the medical papers presented, and become familiar with medical society procedures.

#### REGULATIONS

Students in The School of Medicine are subject to the general University regulations as stated beginning on page 65.

#### REGISTRATION AND ADMISSION TO CLASSES

Registration in The School of Medicine is for a period of one year at a time. Acceptance by the School of a student's fees does not in any way obligate the School to accept the student for any subsequent year, and the right is reserved to drop any student from the School whenever in the interest of the student or the School the Advisory Committee deems it advisable to do so.

*Time.* All matriculations and registrations must be completed within three days after the opening of the session.

*Admission to Classes.* Freshman students are admitted to classes on presentation of the matriculation ticket issued when all required fees have been paid. Second, third and fourth year students are admitted on presentation of their receipt for the payment of fees.

#### ABSENCE

1. Absence consists in being away from a class or clinic during a scheduled period, entering after the class or clinic has begun or leaving before either is dismissed.

2. Absence is not allowed unless an excuse is obtained from the Dean or the Instructor.

3. Application for excuse for absence due to sickness must be accompanied by a certificate signed by the attending physician.

4. For every unexcused absence, a department will deduct one-half of one per cent from the student's final grade in the subject involved.

#### EXAMINATIONS

Examinations may be written, oral or practical and may be held at the completion of each course or at the end of the academic year.

*Absence from Examinations.* A student who fails to appear at a regularly scheduled final examination will not be examined until the next regular examination except by special permission of the Advisory Committee. For special examinations a fee of \$10.00 will be charged for each subject.

#### GRADES

Proficiency in all subjects is marked on a scale of 100. The passing grade in each subject is 75.

#### ADVANCEMENT

Any student who has satisfactorily completed the required work of the first, second, or third year of the course and has passed all examinations is eligible for advanced standing, if approved by the Advisory Committee of the Faculty.

*Failure.* A student who has failed in any subject will not be advanced unless his case is especially meritorious and then only by authority of the Advisory Committee. A student who has failed in a subject may, in the discretion of the Advisory Committee, be required to make it up in the September pre-term examinations.

A student allowed to repeat a year or take the September examinations will be required to take such examinations and to do work in such subjects as may be directed by the Advisory Committee.

A student who fails of advancement after repeating any one of the first three years or fails of graduation after repeating the final year will not be permitted to maintain his connection with the school.

A student who fails of graduation may, if approved by the Advisory Committee, be reexamined for graduation in the September examinations.

#### CHANGES AND WITHDRAWALS

*Changes in Courses.* Course change and withdrawal are not allowed except upon authority of the Advisory Committee.

*Withdrawal.* To withdraw from a course a written request approved by the Dean is required. Withdrawal permits and course certificates are issued only to those who have a clear financial record with the University.

#### GRADUATION REQUIREMENTS

Every candidate for graduation with the degree of Doctor of Medicine must be at least twenty-one years of age, of reputable character, and be free of all indebtedness to the University. He must have satisfied the admission requirements, completed satisfactorily not less than four years of study as a matriculated student, completed all required courses and passed all prescribed examinations.

*With Distinction.* Candidates who have attained an average of ninety per cent or more in their work and examinations may be recommended for graduation "with distinction."

#### LIMITATION OF REGULATIONS

*Reservation of Right to Change Rules.* The Faculty reserves the right to modify or change requirements, courses, rules and fees in The School of Medicine.

#### DEPARTMENTS OF INSTRUCTION

The work of the School is organized under the following departments:

- (1) Anatomy, including embryology and histology.
- (2) Bacteriology and Pathology, including clinical microscopy, preventive medicine and hygiene.
- (3) Biochemistry, including clinical chemistry.
- (4) Medicine, including allergy, dermatology, neurology, pediatrics, tropical medicine, physical diagnosis, psychiatry, medical jurisprudence and syphilology.
- (5) Obstetrics and Gynecology.
- (6) Pharmacology.
- (7) Physiology, including clinical physiology.
- (8) Surgery, including urology, laryngology, military surgery, ophthalmology, orthopedics, otology, and roentgenology.
- (9) Military Science and Tactics.

*Clinics.* Courses of clinical instruction are included in the announcements of the Departments of Medicine, Surgery and Obstetrics and Gynecology. The Assistant Dean assigned to the Clinical Division prepares schedules of clinics and student section assignments to the various hospitals and dispensaries. Under the guidance of specialists each student administers anaesthetics, assists at operations and confinements and studies the care and treatment of cases admitted to the medical wards.

## THE PLAN OF INSTRUCTION

Each year of the medical course is divided into the fall (12 weeks), winter (10 weeks), and spring (11 weeks) trimesters. The course for the degree of M.D. must begin with the fall trimester. Admission requirements are given elsewhere but students must have constantly before them the necessity of thorough preparation as a basis for medical instruction.

The different branches of medical instruction are arranged in a specific order. There is a coordination in the work of the several departments that enables the student to concentrate his attention upon the subject material so as to give him not only a single subject, but also the allied subjects in such a way that they can be readily understood and recognized as integrated parts of a unified training. The salient features in the method of instruction are thorough laboratory training, demonstrations, clinical teaching, with recitations and lectures to clarify the many problems presented. Under such a system of instruction there can be no sharp discrimination in teaching of laboratory and clinical courses. The clinical material in the University Hospital and Dispensary is utilized to the fullest extent both for clinical instruction and laboratory work. Additional clinics are given in other hospitals in the city to which members of the Faculty of The School of Medicine are attached. The one policy of the School is to give a comprehensive, well-grounded, well-proportioned course that will adequately instruct students in the fundamentals of medicine.

### FIRST YEAR

During the first year the time of the students is devoted to anatomy, histology and embryology (which is carried on by demonstrations to sections and by work in the dissecting room), physiology and chemistry. The work in general anatomy is designed to cover the entire subject in such a manner as to afford the student a practical working basis for the later studies in medicine and is so correlated and taught as to emphasize the value of relation and function as well as that of structure. Instruction in physiology begins in the first year and is continued throughout the first trimester of the second year. Physiology is presented as far as practicable as an exact science although the clinical aspects of the subject are almost constantly in the foreground. Physical and physiological chemistry are taught by lectures, demonstrations, recitations and practical work in the laboratory. The work in physical chemistry is completed in the first year. Instruction is given concerning personal hygiene, care of laboratory equipment, general conduct and adaptability for the profession of medicine.

### SECOND YEAR

During the second year the work in anatomy, physiology, pathology, bacteriology, immunology and pharmacology is completed. Courses in

clinical chemistry, preventive medicine and hygiene are given. The work in bacteriology and immunology is taught by lectures, laboratory work and conferences. Emphasis is laid upon those parts of the subject matter which are directly pertinent to the pathology of infectious diseases, the diagnosis of these diseases and their treatment. The medical problems of bacteriology are illustrated by means of materials obtained from the hospitals. Immunological and serological technique are presented to the student by means of group instruction. The preventive aspects of the physician's work in relation to infectious disease are considered.

#### THIRD YEAR

During the third year there are lectures and conferences in medicine, surgery, obstetrics, gynecology, pediatrics, therapeutics, clinical microscopy, roentgenology and medical jurisprudence. There are clinical lectures, demonstrations, diagnostic clinics, operative clinics and follow-up clinics in medicine, surgery, urology, obstetrics, gynecology, neurology, psychiatry, pediatrics, ophthalmology, dermatology, syphilology, laryngology, otology, and orthopedic surgery. The class is organized for instruction in physical and medical diagnosis and for practical work in the dispensaries and hospitals. There is special drill in history taking and the practical technique of physical diagnosis.

#### FOURTH YEAR

During the fourth year the class is divided into small sections and required to attend ward clinics in The University Hospital, Callinger Municipal Hospital, The Garfield Memorial Hospital, The Children's Hospital, Providence Hospital, St. Elizabeth's Hospital, The Tuberculosis Hospital. Few lectures are given. The work is almost entirely practical and bedside instruction. In the diagnostic clinics students have the opportunity of applying the various methods of precision (the principles of which they have already studied) and are expected to become familiar with case history, make diagnoses, give prognoses, advise treatments and watch the progress of cases. A course is given in Medical History and General and Medical Ethics.

#### COURSES OF INSTRUCTION

The courses of study will be found listed in alphabetical order beginning on page 214.

# THE SCHOOL OF NURSING

## OFFICERS

CLOYD HECK MARVIN, Ph.D., LL.D., *President of the University.*  
WILLIAM CLINE BORDEN, M.D., *Dean of The School of Medicine.*  
ETHEL RUTH SCHOFF, *Principal of The School of Nursing.*

## INTRODUCTORY STATEMENT

### HOSPITAL

The George Washington University Hospital is a general hospital with 110 bed capacity, non-sectarian, for white patients only. It is located at 1339 H Street N.W., in the central part of the city. Connected with the Hospital is a Dispensary having a large out-patient service, so that the institution affords a thorough and practical experience in medical, surgical, gynecological, obstetrical and emergency nursing and the administrative work incident to a hospital.

The Hospital Staff are all members of the Faculty of Medicine of the University School of Medicine, and the nurses receive the benefit arising from instruction, and the nursing of cases, under these trained teachers.

### ADVANTAGES

Nurses in training in this institution have advantages incident to University association. The class-room and laboratory equipment of the University School of Medicine which adjoins the Hospital, are used by the student nurses for class work.

### NURSES' HOME

The Nurses' Home, Parkside Hotel, 1336 I Street N.W., with a resident matron, is located a short distance from the Hospital.

### BOARD OF LADY MANAGERS

The Hospital and the School of Nursing are materially assisted by an efficient Board of Lady Managers whose personal interest and financial assistance do much to improve these institutions.

## ADMISSION REQUIREMENTS

1. Candidates for admission must present certificates of graduation from accredited high schools or other preparatory schools or certificates of advanced standing showing credit for work in an accredited college previously attended.

2. Applicants must be over eighteen years and under thirty-five years of age, and must submit evidence of being physically sound and of good moral character.

Certificate blanks will be furnished upon application to the Principal of The School of Nursing.

## REGISTRATION

Students entering the course will register with the Principal of the School of Nursing.

### REQUIREMENTS FOR GRADUATION

Candidates for the Diploma in Nursing must be not less than twenty-one years of age, of good moral character, have satisfactorily completed all required work and have passed all examinations.

### COURSE LEADING TO THE DIPLOMA IN NURSING

A three-year course leading to a Diploma in Nursing is offered. Approved applicants will be received on probation for a period of four months, at the end of which time those who appear to be fitted for the Nursing profession will be accepted as student nurses. The remainder of the three-year course is devoted to didactic and laboratory instruction and to fundamental professional training in the University Hospital. Special courses in Pediatric Nursing, Eye, Ear, Nose, and Throat Nursing, and Mental Nursing are included in the third year.

## COURSES OF INSTRUCTION

For a description of the courses of instruction offered see the special announcement of The School of Nursing.

## FEES AND REMUNERATION

During the Probationary period no monetary remuneration is allowed. From the date of acceptance as a Pupil Nurse a remuneration of twelve dollars a month is allowed during the course of training.

A graduation fee of \$10.00 is charged for certificate in nursing.

## REGULATIONS

## RESIDENCE

While engaged in hospital training all students are required to live in The Nurses' Home where no charge is made for room, board and laundry. All baggage must be sent to The Nurses' Home.

## EQUIPMENT AND UNIFORMS

All students when admitted to The School of Nursing must provide themselves with a complete uniform outfit, as prescribed by the Principal of the School.

Probationers are required to bring with them two laundry bags, one pair of rubbers, two pairs of black oxford shoes with military rubber heels, black hose, one kimono, one napkin ring marked with name, one watch with second hand (Ingersoll Midget or equivalent is recommended). All articles of clothing must be plainly marked with name in full with indelible ink. All student nurses will furnish hair nets and wear them while in uniform.

When probationers are accepted as student nurses, scissors, necessary text-books, hilts, and the School cape will be supplied them and charged for at cost price. The School cape may not be taken from the School unless the nurse graduates.

Jewelry is not worn on duty, and if of any value should be left at home. If brought to The Nurses' Home it will be at the owner's risk.

#### ATTENDANCE

Absence from duty on account of severe illness in the hospital or certified to by the University Physician in excess of three weeks during the course must be made up. When a student nurse is absent for any cause exceeding six weeks she will forfeit her position in the School but may enter the succeeding class, if approved by the Executive Committee. No payment will be made for time lost by illness.

Two hours are allowed week days for rest, study and recreation; also one-half day (after 1 p. m.), each week and one-half day on Sunday.

Student nurses will be allowed a vacation of two weeks for each year of training, including the probationary period.

#### MEDICAL ATTENTION

In case of illness all students in The School of Nursing will receive medical attention and care in the Hospital when necessary.

#### CONDUCT AND RECORD OF STUDENTS

Pupil nurses may be dropped at any time for inefficiency, misconduct, unsatisfactory record, or whenever in the interest of the student nurse or the School the Executive Committee of The School of Nursing deems it advisable to do so.

#### STUDENT ADVISORY COUNCIL OF THE SCHOOL OF NURSING

An advisory council consisting of three pupil nurses is established in the School.

The purpose of this council is to develop a closer cooperation between the nurses' student body, the faculty of the School, and the administrative authorities of the Hospital; to aid in the enforcement of discipline and to secure strict conformity to the rules of the School; to devise ways and means for social activities; and to encourage higher ideals.

#### OTHER REGULATIONS

Students in The School of Nursing are students in The George Washington University and as such may be subject to the University regulations as stated beginning on page 65 of the University Catalogue.

For further information apply to:

The Principal of The School of Nursing,  
The George Washington University Hospital,

## INTRODUCTORY STATEMENT

The George Washington University Law School, established in 1826, discontinued somewhat later and reorganized in 1865, is the oldest in the District of Columbia. The course of instruction for the degree of Bachelor of Laws, originally requiring two years, was increased in 1898 to three years. A course leading to the degree of Master of Laws was added in 1877. In 1900 the school took part in the organization of the Association of American Law Schools, and has been a member of the Association since that time. In 1911 the school became co-educational. In 1924, in compliance with the requirements of the American Bar Association and of the Association of American Law Schools, the late afternoon course for employed students was increased to four years. On September 1, 1925, the entrance requirements, also in compliance with the requirements of the associations mentioned above, were increased to two years of college work. The school is approved by the Council of Legal Education of the American Bar Association. Since September 1, 1925, it has occupied a new law building, designed and constructed for its use. This building has been named Stockton Hall in honor of the late Rear Admiral Charles H. Stockton, President of the University from 1910 to 1918. The building contains nine class rooms, library space with a maximum capacity of 40,000 volumes, and ten offices for professors.

## LIBRARY

The Law School Library contains the decisions of the highest courts of all the States, the reports of the United States Supreme Court and other federal courts, the English Reprints and English Law Reports, the United States statutes, the statutes of forty-one states, the English statutes, the principal English and American digests, legal encyclopedias and collections of annotated cases, and the leading text books and legal periodicals.

The library is open from 9:00 A. M. to 11:00 P. M. on week days and from 2:00 to 6:00 P. M. on Sundays.

## ACADEMIC YEAR

The academic year 1930-1931 begins on Wednesday, September 24, 1930, and closes Wednesday, June 10, 1931.

The academic year is divided into two semesters, the second beginning Monday, February 2. In addition there is a summer session of two terms of six and a half weeks each. The summer session of 1930 will begin June 15, the second term beginning July 30.

Registration is permitted at the beginning of the second semester. First year students taking the late afternoon classes may enter at that time for a regular course of ten hours per week. Such students may, by attending

the following summer session, complete most of the first year afternoon course. Other students may register for second semester subjects which they are qualified to take but not for year subjects.

Students who complete their work for the degree at the end of the first semester may be recommended for graduation at the mid-winter convocation February 22.

### ADMISSION REQUIREMENTS

#### FOR THE DEGREE OF BACHELOR OF LAWS

Candidates for this degree must have completed before admission fifteen units of approved secondary school work, and at least two years, sixty semester hour credits, of approved college work. The completion of this work must be evidenced by proper certificates. In no case will a student be admitted conditioned in any part of the entrance requirement. An application for admission may be rejected on the ground of unsatisfactory scholarship in pre-legal studies.

The college work required for admission may be completed in The Junior College of The George Washington University. Applicants for such college work should communicate with the Registrar of the University, 2033 G Street Northwest.

*Advanced Standing.* Students from approved law schools may receive not more than two years' credit toward the degree of Bachelor of Laws for work done in such schools. Applicants for admission with advanced standing must file certified transcripts of record showing high school, college, and law credits. The right is reserved to refuse such credit, in whole or part, or to allow it conditionally or after examination, and credit given may be withdrawn for subsequent poor work. No student will be admitted who has been in attendance at another law school and is ineligible, because of poor scholarship, to return to that school.

#### FOR THE DEGREE OF MASTER OF LAWS

Candidates for this degree must have at the time they register the degree of Bachelor of Arts or an equivalent degree from an approved college, and the degree of Bachelor of Laws or an equivalent degree from an approved law school. The two degrees must have been obtained in not less than six academic years.

#### SPECIAL STUDENTS

A limited number of persons who cannot qualify as candidates for a degree but who are over twenty-five years of age and because of their maturity, educational training and practical experience seem qualified to pursue the study of law, may be admitted by the Executive Committee of the Faculty as special students. No special student will be admitted who has not completed at least a four-year high school course.

Candidates for admission as special students must file written applications setting forth their qualifications in detail, and letters and certificates to prove the facts stated therein as to their education and experience. Work done by special students will not be counted toward the degree.

#### UNCLASSIFIED STUDENTS

Persons eligible for admission to regular standing may, in the discretion of the Dean, be admitted as unclassified students, to courses aggregating not more than four hours per week.

#### APPLICATION FOR ADMISSION

Applications for admission and certificates of pre-legal study should be filed with the Secretary of The Law School not later than ten days before the registration period. Applications for admission with advanced standing should be filed with the Dean of the Law School not later than ten days before the registration period.

#### REGISTRATION

Before attending classes each student must present himself in person for registration. No student will be registered in The Law School until proper credentials have been filed and approved by the proper officers of The Law School. (See Admission, above.)

Only with the approval of the Executive Committee may a student be permitted to register in the second semester of a year subject before he has completed the attendance in the first semester of that subject.

In all cases where students are permitted to register in one semester of a year subject they must register for the other semester of that subject not later than one calendar year from the time the attendance in the first semester was completed.

Registration at the beginning of the academic year indicates the student's program of study for the entire year unless otherwise stated. At the beginning of the second semester all programs for that semester must be rechecked and approved, and the initial payment of tuition fees made. Until this has been done the student will not be placed on the rolls for the semester.

Registration days for the academic year 1930-31 will be Friday to Tuesday, September 19 to 23, both inclusive, and Friday and Saturday, January 30 and 31. Except where special permission is given, students must register on the regular registration days. A late registration fee of \$5.00 will be charged each student who is permitted to register after the regular registration days. No registration may be made for a semester subject after the first two weeks for a semester or for a year subject after the first four weeks of the year.

*Change of Registration.* Registration may be changed only with the permission of the Dean. A fee of \$2.00 will be charged for each change authorized after registration.

## FEES AND FINANCIAL REGULATIONS

See pages 50-54.

## SCHOLARSHIPS AND LOAN FUNDS

*Scholarships.* Scholarships are administered by the University Committee on Student Loans and Scholarships. Applications should be made to The Registrar of the University, in accordance with instructions stated on pages 55 and 63.

*Loan Funds.* Through the generosity of friends of the University a number of loan-funds are available to students in The Law School. Among these is the Henry Strong—William A. Maury Scholarship Loan Fund, established by the Henry Strong Educational Foundation in memory of Henry Strong and William A. Maury.

## PRIZES

*Ellsworth Prize.* The Ellsworth Prize of \$25.00 is offered by Mr. Fritz v. Briesen to the student doing the best work in the subject of Patent Law Practice. Awarded in 1928-29 to Arturo Casanova.

*Samuel Herrick Prize.* A prize of \$25.00 donated by Samuel Herrick, Esq., is awarded annually to that member of the graduating class (excepting the winner of the John Bell Larner Prize) who has attained the highest average grade in the work of the third year. Awarded in 1928-29 to Marian B. Phelps.

*John Bell Larner Prize.* A gold medal donated by Mr. John Bell Larner, Chairman of the Board of Trustees of the University, is awarded annually to that member of the graduating class who has attained the highest average grade in the entire course for the degree of Bachelor of Laws. Awarded in 1928-1929 to Charles V. Laughlin.

*Ordronaux Prizes.* A prize of \$50.00 is awarded annually to the student taking the regular full-time course who has attained the highest average grade in the work of the first year. A prize of \$50.00 is awarded annually to the student taking the regular full-time course who has attained the highest average grade in the work of the second year. This prize was formerly awarded annually to the student taking the regular course who attained the highest average grade in the work of the second year. Awarded in 1928-29 to Francis Kirkham.

## ORDER OF THE COIF

The Order of the Coif is a national honor society with chapters in twenty-eight law schools, the purpose of which is "to foster a spirit of careful study and to mark in a fitting manner those who have attained a high grade of scholarship." The George Washington University Chapter was established in 1926. Students are elected each year from the highest ranking ten per cent of the Senior Class of The Law School.

## DEGREES

The degrees are Bachelor of Laws and Master of Laws.

*Six Year Combined Course for the Degrees of Bachelor of Arts and Bachelor of Laws.* The University will confer the degree of Bachelor of Arts upon the completion of three years of college work and the first year in The Law School. (See *Columbian College Announcement*, page —.) The Bachelor of Laws degree will be conferred upon the completion of the remainder of the work for that degree.

*Six-Year Combined Course for the Degrees of Bachelor of Science in Engineering and Bachelor of Laws.* The University will confer the degree of Bachelor of Science in Engineering upon the completion of the first three years of the course for that degree in the College of Engineering of The George Washington University and the first year in The Law School. (See announcement of the general course in The School of Engineering, page 158.) The Bachelor of Laws degree will be conferred upon the completion of the remainder of the work for that degree.

## REQUIREMENTS FOR THE DEGREE OF BACHELOR OF LAWS

Candidates for the degree of Bachelor of Laws must satisfy the admission, residence, and scholarship requirements and complete the prescribed number of credit and required subjects.

*Residence.* The attendance requirement for this degree is three academic years for full-time students and four academic years for part-time students of which at least one academic year must be spent in residence at The George Washington University Law School. A year's attendance in the late afternoon classes for part time students is counted as residence for three-fourths of a year.

*Number of Credits.* The credit requirement is 80 semester hours. A semester hour is an hour a week of class work for one semester.

*Scholarship.* The 80 semester hours of work required must be completed with an average grade of at least "C," and not more than sixteen hours with a grade of "D" may be counted toward the degree.

*Required Subjects.* The following subjects are required for the degree of Bachelor of Laws: 111-112, Contracts; 124, Criminal Law and Procedure; 133-134, Personal Property; 137-138, Real Property I; 141-142, Torts; 163-164, Bills and Notes; 167-168, Civil Procedure; 171-172, Equity II; 177-178, Evidence; 187-188, Real Property II; 251-252, Constitutional Law; 257-258, Corporations; 281-282, Moot Court, or Patent Moot Court.

*Honors.* The degree of Bachelor of Laws "With Distinction" will be awarded students who obtain an average grade of "A."

#### REQUIREMENTS FOR THE DEGREE OF MASTER OF LAWS

Candidates for the degree of Master of Laws must complete twenty semester hours of work in subjects not counted toward the degree of Bachelor of Laws and must present a satisfactory thesis in a subject which has been counted toward the Master's degree.

Trusts, Conflict of Laws, and Constitutional Law, must be included in the course for the degree of Master of Laws if not previously taken. No first year subject and no second year required subject may be counted toward this degree.

This degree will not be conferred until one academic year after the candidate receives the degree of Bachelor of Laws.

*Scholarship.* Courses taken for the Master's degree must be completed with a grade of not less than "C" in each subject and with an average grade of not less than "B."

#### REGULATIONS REGARDING DEGREES

*Non-continuous Attendance.* Candidates absent for more than one continuous academic year may re-enter and continue their work only under the rules and regulations in force at the time of their return. The Executive Committee, however, may permit such students to continue their work under the entrance requirements in force at the time they were admitted to the School.

*Right to Refuse.* The right is reserved to refuse to confer a degree upon a candidate whose attendance or conduct has been unsatisfactory.

*Application for Graduation.* Application for graduation should be filed in the office of the Secretary at the beginning of the senior year.

#### HOURS OF INSTRUCTION

*Hours.* The regular course for full-time students is given from 9:00 A. M. until 1:00 P. M. Employed students may take the regular course in the classes held at 5:10 P. M. and 6:10 P. M.

*Courses Offered.* The statement of the courses of study offered will be found under "Law" in the alphabetical list beginning on page 214.

## REGULATIONS

Students registered in The Law School are governed by the University regulations as stated beginning on page 65.

## AMOUNT OF WORK

A student who takes a majority of his courses in the full-time section, from 9:00 A. M. to 1:00 P. M., may with the permission of the Dean take work not exceeding fifteen hours a week. For such students the minimum period of attendance is three academic years.

A student who takes a majority of his courses in the afternoon sections or in classes held before 9:00 A. M., may not register for more than ten hours per week. For such students the minimum period of attendance is four academic years.

The amount of work carried by any student may be restricted when in the judgment of the Dean the best interests of the student require it.

## GRADES

The grade of a student in each subject is indicated by the letter P, Pass; D, Conditional Pass; or F, Failed. The meaning of these grades is as follows:

P, Pass, means that the work has been successfully completed and full credit given for the subject.

D, Conditional Pass, means that credit is given for the subject but not more than sixteen semester hours of such credit may be counted toward the degree.

F, Failed, means that the work in the subject has been a failure and that no credit will be given. To obtain credit the student must repeat the subject; but a student who, in the work of the year has received a grade of F in one subject only and obtained a general average of C, may take the next regular examination in that subject, and if on such reexamination he attains the grade of C or better he will be given a grade of D (60) in the subject.

At the end of each academic year each student is given an average numerical grade for his work for the year. These numerical grades rank as follows: A, excellent, 85-100; B, good, 75-84; C, pass, 65-74; D, conditional pass, 55-64; F, failure, below 55.

## SCHOLARSHIP REQUIREMENTS

Unless a student in each academic year receives a grade above F in at least three-fourths of the semester hours in which he is registered and obtains a numerical average grade of not less than 60 he will be denied registration in the future, but upon written application to the Committee on Reinstatement.

ment showing sufficient cause, and after a personal hearing if he so desires, he may be reinstated on such conditions as the committee may impose.

*Graduation Requirement.* See "Requirements for the Degree of Bachelor of Laws," page 147.

#### ATTENDANCE

No student will be allowed credit in any subject unless he has been regularly registered and in regular attendance and has done all the work required in the course in that subject.

In the case of absences exceeding ten per cent of the class hours and less than twenty-five per cent, these absences shall be added at the end of the academic year and for each fifteen hours of such absence the student's credit for the year shall be reduced by one semester hour. If a student is absent for more than twenty-five per cent of the classes in any subject he shall not be eligible to take the examination in that subject or to receive credit therefor. In all cases absences due to late registration shall be included.

#### CHANGES AND WITHDRAWALS

Changes in courses and withdrawals may be arranged *only in the office of the Dean or Secretary*. Unless this is done students will be treated as registered for the subjects shown on the original registration blanks and fees will be charged accordingly.

*In no case will tuition fees be reduced because of non-attendance upon classes.*

Withdrawals during a semester may be granted by the Dean upon *written application setting forth reasons*. See also pages 54 and 65.

A fee of \$2.00 will be charged for any change in courses after registration.

#### EXAMINATIONS

Written examinations are held at the close of the first semester in subjects which are then completed and at the close of the second semester in all other subjects. All students are required to take the regular examinations in the subjects pursued, unless excused by the Dean. A student who, with the consent of the Dean, does not take the final examination in a subject with the class in which he is enrolled, may take the next regular examination given in the subject.

No student shall be given an examination in nor permitted to receive credit in less than an entire subject. In any case where a student is permitted to register for one semester only of a year subject he shall not take the examination in that subject until the other semester has been completed. If no regular examination in that subject is scheduled at the time the other semester is completed, then the student shall not be given a special examination but shall be required to take the next regular examination.

No special examinations will be given; except, that upon written application to the Executive Committee, showing sufficient cause, a candidate for a degree at a convocation before the next regular examination, if he would be entitled to take that examination, may, in the discretion of the committee, be given a special examination not less than sixty days after the one which he failed to take or to pass.

#### CLASSIFICATION OF STUDENTS

Students are divided into classes on the completion of semester hours of credit as follows:

First year to 27; Second year, 28 to 55; Third year, 56 or more.

## INTRODUCTORY STATEMENT

The School of Engineering was organized in 1884 under the name of The Corcoran Scientific School of The George Washington University.

## ADMISSION REQUIREMENTS

*General Requirements.* Candidates for admission to the Freshman Class are required to present fifteen units of accredited secondary school work, as follows:

English	3
Foreign Language	2
Plane and Solid Geometry	1½
Elementary and Advanced Algebra	2
Plane Trigonometry	½
Chemistry	1
Physics	1
History	1
Electives	3
<b>Total</b>	<b>15 units</b>

*Advanced Standing.* Candidates for advanced standing must present official transcripts of their records in the schools last attended.

*Special Students.* Special students must be over 21 years of age and must satisfy the instructor in each course which they wish to take of their ability to pursue the work of the course. No work taken by a special student will be credited toward a degree until he has met all entrance requirements and taken all prerequisites.

*Application.* For general regulations regarding admission and filing of credentials and the description of prescribed studies, see page 43.

## REGISTRATION

Before registration, schedules for new students and special students must be approved by the Dean. Schedules of other students must be approved by the executive officer of the department.

For registration procedure, see page 49.

## FEES AND FINANCIAL REGULATIONS

See pages 50-54.

## SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Scholarships.* The following scholarships may be assigned in The School of Engineering:

Henry Harding Carter Scholarship; Citizens' Military Training Camps Scholarship; Isaac Davis Scholarship; David Spencer Scholarship.

For particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For information concerning application for loan funds and their administration of the same, see page 63.

## DEGREES

The following degrees are granted for the satisfactory completion of four-year courses in The School of Engineering:

Bachelor of Science in Civil Engineering

Bachelor of Science in Electrical Engineering

Bachelor of Science in Mechanical Engineering

Bachelor of Science in Engineering

*Combined Engineering and Law Course.* The first year of the regular course for the degree of Bachelor of Laws may be accepted as the fourth year of the course leading to the degree of Bachelor of Science in Engineering. This makes it possible for a student to obtain in six years the degree of Bachelor of Science in Engineering and the degree of Bachelor of Laws. This combined course especially meets the needs of a student who plans to enter patent law.

The following professional degrees may be granted to graduates of The School of Engineering who have established themselves in their profession to the extent of having responsible charge of engineering work, and who have presented an acceptable thesis:

Civil Engineer

Electrical Engineer

Mechanical Engineer

## REQUIREMENTS FOR DEGREES

## BACHELOR OF SCIENCE

*Residence.* Of the work required for graduation, at least 33 semester hours must be completed at The George Washington University.

*Scholarship.* The student's grades in at least two-thirds of the required semester hours must be "C" or higher.

*Honors.* One grade of special distinction is recognized in awarding the Bachelor's degree. The names of all students who have received a mark of at least "B" in courses representing at least sixty per cent of all hours taken by them are submitted by the Dean to the Faculty. After separate consideration of each case, the Faculty may recommend the awarding of the degree "With Distinction."

*Application for Graduation.* Application for graduation should be made at the time of registration for the first semester of the senior year.

#### PROFESSIONAL DEGREES

1. Application for the professional degree may not be made within three years after graduation.
2. A detailed statement of the candidate's experience with references and the title of his thesis must be filed in the office of the Dean at least eight months before Commencement.
3. If his application is accepted, the candidate must meet such requirements pertaining to the preparation of his thesis as may be laid down by the executive officer of his department.
4. A bound copy of the thesis, typewritten on thesis paper, must be filed in the office of the Dean on or before the first day of April preceding Commencement.

No student shall be admitted to the Senior Year of this course whose grade number is below 2.00.

In computing the grade number, each hour with grade A, B, C, D, E, F, counts 4, 3, 2, 1, 0, —1 points respectively. The grade number is obtained by dividing the total number of points by the total number of hours.

NOTE 1. The requirements in Mathematics for this degree are College Algebra, Trigonometry, Analytical Geometry, Differential Calculus and Integral Calculus. Students whose preparatory school or entrance examination grades show ability in Mathematics, may upon the recommendation of the Department of Mathematics, be excused from either Algebra or Trigonometry or both of these subjects. Those excused from one shall begin their Mathematics with the other; those excused from both shall begin their Mathematics with Analytical Geometry and shall take a three-credit course in Mathematics, beyond Calculus. Students taking both Algebra and Trigonometry shall be allowed three credits only toward the twelve required for graduation.

NOTE 2. Electives in the freshman, sophomore and junior years should be taken from the following list:

Mechanism.

Surveying.

Structures.

Physics.

Machine Drawing.

Electrical Laboratory.

Mechanical Laboratory.

Foreign Language.

Mathematics.

Geology.

NOTE 3. The purpose of the senior year of this course is to allow students who have demonstrated their ability to do better than passing work, to center their attention upon a group of subjects in which they have special interest. To this end, schedules shall be arranged before the beginning of the senior year and approved by the Executive Committee.

The first year of the regular course in The Law School may be accepted as fulfilling the requirements for the senior year of this course, for those students who desire to take the *Combined Engineering and Law Course*.

#### HOURS OF INSTRUCTION

Class hours are so arranged that persons who can give only part-time to college work may complete a full engineering course and obtain a degree. Classes in all general studies of the engineering courses and in most of the technical subjects are regularly scheduled in the two class periods from 5:10 to 7:00 p. m.; and other technical courses are given in alternate years in these periods. Drawing and laboratory courses for students with limited schedules are ordered from 7:30 to 10:30 p. m.

The statement of courses of instruction will be found listed in alphabetical order beginning on page 214.

#### REGULATIONS

Students in The School of Engineering are subject to the general University regulations as stated beginning on page 65.

#### AMOUNT OF WORK

The program for students is set forth in the statement of curriculum requirements beginning on page 156. Students with limited programs usually take not more than nine periods a week, and only in exceptional cases will they be permitted to take more than ten periods per week.

#### GRADES

The following grading system is used:

A, 90-100; B, 80-89; C, 70-79; D, 60-69; E, conditioned; F, failed; Inc., Incomplete. "Incomplete" is a temporary grade which may be removed by meeting the conditions set by the instructor when the grade is reported. An "E" may be changed to a "D" within one year by meeting the conditions set by the instructor. An "F" necessitates the repetition of the course.

#### SCHOLARSHIP

*Requirement for graduation.* See "Requirements for Degrees," page 155.

*Delinquency.* The scholarship committee shall have the power to warn, place on probation or suspend a student whose work is unsatisfactory.

A student who has been suspended for poor scholarship may be readmitted only upon approval of the Scholarship Committee.

#### CHANGES AND WITHDRAWALS

All changes in schedule and withdrawals must be approved by the Dean before they become effective. See general regulations regarding change and withdrawal on pages 54 and 65.

#### CLASSIFICATION OF STUDENTS

Students are divided into classes on the completion of semester hours of credit as follows: Freshman, below 34; Sophomore, 34; Junior, 68; Senior, 100.

### INTRODUCTORY STATEMENT

The School of Pharmacy holds membership in the American Association of Colleges of Pharmacy. The object of the conference is to promote the interests of pharmaceutical education in all institutions holding member-

ship in the same and to maintain standard requirements for entrance and graduation.

All work offered in The School of Pharmacy meets the highest requirements of pharmaceutical instruction. The aim is to train pharmacists so as to enable them to perform intelligently and efficiently any work that may be required from a pharmacist with scientific training.

### ADMISSION REQUIREMENTS

*General Requirements.* Candidates for admission to the Freshman Class must submit 15 units of accredited secondary school work which shall include:

English, 3 units; Foreign Language, 2 units (both in the same language); Algebra, 1 unit; Plane Geometry, 1 unit; Electives, 8 units.

For general regulations regarding admission and filing of credentials and description of prescribed studies see page 43.

### REGISTRATION

See page 49.

### FEES AND FINANCIAL REGULATIONS

See pages 50-54.

### SCHOLARSHIPS, PRIZES, LOAN FUNDS

#### THE KALUSOWSKI MEMORIAL SCHOLARSHIP

The District of Columbia Retail Druggists' Association offers a yearly scholarship the value of which is equal to the tuition for the three-year course leading to the degree of Ph.G. This scholarship is offered to graduates of a four-year high school course in any high school in the District of Columbia, and is known as the Kalusowski Memorial Scholarship in memory of Dr. Henry E. Kalusowski, for many years Dean of The School of Pharmacy.

For other scholarships and for particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For information concerning application for loan funds, and their administration, see page 63.

### DECREES

The degrees conferred are Graduate in Pharmacy and Bachelor of Science in Pharmacy.

To be recommended for the degree of Graduate in Pharmacy, the candidate must have satisfied the admission, residence and scholarship requirements and have attended and passed satisfactory examinations in the courses of study in the three-year curriculum, amounting to at least 100 semester hours as specified.

To be recommended for the degree of Bachelor of Science in Pharmacy, the candidate must have satisfied the admission, residence and scholarship requirements and have attended and passed satisfactory examinations in the courses of study in the four-year curriculum, amounting to at least 132 semester hours as specified.

#### REQUIREMENTS FOR DEGREES

*Residence.* At least one year must be spent in residence at this School.

*Attendance.* Candidates for the degree of Graduate in Pharmacy must have attended at least 80 per cent of all required instruction during three sessions of 32 weeks each in three separate years; and candidates for the degree of Bachelor of Science in Pharmacy must have attended 80 per cent of all required instruction during four sessions of 32 weeks each in four separate years. Candidates must be present at the time specified for the final examinations, and also at commencement. The degree is not conferred in the absence of a candidate except by special consent of the President's Council.

*Personal Qualifications.* Every candidate for the degree of Ph.G. must be at least 21 years of age and of reputable character. He must have complied with the admission and other requirements herein set forth.

#### COURSES OF INSTRUCTION

The laboratory method of teaching is used. Recitation classes are held in connection with each course in order to provide systematic drill in the subjects. Students in Pharmacy have the advantage of instruction in all departments of the University.

Instruction is given during the day and late afternoon.

The courses of instruction offered will be found listed in alphabetical order beginning on page 214.

## REGULATIONS

Students registered in The School of Pharmacy are subject to the general University regulations, a statement of which will be found beginning on page 65.

## AMOUNT OF WORK

Normal work for any year shall be that outlined under the head of Curriculum Requirements.

A student who wishes to take more than the normal amount of work may do so only with the permission of the scholarship committee, who shall be guided in their decision by his scholastic record and the extent to which he is employed outside of school.

A student on probation shall not be permitted to carry more than the normal amount of work.

A student shall not register concurrently in the School of Pharmacy and in any other school of this or another institution except with the consent of the authorities of both schools. Evaluation of credit for work done in the other school shall be at the discretion of the Committee on Advanced Standing.

## GRADES

The following grades are given: A (90-100) excellent; B (80-89) good; C (70-79) average; D (60-69) passing; E (below 60) conditioned (not passing); F, failure; Inc., incomplete. A course failed must be repeated in order to be credited. A condition may be removed within one year under conditions set by the instructor, but in this case no final grade above D is given. As soon as possible after the close of the term a report is mailed to each student through the office of the Registrar. Grades are not given out by instructors. No student may repeat for credit a course in which he has received a mark above "E."

## SCHOLARSHIP

## HONORS.

Candidates who in their work and examinations attain general averages of 90 or more will be presented to the Faculty for consideration with reference to being designated as "having graduated with distinction." If in the opinion of the Faculty such candidates have shown themselves to be possessed of more than ordinary merit, they will have inscribed upon their diplomas beneath their degree the words "with distinction."

## POOR SCHOLARSHIP.

*Warning.* A student who makes a grade of "D" or below in more than one course shall be warned that he must improve his scholarship.

*Probation.* Students so warned who do not attain grades of "C" or higher in three-fifths of their work in the succeeding semester shall be placed on probation.

A student removes his probation when he attains a grade of "C" or higher in three-fifths of the work carried.

Students who fall under probation for the third semester, whether successive or after an interval, will be dropped.

*Dismissal.* A student who receives a grade of "E" or "F" in two courses in two successive semesters will be dropped.

Students dropped for poor scholarship may apply for readmission after an interval of a calendar year. A student applying for readmission under this rule must submit evidence to the Committee on Advanced Standing that during this absence from the University he has so conducted himself as to indicate that he will profit by readmission. Students dropped twice for poor scholarship will not be readmitted.

#### APPLICATION OF RULES.

For the purpose of these rules a Summer Session will be considered a semester.

*Students with Limited Schedules.* In the case of students with limited schedules these rules will be applied only when the student has undertaken seventeen units or multiples thereof, unless he shall sooner fall under the penalty. That is, his case will be judged when he has undertaken seventeen units, again when he has undertaken thirty-four units, always excepting cases which fall under this penalty sooner.

Courses duly dropped or graded "Incomplete" and courses in Physical Education will not be considered in any way in computing standing or eligibility under the scholarship rules.

#### ELIGIBILITY FOR STUDENT ACTIVITIES.

a. A student warned or on probation shall not represent the University on its athletic teams or in any other student activity, nor shall he serve as a member of a committee or as an officer in any class or student organization.

b. Before a student may participate in any student activity, or serve as an officer in any class or student organization, he must be certified as eligible by the University Registrar.

c. The Dean of The School of Pharmacy may declare a student ineligible to participate in any student activity when in the opinion of the Dean the student's participation in such activity would be detrimental to his own best interests or the interests of the University.

#### CHANGES AND WITHDRAWALS

After registration no student may change his program without the permission of the Dean; a charge of \$2.00 will be made for each change. In case of withdrawal from the University prompt notice should be sent to the Dean. Notice to a professor of withdrawal from his class does not effect its discontinuance.

A student is held responsible for all the work for which he is registered. After the first two weeks of a semester he may not change or drop courses or change his status to that of auditor except: (a) on the advice of his

physician, (b) change in the condition of employment, (c) necessary absence from the city, or (d) withdrawal from the University.

Changes in schedule from one section to another of the same course may be made at any time with the consent of the executive officer of the department. See regulations regarding changes and withdrawals on pages 54 and 65.

#### EXAMINATIONS

Examinations are held at the end of the course in each subject. Students who fail to appear at a regular examination will not be examined until the next regular examination except by special permission of the Scholarship Committee of the Faculty. For special examinations a fee of \$5 will be charged for each subject.

#### CLASSIFICATION AND ADVANCEMENT OF STUDENTS

Students are divided into four classes, according to their proficiency and the time spent, viz: first year, second year, third year, fourth year.

To be advanced, a student must not fail in more than one major or two minor subjects.

### PURPOSE AND SCOPE

It is the purpose of the School of Education to prepare teachers, supervisors and administrators for the higher ranges of educational service and to offer opportunities to teachers of experience to extend their training. The School embraces the departments of Education, Educational Psychology, Physical Education and Home Economics and is affiliated with all the other departments of the University in which the student is likely to elect work. Both graduate and undergraduate work are offered.

The schedule of courses is arranged to meet the convenience of both full-time and part-time students. By attending afternoon, Saturday and summer classes, teachers in the schools of Washington and vicinity may complete all the requirements for a degree without giving up their positions.

The courses of instruction offered will be found listed in alphabetical order beginning on page 214.

See page 49.

#### FEES AND FINANCIAL REGULATIONS

See pages 50-54.

#### SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Scholarships.* The following scholarships may be assigned to undergraduate students in The School of Education:

Maria M. Carter Scholarship; Citizens' Military Training Camp Scholarship; David Spencer Scholarship; John Wahington Scholarship.

For particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For information concerning the application for loan funds and their administration, see page 63.

#### REGULATIONS

Students registered in The School of Education are subject to the general University regulations, statement of which will be found beginning on page 65.

#### AMOUNT OF WORK

A normal program of work for undergraduate students is 16 hours a week. Students whose work averages "B" or higher may, with the Dean's permission, take 18 or 19 hours. More than 19 hours may not be taken except by special permission of the Faculty.

For employed students nine hours a week constitutes a normal program of work. Students whose work averages "B" or higher for the preceding semester may be permitted by the Dean to take 12 or 13 hours.

For graduate students 12 hours a week, exclusive of the thesis, constitutes a normal program of work. Employed students may not take more than nine hours a week.

A student may not register concurrently in The School of Education and in any other school or college except with the consent of the authorities of both schools.

#### GRADES

The following grades are given: A, excellent; B, good; C, average; D, passing; E, conditioned (not passing); F, failure; and Inc., incomplete. A course that has been failed must be repeated in order to be credited. A condition may be removed within one year under conditions set by the instructor, but in this case no final grade above D is given. The grade of D carries no credit in graduate work.

## CHANGE OF COURSE AND WITHDRAWAL

A student desiring to change any course must secure the permission of the Dean. In case of withdrawal from the School, students should send prompt notice to the Dean. Notification to a professor of withdrawal from his course does not effect its discontinuance. See also pages 54 and 65.

## UNDERGRADUATE DIVISION

## ADMISSION

Admission to the undergraduate division of the School is based on (a) the satisfactory completion of two years, 60 semester hours, of approved college work, or (b) graduation from an approved two-year normal school. Students meeting these requirements are admitted as *regular students*. Others may be admitted as *special students* to certain classes on the presentation of evidence that they are qualified to pursue the work to advantage. Not more than 30 semester hours of work earned as a special student may be counted toward a degree.

Unless offered for admission, general psychology must be taken concurrently with the first course in Education.

Students transferring from other colleges or from normal schools should request their high schools and their colleges or normal schools to transmit their credentials of work to the Registrar at least one month before the beginning of the session that they wish to enter. *All credentials must be in hand before the student may register.* Credentials are official and acceptable only when transmitted directly from school to school, without passing through the hands of the student.

## SCHOLARSHIP REQUIREMENTS

*For Graduation.* Two-thirds of the total amount of work taken for graduation must be passed with a grade of "C" or higher.

*Probation.* Students who pass in one-half or more of their work but who make a grade of "C" or higher in less than three-fifths of their work are placed on probation. A student is taken off probation when he has attained a grade of "C" or higher in at least two-thirds of his work. Courses duly dropped or marked incomplete shall be disregarded in obtaining this average.

*Dismissal for poor scholarship.* Students who fail to pass (E or F) in half or more of their work, based on a minimum of 16 semester hours are dropped.

*Readmission.* A student who has been dropped for poor scholarship may within ten days appeal his case to the Scholarship Committee through the Dean. If the case appears to be remediable and the student appears likely to improve in his scholarship thereafter, the Committee may readmit him on probation. A student who has been denied readmission on proba-

tion may petition the Scholarship Committee through the Dean for readmission after the lapse of one semester. A student who has been dropped twice will not be readmitted.

*Eligibility for participation in student activities.* While on probation a student may not represent the University on its athletic teams or in any other intercollegiate activities, nor serve as an officer or member of a committee in any class or student organization.

#### HONORS

*General Honors.* Three grades of general honors are granted on graduation by vote of the faculty: (1) "With Distinction," (2) "With High Distinction," and (3) "With Highest Distinction."

In computing the basis for graduation with distinction, the grade of A shall count 3 points, B—2 points, C—1 point, and D—0 points.

"With Distinction" may be granted to students whose record averages 2 points or higher.

"With High Distinction" may be granted to students whose record averages 2.5 points or higher.

"With Highest Distinction" is granted only by special vote of the Faculty on students whose record is extraordinary.

*Special Honors.* Special honors may be awarded by the faculty to members of the graduating class for outstanding achievement in the student's major field of work on recommendation of the major department under the following regulations:

1. The student shall have his candidacy for special honors approved by the faculty member representing the major department not later than the beginning of the senior year.

2. At least four weeks before the date of graduation the candidate shall submit to his major adviser a record of research or an essay attesting scholarly attainment.

3. The candidate shall meet such other conditions as the major department may set at the time the student's candidacy is approved.

*Honor Roll.* The names of students whose scholarship record as a whole is satisfactory and who have made an average of "B" or higher on a minimum of 15 semester hours of work preceding the close of any semester are placed on an honor roll and published. Students on the honor roll are placed upon their own responsibility in respect to class attendance.

#### DEGREES CONFERRED

The degrees of Bachelor of Arts in Education and Bachelor of Science in Physical Education are conferred in the Undergraduate Division.

#### REQUIREMENTS

To be recommended for a degree the student must have satisfied the admission, residence, and curriculum requirements.

*Normal School Graduates.* Graduates of accredited two-year normal schools are granted the degree of Bachelor of Arts in Education on the completion of 72 semester hours of work, including required courses.

The requirement in Education may be satisfied by the completion of 12 semester hours of work, exclusive of the six semester hours of credit granted for successful teaching experience. The unsatisfied requirements should be determined in consultation with the Dean.

*Advanced Courses.* At least 30 semester hours of work must consist of courses numbered 101 or above.

*Residence.* A minimum of one full year, or 30 semester hours, must be completed in residence. Summer Session work may be counted in residence but in no case may the period of residence aggregate less than 30 weeks. Unless special permission has been granted by the faculty to pursue the work elsewhere, the last work before graduation must be completed in residence.

*Application for Graduation.* Application for graduation should be filed with the Registrar at the beginning of the first semester of the senior year.

#### CURRICULUM FOR DEGREE OF BACHELOR OF ARTS IN EDUCATION

*General Requirements.* Exclusive of the two years of approved college work prescribed for admission, the University confers the degree of Bachelor of Arts in Education on the completion of the following 66 semester hours of work:

## GRADUATE DIVISION

### DEGREES CONFERRED

The graduate work for teaching is conducted under the direction of the Faculty of The School of Education. The degrees conferred are: Master of Arts (A.M.) and Doctor of Philosophy (Ph.D.).

### ADMISSION

To be admitted to graduate standing a candidate must hold a baccalaureate degree from an accredited school or college, or must have completed a course of study that is judged by the Faculty to be the equivalent. Candidates holding degrees from unaccredited institutions, whose work is judged by the Faculty to be more than 12 semester hours short of a standard baccalaureate degree, must register for the A.B. degree; others may remove their deficiencies while registered for a higher degree.

### GUIDANCE

Every candidate for a higher degree is under the guidance of a committee consisting of those members of the staff with whom he takes work counting toward the degree, the professor of his major subject being chairman. It is the duty of this committee to outline the student's program of work, to approve his choice of a thesis subject, to conduct all general examinations, and to determine if he shall be recommended for the degree.

### COURSES ACCEPTABLE

Courses numbered 1-100 may not be credited toward a higher degree but in certain instances such courses may be required as a basis for advanced work. Strictly graduate courses are numbered 201 and above. Courses numbered 101-200 may be credited toward a higher degree when approved by the student's committee and after the completion of additional work in them has been certified by the respective instructors in charge.

### THESES

Every candidate for a higher degree must present a thesis in his major subject. The thesis in final form must be typewritten on official thesis paper, obtainable at the Comptroller's office, and bound in cloth or leather. The title page must read:

(Title of Thesis)

By (Name of Candidate)

(Degrees held)

A thesis submitted to the Faculty of The School of Education of The George Washington University in part satisfaction of the requirements for the degree of (Name of degree).

(Date of convocation when degree is conferred.)

## TRANSFERRED WORK

Graduate work completed in other accredited institutions of learning may be credited toward a higher degree as follows:

Toward the master's degree, not to exceed 12 semester hours.

Toward the doctor's degree, not to exceed two years.

Advanced courses completed in excess of the requirements for the baccalaureate degree in The George Washington University may be credited toward a higher degree to the extent of 12 semester hours, provided the work fits in with the student's plan of specialization and is approved in writing by the Dean before it is undertaken.

Transferred work completed more than three years prior to registration for a higher degree at The George Washington University will be credited only if the candidate successfully passes an examination given by his committee on the subject matter of the work offered for credit.

## MASTER OF ARTS

## REQUIREMENTS

*Class Work.* The completion of a minimum of 24 semester hours. This amount of work may be increased by the student's committee when the student's previous preparation in his chosen field of study has been meager. The choice of subjects must be approved by the student's committee and must form a coherent plan of specialization. At least six semester hours of work must be chosen from courses numbered 201 or above.

*Thesis.* The thesis counts as six semester hours of work toward the degree and must be duly registered for. The thesis subject must be approved in writing and recorded in the Registrar's office not later than the beginning of the semester or summer session in which the thesis is due.

The thesis in completed form must be submitted to the Dean for record at least four weeks before convocation.

*Oral Examination.* At least three weeks before the convocation at which the degree is to be conferred, the candidate must pass an oral examination on his thesis and major field of work before a committee of at least five members appointed by the Dean. The conclusion of this examination, signed by the members of the examining committee, must be transmitted to the Dean by the chairman of the student's committee at least two weeks before convocation.

*Residence.* A candidate must pass in resident study at this University at least two semesters, or one semester and one nine-week summer term, or three nine-week summer terms, or four six-week summer terms.

## DOCTOR OF PHILOSOPHY

It is the function of the work leading to the degree of Doctor of Philosophy in The School of Education to prepare students for advanced teaching, administrative and supervisory positions, and to train them in the methods

of original research. The student must acquire through his class work and individual study a broad and thorough knowledge of his specialty, and he must produce a thesis that is adjudged to be a contribution to his chosen field of learning. The formal requirements of courses and residence should be looked upon as means to these ends.

#### ADMISSION TO CANDIDACY

Before being admitted to candidacy for the doctor's degree the student must pass a preliminary oral and written examination before a committee of at least five members appointed by the Dean. It is the primary function of this examination to determine the student's fitness for doing original work.

#### REQUIREMENTS

1. *Study.* The candidate must complete successfully a series of courses, readings, and research studies laid out by his committee.

Two-thirds of this work, including the thesis, must fall in one major field; the remainder may fall in one or two minor fields.

2. *Thesis.* The candidate must present a thesis based on original research in his major field of work. This thesis in final form must be transmitted to the Dean at least six weeks before the convocation at which the degree is to be conferred. It is recommended that the thesis be published in whole or in part.

3. *Written Examination.* At least one month before the degree is to be conferred, the candidate must pass a written examination, conducted by his committee, on his major field of work.

4. *Oral Disputation.* At least three weeks before being recommended for the degree, the candidate must successfully defend his thesis as a contribution to knowledge before his committee, supplemented by at least three other members of the Faculty. This examination is open to the public and all are privileged to question the candidate.

The returns and conclusions of both the written and the oral examinations, duly signed by the members of the respective committees, must be transmitted to the Dean for record and filing at least two weeks before convocation. The candidate shall be informed of the results of the examinations by the Dean.

5. *Languages; Statistical Methods.* At least eight months before he expects to receive his degree, the candidate must satisfy the proper University authorities that he is able to use as tools of research:

- (a) French and German, or
- (b) French or German and one other foreign language, or
- (c) French or German and statistical methods.

6. *Residence.* Before being recommended for the degree, the candidate must have spent at least three years in graduate study. Time spent in study at other accredited institutions may be counted but the last year must be spent in residence at this University.

### INTRODUCTORY STATEMENT

The George Washington University School of Jurisprudence and Diplomacy existed from 1898 to 1910 when it was discontinued as a separate

\*Arranged, with the exception of the President and the Dean, on the basis of collegiate seniority.

†On sabbatical leave 1930-1931.

school. The courses were given, however, in Columbian College until in September, 1928, when training in foreign service and governmental theory and administration was re-established as a separate branch under The School of Government.

It is the purpose of The School of Government of The George Washington University to give the students an understanding of the responsibilities under the Constitution of the United States in the conduct of public office—domestic and foreign. This can be accomplished, not through any single course, but through a curriculum which ties together social, economic, political, historical, and psychological studies.

The courses in domestic government train in the theory of and practice in local, state, and national positions. The courses in Foreign Service train students for the many opportunities offered in the foreign fields to carry out the ideals for which America stands, not only in governmental work but in the much wider field of foreign trade as conducted by private enterprise in all parts of the world. This training fits the student especially to assist American citizens who have occasion to travel or to do business abroad, to understand their reciprocal rights and duties, and to protect them in these rights without infringing upon the rights of others; as well as to collect and report information concerning commercial conditions and opportunities abroad. The student thus gains an insight into international affairs from both the American and the foreign point of view, with a resultant broader understanding of economic and political problems.

#### ADMISSION REQUIREMENTS

Admission to the undergraduate division in the School is based on a Junior Certificate from The Junior College or on the evidence of the satisfactory completion of two years of approved college work. Students meeting these requirements are admitted as regular students. These requirements include certain specified courses, which are indicated in The Junior College section of this catalogue.

#### REGISTRATION

See page 49.

#### FEES AND FINANCIAL REGULATIONS

See pages 50-54.

#### SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Scholarships.* The following scholarships may be assigned in The School of Government: Byron Andrews Scholarship; Maria M. Carter Scholarship; Citizens' Military Training Camps Scholarship; Isaac Davis Scholarship; A. Morehouse Scholarship; David Spencer Scholarship; Washington Scholarship.

For particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For particulars concerning application for loan funds and their administration see page 63.

## REGULATIONS

Students in The School of Government are subject to the general University regulations as stated beginning on page 65.

### AMOUNT OF WORK

1. Fifteen units constitute normal work. Students in good standing may be permitted by the Dean to take 16 or 17 units.

2. Students with an average of "A" or "B" may with the permission of the Dean take 18 or 19 units. No student may take more than 19 units except by special permission of the Scholarship Committee of the School.

3. For employed students, working more than 24 hours per week, nine units is normal work. Employed students in good standing desiring to take four unit courses may be permitted by the Dean to take ten units. Employed students who have maintained an average of "B" in the preceding semester may be permitted by the Dean to take 12 or 13 units.

4. A student shall not register concurrently in The School of Government and in any other school of this or another institution except with the consent of the authorities of both schools. Allowance of credit for work done concurrently shall be at the discretion of the Committee on Advanced Standing.

### GRADES

The following grades are given for undergraduate work only: A (90-100), excellent; B (80-89), good; C (70-79), average; D (60-69), passing; E (below 60), conditioned; F, failure; Inc., incomplete. A course that has been failed must be repeated in order to be credited. A condition may be removed within one year under conditions set by the instructor, but in this case no final grade above "D" is given. As soon as possible after the close of the term a report is mailed to each student through the office of the Registrar. Grades are not given out by instructors.

### SCHOLARSHIP

#### 1. SUPERIOR SCHOLARSHIP.

*Honor Roll.* The names of those who make an average of "A" or "B" in any semester will be placed on an Honor Roll and published. A place on the Honor Roll does not necessarily mean that a student will receive honors upon graduation.

## 2. POOR SCHOLARSHIP.

a. *Probation.* A student must maintain a total number of quality points within 5 of the total number of hours attempted or he will be placed on probation. A student remains on probation as long as he is more than 5 points behind.

b. *Dismissal.* A student who receives a grade of E or F in two courses in two successive semesters will be dropped.

Students who fall under probation for the third semester, whether successive or after an interval, shall be dropped.

Students dropped for poor scholarship may apply for readmission after an interval of a calendar year. A student applying for readmission under this rule must submit evidence to the Committee on Advanced Standing that during this absence from the University he has so conducted himself as to indicate that he will profit by readmission. Students dropped twice for poor scholarship will not be readmitted. For the purpose of these rules a Summer Session shall be considered a semester.

*Students with Limited Schedules.* In case of students with limited schedules these rules shall be applied only when the student has undertaken 15 units or multiples thereof, unless he receives a grade of E or F in two courses in two successive semesters.

Courses duly dropped or graded "Incomplete" shall not be considered in any way in computing standing or eligibility under the Scholarship rules.

## 3. SCHOLARSHIP REQUIREMENTS FOR GRADUATION.

See "Requirements for the Degree of Bachelor of Arts," page 183.

## ELIGIBILITY FOR STUDENT ACTIVITIES.

a. A student on probation shall not represent the University on its athletic teams or in any other student activity, nor shall he serve as a member of a committee or as an officer in any class or student organization.

b. Before a student may participate in any student activity, or serve as an officer in any class or student organization, he must be certified as eligible by the University Registrar.

c. A student may be declared ineligible to participate in any student activity by the Dean of the School when in the opinion of the Dean the student's participation in such activity is or would be detrimental to his own best interests or the interests of the University.

## CHANGES IN COURSE

1. A student desiring to change a course must secure the permission of the Dean.

2. A student is held responsible for all the work for which he is registered. After the first two weeks of a semester he may not change or drop

courses or change his status to that of auditor, except (a) on the advice of his physician, (b) change in the condition of employment, (c) necessary absence from the city, or (d) withdrawal from the University.

3. Changes in schedule from one section to another of the same course may be made at any time with the consent of the department chairman.

#### WITHDRAWAL

In case of withdrawal from the School, students should send prompt notice to the Dean. Notice to an instructor of withdrawal from his course does not effect its discontinuance. See also pages 54 and 65.

#### CLASSIFICATION OF STUDENTS

Students are divided into classes as follows:

Junior: a student who has earned 64 semester hours of credit.

Senior: a student who has earned 94 semester hours of credit.

#### HOURS OF INSTRUCTION

There are morning and afternoon sections in most courses, so that students may take work during the forenoon and early afternoon or in the periods between 5:10 and 7:00 o'clock. By taking the early morning, late afternoon and summer classes, and by extending the time of study beyond the customary four years, a student able to give only a limited amount of time to college work may complete the full course and obtain a degree.

The courses of instruction offered will be found listed in alphabetical order beginning on page 214.

#### THE DEGREE

On the satisfactory completion of the prescribed course of study the degree of Bachelor of Arts in Government, with a designation of the major field of study, is conferred.

#### REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS

*General Requirements.* Candidates for degrees must satisfy the admission, residence, scholarship, physical education and curriculum requirements, including 124 semester hours of work.

*Residence.* At least 30 semester hours, or 24 semester hours in the combined courses, and one year in residence must be completed in The School of Government. The work of the senior year is to be done in residence. Exceptions will require the approval of the Dean. Residence may be satisfied, in whole or in part, in the Summer Session, by periods aggregating not less than thirty weeks.

*Scholarship.* At least as many quality points as hours of credit are required for graduation. Quality points are figured as follows: A, 3 points; B, 2 points; C, 1 point; D, 0 point, for each semester hour of credit.

*Application for Graduation.* Application for graduation should be filed at the time of registration for the first semester of the senior year, and not later than thirty days before the date of graduation.

### CURRICULUM REQUIREMENTS

After the Junior College requirements,\* The School of Government requires a minimum of 60 semester hours for the two senior college years for recommendation for graduation. There are six curriculum groups each leading to the degree of Bachelor of Arts, with a designation of the major field of study. They are:

- I. Government
- II. Business Administration
- III. Finance
- IV. Domestic Commerce
- V. Foreign Service
- VI. Foreign Commerce

## INFORMATION ON CERTAIN BRANCHES OF GOVERNMENTAL FOREIGN SERVICE

### DEPARTMENT OF STATE

An act of Congress of May 24, 1924, provides for the reorganization of the Foreign Service, and consolidates the Consular and Diplomatic services so far as status of personnel and requirements for entrance are concerned. A bulletin entitled "American Foreign Service" reads, in part, as follows:

"Scope of Examination: The examination will be in two parts, one written and the other oral, each part counting equally. The written examination will include the subjects prescribed by the President, to wit: Modern languages (French, Spanish, or German is required, and a candidate may offer, in the oral test, in addition to one of these any languages with which he may be familiar); elements of international, commercial, and maritime law; political and commercial geography; the natural, industrial, and commercial resources and commerce of the United States with especial relation to the possibilities of trade expansion and protection; American history, government and institutions; the history since 1850 of Europe, Latin America, and the Far East, with particular attention to political and economic tendencies; and the elements of political economy. Candidates will be examined in arithmetic as used in commercial statistics, tariff calculations, exchange and simple accounting, and they will be rated in English, composition, grammar, punctuation, spelling, and penmanship as shown by their replies to questions in the written examination.

"The oral examination will be designed to ascertain the physical, mental, and temperamental qualifications of candidates for the proper performance of the duties of the Foreign Service; their character, ability, address, judgment, and fitness, general education and culture, and contemporary information, experience and business ability."

### FOREIGN SERVICE—DEPARTMENT OF COMMERCE

#### *Qualification Standards for Field Service.*

A bulletin entitled "Appointments to Positions at Home and Abroad in the Bureau of Foreign and Domestic Commerce," with reference to "Qualification Standards," reads, in part, as follows:

"The following qualifications are stated very broadly; several of them pertain particularly to applicants for foreign service. If the fact be kept in mind that there are two classes of field service—foreign and domestic—the reader will have little difficulty in determining to which of these classes any particular statement applies.

Aside from a good address and appearance, some of the principal requirements may be enumerated as follows:

(a) A thorough knowledge of the principles of economics, banking, commercial geography, and foreign trade.

(b) A thorough knowledge of international trade movements and practice.

(c) A general knowledge of export trade technique.

(d) A thorough reading and speaking knowledge of at least one foreign language of commercial importance.

(e) Residence or travel abroad is highly desirable.

(f) Experience in some business undertaking which gives a broad view of trade development and intimate knowledge of business practices.

(g) Ability to address public gatherings.

(h) Ability to write good, businesslike reports.

(i) A knowledge of the resources of the United States and familiarity with industrial development of the country in relation to both domestic and export trade."

#### MASTER'S WORK

##### DEGREES CONFERRED

The master's work is conducted under the direction of the Faculty of The School of Government. The degree conferred is Master of Arts (A.M.) with a designation of the major field of study.

##### ADMISSION

To be admitted to standing for third-year work in the School a candidate must have been granted a baccalaureate degree by an accredited school or college, or he must have completed a course of study that is judged by the Faculty to be the equivalent. Candidates holding degrees from unaccredited institutions, whose work is judged by the Faculty to be more than 12 semester hours short of a standard baccalaureate degree, must register for the A.B. degree; others may remove their deficiencies while registered for a higher degree.

##### GUIDANCE

Every candidate for a higher degree is under the guidance of a committee consisting of those members of the staff with whom he takes, or expects to take, work counting toward the degree, the professor of his major subject being chairman. It is the duty of this committee to outline the student's program of work, to approve his choice of a thesis subject, to conduct all general examinations, and to determine if he shall be recommended for the degree.

## COURSES ACCEPTABLE

Work credited toward a higher degree must be chosen from courses numbered 101 and above. Strictly graduate courses are numbered 201 and above. Courses numbered 101-200 may be credited toward a higher degree only when approved by the student's committee and after the completion of additional work in them has been certified by the respective instructors in charge.

## STUDENTS IN ATTENDANCE

Properly qualified students may be admitted as *Students in Attendance*, without becoming candidates for degrees.

## REGISTRATION

Before registering, a candidate for a degree must secure the written approval of his choice of subjects from his major department and the Dean.

For the statement of registration procedure see page 49.

## FEES AND FINANCIAL REGULATIONS

See pages 50-54.

## REQUIREMENTS FOR DEGREES

## MASTER OF ARTS

To attain the degree of Master of Arts candidates must complete successfully 24 semester hours of work, in addition to the thesis, forming a consistent plan of study.

- a. Courses will be selected with the adviser.
- b. At least 12 semester hours, plus the thesis, must be in the major subject.
- c. At least 12 semester hours must be taken in The School of Government, irrespective of the amount transferred from other institutions.
- d. Part of the work for the Master's degree may be taken in The School of Medicine or The Law School, but work so taken cannot be counted both towards the Master's degree and a degree in Medicine or Law. A candidate for the Master's degree may take not more than 12 semester hours in The School of Medicine or The Law School, but the major subject must be taken under a member of the Faculty of a non-professional school.
- e. The minimum amount in any one subject (not course) that will be counted toward the Master's degree is six semester hours.
- f. The course of study for the Master's degree must include Third Section courses (numbered above 200), which must count at least 12 semester hours unless the major department gives written permission to count less than 12.

#### ADVANCED STANDING

Advanced work in other institutions of learning may be credited toward the Master's degree in this University, to the extent of not more than 12 semester hours. Work completed here, or elsewhere, more than three years prior to the registration for a higher degree here, will be counted towards such a degree only if the candidate successfully passes an examination on the subject matter of the work offered for credit.

Advanced courses taken in the senior year of the college may be counted to the extent of not over 12 semester hours towards a higher degree, provided that the student shall notify the Dean of The School of Government at the beginning of each such course of his desire to count it towards a higher degree; but no work counted towards a Bachelor's degree shall be counted towards a higher degree.

#### RESIDENCE

A candidate for a Master's degree must pass in residence and study at this University at least two semesters, or one semester and one summer term of nine weeks, or three summer terms of nine weeks each or four summer terms of six weeks each. Students who plan to complete their work for the Master's degree in the minimum time, should consult the Dean well in advance of registering. No credit shall be granted for work done in absentia, i.e., without formal instruction here or at some other institution of learning, except for the thesis, which may be completed in absentia with the permission of the department concerned.

#### THESIS

A candidate for a Master's degree must present a thesis in his major subject. The thesis, which counts six semester hours towards the degree and is charged for at the same rate as courses, must be registered for by the candidate by the beginning of his final year. The choice of the thesis subject must be approved in writing by the professor in charge of the thesis and recorded at the Registrar's Office no later than the close of the registration period immediately preceding the term in which the degree is to be conferred. The student is expected to consult the professor in charge frequently in regard to the progress of work on the thesis. The thesis in its final form must have the approval of the professor in order to count towards the degree. Attention is called to "Regulations Regarding Theses" on page 110.

## THE DIVISION OF LIBRARY SCIENCE

### THE FACULTY

- CLOYD HECK MARVIN, PH.D., LL.D., *President of the University.*  
ALFRED FRANCIS WILLIAM SCHMIDT, A.M., *Professor of Library Science,*  
*Director of the Division of Library Science.*  
GEORGE FRANKLIN BOWERMAN, A.B., B.L.S., L.H.D., *Professorial Lecturer*  
*in Library Science.*  
ELIZABETH A. LATHROP, A.B., *Assistant Professor of Library Science.*  
CLARIBEL RUTH BARNETT, Ph.B., B.L.S., *Lecturer in Library Science.*  
CLARA WELLS HERBERT, *Lecturer in Library Science.*  
ELIZABETH ORLAN CULLEN, M.S., *Lecturer in Library Science.*  
MIRIAM UHLER CHISHOLM, A.B., *Associate in Library Science.*

### ADMISSION

*Requirements.* The Certificate of Junior Standing from The Junior College or its equivalent will be accepted for admission to The Division of Library Science. It is recommended that students expecting to enter the division should have at least two years of either French or German, courses in general psychology and principles of sociology, and a knowledge of type-writing.

Careful consideration will be given to the aptitude and personal qualifications for library work of all applicants. In general, an applicant over thirty-five years of age is not encouraged to enter training for service in public libraries.

*Advanced Standing.* Advanced standing will be allowed for courses taken in accredited colleges. Library experience will not be credited toward graduation. However, students with professional experience may be released from the practice work required in connection with class-room instruction.

*Special Students.* Persons not candidates for degrees may do the work as special students. Such students must be at least 21 years of age and must satisfy the department of their fitness to undertake the course.

For further regulations regarding admission and filing of credentials, and description of the prescribed studies, see page 43.

See page 49.

### REGISTRATION

FEES AND FINANCIAL REGULATIONS  
See pages 50-54.

## SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Scholarships.* The following scholarships may be assigned to students in The Division of Library Science.

Maria M. Carter Scholarship; Citizens' Military Training Camps Scholarship; Isaac Davis Scholarship; David Spencer Scholarship; John Withington Scholarship.

*Prizes.* See page 58.

*Loan Funds.* For information concerning the application for loan funds and their administration, see page 63.

## DEGREE AND COURSE

The courses in Library Science are designed to give students professional training that will prepare them to enter upon active library service. A two-year upper division curriculum, in combination with the required Junior College work, leads to the degree of Bachelor of Arts in Library Science.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS  
IN LIBRARY SCIENCE

*General Requirements.* To be recommended for a degree the candidate must have obtained the certificate of junior standing and satisfied the residence and the curriculum requirements of the Division, which include 60 semester hours of work.

*Residence.* Of the 124 semester hours in the Junior and Senior Colleges required for graduation, at least 30 must be taken in The Division of Library Science. Residence may be satisfied in the Summer Session by periods aggregating not less than 30 weeks.

*Scholarship.* Two-thirds of the total number of semester hours of work required for graduation must be passed with a grade of "C" or higher.

*Application for Graduation.* Application for graduation should be filed at the time of registration for the first semester of the senior year.

## CURRICULUM REQUIREMENTS

The curriculum is planned for students electing Library Science as a major. A librarian must have, in addition to executive training, scholarly attainments based on deep cultural interests and sympathies. He should be trained in the modern languages, and in history, sociology, literature, and science. The curriculum as outlined combines these features with the technical subjects.

## CURRICULUM REGULATIONS

1. Seniors of high scholastic record as well as college graduates satisfying the language and other curriculum requirements, may complete the

course in one year and receive the degree of Bachelor of Arts in Library Science.

2. *Basic Courses.* In the technical phase of Library Science, cataloguing and classification go together and precede all other courses, as they are involved in all other branches of library work.

3. *Major Subjects.* In addition to the major in Library Science, it is recommended that students choose as electives courses in some one field of study which shall constitute a secondary major.

4. *Required Courses.* A reading knowledge of French and German is required. In very special cases, however, some other language may be substituted for either, but not for both.

5. *Elective Courses.* When choice is indicated in the curriculum, the selection depends on the student's previous course of study, or his special preference. If a student presents satisfactory credit for a required course, an elective, subject to the approval of the Director, may be substituted.

JUNIOR YEAR

COURSES OF INSTRUCTION

Equal time units in both practice and experience in the University Library go with the periods of class-room instruction and discussion, and constitute integral parts of the course.

*Practice.* Students who have had adequate library experience will be released from this requirement. A limited number of students, who have the

qualifications and personality necessary for that service, will gain their experience in the Public Library of the District of Columbia; and a few others in special libraries, both governmental and institutional.

The graduate courses will be conducted with the cooperation of the Committee on Library Training of the District of Columbia Library Association, in part, at the Library of Congress under the immediate supervision of the Consultant in Bibliography and Research; in part, at the Public Library under the supervision of the Librarian; and in part, at several of the great special libraries in Washington under the direction of the Committee itself. Students will enjoy the advantage not only of becoming familiar with the administration and distinguishing characteristics of some of the most highly specialized libraries in America, but also of expert guidance and personal contact with outstanding men and women of the library profession.

*Courses Offered.* The courses of instruction offered will be found listed in alphabetical order beginning on page 214.

### REGULATIONS

Students in the Division of Library Science are subject to the general University regulations, statement of which will be found beginning on page 65.

### AMOUNT OF WORK

The normal program of studies for full-time students is indicated under "Curriculum Requirements." Nine hours a week, not including Physical Education, constitute a normal program of work for students with limited schedules.

### GRADES

The following grades are given: A, excellent; B, good; C, average; D, passing; E, conditioned (not passing); F, failure; and Inc., incomplete. A course that has been failed must be repeated in order to be credited. A condition may be removed within one year under conditions set by the instructor, but in this case no final grade above D is given.

Grades stand on the records as reported by the instructors. Except in the cases of courses reported "incomplete" and conditions, no grades can be changed.

### SCHOLARSHIP

At least as many quality points as hours of credit are required for graduation. Quality points are figured as follows: A—3 points, B—2 points, C—1 point, D—0 points for each semester hour of credit.

### SUPERIOR SCHOLARSHIP.

*Honor Roll.* The names of those who make an average of "A" or "B" in any semester will be placed on an Honor Roll and published. A place

on the Honor Roll does not necessarily mean that a student will receive honors upon graduation.

#### POOR SCHOLARSHIP.

*Probation.* A student must maintain a total number of quality points within 5 of the total number of hours attempted or he will be placed on probation. A student remains on probation as long as he is more than 5 points behind.

*Dismissal.* A student who receives a grade of E or F in two courses in two successive semesters will be dropped.

Students who fall under probation for the third semester, whether successive or after an interval, will be dropped.

Students dropped for poor scholarship may apply for readmission after an interval of a calendar year. A student applying for readmission under this rule must submit evidence to the Committee on Advanced Standing that during this absence from the University he has so conducted himself as to indicate that he will profit by readmission. For the purpose of these rules a Summer Session will be considered a semester.

Students dropped twice for poor scholarship will not be readmitted.

*Students with Limited Schedules.* In the case of students with limited schedules these rules will be applied when the student has undertaken fifteen units or multiples thereof, unless he receives a grade of E or F in two courses in two successive semesters.

Courses duly dropped or graded "Incomplete" and courses in Physical Education will not be considered in any way in computing standing or eligibility under the scholarship rules.

#### ELIGIBILITY FOR PARTICIPATION IN STUDENT ACTIVITIES.

While on probation a student shall not represent the University on its athletic teams or in any other intercollegiate activities, nor shall he serve as an officer or member of a committee in any class or student organization.

#### SCHOLARSHIP REQUIREMENTS FOR GRADUATION.

See "Requirements for the Degree of Bachelor of Arts," page 192.

#### CHANGES AND WITHDRAWALS

After registration no student may change his program without the permission of the Director of the Division; a charge of \$2.00 will be made for each change. In case of withdrawal from the University prompt notice should be sent to the Director. Notice to an instructor of withdrawal from his class does not constitute due notice. See also pages 54 and 65.

#### GRADUATE WORK

To be admitted to graduate standing in the Division of Library Science a student must have previously completed the required undergraduate courses and hold a baccalaureate degree. Such students as undertake graduate work in Library Science will confer with the Director of the Division concerning course and thesis requirements.

## THE DIVISION OF FINE ARTS

### THE FACULTY\*

CLOYD HECK MARVIN, Ph.D., LL.D., *President of the University.*  
NORRIS INCERSOLL CRANDALL, M.Arch., *Professor of Architecture, Director of the Division of Fine Arts.*

ALBERT BURNLEY BIBB, *Professor of the History of Art and Architecture.*  
ALBERT LEWIS HARRIS, B.S. in Arch., *Professorial Lecturer in Architecture.*  
DELOS HAMILTON SMITH, M.S. in Arch., *Professorial Lecturer in Architecture.*

SAMUEL BURTIS BAKER, *Professorial Lecturer and Critic.*  
\_\_\_\_\_, *Assistant Professor of Architecture.*

GEORGE RICHARD ROBERTS, A.M., LL.B., C.E., *Lecturer in Architecture.*  
EUGEN WEISZ, *Lecturer and Critic in Graphic Art.*

ETHEL BRAY, Ph.B., A.M., *Lecturer in Graphic Art.*  
DONALD CHENOWETH KLINE, B.Arch., *Instructor in Architecture.*  
ALBERT NELSON DAVIS, *Associate in Graphic Art.*

### GENERAL STATEMENT

#### OBJECTIVE

The purpose of the Department of Architecture is to give the student a knowledge of, and make him proficient in, the fundamental work involved in the practice of the professional architect. The creative work is by all means the most important and to this end the training in expression and design in the different Graphic Arts is especially stressed. The other work necessary for the complete academic preparation of the student to practice as a professional architect complements the creative work.

The purpose of the course in the Graphic Arts is to give the student a fundamental training in the Graphic Arts combined with the general training required for the completion of the college course. The student is prepared to specialize after completing this work.

#### SPECIAL EQUIPMENT

**Library.** The library contains about 2,000 volumes including most of the standard works on architecture, sculpture and painting; the Russell Sturgis collection of 7,500 carefully selected photographs of architecture, sculpture and painting; and the important architectural and art periodicals. The library rooms are adjacent to the drafting rooms.

The general library is also available to the students of this division. The Library of Congress, one of the most complete collections in this country, is also available to the student. Books may be borrowed for use in the library of the Division.

\* Arranged, with the exception of the President and the Director, in the order of collegiate seniority.

*Art Collections.* The National Gallery of Art, housed in the National Museum, the Freer Gallery of Art, and the Corcoran Gallery of Art, as well as the extensive collection of prints in the Library of Congress are all available to the student.

### ADMISSION REQUIREMENTS

Candidates for admission to the Freshman Class are required to present 15 units of accredited secondary school work as follows:

**I For the Architecture Course:**

English, three units; Foreign Language, preferably French, two units; Physics, one unit; Chemistry, one unit; Plane and Solid Geometry, one and one-half units; Elementary and Advanced Algebra, two units; Plane Trigonometry, one-half unit; Electives, four units.

**II For the Course in Graphic Art:**

English, three units; Foreign Language, two units (both in the same language); Algebra, one unit; Plane Geometry, one unit; Electives, eight units.

**III For Graduate Work:**

See Admission Requirements, page 201.

**IV Special Students and Auditors:**

(a) Practical or mature experience in Architecture or Art Work will be required for admission as special students.

(b) The Director may accept some students of mature experience as auditors who do not have the entrance requirements. No University credit will be given for any course at any time taken as an Auditor.

**V Advanced Standing:**

Advanced credit from Art and Architecture schools, not affiliated with an accredited college or University, may be established by registering in more advanced work of the same type for which credit is desired. If the work is satisfactory, the credit will be transferred from the institution at which previous training was received. Practical experience alone will not be accepted for advanced credit.

For general regulations regarding admission and filing of credentials and description of prescribed studies, see page 43.

### REGISTRATION

All schedules must be approved by the Director of the Division. For information regarding registration procedure, see page 49.

### FEEES AND FINANCIAL REGULATIONS

See pages 50-54.

## SCHOLARSHIPS, PRIZES, LOAN FUNDS

*Scholarships.* The following scholarships may be assigned to students in The Division of Fine Arts:

Maria M. Carter Scholarship; Citizens' Military Training Camps Scholarship; Isaac Davis Scholarship; David Spencer Scholarship; John Withington Scholarship.

For particulars of application and award, see page 55.

*Prizes.* See page 58.

*Loan Funds.* For information concerning application for loan funds and the administering of the same, see page 63.

## DEGREES AND COURSES

The Division of Fine Arts is composed of:

*Department of Architecture*, which offers a four-year professional course leading to the degree of Bachelor of Architecture.

*Department of Graphic Art*, which offers courses in which the student may earn the degree of Bachelor of Arts with a major in Art.

Graduate work is offered in both departments leading to the degree of Master of Fine Arts.

## REQUIREMENTS FOR DEGREES

## UNDERGRADUATE WORK

*Requirements.* To be recommended for a degree the candidate must have satisfied the admission, residence, physical education, and scholarship requirements and have completed the course of study prescribed. For the degree of Bachelor of Architecture, 140 semester hours of credit are required. For the degree of Bachelor of Arts, 124 semester hours of credit are required.

*Residence.* Of the total number of semester hours work required for the degree of Bachelor of Architecture, 36 must be completed in The Division of Fine Arts; of the work required for the degree of Bachelor of Arts, 30 must be completed in The Division of Fine Arts.

*Physical Education.* The physical education requirement consists of the prescribed freshman and sophomore assignments (see Announcement of Physical Education Courses), to be taken in the freshman and sophomore years by all students in the Department of Graphic Art taking three or more courses.

*Scholarship.* A "C" average in values is required for graduation.

*Honors.* At the beginning of each semester, a list will be posted of all students who have received an average of "B" in values or higher in all work taken in the semester immediately preceding. This will be called the Honor Roll. In order to take more work than is prescribed in the

regular curriculums, the student's name must be on the Honor Roll of the preceding semester.

The name of any student who receives an average of "B" in values or higher in all work attempted by him in pursuance of the degree will be considered by the faculty for graduation "With Distinction".

*Application for Graduation.* Application for graduation should be filed at the time of registration for the first semester of the senior year.

## JUNIOR AND SENIOR YEARS

The work of the junior and senior years is elective subject to the following restrictions:

1. All programs must be approved by the Director.
2. The following courses must be included:

Architecture 11-12, 111-112

Graphic Art 101-102, 103-104, 105, 111-112, 122

3. Not less than 30 semester hours of the 124 required for graduation must be taken in second and third section courses (numbered above 100).

## MASTER OF FINE ARTS DEGREE

Graduate work in the Fine Arts is conducted under the direction of the Faculty of The Division of Fine Arts. The degree conferred is: Master of Fine Arts (M.F.A.).

## ADMISSION

To be admitted to candidacy for the Master of Fine Arts degree a student must usually present a Bachelor's degree from an accredited institution. Students from unaccredited institutions may be admitted, at the discretion of the faculty, if recommended by the major department. Such students shall complete one semester's work in The Division of Fine Arts and receive the recommendation of the major department before registering for the degree.

*Students in Attendance.* Properly qualified students may be admitted as "Students in Attendance" without becoming candidates for degrees.

*Registration.* Before registering, a candidate must secure the written approval of his choice of subjects from his major department and from the Director of The Division of Fine Arts.

## GENERAL REQUIREMENTS

*Amount of Work.* To receive the degree of Master of Fine Arts, candidates must complete successfully 24 semester hours of work, in addition to the thesis, forming a consistent plan of study and subject to the following limitations:

(a) Courses may be elected from one, two, or three departments of the University.

(b) At least 12 semester hours, plus the thesis, must be in the major subject.

(c) At least 12 semester hours must be taken in this University.

(d) The minimum amount of work in any one subject (not course) is six hours.

(e) At least 6 semester hours of Third Section courses must be included in the course of study.

*The Major.* The major chosen for the Master's degree must be in the same work as that of the Bachelor's degree.

*Residence.* A candidate must pass in residence and study at this University at least two semesters, or one semester and one summer term of nine weeks, or three summer terms of nine weeks each, or four summer terms of six weeks each. No credit will be granted for work done in absentia except for the thesis which may be completed in absentia with the permission of the department concerned.

*Scholarship.* Twelve semester hours must be of at least "B" grade and the remainder of at least "C" grade.

*Thesis.* Each candidate for the Master of Fine Arts degree must present a thesis in his major subject and must register for it at the beginning of his final year. It will be equivalent to 6 semester hours credit. The choice of the thesis must be approved in writing by the professor in charge of the major and must be recorded in the offices of the Director of the Division and of the Registrar. If any portion of the thesis is presented in written form, it must conform to the following specifications: It must be typewritten or printed on official thesis paper and bound. The title page must read, (Title) by (name of candidate), a thesis submitted to the Faculty of The Division of Fine Arts of The George Washington University in part satisfaction of the requirements for the degree of Master of Fine Arts. (Date.) The completed thesis must be presented to the Director of The Division of Fine Arts on or before the dates announced in the University Calendar. Accepted theses, with their accompanying drawings, are the property of the University.

*Oral Examination.* At least three weeks before the convocation at which the degree is expected, the candidate must pass an oral examination on his thesis and major field of work before a committee of at least five members

appointed by the Director. The judgment of this committee must be written and signed by each member and transmitted to the Director at least two weeks before the stated convocation.

### COURSES OF INSTRUCTION

The courses of instruction offered will be found listed in alphabetical order beginning on page 214.

### REGULATIONS

Students in The Division of Fine Arts are subject to the general University regulations as stated beginning on page 65.

#### AMOUNT OF WORK

The normal program of studies for full-time students is indicated in the statement of curriculum requirements. Students with limited schedules will take a proportionately longer time to complete the courses.

#### GRADES

All drawing room courses (see courses listed under Drawing Room Fees, page —) are given the following grades:

Except in Architecture 1, 2, 4, 141 and 142 in which each problem and examination receive a stated number of points credit, points for each credit week are awarded at the end of each problem period as follows: AA—10; A—9; B—8; C—7; D—6; E—5; F—4 or less.

Advancement is made when the student receives 100 points. Points have the following values: A—4; B—3; C—2; D—1; E, F—0. The following University grades are given on values received: D—100-149; C—150-249; B—250-349; A—350-400.

The following grades are given in all other courses: A—90-100; B—80-89; C—70-79; D—60-69; E, conditioned; F, failed; Inc., incomplete.

"Incomplete" is a temporary grade which may be removed by meeting the conditions set by the instructor when the grade is reported. An "E" may be changed to a "D" within one year by meeting the conditions set by the instructor. In order to obtain credit for a course in which the grade "F" is received, the course must be repeated.

#### SCHOLARSHIP REGULATIONS

1. *Graduation Requirement.* See "Requirements for Degrees," page 199.
2. A student taking 12 semester hours or more whose scholarship is below a "D" average in values during any one semester, shall be subject to be dropped. A student taking less than 12 semester hours whose scholarship is below a "D" average in values during any two successive semesters, shall be subject to be dropped.
3. A student whose scholarship is below a "C" average in values shall be placed on probation. A student shall be taken off probation after he has

attained a "C" average or higher in values. A student who has been on probation for two successive semesters shall be subject to be dropped.

4. After an interval of one semester a student who has been dropped may apply for readmission.

5. A student who has been dropped twice for poor scholarship will not be readmitted.

6. *Eligibility for Student Activities:*

(a) A student on probation shall not represent the University on its athletic teams or in any other student activity, nor shall he serve as a member of a committee or as an officer in any class or student organization.

(b) A student may be declared ineligible to participate in any student activity by the Director.

#### ATTENDANCE

Regular attendance is required in all classes and at all criticism periods. Irregular attendance may cause the work of any student to be rejected. All drawing room work must be done in the drawing rooms of the University.

#### CHANGES AND WITHDRAWALS

After registration changes in program may be made only with the permission of the Director of the Division, and a charge of \$2.00 is made for each change. In case of withdrawal from the University prompt notice should be sent to the Director. Notice to an instructor of withdrawal from his course does not affect its discontinuance. See also pages 54 and 63.

#### CLASSIFICATION AND ADVANCEMENT

Students are classified as freshmen, sophomores, juniors and seniors. Advancement from class to class takes place when the students have completed the work assigned to the various years. (See "Curriculum Requirements.")

#### CONDUCT

Any student whose character or conduct is deemed harmful to the Division is subject to dismissal at any time from any course or from the University, whatever his scholarship record may be. Suspension for misconduct forfeits the right to compete for the school awards and the rebate of tuition paid for the current term.

#### LIBRARY BOOKS

Students are held responsible for any books removed from the Library and will be required to pay for loss, mutilation or damage done.

RALPH BAXTER FOSTER, A.M.	Assistant Professor of Romance Languages
ALAN THOMAS DEIBERT, A.M.	Assistant Professor of Romance Languages
JOHN ALBERT TILLEMA, Ph.D., LL.B.,	Assistant Professor of Political Science
SAUL CHESTERFIELD OPPENHEIM, A.M., J.D.	Associate Professor of Law

LOWELL JOSEPH RAGATZ, Ph.D.	Assistant Professor of History
CORTLAND DARKE BAKER, A.M.	Assistant Professor of English
WILLIAM STULL HOLT, Ph.D.	Assistant Professor of Political Science
EDGAR WILLIAM WOOLARD, Ph.D.	Assistant Professor of Mathematics
CARVILLE DICKINSON BENSON, A.B., LL.B., S.J.D.	Assistant Professor of Law
A. CURTIS WILCUS, Ph.D., University of South Carolina,	Visiting Assistant Professor of History
RAYMOND JOHN SEEGER, Ph.D., Presbyterian College,	Visiting Assistant Professor of Physics
KATHERINE TAIT OMWAKE, Ph.D.	Lecturer in Psychology
PAUL WILLIAM BOWMAN, A.M.	Instructor in Botany
BENJAMIN DOUGLASS VAN EVERA, M.S.	Instructor in Chemistry
JOHN RUSSELL MASON, A.M.	Assistant Librarian
DONALD CHENOWETH KLINE, B.Arch.	Instructor in Architecture
THELMA HUNT, Ph.D.	Instructor in Psychology
MARY QUICK BOWMAN, A.M.	Instructor in Zoology
ERNEST SEWALL SHEPARD, A.M.	Instructor in English
JOHN RUNYON LARGE, M.S.	Instructor in Botany
CAREY BIRDSONG JACKSON, M.S.	Instructor in Chemistry
PAUL EUGENE GROPP, A.M.	Instructor in German
WESLEY T. CRAVEN, Ph.D., New York University,	Visiting Instructor in History
PAUL SWAIN HAVENS, LL.B., Princeton University,	Visiting Instructor in English
BERNICE RANDALL ANGELICO, A.B.	Instructor in Music
WILLIAM THOMAS MCCLOSKEY, A.B.	Associate in Zoology
EUGEN WEISZ	Associate in Graphic Art
ELIZABETH PARKER, A.B.	Associate in Zoology
MIRIAM UHLER CRISHOLM, A.B.	Associate in Library Science
ALDEN HAYES EMERY, A.M.	Associate in Geology

## ASSISTANTS IN INSTRUCTION

JAMES LEWIS MONEYWAY, A.M.	Assistant in English
JAMES WHITLEY SUBER, B.S.	Fellow in Chemistry

## GENERAL STATEMENT

The Summer Sessions are an integral part of the University, and all courses given are similar to the corresponding courses given during the regular session. Courses are offered in Columbian College, The Graduate School of Letters and Sciences, The Law School, The School of Engineering, The School of Education, The School of Government, The Division of Library Science, and The Division of Fine Arts.

The Summer Sessions offer to students an opportunity to continue University work during the summer period. For teachers and librarians a wide range of professional courses is available.

### ADMISSION

See page 43.

### REGISTRATION

#### *Registration period for the Summer Sessions:*

Students in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, and the Division of Fine Arts, will register in Corcoran Hall, 725 21st Street N.W. The time for registration is as follows: from 8 a. m. to 12 and from 2 to 6 p. m., June 13 and 14 for the nine-weeks term, and June 27 and 28 for the six-weeks term.

Registration for credit in any classes offered by Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, or the Division of Fine Arts, closes on the third day after the class has started, and no change in program will be permitted after that time. For registration procedure in the Law School consult the announcement of the School, page 13.

The Summer Sessions constitute a regular short term of the University. Students dropped or suspended from any department of the University for any reason may not register in the Summer Sessions during the period of suspension.

### FEEES AND EXPENSES

All fees are payable at the office of the Comptroller, 2033 G Street N.W.

A statement of the fees and regulations in the Law School will be found in the announcement of the school on page 14. The fees and regulations in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the School of Government, the Division of Library Science, and the Division of Fine Arts are as follows:

Tuition Fee for each semester-hour of work taken	\$7.00
University Fee	3.00
Late Registration Fee	5.00
Reinstatement Fee	4.00
Laboratory Fees:	
Architecture 1-2, 4, 25, 26, 27, 28, 125, 126, 127, 128, 141, 142	\$4.00
Botany 1 and 2, each	5.00

Chemistry 5 and 6, each	\$8.00
Chemistry 35, 36, 41, 42, 135, 136, 145, 146, 297, and 298, each	10.00
Civil Engineering 5	2.00
Education 136	2.00
Geology 1 and 2, each	3.00
Graphic Art 5-6, 21, 22, 105-106, 121-122, 123	3.00
Library Science	1.00
Physics 7 and 8, each	5.00
Physics 9 and 10, each	8.00
Psychology 120	3.00
Zoology 121-122	10.00
Breakage Deposits, the amount paid in excess of breakage to be returned:	
Chemistry 5-6, 35-36, 135-136	\$15.00
Chemistry 41-42, 145-146, 297-298	20.00
Microscope Rental:	
Zoology	\$7.00

### FINANCIAL REGULATIONS

Fees are due upon registration, but the nine-weeks students may pay their fees in three equal installments: at the time of registration, July 1, and July 15; and the six-weeks students in two equal installments, at the time of registration and July 15. Students whose fees are not paid in full three days after the final dates mentioned will be dropped unless they have made arrangements with the Comptroller for later payment.

*Delinquency.* No student may register in any department of the University who owes fees in any other department of the University, and no student may reregister in any year who owes fees from any previous year.

*Auditors.* Auditors are charged the same fees as students who register for credit.

*Scholarships.* High school and other scholarships do not apply to work taken during the Summer Sessions.

### AMOUNT OF WORK

- No student may take more than three courses aggregating 9 semester-hours of credit. No part-time student may take more than two courses aggregating 6 semester-hours of credit.
- Students registered only during the six-weeks term may take not more than three courses aggregating 6 semester-hours of credit. Part-time students in the six-weeks term may take not more than two courses aggregating 4 semester-hours of credit.
- Students in the Law School may take not more than 4 semester-hours in each summer term.

### COURSES OF INSTRUCTION

Courses of instruction offered in the Summer Sessions are included in the general statement of courses beginning on page 214, and in the Summer Sessions Bulletin.

### REGULATIONS

Students registered in the Summer Sessions are subject to the general University regulations which are stated beginning on page 65.

For additional information regarding the Summer Sessions consult the Summer Sessions Bulletin.

COURSES OF INSTRUCTION

## ANATOMY

GEORGE BAIN JENKINS, M.D., *Professor of Anatomy, Executive Officer.*  
 WILLIAM BINFORD KING, A.B., M.D., *Associate Professor of Anatomy.*  
 OTHMAR SOLNITZKY, Ph.D., M.D., *Associate Professor of Anatomy.*  
 \_\_\_\_\_, *Instructor in Anatomy.*

Total number of hours required in Anatomy for the M.D. degree—860.

- 111-112-113. *Gross Anatomy* (480-60) Jenkins, King  
 The work in this course consists of instruction in osteology followed by the careful dissection and study of the entire body, supplemented by the use of models and prepared specimens. 15 hours per week in the first, second and third trimesters of the first year.
- 121-122-123. *Histology and Embryology* (288-60) Jenkins, Solnitzky, King  
 The work in histology includes the histogenesis and microscopic structure of the tissues and organs of the human body. Special emphasis is laid on the relation of structure to function. 9 hours per week in the first and second trimesters of the first year. The work in embryology embraces a study of normal development, using chick, pig and human material. Malformations and developmental errors are broadly considered. Stained sections, prepared embryos and models are used. 9 hours per week in the third trimester of the first year.
161. *Neuro-anatomy* (72-12) Jenkins, Solnitzky  
 A laboratory course on the gross and microscopic study of the human central nervous system. Special emphasis is laid on the functional significance of parts. 6 hours per week in the first trimester of the second year.
172. *Applied Anatomy* (20-20) Jenkins, King  
 This is a recitation course in which the important facts of regional and topographical anatomy are given in their application to the practice of medicine and surgery. 2 hours per week in the second trimester of the second year.

## ANTHROPOLOGY

TRUMAN MICHELSON, Ph.D., *Professor of Ethnology, Executive Officer.*  
CAROLINE BENEDICT CARROLL, A. B., *Lecturer in Archaeology.*

*Minimum requirement for the major: Anthropology 101-102, 121-122, 231-232; Sociology 27-28; Botany 107-108. (Certain courses in Geology, Geography, History, Sociology, and Zoology may be substituted, in part, for the above with permission of the Executive Officer.)*

### SECOND SECTION

101-102. *Basic Course in Archeology.* (3-3) Carroll  
A general course in archeology; both the Old and the New World will be considered as fully as time permits. Monday, Wednesday, Friday, 4:10 p. m.

121-122. *Introduction to Ethnology.* (2-2) Michelson  
A general course embracing man's place in nature; ancient man; the elements of physical anthropology; classification of living races; sociology, religious ideas, ethical ideas, and languages of primitive peoples; the beginnings of literature and art. Tuesday and Thursday, 5:10 p. m.

### THIRD SECTION

231-232. *Advanced Ethnology.* (3-3) Michelson  
Prerequisite: Courses 121-122. Monday, Wednesday, Friday, 5:10 p. m.

251-252. *Seminar in Ethnology.* (3-3) Michelson  
Prerequisite: Courses 231-232; permission of the Executive Officer of the department required. Hours to be arranged.

## ARCHITECTURE

ALBERT BURNLEY BIBB, *Professor of the History of Art and Architecture.*  
 NORRIS INCERSOLL CRANDALL, M. ARCH., *Professor of Architecture, Executive Officer.*

ALBERT LEWIS HARRIS, B.S. IN ARCH., *Professorial Lecturer in Architecture.*  
 DELOS HAMILTON SMITH, M.S. IN ARCH., *Professorial Lecturer in Architecture.*

\_\_\_\_\_, *Assistant Professor of Architecture.*  
 GEORGE RICHARD ROBERTS, A.M., LL.B., C.E., *Lecturer in Architecture.*  
 DONALD CHENOWETH KLINE, B.Arch., *Instructor in Architecture.*

During the academic year 1930-1931 special lectures will be given by the following persons: James Spear Taylor, A.B., Francis P. Sullivan, A.B., George W. Dalzell, LL.M., Louis Justement, B.S., Edwin H. Rosenbaum.

*Minimum requirements for the degree in Architecture: See curricula on page 200.*

### FIRST SECTION

- 1-2. *Architectural Drawing (1-1)* Kline and Assistant  
 Freehand lettering, stone jointing, and mechanical perspective. Drawing Room Fee \$3.00. *Section A*, Monday, 9:10 a. m. to 12. *Section B*, Monday, 7:30 to 10:30 p. m. *Summer term 1930: Daily except Saturday, 5:10 to 7:40 p. m.*
4. *Shades and Shadows (2)* Kline and Assistant  
 Methods of casting the conventional shades and shadows used in architectural design. Prerequisite: Mechanical Engineering 5. Drawing Room Fee \$3.00. *Section A*, Wednesday and Friday, 1:10 to 4:00 p. m. *Section B*, Tuesday and Thursday, 7:30 to 10:30 p. m. *Summer Term 1930: Daily except Saturday, 5:10 to 7:40 p. m.*
- 5-6. *Architectural Rendering (2-2)* Kline  
 Technique and Composition. *Section A*, Wednesday and Friday, 9:10 a. m. to 12. *Section B*, Wednesday and Friday, 7:30 to 10:30 p. m.
- †11-12. *History of Architecture (2-2)* Bibb  
 The Architecture of Ancient Egypt, Greece, Rome and the Medieval period. Monday and Wednesday, 6:10 p. m.

- †13-14. *Historic Ornament* (1-1) Bibb  
Periods and styles of Ancient, Medieval, Oriental, Renaissance, and Modern ornament. Tuesday, 5:10 p. m.

- †21-22. *Principles of Composition* (1-1) Crandall  
Elements of pictorial composition. Thursday, 5:10 p. m.

- †23-24. *Principles of Planning* (1-1) Crandall  
Plan composition for architectural design. Prerequisite: Architecture 21-22. Thursday, 6:10 p. m.

- 25-26. *Freshman Design* (2-3) Kline  
Classical orders and their application to simple architectural problems of from three to six weeks' duration. Nine-hour sketch problems. Must be taken concurrently with (or subsequently to) Architecture 4, 21-22. Drawing Room fee \$3.00 a semester. *Section A*, Tuesday and Thursday, 9:10 a. m. to 12. *Section B*, Tuesday and Thursday, 7:30 to 10:30 p. m. *Second semester, both sections*, Tuesday, 6:10 p. m. *Summer Term 1930*: Course 25 or 26, daily except Saturday, 5:10 to 7:40 p. m.

- 27-28. *Sophomore Design* (4-4) Kline  
Beaux Arts Institute of Design Class B Analytique and Project problems of from three to six weeks' duration. Nine-hour sketch problems. Prerequisite: Architecture 26. Drawing Room Fee \$6.00 a semester; Beaux Arts Fee \$8.00 a year. *Section A*, Monday, Tuesday, Thursday, Friday, 9:10 a. m. to 12. *Section B*, Monday, Tuesday, Thursday, Friday, 7:30 to 10:30 p. m. *Summer Term 1930*: Course 27 or 28, daily except Saturday, 5:10 to 7:40 p. m.

#### SECOND SECTION

- †111-112. *History of Architecture* (2-2) Bibb  
The Architecture of the Renaissance in its relation to Ancient and Modern Architecture. Prerequisite: Architecture 12. Tuesday and Thursday, 6:10 p. m.

- 125-126. *Junior Design* (6-6) Crandall  
Beaux Arts Institute of Design Class A and B Project problems of from three to six weeks' duration. Nine-hour sketch problems. Prerequisite: Architecture 28. Drawing Room Fee \$6.00 a semester; Beaux Arts Fee \$8.00 a year. *Section A*, Monday, Tuesday, Wednesday, Thursday, Friday, 9:10 a. m. to 12, and Monday, 1:10 to 4:00 p. m. *Section B*,

Architecture 125, Monday, Tuesday, Friday, 7:30 to 10:30 p. m. Course 126, Monday, Tuesday, Friday, 7:30 to 10:30 p. m. *Summer Term 1930*: Course 125 or 126, daily except Saturday, 5:10 to 7:40 p. m. Students with limited schedules may take Courses 125 and 126 for two semesters each.

127-128. *Senior Design (6-6)*

Crandall

Beaux Arts Institute of Design Class A projet problems of from two to six weeks' duration. Nine-hour sketch problems. Prerequisite: Course 126. Drawing Room Fee \$6.00 a semester; Beaux Arts Fee \$8.00 a year. *Section A*, daily except Saturday, 9:10 a. m. to 12, and Monday, 1:10 to 4:00 p. m. *Section B*, Course 127—Monday, Tuesday, Friday, 7:30 to 10:30 p. m.; Course 128—Monday, Tuesday, Friday, 7:30 to 10:30 p. m. *Summer Term 1930*: Course 127 or 128, daily except Saturday, 5:10 to 7:40 p. m. Students with limited schedules may take Courses 127 and 128 for two semesters each.

†131-132. *Architectural Construction (3-3)*

Roberts

Materials, processes, systems and practices of the building trades. Structural details, specifications, contracts and supervision. Building and zoning regulations. Prerequisite: Sophomore standing. Monday, Wednesday, Friday, 5:10 p. m.

†133-134. *Mechanical Equipment (2-2)*

Roberts

Water supply, sewage disposal, plumbing, heating, ventilating, electrical installation, elevators, and refrigeration. Prerequisite: Sophomore standing. Tuesday and Thursday, 5:10 p. m.

141-142. *Office Practice (2-2)*

Crandall

Working drawings, details, and specifications. Prerequisite: Course 132. Drawing Room Fee \$3.00 a semester. *Section A*, Tuesday and Friday, 1:10 to 4:00 p. m.; *Section B*, Wednesday and Thursday, 7:30 to 10:30 p. m. *Summer Term 1930*: Course 141 or 142, daily except Saturday, 5:10 to 7:40 p. m.

†143-144. *Professional Relations (1-1)*

Smith

The ethics of the profession of Architecture. Relations of the architect to the owner and contractor. Contracts, legal documents. Preliminary estimates for buildings, legal responsibility of the architect for estimates. Land values and their relation to cost of proposed building. Promotion and

investment, operation and revenue. Prerequisite: Senior standing. Tuesday, 5:10 p. m.

- 145-146. *Architectural Humanities* (1-1) Crandall  
Articles in current periodicals and special subjects. Prerequisite: Senior standing. Friday, 5:10 p. m.

### THIRD SECTION

- 211-212. *Seminar in History of Architecture* (2-2) Bibb  
Hours to be arranged.
- 231-232. *Advanced Construction* (2-2) Roberts  
Hours to be arranged.
- 251-252. *Seminar in Design* (2-2 to 6-6) Crandall  
Hours to be arranged.

## BACTERIOLOGY AND PATHOLOGY

OSCAR BENWOOD HUNTER, A.M., M.D., *Professor of Bacteriology and Pathology, Executive Officer.*

ROGER MORRISON CHOISSEY, B.S. M.D., *Associate Professor of Bacteriology and Pathology.*

GEORGE JOSEPH BRILMYER, M.S., M.D., *Associate Professor of Pathology.*

CLIFT PALSGROVE BERGER, A.M., *Associate Professor of Bacteriology.*

LEON STUART GORDON, A.M., M.D., *Instructor in Pathology.*

SAMUEL ROSS TAGGERT, M.D., *Instructor in Bacteriology and Pathology.*

WILLIAM FRANKLIN SHERIDAN, A.B., *Instructor in Pathology.*

CHARLES ROSENBERG, A.M., *Instructor in Bacteriology.*

WILLIAM FELLER, A.M., *Instructor in Bacteriology.*

Total number of hours required in Bacteriology and Pathology for the M.D. degree—701.

221. *Bacteriology* (144-32)

Hunter, Choisser, Gordon,  
Berger, Rosenberg, Feller

Lectures and quizzes in the field of bacteriology and immunology and their application to human medicine and welfare. The laboratory work covers the preparation of all the standard culture media, the general principles of sterilization and bacteriologic technic from the study of about a dozen typical, widely different non-pathogenic organisms. Subsequently, about fifty pathogenic bacteria are carefully examined by microscopic, cultural and serologic methods. The students prepare as far as practicable such special media as are needed for this work. 12 hours per week in the first trimester of the second year.

224-225. *Pathology* (392-136)

Hunter, Choisser, Gordon,  
Brilmyer, Taggert, Sheridan

General pathology, covers inflammation, repair, degenerations, the effects of plant (including bacteria) and animal parasites on the body, the effects of chemical and physical agents, the formation of new growths, etc. This is followed by special pathology of the organs and of the specific diseases. The laboratory work consists primarily of the histologic study of diseased tissues and neoplasms. Between two and three hundred sections are stained, mounted and loaned to each student. These sections are carefully exam-

ined and studied by the student who makes colored pencil drawings of the characteristic lesions shown by them. 12 hours per week in the second and 19 hours per week in the third trimester of the second year. Autopsies for second, third and fourth year students are held at the University and affiliated hospitals. Each autopsy includes presentation of the history and clinical findings of the case and demonstration of the gross pathology, followed later by clinical conferences with presentation of the microscopical findings.

234-235. *Preventive Medicine and Hygiene* (63-12)

Choisser, Rosenberg, Berger

The course in Preventive Medicine and Hygiene consists of lectures, recitations, laboratory work, sanitary excursions and sanitary surveys. Visits are made to the two principal types of water treatment plants, sewage treatment works, refuse disposal plants, dairy, pasteurization plants, schools, various industrial plants, and a county health organization. A study will be made of the organization and functioning of a city health department; and the students will make sanitary surveys of small towns. 3 hours per week in the second and third trimesters of the second year.

251-252. *Clinical Microscopy and Parasitology* (72-24)

Hunter, Choisser, Brilmyer, Berger

In the course in Clinical Microscopy the student is trained in the counting of the red and white blood cells, in the various methods of hemoglobin estimation, in differential leucocyte counting, in the study of malarial and other parasites, in the estimation of blood coagulation time, etc., in the microscopic study of the sediments of normal and pathologic urines, in the microscopic examination of stomach contents, of the feces, including a detailed study of those animal parasites, which are of interest from a medical standpoint, beginning with the protozoa and passing through the helminths and arthropods, in the microscopic examination of sputum, spinal fluids, pleural exudates, etc. The venomous animals, their venoms and the problems of immunity in this group are studied. The significance and value of all these microscopic findings as applied to pathology and diagnosis are considered. 3 hours per week, 24 weeks in the first and second trimesters of the third year.

**261-262. *Clinical Pathological Conferences* (30-0)**

Medical Staff and Hunter

Clinical records of cases dying in the University and Gal-  
linger Hospitals are presented by the student assigned to  
the case in the wards. Autopsy and clinical findings are  
compared with the clinical, and the specimens are demon-  
strated and examined by all present. 1 hour per week  
throughout the fourth year.

## BIOCHEMISTRY

JOSEPH HYRAM ROE, Ph.D., *Professor of Biochemistry, Executive Officer.*  
 OLIVER JOHN IRISH, M.S., *Associate Professor of Biochemistry.*  
 HAROLD ALBERT CRAFT, M.S., *Assistant Professor of Biochemistry.*

Total number of hours required in Biochemistry for the M.D. degree—239.

### 101-102. *Biochemistry* (176-80)

Roe, Irish, Craft

A series of lectures and recitations, supplemented by laboratory work, upon such subjects as hydrogen-ion concentration, indicators, methods of quantitative analysis, dialysis, osmosis, colloids, enzymes, radio-activity, and the structure of the atom, is given for about six weeks. The remainder of the course is devoted to physiological chemistry, which includes a study of the chemical structure and reactions of carbohydrates, fats, and proteins; the composition of the tissues of the body, and of milk, urine, and the secretions; the digestion and absorption of foods; metabolism; the basic principles of nutrition. Laboratory work is planned to supplement the lectures by a qualitative and quantitative study of the substances and physiological processes discussed, concluding with special experiments in metabolism. 8 hours per week in the first and second trimesters of the first year.

### 152-153. *Clinical Chemistry* (63-21)

Roe, Irish, Craft

A lecture and laboratory course covering the biochemical methods of analysis used as aids in the diagnosis of disease. This consists of the usual qualitative and quantitative methods of analysis of urine, blood, gastric juice and feces; the kidney and liver function tests; and the interpretation of laboratory findings with respect to diseased conditions. These studies are carried out upon pathological material from the University Hospital and other sources. 3 hours per week in the second and third trimesters of the second year.

### 297-298. *Research*

Hours, fees, and credits by arrangement.

Roe

## BOTANY

ROBERT FISKE GRIGGS, PH.D., *Professor of Botany, Executive Officer.*

\*WILLIAM WEBSTER DIEHL, M.S., *Lecturer on Mycology.*

JAMES EVERARD BENEDICT, JR., B.S. IN FOR., *Lecturer on Bryology.*

PAUL WILLIAM BOWMAN, PH.D., *Assistant Professor of Botany.*

\*PAUL VINCENT MOOK, M.S., *Instructor in Botany.*

JOHN RUNYON LARGE, M.S., *Instructor in Botany.*

---

*Minimum requirements for the major:*

*Botany*—24 semester hours in Botany with certain collaterals to be determined in conference with the Executive Officer of the Department.

*Biological Science* (School of Education)—30 semester hours of Botany and Zoology as specified by the Executive Officers of these Departments.

---

FIRST SECTION

11-2. *General Botany* (3-3)

Griggs, Bowman, Large

Plants, their mode of life and their bearing on human affairs. A study of the structure and functions of the flowering plant as a working mechanism, followed by a rapid survey of the principal groups of plants, with practice in determining the common native flowers. Material Fee \$5.00 a semester.

*Section A*, Monday and Wednesday, 9:10 a. m.; *Section B*, Monday and Wednesday, 10:10 a. m.; *Section C*, Monday and Wednesday, 11:10 a. m.; *Section D*, Monday and Wednesday, 3:10 p. m.; *Section E*, Monday and Wednesday, 6:10 p. m.; *Section F*, Tuesday and Thursday, 9:10 a. m.; *Section G*, Tuesday and Thursday, 11:10 a. m.; *Section H*, Tuesday and Thursday, 5:10 p. m. *Laboratory*: Sections A, B, C, D, F, will take laboratory work in one of the following periods: Monday, Tuesday, Wednesday, Thursday, 1:10 to 3:00 p. m.; Friday, 11:10 a. m. to 1:00 p. m., 2:10 to 4:00 p. m.; Saturday, 9:10 to 11:00 a. m. *Section E*, Friday, 6:10 to 8:00 p. m. *Section H*, Thursday, 6:10 to 8:00 p. m.

NOTE: When registering for Botany I each student should see representative of the Department and receive a laboratory assignment card from him. This is necessary in order to be

assured of a place, as space and equipment limit the sections to forty each.

*Summer Term 1930:* Course 1, Daily except Saturday. *Lecture-Laboratory*, 10:10 a. m. to 12:00 noon. Course 2, daily except Saturday. *Lecture-Laboratory*, 5:10 to 7:00 p. m.

5. *Plant Study* (4)

Bowman

An out-of-doors course in the plants—higher and lower—growing around Washington. *Summer Term 1930:* Daily, except Saturday, 1:30 to 4:30 p. m.

18. *Field Botany* (2)

Bowman

First-hand study of the local flora, designed to familiarize the student with the native plants and with methods of field study, including the identification of plants. *Field Trip*—Saturday afternoon. *Laboratory*—Monday, 1:10 to 3:00 p. m.

## SECOND SECTION

†107-108. *Evolution* (3-3)

Griggs

Evolution, genetics, eugenics and other fundamental problems of biology. Prerequisite: one year of college work in Botany, Ethnology, Geology or Zoology. Monday, Wednesday and Friday, 5:10 p. m.

115. *Cytology* (3)

Bowman

Instruction and practice in the preparation and study of cytological material. Prerequisite: A satisfactory course in general Botany or Zoology. Material fee \$8.00. *Lecture*—Thursday, 5:10 p. m. *Laboratory*—Tuesday and Thursday; hours to be arranged.

116. *Plant Anatomy* (3)

Bowman

A microscopic study of the structure of vascular plants and the technic of preparing material for study. Prerequisite: Botany 1 and 2. Material fee \$8.00. *Lecture*—Thursday, 5:10 p. m. *Laboratory*—Tuesday and Thursday; hours to be arranged.

118. *Seminar*

Bowman

Prerequisite: Botany 115 or its equivalent. Credits and hours to be arranged.

121-122. *Monocots* (3-3)

Griggs

A survey of the monocots, designed to give the student an understanding of the principles of the evolution of the class and practice in their identification. Alternating with Courses

123-124. Prerequisite: Courses 1-2. *Conference*—Wednesday at 6:10 p. m. *Laboratory*—Monday, Wednesday, Friday; hours to be arranged. (Not given 1930-31.)

123-124. *Dicots* (3-3)

Griggs

A survey of selected groups of dicots chosen to give the student an understanding of the evolution of the class and practice in their identification. Alternating with Courses 121-122. *Conferences* and *laboratory*. Prerequisite: Courses 1-2. *Conference*—Wednesday, 6:10 p. m. or Friday, 4:10 p. m. *Laboratory*—Monday, Wednesday, Friday; hours to be arranged.

135-136. *Plant Processes* (3-3)

Mook

A course dealing with the fundamental processes of plants. Water requirements, principles of absorption, protoplasmic membranes, permeability, osmotic phenomena, mineral nutrients, transpiration, synthesis of food, metabolism, translocation of food materials, and growth and movements of plants are briefly considered. Prerequisite: Botany 1-2. Desirable antecedents: Physics 3-4; 7-8 or 9-10 and Chemistry 1-2, 3-4 or 5-6. (Not given 1930-31.)

138-139. *Minor Problems* (3-3)

Griggs

Competent students may take up special problems. Credits and hours to be arranged.

158. *Mosses* (2)

Benedict

Advanced Field Course. Alternating with Course 168. Prerequisite: Course 18 or the equivalent. *Field trip*—Saturday afternoon. *Laboratory*—Monday, 3:10 to 5:00 p. m.

168. *Fungi* (2)

Diehl

Advanced field course. Alternating with Course 158. Prerequisite: Course 18 or the equivalent. *Field trip*—Saturday afternoon. *Laboratory*—Monday, 3:10 to 5:00 p. m. (Not given 1930-31.)

### THIRD SECTION

201-202. *Seminar* (1-1)

Griggs

Survey of the advances in the field of Botany. Open to advanced students; should be taken by those working on special problems (Courses 138-139 or 211-212). Tuesday, 6:10 to 7:00 p. m.

211-212. *Research*

Griggs

Credits and hours to be arranged.

Summer Term 1930: 211. Hours to be arranged.

## CHEMISTRY

CHARLES EDWARD MUNROE, Ph.D., LL.D., *Professor Emeritus.*

HIRAM COLVER McNEIL, Ph.D., *Professor of Chemistry.*

COLIN MACKENZIE MACKALL, Ph.D., *Professor of Chemistry, Executive Officer.*

JOSEPH HIRAM ROE, Ph.D., *Professor of Biochemistry.*

BENJAMIN DOUGLASS VAN EVERA, M.S., *Assistant Professor of Chemistry.*

JOSEPH ALFRED AMHLER, Ph.D., *Lecturer in Chemistry.*

RALPH EDWARD GIBSON, Ph.D., *Lecturer in Chemistry.*

RALEIGH GILCHRIST, Ph.D., *Lecturer in Chemistry.*

EDGAR REYNOLDS SMITH, Ph.D., *Lecturer in Chemistry.*

DEWITT CLINTON KNOWLES, M.S., *Instructor in Chemistry.*

CAREY BIRDSONG JACKSON, M.S., *Instructor in Chemistry.*

HELEN MARIE DYER, M.S., *Associate in Chemistry.*

Minimum requirements for the major:

For the A.B. degree:

Chemistry—Courses 3-4 or 5-6; 11-12; 41-42; 121; 122; 191 and 192.

Physical Science—30 semester hours of Chemistry and Physics as specified by the Executive Officers of these Departments.

For the B.S. degree:

Chemistry—Courses 3-4 or 5-6; 11-12; 41-42; 121; 122; 111-112; 191; 192 and six semester hours of elective Chemistry or Physics.

Language—German recommended.

Registration—Before completing their registration students must consult the representative of the Department of Chemistry and secure a card assigning them to laboratory section and locker.

## FIRST SECTION

## 13-4. General Chemistry (5-5)

McNeil, Knowles,  
and Assistants

General Chemistry and the elements of Qualitative Analysis for students who do not offer Chemistry for entrance. Material fee \$3.00 a semester; breakage deposit \$15.00. Lectures—Section A, Monday, Wednesday, Friday, 10:10 a. m.; Section B, Monday, Wednesday, Friday, 6:10 p. m. Laboratory—Section M, Monday and Wednesday, 1:10 to 4:00 p. m.; Section N, Tuesday and Thursday, 1:10 to 4:00 p. m.; Section O, Monday and Wednesday, 7:30 to 10:20 p. m.; Section P, Tuesday and Thursday, 7:30 to 10:20 p. m.

†5-6. *General Chemistry* (4-4)McNeil, Knowles,  
and Assistants

General Chemistry and the elements of Qualitative Analysis. Prerequisite: High School Chemistry. Material fee \$8.00 a semester; breakage deposit \$15.00. *Lectures*—Section A, Tuesday and Thursday, 11:10 a. m.; Section B, Tuesday and Thursday, 6:10 p. m. *Laboratory*—Section M, Monday and Wednesday, 1:10 to 4:00 p. m.; Section N, Tuesday and Thursday, 1:10 to 4:00 p. m.; Section O, Monday and Wednesday, 7:30 to 10:20 p. m.; Section P, Tuesday and Thursday, 7:30 to 10:20 p. m. *Summer Term 1930: Lectures*—Daily except Saturday, 8:10 to 9:15 a. m. *Laboratory*—Daily except Saturday, 9:25 a. m. to 1:00 p. m.

†11-12. *Elementary Physical and Quantitative Chemistry* (4-4)

Van Evera and Assistants

Prerequisite: Course 4 or 6. Material fee \$8.00 a semester; breakage deposit \$20.00. *Lectures*—Section A, Monday and Wednesday, 10:10 a. m.; Section B, Tuesday and Thursday, 5:10 p. m. *Laboratory*—Section M, Monday and Wednesday, 1:10 to 4:00 p. m.; Section N, Tuesday and Thursday, 1:10 to 4:00 p. m.; Section O, Monday and Wednesday, 7:30 to 10:20 p. m.

21. *Elementary Quantitative Inorganic Analysis* (4)

Van Evera and Assistants

Prerequisite: Course 4 or 6. Material fee \$10.00; breakage deposit \$20.00. *Lecture*—Monday at 5:10 p. m. *Laboratory*—Section M, Monday, Wednesday, Friday, 1:10 to 4:00 p. m.; Section N, Tuesday, Thursday, Friday, 1:10 to 4:00 p. m.; Section O, Monday, Wednesday, Friday, 7:30 to 10:20 p. m.

35-36. *Inorganic Chemistry* (2-2)

Knowles

Prerequisite: Course 4 or 6. Material fee \$10.00 a semester; breakage deposit \$15.00. *Laboratory*—Section M, Monday and Wednesday, 1:10 to 4:00 p. m.; Section O, Monday and Wednesday, 7:30 to 10:20 p. m. *Summer Term 1930: Laboratory*—Daily except Saturday, 9:25 a. m. to 1:00 p. m.

†41-42. *Organic Chemistry* (4-4)Mackall, Jackson  
and Assistants

Prerequisite: Course 4 or 6. Material fee \$10.00 a semester; breakage deposit \$20.00. *Lecture*—Section A, Monday and Wednesday at 11:10 a. m.; Section B, Monday and Wednesday, 5:10 p. m. *Laboratory*—Section M, Monday and

Wednesday, 1:10 to 4:00 p. m.; *Section N*, Tuesday and Thursday, 1:10 to 4:00 p. m.; *Section P*, Tuesday and Thursday, 7:30 to 10:20 p. m. *Summer Term 1930: Lectures*—Daily except Saturday, 8:10 to 9:15 a. m. *Laboratory*—Daily except Saturday, 9:25 a. m. to 1:00 p. m.

- †51-52. *Chemistry of Food and Nutrition* (3-3) Dyer  
Prerequisite: Course 4 or 6. Material fee \$4.00 a semester; breakage deposit \$15.00. *Lectures*—Wednesday and Friday, 5:10 p. m. *Laboratory*—*Section M*, Friday, 1:10 to 4:00 p. m.; *Section O*, Friday, 7:30 to 10:20 p. m.

## SECOND SECTION

- †111-112. *Physical Chemistry* (4-4) Gibson, Jackson  
Prerequisite: Course 12 and Mathematics 20. Material fee \$5.00 a semester; breakage deposit \$15.00. *Lectures*—Monday and Wednesday, 5:10 p. m. *Laboratory*—*Section M*, Tuesday and Thursday, 1:10 to 4:00 p. m.; *Section P*, Tuesday and Thursday, 7:30 to 10:20 p. m.

121. *Qualitative Inorganic Analysis* (4) Van Evera and Assistants  
Prerequisite: Course 12. Material fee \$10.00; breakage deposit \$20.00. *Lecture*—Wednesday at 5:10 p. m. *Laboratory*—*Section M*, Monday, Wednesday, Friday, 1:10 to 4:00 p. m.; *Section N*, Tuesday, Thursday, Friday, 1:10 to 4:00 p. m.; *Section O*, Monday, Wednesday, Friday, 7:20 to 10:20 p. m.

122. *Quantitative Inorganic Analysis* (4) Van Evera and Assistants  
Prerequisite: Course 12. Material fee \$10.00; breakage deposit \$20.00. *Lecture*—Wednesday at 5:10 p. m. *Laboratory*—*Section M*, Monday, Wednesday, Friday, 1:10 to 4:00 p. m.; *Section N*, Tuesday, Thursday, Friday, 1:10 to 4:00 p. m.; *Section O*, Monday, Wednesday, Friday, 7:30 to 10:20 p. m.

- †123-124. *Qualitative and Quantitative Organic Analysis* (2-2) Mackall  
Prerequisite: Courses 12 and 42. Material fee \$8.00 a semester; breakage deposit \$20.00. *Laboratory*—*Section N*, Tuesday and Thursday, 9:10 a. m. to 12:00 noon; *Section O*, Monday and Wednesday, 7:30 to 10:20 p. m.

- 135-136. *Inorganic Chemistry* (2-2) Van Evera  
Prerequisite: Course 12. Material fee \$10.00 a semester; breakage deposit \$15.00. *Laboratory*—*Section N*, Tuesday

and Thursday, 1:10 to 4:00 p. m.; *Section O*, Monday and Wednesday, 7:30 to 10:20 p. m. *Summer Term 1930: Laboratory*—Daily except Saturday, 9:25 a. m. to 1:00 p. m.

141-142. *Organic Chemistry (2-2)* Mackall  
Prerequisite: Course 42. *Lectures*—Tuesday and Thursday, 5:10 p. m.

145-146. *Organic Chemistry (2-2)* Mackall  
Prerequisite: Course 42. Material fee \$10.00 a semester; breakage deposit \$20.00. *Laboratory*—*Section N*, Tuesday and Thursday, 9:10 a. m. to 12:00 noon; *Section O*, Monday and Wednesday, 7:30 to 10:20 p. m. *Summer Term 1930: Laboratory*—Daily except Saturday, 9:25 a. m. to 1:00 p. m.

207-208. *Electrochemistry (2-2)* Smith  
Prerequisite: Course 112. *Lectures*—Monday and Friday, 5:10 p. m.

211-212. *Chemical Thermodynamics (2-2)* Gilchrist  
Prerequisite: Course 112. *Lectures*—Wednesday and Saturday, 5:10 p. m.

241. *Carbohydrates (2)* Ambler  
Prerequisite: Course 42. *Lectures*—Tuesday and Thursday, 5:10 p. m.

242. *Polypeptides; Dyes; Organic Medicinals.* Ambler  
Prerequisite: Course 42. *Lectures*—Tuesday and Thursday,  
5:10 p. m.
- 297-298. *Research* The Staff  
Hours, fees, and credits by arrangement. *Summer Term*  
1930 by special arrangement.

## CIVIL ENGINEERING

†JOHN RAYMOND LAPHAM, M.S., *Professor of Civil Engineering.*  
 OWEN BERT FRENCH, C.E., *Professor of Civil Engineering.*  
 FRANK ARTEMAS HITCHCOCK, M.S., C.E., *Professor of Civil Engineering.*  
*Executive Officer.*

ROBERT EDWARD ROYALL, B.S., *Lecturer in Civil Engineering.*  
 GEORGE ALBERT CHADWICK, B.S., *Lecturer in Mechanics.*  
 BLAKE RAGSDALE VAN LEER, M.E., *Lecturer in Hydraulics.*  
 HAROLD HARRISON DUTTON, B.S., *Associate in Materials Testing.*  
 JOSEPH CARL OLEINIK, M.S., *Associate in Civil Engineering.*

*Requirements for the degree in Civil Engineering: See curricula on page 156.*

## FIRST SECTION

1. *Surveying* (3)

The principles, methods and instruments used in surveying. *Field Work:* adjustment of instruments, measuring areas, leveling and traverse work. *Computation and drafting:* reduction of all field work and plotting results. Surveying fee \$5.00. Prerequisite: Mathematics 6-12. *Section A,* Tuesday and Thursday, 1:10 p. m. *Section B,* Monday and Friday, 6:10 p. m. *Field Work—Tuesday, 1:10 p. m.*

5. *Elements of Surveying* (2)

For mechanical and electrical engineering students, covering the use of the compass, transit and level. Lectures and field exercises. Prerequisite: Mathematics 6-12. Surveying fee \$2.00. *Summer Term 1930:* Monday to Friday, 5:10 to 7:00 p. m. and Saturday, 1:00 to 7:00 p. m. from June 16 to 30.

14. *Materials and Hydraulics Laboratory* (2)

The experimental determination of the properties of materials such as wood, brick, iron, and steel by mechanical tests together with the study of the flow of fluids over weirs and through orifices. Prerequisites: Courses 25, 26, 132, 134, or concurrently with Courses 132, 134. Laboratory fee \$5.00. *Section A,* Wednesday and Thursday, 1:10 p. m.; *Section B,* Tuesday and Thursday, 7:30 p. m.

† On sabbatical leave 1930-1931.

15-16. *Nautical Science* (2-2) French  
Marine and aerial navigation; nautical astronomy; nautical almanac; production and use of nautical charts; tides; applications of meteorology, terrestrial magnetism and oceanography to navigation and seamanship; deviation of the compass in iron and steel ships; theory and use of instruments of navigation. Prerequisite: Trigonometry. Wednesday and Saturday, 6:10 p. m.

25-26. *Materials of Construction* (2-2) Lapham  
Non metallic materials with emphasis on cement. Metallic materials with emphasis on iron and steel. Textbook work is supplemented by special topics and by trips to testing laboratories and manufacturing plants. Prerequisite: Chemistry 4 or 6. *Section A*, Monday and Wednesday, 9:10 a. m.; *Section B*, Monday and Wednesday, 5:10 p. m. *Summer Term 1930* (2-2): Daily except Saturday, 5:10 to 7:10 p. m., beginning June 30.

41. *Graphic Statics* (3) Hitchcock  
The fundamental principles of graphic statics, the analyses of beams by graphical methods, and the determination of stresses in roof trusses and framed bents under dead, snow, wind and special loadings. Prerequisite: Course 131 or taken concurrently therewith. Drafting Room fee \$1.00. *Section A*, Tuesday and Thursday, 11:10 a. m., and Tuesday, 1:10 p. m. *Section B*, Tuesday and Thursday, 6:10 p. m. and Thursday, 7:30 p. m.

42. *Bridge Stresses* (3) Hitchcock  
The determination of stresses in the modern types of bridge trusses under dead loads, uniform live loads, concentrated moving loads and lateral forces; influence lines and displacement diagrams and the design of splices and connections in wooden and steel structural members and the use of the structural steel handbook. Prerequisites: Courses 41 and 132 or concurrently with Course 132. Drafting Room fee \$1.00. *Section A*, Tuesday and Thursday, 11:10 A. M., and Tuesday, 1:10 p. m. *Section B*, Tuesday and Thursday, 6:10 p. m., and Thursday, 7:30 p. m.

43-44. *Elements of Structures* (3-3) Hitchcock  
Primarily for architectural students. Graphic statics, center of gravity, moment of inertia, analyses of beams, columns and roof trusses by graphical and analytical methods, the

design and detailing of simple trusses. Prerequisite: Mathematics 16. Drafting Room fee \$1.00 a semester. Wednesday and Friday, 6:10 p. m., and Tuesday, 7:30 p. m.

- 61-62. *Highways and Pavements* (2-2) Royal  
 Highway economics, location, construction and maintenance; various methods of surfacing; materials used and standard tests of these materials. Prerequisites: Courses 1 and 25 or concurrently therewith. Monday and Wednesday, 8:00 a. m.

- 71-72. *Railroad Engineering* (3-3) French  
*Recitations*: railroad curves and earth-work, methods of location and construction of railway lines. *Field Work*: a preliminary and location survey; the laying out of circular and transition curves. *Computations and mapping*: estimation of quantities and cost of a piece of line, making maps, profiles and a mass diagram. Prerequisite: Course 1. Surveying fee \$3.00 per semester. *Lectures—Section A*, Monday and Friday, 2:10 p. m.; *Section B*, Tuesday and Thursday, 6:10 p. m. *Field Work*—Saturday; hours to be arranged.

102. *Higher Surveying* (3) French  
 The elements of geodesy, triangulation, topography, hydrography, precise and trigonometric leveling. *Field work*: measurement of angles for triangulation, topography by transit and stadia and plane-table methods, including the necessary computations. Prerequisite: Course 1. Surveying fee \$5.00. *Lectures—Section A*, Tuesday and Thursday, 1:10 p. m.; *Section B*, Monday and Friday, 6:10 p. m. *Field Work*—Saturday; hours to be arranged.

118. *Practical Astronomy* (2) French  
 The elements of astronomy, use of the ephemeris and star catalogues, several methods for determining the latitude, time, longitude and azimuth. Each student is required to make observations to determine latitude, time, longitude and azimuth, and compute the same. Prerequisites: Course 1. *Section A*, Wednesday and Friday, 1:10 p. m. *Section B*, Wednesday and Friday, 5:10 p. m.

131. *Theoretical Mechanics* (4) Chadwick, Nash  
 (1) Statics; including composition, resolution and equilibrium of forces; center of gravity; moment of inertia.  
 (2) Kinematics and kinetics; including rectilinear, curvilinear and rotary motion; dynamics of machinery; work and energy; friction; impact. Prerequisites: Physics 7-8.

Mathematics 20. *Section A*, Monday, Wednesday, Thursday, Friday, 10:10 a. m.; *Section B*, Monday, Wednesday, Thursday, Friday, 5:10 p. m.

132. *Mechanics of Materials* (4)

Chadwick, Nash

Elastic and ultimate strength and deformation; simple, cantilever and continuous beams; shear, riveted joints, torsion, columns, resilience, combined stress, curved beams and hooks; theories of elastic limit and failure. Prerequisite: Courses 26 and 131. *Section A*, Monday, Wednesday, Thursday and Friday, 10:10 a. m.; *Section B*, Monday, Wednesday, Thursday, Friday, 5:10 p. m.

133-134. *Hydraulics* (2-2)

Van Leer

The theoretical principles of hydraulics; including hydrostatics flow through orifices, over weirs, through pipes and in open channels and the dynamic pressure of water. Prerequisites: Physics 8 or 10; Mathematics 20. *Section A*, Tuesday and Thursday, 9:10 a. m.; *Section B*, Tuesday and Thursday, 5:10 p. m.

145-146. *Higher Structures* (3-3)

Hitchcock

The determination of the positions of loading and stresses in the more complicated structures such as swing, continuous, cantilever and suspension bridges and metallic arches. Prerequisite: Course 42. Monday, Tuesday, Thursday, 5:10 p. m.

147-148. *Structural Design* (2-2)

Hitchcock

Computations and drawings for a complete design of a steel roof truss, a through or deck plate girder bridge and a railroad bridge of six or seven panels or a heavy highway bridge. Prerequisite: Course 42. Drafting Room fee \$2.00 a semester. Tuesday and Thursday, 7:30 p. m.

149. *Reinforced Concrete and Masonry Construction* (3)

Hitchcock, Oleinik

Plain concrete, general properties of reinforced concrete, beams and slabs, column bendings and direct stress, continuous beams and building frames. Tests of cement and concrete. Prerequisites: Courses 25 and 132. Laboratory fee \$5.00. Wednesday and Friday, 5:10 p. m. and Monday, 7:30 p. m.

150. *Reinforced Concrete and Masonry Construction* (3)

Hitchcock, Oleinik

Foundations; retaining walls; slab, beam, and girder bridges; culverts; conduits; bridge piers and abutments. **Prerequisite:** Course 149. Drafting Room fee \$1.00. Wednesday and Friday, 5:10 p. m. and Monday, 7:30 p. m.

181-182. *Water Supply and Sewerage* (3-3)

Lapham

Collection, storage, purification and distribution of water. Sewerage systems and treatment of sewerage. Three recitation periods first semester; two recitation and one design periods second semester. **Prerequisites:** Course 134; Chemistry 4 or 6. Drafting Room fee \$1.00 second semester. First semester Monday, Wednesday, Friday, 6:10 p. m.; second semester Monday and Friday, 6:10 p. m. and Wednesday, 7:30 p. m.

# CLASSICAL LANGUAGES AND LITERATURES

CHARLES SIDNEY SMITH, PH.D., *Professor of Classical Languages.*

*Minimum requirements for the major: 24 semester hours of Latin.*

## GREEK

### FIRST SECTION

- 11-2. *Elementary* (3-3) Smith  
 The essentials of Greek grammar. Translation from Xenophon's *Anabasis*. Monday, Wednesday, Friday, 10:10 a. m.  
 (Not given in 1930-1931.)
- 3-4. *Homer's Iliad; Herodotus; Lysias* (3-3) Smith  
 Prerequisite: Course 2 or its equivalent. Monday, Wednesday, Friday, 10:10 a. m.
- 5-6. *Xenophon; Plato; Euripides* (3-3) Smith  
*Memorabilia*; Selected Dialogues; *Alcesteis*. Prerequisite:  
 Course 4 or its equivalent. Tuesday, Thursday, Saturday,  
 9:10 a. m.

## LATIN

### FIRST SECTION

- 5-6. *Livy; Cicero; Horace* (3-3) Smith  
*Livy*, Book I or XXI; *De Senectute*; *Odes* and *Epodes*; and  
 prose composition. Monday, Wednesday, Friday, 2:10 p. m.

### SECOND SECTION

- \*101-102. *Cicero's and Pliny's Letters; Horace's Satires and Epistles*  
 (3-3) Smith  
 Prerequisite: Courses 5-6. Tuesday, Thursday, Saturday,  
 10:10 a. m.
- 105-106. *Tacitus; Terence; Plautus* (3-3) Smith  
 Selections from *Tacitus*; *Phormio* and *Captivi*. Prerequisite:  
 Courses 5-6. Tuesday, Thursday, Saturday, 10:10 a. m.  
 (Not given in 1930-1931.)

\*This course is regularly open to sophomores who have passed Latin 5-6

- 109-110. *Horace's Ars Poetica; Quintilian; Catullus, Tibullus and Propertius* (3-3) Smith  
Prerequisite: Courses 5-6. Tuesday, Thursday, Saturday,  
10:10 a. m. (Not given in 1930-1931.)
- 1113-114. *Advanced Latin Prose Composition and Reading at Sight* (1-1) Smith  
Hours to be arranged.

## THIRD SECTION

- 201-202. *Latin Seminar* (3-3) Smith  
Training in the methods of philological criticism and in the interpretation of the classical authors, with opportunities for original research. The center of study in 1930-31 will be Caesar and the Roman Historians. Hours to be arranged.

| 108. <i>Effective Study</i> (2)  | LaSalle |
| Prevalent weaknesses in study and their causes. Finding and organizing fundamental ideas; attacking assignments; using syllabi; note taking; outlining; summarizing; memo-         |         |

- ricing. Special attention is given to supervised study. Saturday, 9:10 to 11:00 a. m.
- 109-110. *Child Development* (2-2) Hicks  
A review of the existent knowledge in the physiological, psychological, and psychiatric development of children. Wednesday and Friday, 4:10 p. m.
111. *History of Education* (3) French, Powers  
A course in the development of educational theory and practice from ancient times to the present. Tuesday, Thursday, Saturday, 10:10 a. m. Summer Term 1930: (3) daily except Saturday, 7:40 a. m.
112. *History of American Education* (3) French  
The development of the American school system with special reference to administrative features and social relationships. Tuesday, Thursday, Saturday, 10:10 a. m.
115. *Principles of Education* (3) Ruediger  
The bases, meaning, objectives and content of education, with special reference to the principles underlying the curriculum. Section A, Monday, Wednesday, Friday, 9:10 a. m. Section B, Tuesday, Thursday, Saturday, 5:10 p. m.
126. *Technique of Teaching* (3) Ruediger, Smith  
The principles underlying the teaching process with special reference to the nature and meaning of the subject-matter taught. Section A, Monday, Wednesday, Friday, 9:10 a. m. Section B, Tuesday, Thursday, Saturday, 5:10 p. m. Summer Term 1930: (2) daily except Saturday, 9:40 a. m.
128. *Observation* (3) Powers  
Observation of experienced teachers, under guidance, followed by conference. The course should normally be taken in the junior year. Hours to be arranged.
129. *Practice Teaching* (3) Powers  
Teaching under supervision and criticism. The course should normally be taken in the senior year. Hours to be arranged.
136. *Tests and Measurements* (2) LaSalle, Schutte  
The present status and significance of the measurements of educational achievement and the utilization of the data obtained in guiding instruction and study. (Not given in 1930-31). See Psychology 119, 120, 251-252. Summer Term 1930: (2) daily except Saturday, 10:40 a. m.

143. *Trends in Elementary Education* (2) Smith  
Summer Term 1930: Daily except Saturday, 11:40 a. m.
- 147-148. *Elementary Education* (2-2) French  
Psychology of the elementary school subjects. Analyses of the learning processes in reading, composition, arithmetic, geography, history, etc., with special reference to methods of instruction. Saturday, 11:10 a. m. to 1:00 p. m.
- 149-150. *Elementary School Curriculum* (2-2) French  
Principles of curriculum construction; objectives of elementary education; organization of subject-matter; examination of curricula, syllabi, and texts. Tuesday and Thursday, 4:10 p. m.
151. *The High School* (3) Powers, Schutte  
Recent growth in secondary education; aims and functions; types of reorganization; program of study; classification and guidance; extra-curricular activities; plant; costs; standardization, theory and practice of teaching. Monday, Wednesday, Friday, 5:10 p. m. Summer Term 1930: Daily except Saturday, 7:40 a. m.
152. *The Junior High School* (3) Powers  
The special purposes of the junior high school and the appropriate reorganization to achieve them: The program of studies; classification of pupils; types of reorganization; history of the movement. Monday, Wednesday, Friday, 5:10 p. m. Summer Term 1930: (2) Daily except Saturday, 9:40 a. m.
153. *The Junior High School* (3) Powers  
Course 152 repeated. Monday, Wednesday, Friday, 6:10 p. m.
155. *Guidance in Secondary Schools* (2) Powers  
Practices in education and vocational guidance in junior and senior high schools; vocational information; utilizing test results and school marks; organizing the staff for guidance. Prerequisite: General Psychology and Education 151-152 or the equivalent. (Not given in 1930-31.)
156. *Extra-Curricular Activities* (2) Powers  
Types of activities in junior and senior high schools; aims and values; practices in organizing, administering, and supervising; methods of evaluation. Prerequisite: Education 151-152 or the equivalent. (Not given 1930-31.)

157. *The Social Studies* (2) Schutte  
*Summer Term 1930: Daily except Saturday, 8:40 a. m.*
158. *Teaching of English* (3) Croissant  
 Tuesday, Thursday, Saturday, 11:10 a. m.
159. *The Teaching of Public Speaking* (3) Yeager  
 Organization of high school and college courses; methods of teaching reading, interpretation, dramatics, public speaking and debate; coaching of debates and plays; standards of criticism. Prerequisite: six hours of Public Speaking or permission of the instructor. *Summer Term 1930: Daily except Saturday, 7:40 a. m.*
- 161-162. *Parent-Teacher Movement* (2-2) Watkins  
 First semester: Objectives and significance; national, state and local organizations; fields of activity; relation to educational, social and welfare agencies. Second semester: Parental education; efficient child training; the home and school as social institutions; home and school cooperation; helpful parent-teacher programs. Tuesday, 7:30 to 9:30 p. m.
- 165-166. *Americanization* (2-2) Aiton  
 Methods of teaching English, civics and related subjects to foreigners. Consideration will be given to racial backgrounds, immigration laws, naturalization laws, and conceptions of Americanization. (Not given 1930-31.)
- 169-170. *Adult Education* (3-3) Alderman  
 A course emphasizing the organization of adult education in the community, its special reference to the use of libraries, museums, clubs, workers' education, special lectures and forums, and other educational agencies. Tuesday, 7:30 to 9:30 p. m. and field assignments.
184. *School Administration* (3) Powers  
 Present status and tendencies in organization and administration of school systems with interpretations; problems of administrations. Monday, Wednesday, Friday, 6:10 p. m.
185. *Teaching of Home Economics* (3) Kirkpatrick  
 This course treats the application of psychological principles to the teaching of Home Economics subject matter. Tuesday, Thursday, Saturday, 9:10 to 10:00 a. m.

186. *Supervision* (3) Powers  
Objectives; prevailing practices; technique of class-room visitation; improving instruction; stimulating initiative and professional growth; developing *esprit de corps*; functions of teachers' meetings; teacher rating. (Not given 1930-31.)

- 187-188. *The Elementary School Principalship* (2-2) French  
First semester: The functions and opportunities of the school principal. Second semester: Principles and practices of constructive supervision. Tuesday and Thursday, 5:10 p. m. *Summer Term 1930*: Course 187 (2), daily except Saturday, 8:40 a. m.

## THIRD SECTION

- 209-210. *Seminar* (3-3) Sherman  
A research course in psychiatric problems of child development. Tuesday and Thursday, 4:10 p. m.

- 211-212. *Education Origins* (3-3) French  
*First semester*: A study of the development of American educational institutions, ideals, practices, curricula and textbooks as revealed by documentary evidence.

- 247-248. *Seminar* (3-3) French  
Experimental education; a survey of inductive studies; investigations and reports. Thursday, 7:30 to 9:30 p. m. *Summer Term 1930*: (3) Daily, 9:40 a. m.

- 251-252. *Seminar* (3-3) Powers  
Research problems in Secondary Education. Primarily for graduate students who are working on theses or other research problems. Tuesday, 7:30 to 9:30 p. m.

- 277-278. *Commercial Education* (3-3) Barnhart  
First semester: Research in materials and procedures for teaching shorthand. Second semester: Research in materials and procedures for teaching typewriting. Thursday, 7:30 to 9:30 p. m.

- 279-280. *Seminar* (3-3) Roediger  
A study of teacher-training institutions, curricula and methods, with reference to European practices. Tuesday and Thursday, 6:10 p. m.

283-284. *Research Problems* (3-3)

Ballou

The direction of investigations in the field of public school education. Consultation hours arranged.

285-286. *Seminar* (3-3)

Powers

Topic for 1930-31: High School Administration. Tuesday and Thursday, 5:10. *Summer Term 1930*: Course 285 (3), daily except Saturday, 11:40 a. m.

291-292. *Thesis* (3-3)

Staff

Students working on master's theses will register for this course. Wednesday, 7:30 to 9:30 p. m.

## ELECTRICAL ENGINEERING

NORMAN BRUCE AMES, B.S., E.E., LL.B., *Professor of Electrical Engineering, Executive Officer.*

PAUL REVERE NASH, B.S., *Assistant Professor of Electrical Engineering.*

*Requirements for the degree in Electrical Engineering: See curricula on page 157.*

## FIRST SECTION

- 9-10. *Electrical Engineering* (3-3) Ames and Nash

First semester: A comprehensive course covering magnetic and electric circuits, direct current instruments and machines, storage batteries and other applications of direct currents. Second semester: Theory of alternating current circuits, instruments and machines. Required of all engineering students. Prerequisites: Physics 16, Mathematics 20. *Section A*, Monday, Wednesday, Friday, 11:10 a. m.; *Section B*, Monday, Wednesday, Friday, 5:10 p. m.

- 13-14. *Electrical Laboratory* (2-2) Ames and Nash

Experiments in direct and alternating currents and direct and alternating current machinery. Prerequisite: Course 10 or concurrently therewith. Laboratory fee \$5.00 a semester. *Section A*, Monday, 1:10 p. m. *Section B*, Friday, 1:10 p. m. *Section C*, Monday, 7:30 p. m. *Section D*, Friday, 7:30 p. m.

- 17-18. *Electrical Laboratory* (2-2) Ames and Nash

A course in measurements and D. C. dynamo laboratory. Prerequisite: Courses 9-10, Physics 16. Laboratory fee \$5.00 a semester. *Section A*, Monday, 1:10 p. m. *Section B*, Friday, 1:10 p. m. *Section C*, Monday, 7:30 p. m. *Section D*, Friday, 7:30 p. m.

## SECOND SECTION

- 121-122. *Alternating Current Theory and Machinery* (4-4) Ames

A continuation of Course 10, including a brief review of alternating current theory covered therein and a thorough study of synchronous generators, transformers, synchronous motors, rotary converters, and various asynchronous machines, including single and polyphase induction motors, series and repulsion motors. Prerequisite: Course 10. Tuesday, Wednesday, Thursday, 5:10 p. m.; Wednesday, 6:10 p. m.

- 125-126. *Transmission and Distribution* (2-2) Nash  
 Mechanical and electrical characteristics of transmission lines. Approximate and rigorous solutions by means of hyperbolic trigonometry. Steady state and elementary transient considerations. The more important phases of distribution of electrical energy for light and power: systems of distribution, voltage regulation, metering and transformer practice. Prerequisite, or concurrently with, Course 121. Monday and Friday, 6:10 p. m.
- 133-134. *Advanced Electrical Laboratory* (2-2) Ames and Nash  
 A continuation of Course 17-18, with experiments on alternating current circuits and machinery, including watt hour-meters, transformers, synchronous and asynchronous generators and motors, lightning arresters, and use of the oscillograph. Prerequisite: Course 122 or concurrently therewith. Laboratory fee \$5.00 a semester. *Section A*, Monday, 1:10 p. m. *Section B*, Friday, 1:10 p. m. *Section C*, Monday, 7:30 p. m. *Section D*, Friday, 7:30 p. m.
136. *Hydro-Electric Engineering* (2) Nash  
 Present-day theory and practice in Hydro-Electric Engineering, including so much of hydraulics as is essentially applied and the equipment required for a complete hydro-electric station and system. Prerequisite: Civil Engineering 134 and Course 10. Tuesday and Thursday, 6:10 p. m.
137. *Electric Railways* (2) Ames  
 Theory and practice of modern direct and alternating current railways. Prerequisite: Courses 121-122 or concurrently therewith. Monday and Friday, 5:10 p. m.
139. *Illumination* (2) Nash  
 The principles and practices of scientific illumination, exterior and interior. Detailed study of various light sources, lamps, shades, reflectors, etc. Prerequisite: Physics 8 or 10. Tuesday and Thursday, 6:10 p. m.
140. *Electrical Design* (3) Ames  
 Principles of design with reference to materials of construction, and electrical equipment. Practical exercises are assigned in connection with class-room work. Prerequisite: Course 121. Drafting room fee \$1.00. Monday and Friday, 5:10 p. m. and Wednesday 7:30 p. m.

## ENGLISH

- WILLIAM ALLEN WILBUR, A.M., Litt.D., *Professor of English.*  
DEWITT CLINTON CROISSANT, Ph.D., *Professor of English, Executive Officer.*  
ROBERT WHITNEY BOLWELL, Ph.D., *Professor of American Literature.*  
ANNA PEARL COOPER, A.M., *Associate Professor of English.*  
AUDLEY LAWRENCE SMITH, A.M., *Assistant Professor of English.*  
COURTLAND DARKE BAKER, A.M., *Assistant Professor of English.*  
DOUGLAS BEMENT, A.M., LL.B., *Assistant Professor of English.*  
ALICE MORTON BALL, A.B., *Lecturer on Editing.*  
ERNEST SEWALL SHEPARD, A.M., *Instructor in English.*  
MARTHA GIBBON, A.M., *Instructor in English.*  
PAUL SWAIN HAVENS, Litt.B., *Visiting Instructor in English.*  
DANIEL CHAMPLIN CHACE, A.B., *Associate in Journalism.*
- 

*Minimum requirements for the major:* Four second section courses in literature, two of which are selected from: 129-130; 141-142; 151-152; 171-172. Courses 51-52 or 91-92 are prerequisites for second section courses in literature; 51-52 is taken by those majoring in English, but if 91-92 is taken in the Sophomore year, 51-52 counts on the major.

JOHN PAUL EARNEST, JR., A.B., M.D., *Associate University Physician.*

KATHARINE ANTOINETTE CHAPMAN, A.B., M.D., *Associate University Physician for Women.*

HARRY ARNOLD HULL McNITT, A.M., M.D., *Associate University Physician.*

ROBERT HARMON, M.D., *Associate University Physician.*

The payment of the University fee entitles students to health services hereinafter described. Through reports from the students and University officials the University attempts to keep informed as to all cases of sickness among its students, and see that no one suffers from inattention, or the lack of proper care and treatment.

*Medical privileges include:*

(1) The physical examination of all students entering from secondary schools; (2) Three visits by the University physician or surgeon, office or home, in any one illness, exclusive of a specialist, surgical operation, laboratory, or X-ray examination; (3) Hospitalization, including board, medicine, and undergraduate nursing in the University Hospital for not more than two weeks during the regular school term. Necessity to be determined by the Director of Health Administration. Duration of hospitalization period (maximum two weeks) is also to be determined by the Director of Health Administration.

(This benefit does not include: Treatment for illness or disability incurred previous to University term or prior to payment of the University registration fee.)

*Students are allowed, if they so desire, to engage physician and nurses of their own choice, but when they do so they will be responsible for the fees charged.*

*Rules:*

1. The Director of Health Administration is empowered to limit or deny the medical benefits where in his discretion a student has by his misconduct or breach of the rules of the University made himself ineligible.

2. The Director of Health Administration has authority to determine the necessity and length of hospitalization.

3. Students who have severed their connection with the University are ineligible for medical benefits.

4. Students intending to train for athletic teams are required to pass a careful examination at the beginning of each semester.

5. During the Summer Session of the University the above regulations will apply with one exception: Hospitalization is not offered at this period.

1-2. *Personal Hygiene*

Chapman, Atwell

For women. A course designed to place before each student the ideal of a well balanced program for daily living, based on the general physiological laws of personal hygiene. (See Physical Education for Women.) Wednesday, 9:00, 10:00, or 11:00 a. m.

NOTE. Course 3, College Algebra, is a prerequisite for all courses in Mathematics except 1-2, 4, 9-10 and 17-18. However, students presenting two entrance units in Algebra with a certifying grade in the same may be excused from taking Course 3. Other properly qualified students are urged to meet this requirement by taking an examination in the subject (for time of such examination see the University Calendar).

## MECHANICAL ENGINEERING

ARTHUR FREDERICK JOHNSON, M.E., *Professor of Mechanical Engineering*  
 BENJAMIN CARPENTER CRUICKSHANKS, B.S. IN M.E., *Assistant Professor of Mechanical Engineering, Executive Officer.*

JAMES AUGUSTIN ST. OMER ROY, B.S. IN E.E., *Associate in Mechanical Drawing.*

WALTER BARTOW LAWRENCE, B.S. IN M.E., *Lecturer in Heating and Ventilating.*

MAX ALBERT LETT, M.S. IN M.E., *Instructor in Mechanical Engineering.*

Minimum requirements for the degree in Mechanical Engineering: See curricula on page 158.

### FIRST SECTION

3. *Mechanical Drawing* (3) Johnson, Lett  
 Sketches, drawings and tracings emphasizing shop methods and utilization of standard machine parts. One lecture period and two drawing periods. Drafting room fee \$2.00. *Section A*, Monday, Wednesday, Friday, 1:10 p. m. *Section B*, Tuesday, 5:10 p. m., and Monday and Friday, 7:30 p. m. *Section C*, Tuesday, 5:10 p. m., Tuesday and Thursday, 6:30 p. m.
4. *Descriptive Geometry* (3) Johnson, Lett  
 Theories of orthographic and oblique projection with practical applications and introduction to shades and shadows. Solid geometry is prerequisite or may be taken concurrently. One recitation and two drawing periods. Drafting room fee \$2.00. *Section A*, Monday, Wednesday, Friday, 1:10 p. m. *Section B*, Tuesday, 5:10 p. m., Monday and Friday, 7:30 p. m. *Section C*, Tuesday, 5:10 p. m., Tuesday and Thursday, 6:30 p. m.
5. *Descriptive Geometry* (3) Johnson, Lett  
 For students in Architecture. Similar to Course 4. Drafting Room fee \$2.00. *Section A*, Wednesday, 1:00 to 4:30 p. m., and Friday, 1:00 to 3:30 p. m. *Section B*, Tuesday and Thursday, 7:30 to 10:30 p. m. *Lecture*—Tuesday, 5:10 p. m.
- 7-8. *Machine Drawing* (2-2) Johnson  
 Computations, sketches and drawings applying kinematics and empirical methods. Prerequisite: Course 4 and concurrently with Course 13-14. Two drawing periods. Draft-

ing room fee \$2.00 a semester. *Section A*, Wednesday and Friday, 1:10 p. m. *Section B*, Monday and Friday, 7:30 p. m.

13-14. *Mechanism* (3-3)

St. Omer Roy, Lett

Machine elements and the kinematics of machinery, analysis of the functions and the mechanical movements; problems and diagrams of changes of position and speed in mechanism; the design of gearing; steam engine valve gears. Taken concurrently with Course 7-8. *Section A*, Monday, Wednesday, Friday, 10:10 a. m. *Section B*, Monday, Wednesday, Friday, 5:10 p. m.

SECOND SECTION

111-112. *Thermodynamics* (3-3)

Cruikshanks

First semester: The study of the principles of thermodynamics; the gas cycles; practical applications of the above principles. Second semester: The vapor cycles and the properties of steam; practical applications. Prerequisites: Physics 8 or 10 and Course 14. *Section A*, Monday, Wednesday, Friday, 9:10 a. m. *Section B*, Monday, Wednesday, Friday, 6:10 p. m.

115-116. *Engineering Laboratory* (2-2)

Cruikshanks

Calibration of engineering instruments, testing of power plant prime movers and auxiliaries and internal combustion engines. Each student must be present one whole day when a power plant test will be made. Prerequisite: Course 111-112. Laboratory fee \$10.00. *Section A*, Monday and Wednesday, 1:10 p. m. *Section B*, Monday and Wednesday, 7:30 p. m.

118. *Hydraulic Machinery* (2)

Van Leer

The theory underlying the design, selection and operation of hydraulic turbines and pumping machinery. Prerequisites: Civil Engineering 132 and 134 or concurrent therewith. Tuesday and Thursday, 6:10 p. m.

125. *Methods of Manufacture* (3)

Johnson

Modern manufacturing methods, machine tools, automatic machines, and quantity production. Prerequisites: Courses 3 and 14, and Civil Engineering 26. Monday, Wednesday, Friday, 6:10 p. m.

127-128. *Machine Design* (3-2)

Johnson

Engineering principles already acquired are applied to the design of machines. The limitations of theoretical and empirical formulae are studied. Prerequisites: Civil Engineering 25-26 and 41 and Mechanical Engineering 125. One consultation period and two drawing periods the first semester, two drawing periods the second semester. Drafting room fee \$2.00 a semester. Course 127, *Section A*, Wednesday and Friday, 1:10 p. m., and Tuesday, 6:10 p. m. *Section B*, Monday and Friday, 7:30 p. m., and Tuesday, 6:10 p. m. Course 128, *Section A*, Wednesday and Friday, 1:10 p. m. *Section B*, Monday and Friday, 7:30 p. m.

129-130. *Power Plants* (3-3)

Cruickshanks

A study of the design, layout, and installation of modern power plants and power plant equipment; the auxiliary equipment necessary to the economic operation of the power plant, as well as that necessary to meet the present-day safety laws of the various states. Practical problems based upon the text. Prerequisite: Course 112. Monday, Wednesday, Friday, 5:10 p. m.

131. *Heating and Ventilating* (2)

Lawrence

A study of the design, installation and economic operation of modern heating and ventilating systems installed in all types of buildings. Practical problems, involving all the principles studied. Prerequisite: Course 112. Tuesday and Thursday, 5:10 p. m.

132. *Combustion Engines* (3)

Johnson

The design, construction and operation of gas, vaporized fuel, semi-Diesel, and Diesel engines, gas producers and equipment for utilizing waste industrial gases in engines. Prerequisites: Civil Engineering 131 and Course 111. *Section A*, Monday, Wednesday, Friday, 11:10 a. m. *Section B*, Monday, Wednesday, Friday, 6:10 p. m.

133. *Refrigeration* (2)

Lawrence

Design, construction, and installation of modern mechanical refrigeration equipment, and auxiliary equipment necessary to their economic operation. Practical problems, involving a knowledge of the principles as studied in this course. Prerequisite: Course 111. Tuesday and Thursday, 5:10 p. m.

---

Total number of hours required in Medicine for the M.D. degree—615

---

153-154-155. *Physical Diagnosis* (132-24)

Conklin, Minor, Belt, Ruffin, Friedenberg

A didactic course is given at the beginning, being necessary to outline general principles. The course is in the main clinical, consisting of section demonstrations and practice on the normal and abnormal subject. The clinical sections receive their instruction at Gallinger Municipal Hospital. 6 hours per week throughout the third year.

201-202-203. *General Medicine* (132-132)

Mallory, Bloedorn, Haller

Systematic course of lectures and recitations covering diseases of the respiratory, blood-circulatory, gastro-intestinal, and endocrine systems. 4 hours weekly throughout the third year.

211-216. *Medical Clinics* (406)

Clinical Medical Staff

Well organized group clinics are presented in general medicine, dermatology, neurology, pediatrics and psychiatry at

the bedside and in hospital dispensaries. Clinical conferences with the third or fourth year class in attendance are held weekly. The clinical teaching staff particularly emphasizes the technic and practice of case study. Bedside demonstrations and quizzes play a large part in clinical instruction. Daily throughout the third and fourth years.

225-226-227.

*Therapeutics* (33-33)

Glavin

Lectures embracing the clinical application of drugs, and a comprehensive discussion of dietetics, physio-therapy and other therapeutic resources. 1 hour per week throughout the third year.

231.

*Pediatrics* (24-24)

Donnelly

The course consists of lectures and demonstrations. 2 hours per week in the first trimester of the third year. (Clinical hours are included in the schedule of medical clinics.)

241-242.

*Dermatology* (16-16)

Simpson

A course of lectures in the first 16 weeks of the third year supplemented by dermatologic clinics in general dispensaries. (Clinical hours are included in hour schedule of medical clinics.)

245.

*Tropical Medicine* (22-22)

Higgins

The course is similar to that given in the Army and Navy Medical Schools, special attention being given to disease prevalent in the United States and its possessions. 1 hour per week in the first trimester of the third year.

247.

*Medical Jurisprudence* (12-12)

Earnest

Lectures on the rights and obligations of physicians, both legal and ethical, and on the legal problems with which the physician is brought into contact. 1 hour per week in the first semester of the third year.

261-262-263.

*Neurology* (30-30)

Freeman

This course of clinical lectures is given at the Government Hospital for the Insane. 1 hour per week throughout the fourth year. (Clinical hours are included in hour schedule of medical clinics.)

271.

*Psychiatry* (30-30)

White and Staff

Clinical lectures exhibiting common types of mental deterioration, supplemented by ward and conference clinics are followed by a didactic course in the more advanced

phases of the subject. 1 hour per week throughout the fourth year. (Clinical hours are included in the hour schedule of medical clinics.)

292. *Ethics* (6-6)

W. C. Borden

A course of lectures on general ethics, including personal hygiene, care of laboratory equipment and general conduct in the first year, and on medical ethics and adaptability for the profession in the fourth year. 6 hours in the fourth year.

293. *Medical Psychology* (10-10)

Hall

A course of lectures presenting the fundamentals of psychology from the medical standpoint. 1 hour weekly, first trimester, fourth year.

## MILITARY SCIENCE AND TACTICS

WILLIAM OLENDORF WETMORE, M.D., Major, Medical Corps, United States Army, *Professor of Military Science and Tactics.*

The Reserve Officers Training course is elective.

11-13. *(Basic Medical Course) Military Science and Tactics*

Wetmore

Practical and theoretical instruction in the following subjects: Military courtesy and discipline, policy, organization, administration, law, medicine, hygiene and first aid. 1 hour per week throughout the first year.

21-23. *(Basic Medical Course) Military Science and Tactics*

Wetmore

Map reading, organization of the medical department for caring for, transporting of the sick and wounded from the firing line to the hospitals in the interior, tactics and technique of the several branches of the Army, hospitalization, sanitation with reference to posts, camps, and marches. 1 hour per week throughout the second year.

A summer course at Carlisle Barracks, Pa., following the second year. Six weeks of physical training, athletics, drill, practice marches, practical sanitation, company administration, military tactics and map drawing.

103-105. *(Advanced Medical Course) Military Science and Tactics*

Wetmore

Physical examinations of masses as employed in the Army, food and its relation to disease, water and its relation to disease, prevention and control of communicable diseases from the military standpoint, sanitation in field and garrison. 1 hour per week throughout the third year.

123-125. *(Advanced Medical Course) Military Science and Tactics*

Wetmore, Shook

Service in the O. R. C., military hospitals and hospitalization in war, medical and surgical diseases peculiar to war, medical aspects of chemical warfare, aviation medicine, medical aspects of mobilization. Inspection of dairies, ice cream plants and packing houses. Methods used by the Army in selecting meats and meat products. Regulations concerning the slaughtering and preparation of meat and meat products. 1 hour per week throughout the fourth year.

## OBSTETRICS AND GYNECOLOGY

HURON WILLIS LAWSON, M.S., M.D., *Professor of Obstetrics and Gynecology, Executive Officer.*

HOWARD FRANCIS KANE, A.B., M.D., *Associate Professor of Obstetrics.*

ELIJAH WHITE TITUS, PHAR.D., M.D., *Associate Professor of Gynecology.*

THOMAS EDWIN NEILL, M.D., *Clinical Professor of Gynecology.*

RICHARD LEE SILVESTER, M.S., M.D., *Clinical Professor of Obstetrics.*

JACOB KOTZ, M.D., *Associate in Gynecology.*

HENRY LAURAN DARNER, A.B., M.D., *Clinical Associate in Gynecology.*

JOSEPH HARRIS, A.B., M.D., *Instructor in Obstetrics.*

VERGIL B. JACKSON, M.D., *Clinical Instructor in Gynecology.*

HELEN GLADYS KAIN, B.S., M.D., *Clinical Instructor in Gynecology.*

GEORGE NORDLINGER, A.B., M.D., *Clinical Instructor in Obstetrics.*

HENRY JOHN RUSSELL McNITT, B.S., M.D., *Clinical Instructor in Obstetrics.*

HERBERT PERCY RAMSAY, A.B., M.D., *Clinical Instructor in Gynecology.*

WILLIAM RAYMOND THOMAS, M.D., *Clinical Instructor in Obstetrics.*

LAURENCE LEE COCKERHILL, M.D., *Clinical Instructor in Obstetrics.*

BERNARD NOTES, M.D., *Clinical Instructor in Obstetrics.*

FRANK EDWARD GANTZ, M.D., *Clinical Instructor in Gynecology.*

WILLIAM PRESTON HAYNES, M.D., *Clinical Instructor in Obstetrics.*

ESTHER ALSYLVIA NATHANSON, A.B., M.D., *Clinical Instructor in Gynecology.*

CLAYTON HOWARD HIXSON, M.D., *Clinical Instructor in Obstetrics.*

ALEC AMBROSE PREECE, M.D., *Clinical Instructor in Obstetrics.*

---

Total number of hours required in Obstetrics and Gynecology for the M.D. degree—241.

---

211-213. *Normal Obstetrics* (66-66) Lawson, Kane, Silvester, Thomas  
Lectures and recitations on the physiology and management of normal pregnancy, labor and the puerperium. The physiology and the immediate care of the newborn child are included. Complications of pregnancy are considered in this course near the end of the year. 2 hours per week throughout the third year.

214. *Obstetrical Demonstrations* (14-0) Harris, Thomas, Notes  
During the first part of this course laboratory studies are made of the bony pelvis in relation to childbearing, the changes in the soft tissues due to pregnancy, and the fetus at different ages. During the latter half of the course methods of antepartum examinations are demonstrated in the dispensaries and the clinical course and management of

normal labor studied in the delivery wards. The student observes at least four normal deliveries. Sections, 2 hours per week, seven weeks throughout the third year.

- 223-224-225. *Principles and Practice of Gynecology* (33-33) Titus, Kotz  
A course of lectures and recitations on the subject matter of gynecology, medical and surgical, as generally accepted, with dispensary clinics to demonstrate principles taught. 1 hour per week throughout the third year.

- 251-252-253. *Abnormal Obstetrics* (30-30) Lawson  
Lectures, recitations and conferences on the pathology of pregnancy, labor and the puerperium. Birth injuries to the fetus are discussed and demonstrated. The course concludes with a consideration of operative obstetrics. 1 hour per week throughout the fourth year.

258. *Manikin Demonstrations* (6-0) Harris, Notes  
A course of exercises on the mechanism, diagnosis of presentation and position of labor, version and extraction, delivery by forceps, and other manipulations and operations, use being made of bony and metal pelvis, the manikin and fetuses. Sections 2 hours per week for three weeks throughout the fourth year.

- 261-262-263. *Clinical Obstetrics* (50-0) Lawson, Silvester, Harris, Thomas, Cockerille, Notes, Hixson  
This embraces dispensary clinics on prenatal care, ward clinics, observation of abnormal deliveries, and the attendance under supervision of six cases in the out-patient service. Throughout the fourth year.

273. *Clinical Gynecology* (15-0) Lawson, Titus, Miller, Neill, Kotz, McNitt, Jackson, Ramsay, Darnier  
Clinical instruction in various hospitals covering the more important gynecological diseases and operations. Sections throughout the fourth year.

## PHARMACOLOGY

GEORGE BYRON ROTH, A.B., M.D., *Professor of Pharmacology, Executive Officer.*

JAMES HOLMES DEFANDORF, A.M., *Associate Professor of Pharmacology.*

Total number of hours required in Pharmacology for the M.D. degree—172.

151. *Chemical Pharmacology* (36-0)

Defandorf

This laboratory course aims to teach the elements of the pharmacy of the more important medicinal agents and to acquaint the student with the fundamentals underlying the chemical incompatibilities of drugs. The characteristic reactions of the important constituents in drugs are emphasized and the excretion of certain drugs in man is investigated. 3 hours per week in the first trimester of the second year.

152. *Pharmacodynamics* (50-0)

Roth, Defandorf

The instruction in Pharmacodynamics is also practical and consists of demonstrations and student experiments to illustrate the biological effects and nature of the action of the more important pharmacological agents, proceeding from the simple to the more complex tissues and finally to the organism as a whole. If possible, the site of the action of the drug is ascertained, thus affording a rational basis for its use in therapeutics. 5 hours per week in the second trimester of the second year.

161-162-163. *Systematic Pharmacology* (76-76)

Roth

This is a didactic course, supplemented by demonstration, which correlates the most prominent facts relating to the more important therapeutic agents and brings them into more intimate connection with their clinical use, special consideration being given to the drugs found in the United States Pharmacopoeia and New and Non-Official Remedies. 2 hours per week in the first and third trimesters, and 3 hours per week in the second trimester of the second year.

174. *Principles of Prescription Writing* (10-0)

Roth

Conferences on the form of the prescription and drill in elemental prescription writing. 1 hour per week in the second trimester of the second year.

## PHARMACY

- LOUIS FRANCIS BRADLEY, PHAR.D., *Professorial Lecturer in Pharmacy.*  
 WILLIAM PAUL BRIGGS, M.S., *Associate Professor of Pharmacy, Executive Officer.*  
 EUGENE CHRISTIAN BROKMEYER, *Lecturer on Pharmaceutical Jurisprudence.*  
 ASA VERNON BURDINE, *Lecturer on Commercial Pharmacy.*  
 CLAYTON HOWARD HIXSON, M.D., *Lecturer on Physiology.*  
 MARVIN RUSSELL THOMPSON, PH.G., *Associate in Pharmacology.*  
 A. MACGRUDER MACDONALD, M.D., *Lecturer on First Aid.*  
 AUGUSTUS CARRIER TAYLOR, *Lecturer on Pharmaceutical Ethics.*  
 EWALD WITT, M.S. IN PHAR., *Instructor in Pharmacy.*

*Requirements for the degrees in Pharmacy: See curricula on page 163.*

## FIRST SECTION

- 1-2. *Theoretical Pharmacy* (2-2) Briggs  
 Principles of pharmaceutical operations, and the theory of the manufacture of Pharmacopoeial and National Formulary preparations. Tuesday and Thursday, 9:10 to 10:00 a. m.
- 3-4. *Manufacturing Pharmacy* (2-2) Briggs and Witt  
 Laboratory—to be taken concurrently with Courses 1-2. Thursday and Friday, 2:10 to 4:30 p. m.
- 5-6. *Pharmaceutical Mathematics* (2-2) Witt  
 Systems of weights and measures and methods of conversion from one to another; thermometers and the measurement of temperatures; calculation of specific gravity; calculations used in reducing and enlarging formulas. Tuesday, 3:10 to 4:00 p. m., Thursday, 1:10 to 2:00 p. m.
9. *History of Pharmacy* (1) Briggs  
 The development of the profession from the earliest time to the present. Wednesday, 4:10 to 5:00 p. m.
53. *Pharmacy* (1) Witt  
 A study of the volatile and fixed oils, petroleum products, glucosides, alkaloids, etc. Friday, 10:10 to 11:00 a. m.
54. *Pharmaceutical Chemistry* (2) Briggs  
 The inorganic and organic compounds of the U. S. P. and N. F., including manufacture, tests for purity and identity. Prerequisites: Chemistry 3-4 or 5-6. Monday and Wednesday, 9:10 to 10:00 a. m.

- 61-62. *Dispensing Pharmacy* (2-2) Briggs, Wint  
Laboratory work illustrating by practice the approved methods of compounding a selected series of prescriptions numbering about 300. Two laboratories a week. Tuesday and Thursday, 9:10 to 11:30 a. m.
- 63-64. *Dispensing Pharmacy* (2-1) Briggs  
Lecture course to be taken concurrently with Courses 61 and 62. Monday and Wednesday, 9:10 to 10:00 a. m., first semester. Friday, 10:10 to 11:00 a. m., second semester.
- 65-66. *Pharmacology* (3-3) Thompson  
The year's work is divided into two parts: (1) *Materia Medica and Therapeutics*. The study of the physiological actions and uses of medicinal agents of the U. S. P. and N. F. (2) *Pharmacognosy, Posology and Toxicology*. The study of the U. S. P. and N. F. drugs as regards identification, selection, sources, properties, uses and therapeutic and toxic dosage. Monday, Wednesday, Friday, 5:10 to 6:00 p. m.
67. *Pharmaceutical Latin* (1) Wint  
Latin as applied in the prescription and in the various pharmaceutical dispensaries. Monday, 4:10 to 5:00 p. m.
72. *Pharmaceutical Mathematics* (1) Wint  
Continuation of Courses 5-6. Monday, 4:10 to 5:00 p. m.
- 77-78. *Physiology* (1-1) Hixson  
A general study of the structure and functions of the human body. Friday, 1:10 to 2:00 p. m.

## SECOND SECTION

- 101-102. *Pharmaceutical Jurisprudence* (1-1) Brokmeyer  
A theoretical and practical knowledge of laws governing the practice of pharmacy. Monday, 1:10 to 2:00 p. m.
151. *Dispensing Pharmacy* (1) Briggs  
Continuation of Courses 63-64 especially stressing incompatibility and methods of correcting same. Friday, 9:10 to 10:00 a. m.
152. *Pharmacy* (2) Wint  
The U. S. P. methods of quantitative analysis, physical and other tests, etc. Some food analysis is also included in this course. Friday and Saturday, 9:10 to 10:00 a. m. To be taken concurrently with Pharmacy 154.

153. *Dispensing Pharmacy* (1) Briggs  
Continuation of Courses 61-62. Original prescriptions are compounded and dispensed involving ambiguous and incompatible prescriptions and proprietaries. Friday, 10:10 a. m. to 12:30 p. m.
154. *Pharmacy* (2) Witt  
A few gravimetric analyses of U. S. P. drugs, followed by volumetric work on first inorganic chemicals and then fluid extracts, tinctures, etc. This is followed by work on saponification value of fats, etc., acid and iodine numbers, estimation of volatile oils, and various assays on products manufactured by first year students. Friday and Saturday, 10:10 a. m. to 12:30 p. m.
155. *Qualitative Analysis* (1) Witt  
Pharmaceutical qualitative analysis including the principal purity and identity tests of the U. S. P. and N. F. *Laboratory*—Saturday, 10:10 a. m. to 12:30 p. m.
156. *Pharmacy* (2) Briggs  
A complete review of the U. S. P. and N. F. Tuesday and Thursday, 11:10 a. m. to 12:00.
157. *Qualitative Analysis* (1) Witt  
Lecture course to be taken concurrently with Pharmacy 155. Saturday, 9:10 to 10:00 a. m.
162. *Ethics* Taylor  
A discussion of the motives and institutions of the pharmaceutical profession. Friday, 2:10 to 3:00 p. m.
- 165-166. *Commercial Pharmacy* (2-2) Burdine  
The course consists of elementary economics, history of money, financing, planning and equipping new stores, selection of locations, management problem and duties, turnover, commercial arithmetic, expense and overhead, inventories, business economics, system and store service, business correspondence, retail buying, salesmanship, sales, plans and merchandising, advertising, display work, departmentizing and business building. Wednesday, 2:10 to 4:00 p. m.
- 169-170. *Pharmacology* (2-2) Thompson  
Biological Testing and Assaying. Biological drug assaying with special reference to the methods of the U. S. P. and N. F. Tuesday and Thursday, 5:10 to 6:00 p. m.

- 173-174. *Medical Emergencies and First Aid* (1-1) MacDonald  
This course of lectures is designed to acquaint the student with emergencies both of a medical and surgical nature; the recognition and emergency treatment of same. Thursday. 4:10 to 5:00 p. m.
- 181-182. *Advanced Pharmacy* (3-3) Briggs  
Lecture and laboratory in advanced points of pharmaceutical interest. Hours to be arranged.

## PHILOSOPHY

EDWARD ELLIOTT RICHARDSON, M.D., Ph.D., *Elton Professor of Mental and Moral Philosophy.*

*Minimum requirements for the major:* Philosophy—24 semester hours, including Courses 103, 111-112, and 6 semester hours of Psychology.

## SECOND SECTION

101. *Introduction to Philosophy* (2) Richardson  
*Summer Term 1930:* Daily except Saturday, 7:40 a. m.
103. *Principles of Philosophy* (3) Richardson  
 The principles, problems and theories of philosophy. First semester, Tuesday, Thursday, Saturday, 9:10 a. m. Second semester, Monday, Wednesday, Friday, 5:10 p. m.
106. *Contemporary Philosophy* (3) Richardson  
 A survey of the philosophic thought of the present time. Tuesday, Thursday, Saturday, 9:10 a. m.
- 111-112. *History of Philosophy* (3-3) Richardson  
 Ancient and Mediaeval philosophy; Modern philosophy. *Section A*, Tuesday, Thursday, Saturday, 10:10 a. m. *Section B*, Monday, Wednesday, Friday, 6:10 p. m.
121. *Logic* (3) Ruediger  
 The field of logic; the organization of knowledge, induction, deduction; logical analysis. First semester, Tuesday, Thursday, Saturday, 9:10 a. m. Second semester, Monday, Wednesday, Friday, 5:10 p. m.
131. *Ethics* (3) Richardson  
 The principal ethical theories from the historical and social points of view. Monday, Wednesday, Friday, 5:10 p. m. *Summer Term 1930:* Daily except Saturday, 5:10 p. m.
133. *Philosophy of Religion* (3) Richardson  
 A presentation of the philosophical principles involved in religion. *Summer Term 1930:* Daily except Saturday, 6:10 p. m.

## THIRD SECTION

- 251-252. *Seminar* (3-3) Richardson  
 Consideration of special problems; research in philosophy. Wednesday, 7:00 to 9:00 p. m.

## PHYSICAL EDUCATION FOR MEN

JAMES EBENEZER PIXLEE, B.S., *Professor of Physical Education for Men Executive Officer.*

MAX FARRINGTON, A.B., *Instructor in Physical Education.*

JEAN ELYLE SEXTON, A.B., *Instructor in Physical Education.*

LEONARD WALSH, A.B., *Instructor in Physical Education.*

The department includes under its jurisdiction all of the recognized athletic activities of the men students of the University. Work is so arranged that every student, regardless of his ability, is enabled and encouraged to take part in some of the activities. Enrollment in some one of the following courses—21-22, 31-32, 71-72, 81-82, is required of first and second year students in The Junior College, The School of Engineering, The School of Pharmacy, and The Division of Fine Arts (Graphic Art students) in regular attendance.

Entering students are given a medical examination followed by a physical efficiency test, after which they are classified and assigned to restrictive or elective work.

Students who participate in Varsity or intramural athletics are excused from the regular courses in physical education. A definite program of activities is outlined for each course; and final examinations are given as in other University courses. Those who fail in the examinations may repeat the course or elect a different course. All students, excepting those assigned to Individual Gymnastics, will take four different courses in meeting their physical education requirement.

Students enrolling in physical education courses will be required to furnish their personal uniforms and equipment. The University, through the Director, makes special provision for those desiring to purchase such equipment.

The general University regulation covering absence from classes applies in this department.

Activities open to freshmen: Football, basket ball, track, baseball, swimming, tennis, boxing.

Activities open to sophomores: Varsity football, basket ball, boxing, track, or other sports established from time to time.

Courses required of all freshmen and sophomores: 21-22, 31-32, 71-72, 81-82.

### FIRST SECTION

#### 1-2. *Introduction to Physical Education* (3-3)

Theory and Practice. This course introduces the student to the entire field of physical education: History of theories and systems of physical education; aims and objects of the modern developments of physical education: instruction in

Pixlee

calisthenics, gymnastics, marching, and dancing. (This course covers the A. & P. E. & I.)

11-12. *Theory and Practice Fundamentals of Physical Education* (2-2) The Staff

Required of all majors in the freshman year. This course deals with intensive instruction in the various activities which go to make up both the major and minor sports, including football, basketball, baseball, lacrosse, track and field, handball, soccer, boxing, wrestling, swimming, diving, life-saving, tumbling, calisthenics, light and heavy apparatus. Mass athletics and group games.

The following courses are based on the Course 11-12 and are a continuation of this course.

21-22. *Elementary Physical Education* (1-1) Sexton, Farrington  
Two periods each week required of freshmen. Tuesday and Thursday, 8:00 a. m. and 10:00 a. m.

31-32. *Individual Gymnastics* (1-1) Sexton  
A special course for freshmen not taking the regular course. Students receive individual attention and are assigned to recreational and corrective programs suited to individual needs. Three periods each week and two periods of outside assignments each week. Monday, Wednesday, Friday, 9:00 a. m.

53-54. *Theory and Practice of Physical Education* (2-2) Sexton, Walsh  
Practice teaching; mass athletics; group games and individual activities.

55-56. *Theory and Practice Individual Gymnastics and Athletics* (2-2) Sexton, Walsh  
Physical Diagnosis, Medical Gymnastics, etc. Lectures, assigned readings, technic of health examination, individual activity. Clinical practice adapted to problems coming in the field for men. Recognition of cases coming within the scope of the physical director.

61-62. *Theory and Practice of Physical Education* (2-2) The Staff

71-72. *Advanced Physical Education* (1-1) Sexton, Farrington  
Required of sophomores. Continuation of Course 21-22. Four separate lines of activity are required to fulfill the requirements by the end of the sophomore year. Tuesday and Thursday, 10:00 a. m. and 3:00 p. m.

81-82. *Individual Gymnastics* (1-1)

Sexton

For sophomores. Continuation of 31-32. Monday, Wednesday, Friday, 9:00 a. m.

## SECOND SECTION

109-110. *Kinesiology and Body Mechanics* (3-3)

Walsh

Analysis of gymnastics, athletics, athletic and individual gymnastics. Training room methods, reduction of injuries, first aid.

111-112. *Theory and Practice of Physical Education* (2-2)

The Staff

Prerequisite: Course 11-12.

117-118. *Theory and Practice of Play Ground and Community Recreation* (2-2)

Sexton, Walsh

Nature and function of play-age period and adaptation of activities. Social environment, play ground development, construction, management, and supervision. Games, pageants, handiwork, and physical activities. Recreation materials, field meets, tournaments. Practical application in teaching age groups.

129-130. *Theory and Practice in Physical Education* (3-3)

Pixlee, Walsh

161-162. *Theory and Practice Physical Education* (2-2)

The Staff

All major and minor activities are handled in season.

173-174. *Psychology and Athletics—Physical and Mental Tests* (3-3)

Pixlee

Psychology and athletics for the first semester; physical and mental tests for the second semester.

177-178. *Physical Education*

Pixlee, Sexton, Walsh

179-180. *Theory and Practice Physical Education* (3-3)

The Staff

Practice teaching in competitive groups—coaching and officiating.

## PHYSICAL EDUCATION FOR WOMEN

RUTH HARRIET ATWELL, PH.B., *Associate Professor of Physical Education for Women, Executive Officer.*

JANET PEARSON JONES, B.S., *Instructor in Physical Education.*

HELEN BENNETT LAWRENCE, *Instructor in Physical Education.*

RUTH MARY AUBECK, B.S., *Instructor in Physical Education for Women.*

SUSIE ROOT RHODES, *Lecturer in Physical Education for Women.*

Physical Education Courses 1-2 and 3-4 constitute the requirement for graduation and are compulsory for all freshman and sophomore women. Students entering the University with advanced standing are exempt from this requirement if they have satisfactorily completed the work elsewhere. Because of the necessity for uniformity of costume the required gymnasium outfit must be ordered through the office of the Director of Physical Education.

Upon entrance all students are given a complete medical and physical examination, stress being laid on investigation of conditions which are susceptible to improvement.

All requests for postponement of Physical Education must be made and approved at the office of the Director. No student is exempt from physical education work without the recommendation of the University Medical Staff and the Director of Physical Education. Exemption is based largely on the findings of the required medical and physical examination.

Students who are physically unable to do the regular work are assigned to individual gymnastic classes which are modified to suit their needs and conducted under the direct supervision of the resident physician.

All women students are urged to take at least one hour of exercise every day. The facilities of the Department are available for this purpose to all women students.

Curriculum for the four-year course, leading to the degree B.S. in Physical Education for Women—the first two years are offered in The Junior College (see page 80); the last two years in The School of Education.

### FIRST SECTION

#### 1-2. Freshmen (1-1)

The Staff One lecture on Personal Hygiene and two periods of activity as outlined below are required each week.

Fall Season. During this season freshmen may elect one of the following sports: Hockey, soccer, or archery. Section A, Monday and Thursday, 1:30 p. m.; Section B, Tuesday

and Friday, 1:30 p. m.; *Section C*, Monday and Thursday, 2:30 p. m.; *Section D*, Tuesday and Friday, 2:30 p. m.

*Winter Season.* A fundamental course is required of all freshmen. This includes gymnastic exercises for the purpose of developing motor skills and good posture habits, tumbling, pyramid building, folk dancing, and games. *Section E*, Monday and Friday, 9:00 a. m.; *Section F*, Monday and Friday, 10:00 a. m.; *Section G*, Monday and Friday, 11:00 a. m.

Students may be assigned to small groups for individual gymnastics, if the examination indicates that this is advisable.

*Spring Season.* During this season all freshmen must elect swimming with the exception of those girls who can pass the swimming test, in which case they may elect one of the following activities: Track, baseball, or archery. Sections same as Fall Season.

*Hygiene.* One lecture a week throughout the year. *Section A*, Wednesday, 9:00 a. m.; *Section B*, Wednesday, 10:00 a. m.; *Section C*, Wednesday, 11:00 a. m.

### 3-4. Sophomores (1-1)

The Staff

Two periods of activity as outlined below are required each week.

*Fall Season.* During this season sophomores may elect one of the following sports: Hockey, soccer, golf, archery, tennis. *Section A*, Monday and Thursday, 1:30 p. m.; *Section B*, Tuesday and Friday, 1:30 p. m.; *Section C*, Monday and Thursday, 2:30 p. m.; *Section D*, Tuesday and Friday, 2:30 p. m.

*Winter Season.* During this season sophomores may elect one of the following activities: Natural dancing, clog and folk dancing, rifle, or basketball. *Section H*, Tuesday and Thursday, 9:00 a. m.; *Section I*, Monday and Thursday, 1:00 p. m.; *Section K*, Monday and Thursday, 2:00 p. m.; *Section L*, Tuesday and Friday, 2:00 p. m.

*Spring Season.* During this season sophomores may elect one of the following activities: Track, tennis, golf, archery, baseball, or advanced swimming. Sections same as Fall Season.

### 5-6. Theory and Practice of Play Activities (3-3)

Rhodes

Two lectures each week and two laboratory periods. This is a study of the age periods of the child and the adaptation of physical activities to these periods. Plays and games will

be taken up for use in playgrounds and school curricula. A study will be made of the history and organization of playgrounds and other community recreation.

7-8. *Theory and Practice of Physical Education* (3-3)

Atwell, Lawrence

Two lectures and four laboratory periods each week. This is a foundation course which studies the methods of teaching gymnastics, sports, and dancing. The technique of each activity is studied and practice teaching in each one is required. The following activities are included: Gymnastics, apparatus and marching; folk, clog, and natural dancing; hockey; basketball; tennis; swimming; soccer; archery; baseball; track; and golf. These activities are scheduled according to season throughout the sophomore, junior and senior years.

SECOND SECTION

101-102. *Therapeutic Gymnastics and Physical Examinations* (3-3)

Lawrence

Three lectures each week. This course includes a study of the theory and mechanics of postural defects, practice in exercises suitable for such and for cases needing remedial work prescribed by a physician and a discussion of physical examination methods used in diagnosis of physical defects.

103-104. *Kinesiology* (3)

Aubeck

Three lectures each week. This course is a study of the anatomical mechanism of movements for the purpose of acquainting the student with means of analyzing movements intelligently and prescribing programs for developmental or corrective purposes.

106. *School Health Problems* (3)

Aubeck

Three lectures each week. This course considers the problems relating to the health of the school child and teacher. It includes discussions and reports relating to medical inspection, physical examinations, symptoms and control of common school diseases, malnutrition, and the health environment of the school child.

107. *History of Physical Education* (2)

Atwell

Two lectures each week. This course makes an historical survey of physical education including contemporary developments and a consideration of the biological and educa-

tional aspects of physical education with special reference to its place in education.

108. *Scouting and Other Adolescent Organizations* (2) Aubeck  
Two lectures each week. This course includes a study of the adolescent organizations for boys and girls, discussing their educational values, their activities, and their application.

- 109-110. *Theory and Practice of Physical Education* (3-3) Atwell, Lawrence, Aubeck  
Two lectures and four laboratory periods each week. This is a foundation course which studies the methods of teaching gymnastics, sports, and dancing. The technique of each activity is studied and practice teaching in each one is required. The following activities are included: Gymnastics, apparatus and marching, folk, clog, and natural dancing; hockey; basketball; tennis; swimming; soccer; archery; baseball; track; and golf. These activities are scheduled according to season throughout the sophomore, junior and senior years.

- 111-112. *Organization and Administration of Physical Education* (3-3) Atwell  
Three lectures each week. This course includes a study of the problems of organization for physical education in elementary and secondary schools and colleges. Problems to be discussed will cover interscholastic, intercollegiate, and intramural athletics, personnel of a department, equipment, and facilities, keeping of records, finances, schedules, publicity, scholastic and athletic eligibility, and professionalism.

- 113-114. *Theory and Practice of Physical Education* (3-3) Atwell, Lawrence  
Two lectures and four laboratory periods each week. This is a foundation course which studies the methods of teaching gymnastics, sports, and dancing. The technique of each activity is studied and practice teaching in each one is required. The following activities are included: Gymnastics, apparatus and marching, folk, clog, and natural dancing; hockey, basketball, tennis, swimming, soccer, archery, baseball, track, and golf. These activities are scheduled according to season throughout the sophomore, junior and senior years.

115. *Advanced Therapeutic Gymnastics* (3) Lawrence  
One lecture and two laboratory periods each week. This is an advanced course in the subjects included in Course 101-102. The laboratory hours are spent in assisting in the individual gymnastics classes and with the physical examinations.
116. *Practice Teaching in Physical Education* (2) Atwell  
Four laboratory periods each week. These periods are used for practice teaching in physical education activities. Criticism and analysis of the instruction is given by the supervisor.
117. *Physical Tests and Measurements* (2) Atwell  
Three lectures each week. This includes a survey of tests and measurements in physical education with the theories underlying their use. There will be practice in giving tests; construction of learning curves; elementary statistics.
118. *Camp Leadership* (2) Lawrence  
Three lectures each week. Camp leadership is taken up from the standpoint of camp organization, program making, camp activities, and qualifications of counselors.

## PHYSICS

WILLIAM JACKSON HUMPHREYS, C.E., Ph.D., *Professor of Meteorological Physics.*

WALTER LYNN CHENEY, Ph.D., *Professor of Physics, Executive Officer.*

RAYMOND JOHN SLEGER, Ph.D., *Assistant Professor of Physics.*

CHARLES EDWIN VAN ORSTRAND, M.S., *Lecturer in Mathematical Physics.*

JAMES LEWIS THOMAS, A.M., *Associate in Physics.*

HENRY JOSEPH WING, Ph.D., *Associate in Physics.*

*Minimum requirements for the major:*

*For the A.B. degree: Physics—Physics 7-8 or 9-10; Differential and Integral Calculus; and at least 18 additional semester hours' credit in Physics. Physical Science—30 semester hours of Physics and Chemistry as specified by the Executive Officers of these Departments.*

*For the B.S. degree: Physics 7-8 or 9-10; Differential and Integral Calculus; Differential Equations; and at least 18 additional semester hours' credit in Physics.*

## FIRST SECTION

3-4. *Principles of Physics (3-3)*

Course 3 includes Properties of Matter, Heat, Magnetism. Course 4 includes Electricity, Sound, Light. These courses should not be taken by students who plan to do advanced work in science. (Not given in 1930-31.)

7-8. *General Physics (4-4)*

Prerequisite: High School Physics. Material fee \$5.00 a semester. *Section A*, Tuesday, Thursday, Saturday, 11:30 a. m. *Laboratory*<sup>1</sup>—Monday or Friday, 1:00 to 3:00 p. m. *Section B*, Monday, Wednesday, Friday, 5:10 p. m. *Laboratory*<sup>1</sup>—Thursday, 5:00 to 7:00 p. m., or Wednesday or Friday, 6:30 to 8:30 p. m. *Summer Term 1930: Course 7*, daily except Saturday, 5:10 p. m. *Laboratory*—Tuesday, 7:30 to 10:30 p. m. *Course 8*, daily except Saturday, 6:10 p. m. *Laboratory*—Thursday, 7:30 to 10:30 p. m. May be taken concurrently with Course 7.

9-10. *Beginners General Physics (5-5)*

May be taken by students who do not have credit for High School Physics. Equivalent in scope to Course 7-8. Material fee \$5.00.

<sup>1</sup> On sabbatical leave 1930-31.

rial fee \$3.00 a semester. Tuesday, Thursday, Saturday, 5:10 p. m. *Laboratory*<sup>1</sup>—Tuesday and Thursday, 1:00 to 3:00 p. m., or Tuesday and Thursday, 7:30 to 9:30 p. m. *Summer Term 1930*: Course 9, daily except Saturday, 5:10 p. m. *Laboratory*—Tuesday and Thursday, 7:30 to 10:30 p. m. Course 10, daily except Saturday, 6:10 p. m. *Laboratory*—Tuesday and Thursday, 7:30 to 10:30 p. m.

- †15-16. *Physics for Engineering Students* (2-2) Cheney and Staff  
Prerequisites: Physics 7-8 or 9-10, and Mathematics 12.  
Physics 7-8, *Section A*, may be taken concurrently with  
Physics 15-16, *Section A*. Material fee \$4.00 a semester.  
*Section A*, Tuesday, 9:10 a. m. *Laboratory*<sup>2</sup>—Saturday,  
9:00 to 11:00 a. m. *Section B*, Thursday, 6:10 p. m. *Laboratory*<sup>2</sup>—Tuesday, 5:00 to 7:00 p. m.

## SECOND SECTION

- 111-112. *Mechanics and Heat* (3-3) Cheney  
Prerequisites: Physics 7-8 or 9-10; and Calculus. (Given  
1929-30 and alternate years.)

- †115-116. *Light and Sound* (3-3) Brown  
Prerequisites: Physics 7-8 or 9-10; Differential Calculus.  
Two lectures and one laboratory. Material fee \$4.00 a  
semester. (Given in 1929-30 and alternate years.)

- †123-124. *Magnetism and Electricity* (3-3) Cheney  
Course 124 includes an introduction to modern theories of  
radiation and matter. Prerequisites: Physics 7-8 or 9-10;  
and Calculus. Material fee \$4.00 a semester. Monday and  
Friday, 6:10 p. m. *Laboratory*—Wednesday, 6:30 to 8:30  
p. m.

- 131-132. *Advanced Laboratory Physics* (2-2) Brown  
Prerequisites: One of the above second section courses or  
the equivalent. May be taken concurrently with 111-112.  
Material fee \$3.00 a semester. (Not given in 1930-31.)

## THIRD SECTION

211. *Dynamics* (3) Seeger  
Prerequisite: Physics 111 or its equivalent. Tuesday, Thurs-  
day, Saturday, 6:10 p. m.

<sup>1</sup> Assignments to laboratory sections of the above courses are made by cards to be obtained from the Physics Department representative, at the time of registration.

212. *Thermodynamics* (3) Sooger  
Prerequisite: Physics 111-112 or the equivalent. Tuesday,  
Thursday, Saturday, 6:10 p. m.
- †215-216. *Wave Motion and Physical Optics* (3-3) Brown  
Prerequisites: Physics 115-116 or the equivalent. (Not given  
in 1930-31.)
- †223-224. *Advanced Electrical Theory* (3-3) Cheney  
Prerequisites: Physics 123-124 or the equivalent. (Given  
in 1929-30 and alternate years.)
- 231-232. *Graduate Laboratory Physics* (2-2) Brown  
For graduate students needing additional laboratory prac-  
tice for research work. Material fee \$8.00 a semester. (Not  
given 1930-31.)
- 251-252. *Atomic Structure* (3) *X-Rays and Radio Activity* (3) Seeger  
Prerequisites: Physics 123-124 or the equivalent. (Given  
in 1929-30 and alternate years.)
- †261-262. *Seminar in Mathematical Physics* (2-2) Van Orstrand  
Theory of Elasticity is the topic to be considered in 1930-31.  
Ibbatson—Mathematical Theory of Elasticity. Saturday,  
5:10 p. m.
- †281-282. *Meteorological Physics* (3-3) Humphreys  
The interpretation of meteorological data in the light of  
modern Physics. Those wishing to make this their principal  
study will be advised in the selection of a suitable problem  
for investigation and in the collection of data necessary to  
its solution. Hours to be arranged.

## PHYSIOLOGY

LESLIE HOWSON FRENCH, M.D., *Professor of Physiology, Executive Officer.*

ROBERT JOSEPH BOSWORTH, A.B., M.D., *Associate Professor of Physiology.*

\_\_\_\_\_, *Instructor in Physiology.*

Total number of hours required in Physiology for the M.D. degree—279.

111-114. *Physiology* (145-145)

French, Bosworth

Course of systematic lectures, recitations and conferences covering the physiology of Muscle, Nerve, Blood, Lymph, Circulation, Respiration, Digestion, Excretion, Secretion, Senses Organs, Metabolism, Endocrine and Central Nervous Systems. 3 hours weekly, first and second trimesters; 5 hours weekly, last trimester of the first year; 2 hours weekly, first trimester of the second year.

151. *Experimental Physiology* (120-0)

French, Bosworth

Course of laboratory exercises and demonstrations selected to illustrate the fundamental principles of physiology and to impress the student with the importance of observation and correlation. Quizzes and conferences precede each laboratory session. The course includes practical instruction in Electro-cardiography and Metabology. 10 hours per week in the first trimester of the second year.

251. *Clinical Physiology* (14-0)

French

Course of laboratory exercises, ward demonstrations, and conferences covering clinical disturbances of function. The subject matter is presented in such a way as to interpret clinical pictures, explain certain functional diagnostic procedures and suggest rational preventive and curative therapeutic principles. Sections, 2 hours weekly for seven weeks, fourth year.

## POLITICAL SCIENCE

†CHARLES EDWARD HILL, PH.D., *Professor of Political Science.*

WARREN REED WEST, PH.D., *Associate Professor of Political Science, Executive Officer.*

JOHN ALBERT TILLEMA, PH.D., LL.B., *Associate Professor of Political Science.*

WILLIAM C. JOHNSTONE, JR., PH.D., *Instructor in Political Science.*

*Minimum requirements for the major: 24 semester hours, in which 9-10 may be included.*

Any second section course is open to students who have completed Course 9-10 or its equivalent. Permission of the department must be secured in other cases.

Permission of the department is necessary for registration in third section courses.

## FIRST SECTION

- 9-10. *Government of the United States (3-3)* West and Staff  
 Government of the United States; state government and a survey of city and county government.  
*Section A*, Monday, Wednesday, Friday, 9:10 a. m.; *Section B*, Monday, Wednesday, Friday, 10:10 a. m.; *Section C*, Monday, Wednesday, Friday, 12:10 p. m.; *Section D*, Monday, Wednesday, Friday, 6:10 p. m.; *Section E*, Tuesday, Thursday, Saturday, 7:45 p. m.; *Section F*, Tuesday, Thursday, Saturday, 11:10 a. m.; *Section G*, Tuesday, Thursday, Saturday, 5:10 p. m.; *Section H*, Tuesday, Thursday, Saturday, 6:10 p. m. *Summer Term 1930: Course 9, daily except Saturday, 6:10 p. m.*

## SECOND SECTION

- 111-112. *Comparative European Governments (3-3)* Tillemas  
 Tuesday, Thursday, Saturday, 5:10 p. m. *Summer Term 1930: Course 111 (2), daily except Saturday, 10:40 a. m.*
115. *Municipal Government in the United States (3)* Tillemas  
 Monday, Wednesday, Friday, 10:10 a. m. *Summer Term 1930: (2) Daily except Saturday, 9:40 a. m.*

## ZOOLOGY

PAUL BARTSCH, PH.D., *Professor of Zoology, Executive Officer.*  
 OSCAR BENWOOD HUNTER, A.M., M.D., *Professor of Bacteriology and Pathology.*  
 LELAND ARTHUR BROWN, PH.D., *Associate Professor of Zoology.*  
 MARY QUICK BOWMAN, A.M., *Instructor in Zoology.*  
 WILLIAM THOMAS McCLOSEY, A.B., *Associate in Zoology.*  
 CHARLES HOLCOMB POPENOE, B.S., *Associate in Zoology.*  
 FAY PIERCE BELJ, A.M., *Associate in Zoology.*  
 EUGENIA GALTISOFF, *Associate in Zoology.*

### *Minimum requirements for the major:*

*Zoology:* 24 semester hours, including one of the following groups:

- A. Courses 3-4, 121, 136, 137, 156.
- B. Courses 3-4, 53, 133-134, 151-152.
- C. Courses 3-4, 121, 145-146, 148.

*Biological Science:* 30 semester hours of Zoology and Botany as specified by the Executive Officers of these Departments.

### FIRST SECTION

- 3-4. *Introduction to Zoology (4-4)* Brown, Bowman, McClosky  
 Lectures and laboratory work introductory to the entire field of animal life. The first semester is devoted to a survey of the animal phyla; the second to a study of the underlying principles of general zoology. This course is required of all students majoring in Zoology or Biological Science. Material fee \$5.00 a semester; breakage deposit \$10.00.  
*Lectures*—Section A, Monday and Friday, 5:10 p. m.; Section B, Tuesday and Thursday, 11:10 a. m. *Laboratory*—Section A, Monday, 6:10 to 8:00 p. m., and Friday, 7:10 to 9:00 p. m.; Section B, Tuesday and Thursday, 9:10 to 11:10 a. m.; Section C, Wednesday and Friday, 1:10 to 3:00 p. m.; Section D, Wednesday and Friday, 3:10 to 5:00 p. m.

53. *Nature Study (3)*

A field course covering the range of habitat afforded by our own locality, intended to acquaint the students with living animals in their natural surroundings. Problems in ecology.  
*Summer Term:* Daily except Saturday, 5:10 p. m. *Laboratory*—Daily except Saturday, 6:10 to 9:00 p. m.

## SECOND SECTION

121. *Comparative Anatomy of Vertebrates* (3) Brown, Beij  
Lectures, demonstrations and laboratory work to illustrate the comparative morphology and evolutionary history of vertebrate animals. Recommended as an elective for students intending to enter medicine. Material fee \$10.00. *Prerequisite:* Course 3-4. *Lecture*—Tuesday, 5:10 p. m. *Laboratory*—Section A, Tuesday and Thursday, 2:10 to 5:00 p. m.; Section B, Tuesday and Thursday, 7:10 to 10:00 p. m.
124. *Elementary Physiology* (3) McClosky  
Lectures and laboratory correlating the structure and function of the human body. Material fee \$5.00; breakage deposit \$5.00. *Prerequisite:* Course 3-4. *Lecture*—Tuesday and Thursday, 5:10 p. m. *Laboratory*—Hours to be arranged.
127. *Heredity* (3) Brown  
A lecture course intended to introduce the student to the field of genetics and eugenics. The course covers the physical basis of inheritance, the elementary laws of heredity and the applications of these laws to certain economic problems and to human inheritance. *Prerequisite:* Course 3-4 or Botany 1-2. Monday, Wednesday, Friday, 6:10 p. m.
- 133-134. *Ornithology* (2-2) Bartsch  
A course intended to familiarize the student with the birds of eastern North America. One lecture, one two-hour laboratory period. *Lecture*—Friday, 6:10 p. m. *Laboratory*—In the National Museum. Hours to be arranged.
136. *Histology* (3) Bartsch, Galtsoff  
This course familiarizes the student with histologic technique. The elementary tissues, the microscopic structure of the various organs and systems. This lays a foundation for an understanding of Physiology and Embryology. Material fee \$5.00; breakage deposit \$5.00. *Prerequisite:* Course 121. *Lecture*—Wednesday, 6:10 p. m. *Laboratory*—Hours to be arranged.
137. *Physiology* (3) McClosky  
A course consisting of lectures, laboratory, reports and discussions of the more important phases of animal activity. Material fee \$5.00; breakage deposit \$5.00. *Prerequisite:* Course 136. *Lecture*—Wednesday, 6:10 p. m. *Laboratory*—Hours to be arranged.

†145-146. *Bacteriology* (3-3)

Hunter

General bacteriology; bacteriological technique; preparation of culture media; methods of sterilization and disinfection; a consideration of about ten non-pathogenic and fifty pathogenic bacteria; preparation of vaccines and sera, commonly employed in diagnosis. Moulds, yeast, spoilage of food and contamination of water are also considered. Course fee \$60.00; breakage deposit, per annum, \$10.00. Hours to be arranged.

147. *Clinical Microscopy and Parasitology* (3)

Hunter

Blood counting technique, hemoglobin estimation, and recognition of blood parasites. Study of normal and pathologic urine sediments, sputum, spinal fluid, stomach contents, feces, including animal parasites. Prerequisite: Course 3-4. Course fee \$40.00; breakage deposit \$5.00. Hours to be arranged.

148. *Pathology and Pathologic Technic* (3)

Hunter

A resume of normal Histology and Embryology, followed by a study of the inflammation, repair, degenerations, the effect of plant and animal parasites of physical and chemical agents, and the formation of new growths. Laboratory training in preservation, fixation, sectioning, staining, mounting of pathologic tissues, and their microscopic study. Prerequisite: Course 136. Course fee \$40.00; breakage deposit \$5.00. Hours to be arranged.

151-152. *Entomology* (3-3)

Poppen

Lectures; the anatomy and life history and habits of insects representing the various orders and more important families of the class. Second term: a study of such insects as are of importance to agriculture and health; their life history and control. Laboratory: a study of typical forms and practice in identification. Material fee \$3.00; breakage deposit \$5.00. Prerequisite: Course 3-4. Lecture—Wednesday, 5:10 p. m. Laboratory—Monday and Friday, 5:10 to 7:00 p. m.

156. *Embryology* (3)

Brown

Lectures and laboratory. The first part of the course is devoted to the general principles of maturation, fertilization and cleavage. This is followed by a consideration of the development of the frog, chick, and pig as representative vertebrates. Material fee \$5.00; breakage deposit \$5.00. Prerequisite: Course 136. Lecture—Tuesday, 5:10 p. m. Laboratory—To be announced.

186. *Genetics* (3)

Brown

The course consists of problems, experiments, assigned readings, and special lectures in genetics. Material fee \$5.00. Prerequisite: Course 127 and consent of instructor. Hours to be arranged.

## THIRD SECTION

†251-252. *Seminar* (2-2)

Bartsch, Brown

Hours to be arranged.

†253-254. *Research*

The Staff

Students who have the necessary basic training may arrange to undertake advanced work or individual research. Hours to be arranged.

GENERAL INFORMATION

## INTRODUCTORY STATEMENT

### HISTORY

The first course of lectures in The School of Medicine of The George Washington University began in March, 1825, which makes it the eleventh Medical School established in the United States. The School was first known as the National Medical College and subsequently as the Department of Medicine of the Columbian University. In 1904 the Columbian University became The George Washington University.

In order to increase the facilities for bedside and clinical teaching, the University Hospital and the University Dispensary were established in 1898 and made a part of the organization of The School of Medicine.

### EDUCATIONAL STANDING

The School of Medicine of the University is a member of the Association of American Medical Colleges, and is one of the medical colleges which has been designated continuously as "Class A" by the American Medical Association. The degrees of The School of Medicine are recognized by all state examining boards. It is one of the medical schools selected by the Secretary of War to maintain a Reserve Officers' Training Corps Unit, and is accredited for all its work by the Combined (Royal) Medical Examining Boards in England.

### COURSES OFFERED

1. Four-year course leading to the degree of Doctor of Medicine (M.D.).
2. Combined seven-year course leading to the degrees of Bachelor of Arts (A.B.) and Doctor of Medicine (M.D.).

### COMBINED SEVEN-YEAR COURSE

*Registration.* Candidates register in The Junior College for the freshman and sophomore years of the Pre-Medical Course, and in Columbian College for the junior year.

*Admission.* Applicants must meet pre-medical college requirements outlined on page 28.

*Course of Study.* Candidates must complete at least 94 semester hours of prescribed college work, not including Physical Education (at least 30 semester hours and one year of residence must be completed in Columbian College) and the first year of the medical course. On satisfactory completion of the work outlined above the student will be recommended for the degree of Bachelor of Arts. Upon completion of the fourth year in the medical course the student becomes eligible for the degree of Doctor of Medicine. For further information regarding courses in Columbian College, see page 89 of the University Catalogue.

### THE DEGREE

The degree of Doctor of Medicine given by this University admits the holder to all governmental examinations, including those for the Medical Corps of the United States Army and Navy and the Public Health Service and, with evidence of one year of post graduate hospital work in those states which require hospital internship, will admit a graduate to all state examinations.

### LOCATION AND ITS ADVANTAGES

The City of Washington with more than a half million inhabitants provides abundant clinical material for its six thousand hospital beds. Much of this material is used for clinical instruction by faculty members. Adjoining The School of Medicine, in the heart of the city, the University Hospital and Dispensary furnish clinical facilities and a large proportion of the materials studied in the courses in Clinical Chemistry and Microscopy.

The Library of the Surgeon General's office of the United States Army is the most complete general medical library in the world. In addition to its great collections of medical works, all leading medical periodicals of the world are available. This Library as well as The Library of Congress, The Public Library, and the many excellent libraries of the various Government Departments are open to medical students.

The Army Medical Museum affords opportunity for studying the conditions met with in military and general medicine and surgery. Its collection of anatomical and pathological specimens is unequalled by any other museum in this country. The Museum of Hygiene, The National Museum, The Smithsonian Institution, The Botanic Gardens and The Department of Agriculture, all afford opportunities for study in medicine and its collateral sciences.

Aside from the special advantages offered for the study of medicine, the cosmopolitan character of the city of Washington, its mild climate, its beauty, and as it is the seat of the National Government, its broad interests, make it an ideal place for a medical student to pass four years of study.

### EQUIPMENT

*Medical School Building.* The building housing The School of Medicine is a modern, five-story structure with lecture and class rooms, laboratories and students' rooms, equipped with modern improvements.

*Laboratories.* The major laboratories are five in number—for anatomy, bio-chemistry and clinical chemistry, histology and embryology, physiology

and pharmacology, and bacteriology and pathology. They are fully equipped to enable students to pursue adequately the laboratory courses and acquire the technical skill necessary in modern clinical and research work.

*Medical Library.* The Library, with a librarian in charge, is open for study and reading from 9 a. m. to 4 p. m. It contains a selected reference collection of 2,500 volumes, and provision is made to add to it the important new medical works. The standard medical periodicals are regularly received.

For purposes of advanced study and research the Library of the Surgeon General of the Army is available to all students and teachers.

### CLINICAL FACILITIES

*The University Hospital and Dispensary:* The Hospital and Dispensary are part of the educational equipment of the University. They are integral parts of The School of Medicine, are entirely controlled by the Faculty of Medicine, and are used primarily in instructing students in clinical work. The Dispensary has a large out-patient service in all departments, to which several thousand visits are made annually. The faculty believes that clinical teaching should be as thoroughly systematized as is the teaching in the laboratories. To this end, all clinics are under the supervision of the Assistant Dean assigned to the Clinical Division. This insures the highest possible utilization of available clinical material for teaching purposes and proper supervision of clinicians and students, brings the individual student into direct contact with patients and requires him to do under authoritative supervision the clinical and laboratory work necessary for diagnosis and treatment, permits proper interpretation of the conditions occurring during the progress of cases, promotes the keeping of adequate records.

Clinical and clinico-pathological conferences are held in which the history of cases, the physical findings, laboratory records and the post-mortem pathology when available, are presented and correlated. The Assistant Dean of the Clinical Division assigns students to the different clinics, supervises their records, attendance and instruction. Sections of third-year students are assigned in rotation for clinical instruction in the Dispensary,

*Callinger Municipal Hospital* (Municipal Hospital of the District of Columbia): Clinical instruction in all branches of medicine.

A great wealth of clinical material is afforded in this hospital by ordination of the municipal authorities of the District, whereby one-half the patients—upwards of 1,000 in number—are assigned for treatment and clinical teaching to members of the faculty of this School, nominated by this University.

*Casualty Hospital:* Clinical Pathology.

*Children's Hospital:* Clinical instruction in pediatrics, general and orthopedic surgery.

*Emergency Hospital and Central Dispensary:* Clinical instruction in medicine, surgery, particularly in emergency surgery, fractures and dislocations, dermatology and orthopedics.

*Garfield Memorial Hospital:* Clinical instruction in medicine, including contagious diseases, surgery, gynecology and obstetrics.

*Providence Hospital:* Clinical instruction in medicine and surgery.

*St. Elizabeth's Hospital:* Clinical instruction in mental and nervous diseases, medicine, surgery, post-mortem work and gross pathology. This hospital, with 4,000 beds, is maintained by the United States Government. The psychiatric clinic is one of the largest in the country.

*The Episcopal Eye, Ear, Nose, and Throat Hospital:* Clinical instruction in ophthalmology, otology, laryngology and rhinology.

*Tuberculosis Hospital:* Clinical instruction in tuberculosis, in all its phases, both medical and surgical.

#### MEDICAL UNIT—RESERVE OFFICERS' TRAINING CORPS. U. S. ARMY

A Medical Unit of the Reserve Officers' Training Corps is established in this School by authority of the Secretary of War, and an officer of the Medical Corps of the Army is detailed to the University for supervision and instruction of the students in the Unit.

The object of the Reserve Officers' Training Corps is to give to students special training which will fit them to become, upon graduation, officers in the Medical Section of the Reserve Corps of the Army if they so desire. The work of this Department is both military and professional and a great portion of it will be found applicable to civil practice, so that a graduate who never elects active duty, will find value in the time given to the subjects covered.

Membership in the Unit is voluntary and is open to any physically fit male student who is a citizen of the United States. The instruction is divided into two courses, the basic and the advanced. The basic course is given in the first and second years, and the advanced course in the third and fourth years. Students who satisfactorily complete the basic course may, up to the quota allowed by the War Department, and, if they choose, enter the advanced course. Students who enter the advanced course receive pay from the Government amounting to approximately \$200.00. They are obligated to complete the course and to attend one summer camp of instruc-

tion for six weeks for which the students will receive travel allowances, pay at the rate of \$21.00 per month and will be provided with all camp equipment, uniforms and medical attention. Students who successfully complete the course are recommended for commission in the Medical Section, Officers' Reserve Corps, provided they desire appointment. Selected graduates are given preference in appointment for internship in Army General Hospitals where they receive pay and allowance of a First Lieutenant of the Medical Corps.

## ADMISSION REQUIREMENTS

### LEGAL STANDARDS

The laws relating to the preliminary educational qualifications required of physicians differ in many of the states, and candidates are advised that if they meet the pre-medical and other requirements of this school they will be able to comply with the legal demands of all State Examining Boards in the United States.

### MORAL REQUIREMENTS

All candidates must be of good moral character, and present evidence that their college work has been of such standard as to give promise of work of high quality in the medical course.

### EDUCATIONAL REQUIREMENTS

The minimum requirements for admission are 15 units of work in an accredited secondary school, and two years of college work, totaling at least 60 semester hours, in an accredited college of arts and sciences.

### SECONDARY SCHOOL REQUIREMENTS

Of the 15 secondary school units\* required, 3 must be in English, 2 in foreign language† (ancient or modern), 1 in algebra, 1 in geometry, 1 in history, 1 in science (botany, chemistry, physics or zoology).

a. Eleven of the units offered must be in English, foreign language, mathematics, sciences and history.

b. No candidate will be accepted with any condition in secondary school work.

\* A unit is the credit value of at least 36 weeks' work of 4 or 5 recitation periods per week each period to be not less than 45 minutes.

† Both of the required units of foreign language must be of the same language. Elementary Latin is desirable.

## PRE-MEDICAL COLLEGE REQUIREMENTS

A. *Chemistry*: 12 semester hours† as follows:

- (a) 8 semester hours of general inorganic chemistry, of which at least 4 semester hours are laboratory work. Qualitative analysis may be counted as general inorganic chemistry.
- (b) 4 semester hours of organic chemistry, of which 2 semester hours are laboratory work.

B. *Physics*: 8 semester hours, of which at least 2 semester hours are laboratory work. It is recommended that this course be preceded by one in trigonometry.

C. *Biology*: 8 semester hours, of which at least 4 semester hours are laboratory work. This requirement may be satisfied by a course of 8 semester hours in either general biology or zoology, or by a course of 4 semester hours each in zoology and botany, but not by botany alone.

D. *English Composition and Literature*: 6 semester hours. The usual introductory college course, or its equivalent. The student should develop facility in English expression.

E. *Modern Foreign Language*: A reading knowledge, preferably of French or German.

F. *Electives*: It is recommended that the remaining semester hours required include:

- (a) comparative vertebrate anatomy.
- (b) qualitative and quantitative chemistry.
- (c) social science and psychology.

*Conditions*: No student will be accepted with any condition in college work.

## ADVANCED STANDING

Students who have satisfactorily attended one or more terms at any other Class A medical school, and who have the necessary preliminary educational requirements, may be admitted to advanced standing.

Students who have been in attendance upon an arts course in other accredited colleges or universities may be admitted to advanced standing in any of the pre-medical courses offered by the University upon presentation of properly certified evidence of satisfactory completion of work for which credit is asked.

† A semester hour is one hour of lecture or recitation, or at least 2 hours of laboratory work per week for one half-year or 16 weeks. If laboratory periods are longer than 2 hours in length their value in semester hours will be no more than that assigned by the college where the work is taken.

## APPLICATION FOR ADMISSION

1. While no standard form for the statement of pre-medical credentials is required, certificates submitted must give complete information as to the number of didactic and laboratory hours taken in each subject, the year in which the subject was pursued, and the grade received in each. Forms for secondary school and college work will be furnished on request.

All credentials submitted are to be made out by the proper school and college authorities and mailed by them direct to the Dean, The School of Medicine, The George Washington University, 1335 H Street N.W., Washington, D. C.

Photostat copies of credentials without the original signature of the certifying authority will not be accepted.

Each form must cover only work done at the school or college which fills out the form.

2. A recent photograph, with signature, is required of each applicant.

3. As the number of qualified applicants for admission to the School each year exceeds its capacity, those who wish to insure admission are urged to secure from the schools and colleges attended completely compiled pre-medical credentials and forward them for evaluation as long a time as possible before the opening of The School of Medicine in September.

## FEES

The following fees are prescribed by statute:

1. University Fee, each semester or any part thereof	\$6.00
2. Tuition:	
For students entering after September, 1928, per annum	400.00
For students who entered prior to September, 1928, per annum	366.00
3. Material Fee, 1st, 2d, and 3d years, per annum	10.00
4. Breakage Deposit, unused part returnable, per annum	10.00
5. Graduation Fee	20.00
6. Examination Fees:	
Special examination due to absence from regular examination, for each subject	10.00
September, pre-session examinations, for each subject	5.00

## PAYMENT

1. All fees are payable at the office of the Assistant to the Comptroller at The Medical Building, 1335 H Street N.W.

2. No student is permitted to complete registration or to attend classes until all fees are paid.

3. On account of the many applications for admission, and as the size of the freshman class is limited, places can be reserved only for those qualified

applicants who remit the University Fee, the Material and Breakage deposits, and two months' tuition—a total of \$126.00. Should unusual circumstances arise whereby the matriculant is unable to attend, this initial payment, less a charge of \$25.00 for registration, transfer, etc., will be returned up to one month before the opening of the session, or thereafter, provided the place can be filled.

After the initial payment for two months to secure registration in the freshman class, tuition may be paid in monthly installments in advance.

Fees due at registration must be paid within three days after the opening of the session.

There is no charge for the use of microscopes, but students will be required to pay for injury to apparatus and other college property. All breakage and loss not directly traceable to an individual student is assessed pro rata and any unforfeited balance of the breakage deposit will be returned at the expiration of the course.

Beginning with the session 1931-32 payment of fees in The School of Medicine will be as outlined below:

Fees for each trimester will be due and payable in advance as follows

	1st, 2nd and 3rd years	4th year
First trimester.....	\$160.00	\$150.00
Second trimester.....	140.00	140.00
Third trimester.....	132.00	132.00
	<hr/>	<hr/>
	\$432.00	\$422.00

In exceptional cases, subject to the approval of the Comptroller, students may make special arrangements for the payment of second and third trimester charges.

### TEXTBOOKS

The minimum cost of necessary textbooks and student equipment (glass slides, clinical thermometers, stethoscope, hemocytometer, etc.) is approximately as follows:

First year .....	\$50.00
Second year .....	87.00
Third year .....	45.00
Fourth year .....	30.00
	<hr/>
Total .....	\$212.00

## BOARD AND ROOM

Registers of rooms which have been inspected and approved are kept in the office of the Director of Women's Personnel Guidance, where inquiries in respect to housing facilities should be addressed.

Single rooms usually range in price from twenty to thirty dollars a month, and double from ten to twenty dollars a month a person. Rooms with board, including breakfast and dinner, cost from forty to fifty dollars a month a person.

All women students under twenty-three years of age must have their residence approved by the Director of Women's Personnel Guidance, unless they are living with family or relatives. Registration is not complete until such approval is given.

## SCHOLARSHIPS, PRIZES, LOAN FUNDS

The following scholarships, prizes, and loan funds are available to students in The School of Medicine:

*Scholarship.* The John Hitz Metzgerott Scholarship.

For particulars of application and award, see page 55, in the University Catalogue.

*Prizes.* The Ordronaux Prize of \$100.00 is awarded to the member of the graduating class who has completed the four-year medical course with the highest scholastic standing.

For information concerning other prizes, see page 58, in the University Catalogue.

*Loan Funds.* Daughters of the American Revolution Loan Fund, Harmon Foundation Loan Fund, Henry Strong Educational Foundation Loan Fund, University Loan Fund.

For particulars concerning application for loan funds and their administration, see page 63, in the University Catalogue.

SPECIAL UNDERGRADUATE AND GRADUATE ADVANTAGES  
IN THE MEDICAL SCHOOL

## STUDENT ACTIVITIES

*Privileges.* Payment of the University fee, charged all students, secures to them the following student activity privileges:

1. Gymnasium privileges, including participation in intra-university athletic sports, and the use of the University tennis courts.
2. The University Hatcher, the official student newspaper issued weekly.
3. Admission to home athletic contests.
4. Admission to University debates.
5. Admission at special rates to other University events.

*Eligibility.* No person who is not regularly enrolled as a student and who has not met the eligibility requirements of the school or division in which he is registered may participate in student activities or represent the University on its athletic teams or other student activity.

In order to be eligible to represent the University in any activity, a student must be registered for at least 60 per cent of the number of hours constituting a full course in his department. No man student who has not been registered and in attendance in the University for at least one academic year shall represent the University on a Varsity athletic team in an inter-collegiate contest.

*Control.* Control and direction of all student activities are vested in the Committees on Extra Curricular Activities, which in turn are subject to the supervision and control of the President's Council.

#### HEALTH ADMINISTRATION

The payment of the University fee entitles students to health services hereinafter described. Through reports from the students and University officials the University attempts to keep informed as to all cases of sickness among its students, and see that no one suffers from inattention, or the lack of proper care and treatment.

*Medical privileges include:*

(1) The physical examination of all students entering from secondary schools; (2) Three visits by the University physician or surgeon, office or home, in any one illness, exclusive of a specialist, surgical operation, laboratory, or X-ray examination; (3) Hospitalization, including board, medicine, and undergraduate nursing in the University Hospital for not more than two weeks during the regular school term. Necessity to be determined by the Director of Health Administration. Duration of hospitalization period (maximum two weeks) is also to be determined by the Director of Health Administration.

(This benefit does not include: Treatment for illness or disability incurred previous to University term or prior to payment of the University registration fee.)

*Students are allowed, if they so desire, to engage physician and nurses of their own choice, but when they do so they will be responsible for the fees charged.*

*Rules:*

1. The Director of Health Administration is empowered to limit or deny the medical benefits where in his discretion a student has by his misconduct or breach of the rules of the University made himself ineligible.
2. The Director of Health Administration has authority to determine the necessity and length of hospitalization.

3. Students who have severed their connection with the University are ineligible for medical benefits.
4. Students intending to train for athletic teams are required to pass a careful examination at the beginning of each semester.
5. During the Summer Session of the University the above regulations will apply with one exception: Hospitalization is not offered at this period.

#### HOSPITAL APPOINTMENTS

Interns are appointed annually in the University Hospital. Similar appointments are available for graduates and undergraduates of this school in the following hospitals of the District: Casualty Hospital, Children's Hospital, Columbia Hospital for Women, Emergency Hospital, Episcopal Eye, Ear and Throat Hospital, Garfield Memorial Hospital, Providence Hospital, Saint Elizabeth's Hospital, Sibley Hospital, Tuberculosis Hospital, and Walter Reed United States Army General Hospital.

Students who, after graduation, desire internships in hospitals outside the District of Columbia, should apply directly to the institutions which they wish to enter. A list of hospitals approved for intern training is published annually in the Journal of the American Medical Association and a copy of the list may be consulted in the office of the Dean.

#### COMMISSION ON LICENSURE, DISTRICT OF COLUMBIA

Graduates who wish to take the examinations of the Commission on Licensure, District of Columbia, or desire to use the District license for reciprocity with other states, should apply to the Secretary, Commission on Licensure, Healing Arts Practice Act, District Building, Washington, D. C.

#### UNIVERSITY MEDICAL SOCIETY

The George Washington University Medical Society was established in 1905. All alumni and members of the faculty are eligible for membership on election.

Meetings of the Society are held in the Medical Building on the third Saturday of each month from October to May.

Senior students are invited to attend the meetings of this Society, that they may have the opportunity of hearing the medical papers presented, and become familiar with medical society procedures.

## REGULATIONS

Students in The School of Medicine are subject to the general University regulations as stated beginning on page 65 of the University Catalogue.

## REGISTRATION AND ADMISSION TO CLASSES

Registration in The School of Medicine is for a period of one year at a time. Acceptance by the School of a student's fees does not in any way obligate the School to accept the student for any subsequent year, and the right is reserved to drop any student from the School whenever in the interest of the student or the School the Advisory Committee deems it advisable to do so.

*Time.* All matriculations and registrations must be completed within three days after the opening of the session.

*Admission to Classes.* Freshman students are admitted to classes on presentation of the matriculation ticket issued when all required fees have been paid. Second, third and fourth year students are admitted on presentation of their receipt for the payment of fees.

## ABSENCE

1. Absence consists in being away from a class or clinic during a scheduled period, entering after the class or clinic has begun or leaving before either is dismissed.

2. Absence is not allowed unless an excuse is obtained from the Dean or the Instructor.

3. Application for excuse for absence due to sickness must be accompanied by a certificate signed by the attending physician.

4. For every *unexcused* absence, a department will deduct one-half of one per cent from the student's final grade in the subject involved.

## EXAMINATIONS

Examinations may be written, oral or practical and may be held at the completion of each course or at the end of the academic year.

*Absence from Examinations.* A student who fails to appear at a regularly scheduled final examination will not be examined until the next regular examination except by special permission of the Advisory Committee. For special examinations a fee of \$10.00 will be charged for each subject.

## GRADES

Proficiency in all subjects is marked on a scale of 100. The passing grade in each subject is 75.

### ADVANCEMENT

Any student who has satisfactorily completed the required work of the first, second, or third year of the course and has passed all examinations is eligible for advanced standing, if approved by the Advisory Committee of Faculty.

*Failure.* A student who has failed in any subject will not be advanced unless his case is especially meritorious and then only by authority of the Advisory Committee. A student who has failed in a subject may, in the discretion of the Advisory Committee, be required to make it up in the September pre-term examinations.

A student allowed to repeat a year or take the September examinations will be required to take such examinations and to do work in such subjects as may be directed by the Advisory Committee.

A student who fails of advancement after repeating any one of the first three years or fails of graduation after repeating the final year will not be permitted to maintain his connection with the school.

A student who fails of graduation may, if approved by the Advisory Committee, be reexamined for graduation in the September examinations.

### CHANGES AND WITHDRAWALS

*Changes in Courses.* Course change and withdrawal are not allowed except upon authority of the Advisory Committee.

*Withdrawal.* To withdraw from a course a written request approved by the Dean is required. Withdrawal permits and course certificates are issued only to those who have a clear financial record with the University.

### GRADUATION REQUIREMENTS

Every candidate for the degree of Doctor of Medicine must: (1) be at least 21 years of age, of reputable character and free of financial indebtedness to the University; (2) have fulfilled all admission requirements of this School of Medicine; (3) give evidence of study in an accredited medical school for at least four years of which one year must have been spent in the fourth year of this School of Medicine; (4) passed satisfactorily all examinations.

*With Distinction.* Candidates who have completed the four-year medical course with an average of ninety per cent or more in their work and examinations may be recommended for graduation "with distinction."

### LIMITATION OF REGULATIONS

*Reservation of Right to Change Rules.* The Faculty reserves the right to modify or change requirements, courses, rules and fees in The School of Medicine.

## DEPARTMENTS OF INSTRUCTION

The work of the School is organized under the following departments:

- (1) Anatomy, including embryology and histology.
- (2) Bacteriology and Pathology, including clinical microscopy, preventive medicine and hygiene.
- (3) Biochemistry, including clinical chemistry.
- (4) Medicine, including allergy, dermatology, neurology, pediatrics, tropical medicine, physical diagnosis, psychiatry, medical jurisprudence and syphilology.
- (5) Obstetrics and Gynecology.
- (6) Pharmacology.
- (7) Physiology, including clinical physiology.
- (8) Surgery, including urology, laryngology, military surgery, ophthalmology, orthopedics, otology, and roentgenology.
- (9) Military Science and Tactics.

*Clinics.* Courses of clinical instruction are included in the announcements of the Departments of Medicine, Surgery and Obstetrics and Gynecology. The Assistant Dean assigned to the Clinical Division prepares schedules of clinics and student section assignments to the various hospitals and dispensaries. Under the guidance of specialists each student administers anaesthetics, assists at operations and confinements and studies the care and treatment of cases admitted to the medical wards.

## THE PLAN OF INSTRUCTION

Each year of the medical course is divided into the fall (12 weeks), winter (10 weeks), and spring (11 weeks) trimesters. The course for the degree of M.D. must begin with the fall trimester. Admission requirements are given elsewhere but students must have constantly before them the necessity of thorough preparation as a basis for medical instruction.

The different branches of medical instruction are arranged in a specific order. There is a coordination in the work of the several departments that enables the student to concentrate his attention upon the subject material so as to give him not only a single subject, but also the allied subjects in such a way that they can be readily understood and recognized as integrated parts of a unified training. The salient features in the method of instruction are thorough laboratory training, demonstrations, clinical teaching, with recitations and lectures to clarify the many problems presented. Under such a system of instruction there can be no sharp discrimination in teaching of laboratory and clinical courses. The

clinical material in the University Hospital and Dispensary is utilized to the fullest extent both for clinical instruction and laboratory work. Additional clinics are given in other hospitals in the city to which members of the Faculty of The School of Medicine are attached. The policy of the School is to give a comprehensive, well-grounded, well-proportioned course that will adequately instruct students in the fundamentals of medicine.

#### FIRST YEAR

During the first year the time of the students is devoted to anatomy, histology and embryology (which is carried on by demonstrations to sections and by work in the dissecting room), physiology and chemistry. The work in general anatomy is designed to cover the entire subject in such a manner as to afford the student a practical working basis for the later studies in medicine and is so correlated and taught as to emphasize the value of relation and function as well as that of structure. Instruction in physiology begins in the first year and is continued throughout the first trimester of the second year. Physiology is presented as far as practicable as an exact science although the clinical aspects of the subject are almost constantly in the foreground. Physical and physiological chemistry, completed in the first year, are taught by lectures, demonstrations, recitations and practical work in the laboratory. Instruction is given concerning personal hygiene, care of laboratory equipment, general conduct and adaptability for the profession of medicine.

#### SECOND YEAR

During the second year the work in anatomy, physiology, pathology, bacteriology, immunology and pharmacology is completed. Courses in clinical chemistry, preventive medicine and hygiene are given. The work in bacteriology and immunology is taught by lectures, laboratory work and conferences. Emphasis is laid upon those parts of the subject matter which are directly pertinent to the pathology of infectious diseases, the diagnosis of these diseases and their treatment. The medical problems of bacteriology are illustrated by means of materials obtained from the hospitals. Immunological and serological technique are presented to the student by means of group instruction. The preventive aspects of the physician's work in relation to infectious disease are considered.

#### THIRD YEAR

During the third year there are lectures and conferences in medicine, surgery, obstetrics, gynecology, pediatrics, therapeutics, clinical microscopy, roentgenology and medical jurisprudence. There are clinical lectures,

demonstrations, diagnostic clinics, operative clinics and follow-up clinics in medicine, surgery, urology, obstetrics, gynecology, neurology, psychiatry, pediatrics, ophthalmology, dermatology, syphilology, laryngology, otology, and orthopedic surgery. The class is organized for instruction in physical and medical diagnosis and for practical work in the dispensaries and hospitals. There is special drill in history-taking and the practical technique of physical diagnosis.

#### FOURTH YEAR

During the fourth year the class is divided into small sections and required to attend ward clinics in The University Hospital, Gallinger Municipal Hospital, The Garfield Memorial Hospital, The Children's Hospital, Providence Hospital, St. Elizabeth's Hospital, The Tuberculosis Hospital. Few lectures are given. The work is almost entirely practical and bedside instruction. In the diagnostic clinics students have the opportunity of applying the various methods of precision (the principles of which they have already studied) and are expected to become familiar with case histories, make diagnoses, give prognoses, advise treatments and watch the progress of cases. A course is given in Medical History and General and Medical Ethics.

#### COURSES OF INSTRUCTION

The courses of study will be found listed in alphabetical order beginning on page 43.

1 School year is divided into three terms:  
 First Trimester (12 weeks).  
 Second Trimester (10 weeks).  
 Third Trimester (11 weeks) (senior year 8 weeks).  
 2 Clinical hours included in hour schedule of "Medical Clinics".  
 3 Clinical hours included in hour schedule of "Surgical Clinics".  
 4 Elective, hours not included in Medical Course total.  
 5 Autopsy instruction is given for the most part during the 2nd and 3rd trimesters of second year; third and fourth year students attend as many autopsies as their schedules permit.

## ANNOUNCEMENT OF COURSES

*Note*—First year courses are numbered 101 to 150, second year courses, 151 to 200, third year courses, 201 to 250 and fourth year courses, 251 to 300. The first number in parentheses indicates the total number of hours in the course, the second number, the total number of lecture and quiz hours.

## ANATOMY

GEORGE BAIN JENKINS, M.D., *Professor of Anatomy, Executive Officer.*  
WILLIAM BINFORD KING, A.B., M.D., *Associate Professor of Anatomy.*  
OTHMAR SOLNITZKY, Ph.D., M.D., *Associate Professor of Anatomy.*  
\_\_\_\_\_, *Instructor in Anatomy.*

Total number of hours required in Anatomy for the M.D. degree—860.

111-112-113. *Gross Anatomy* (480-60)

Jenkins, King

The work in this course consists of instruction in osteology followed by the careful dissection and study of the entire body, supplemented by the use of models and prepared specimens. 15 hours per week in the first, second and third trimesters of the first year.

121-122-123. *Histology and Embryology* (288-60)

Jenkins, Solnitzky, King

The work in histology includes the histogenesis and microscopic structure of the tissues and organs of the human body. Special emphasis is laid on the relation of structure to function. 9 hours per week in the first and second trimesters of the first year. The work in embryology embraces a study of normal development, using chick, pig and human material. Malformations and developmental errors are broadly considered. Stained sections, prepared embryos and models are used. 9 hours per week in the third trimester of the first year.

161. *Neuro-anatomy* (72-12)

Jenkins, Solnitzky

A laboratory course on the gross and microscopic study of the human central nervous system. Special emphasis is laid on the functional significance of parts. 6 hours per week in the first trimester of the second year.

172. *Applied Anatomy* (20-20)

Jenkins, King

This is a recitation course in which the important facts of regional and topographical anatomy are given in their application to the practice of medicine and surgery. 2 hours per week in the second trimester of the second year.

## BACTERIOLOGY AND PATHOLOGY

OSCAR BENWOOD HUNTER, A.M., M.D., *Professor of Bacteriology and Pathology, Executive Officer.*

ROGER MORRISON CHOISSEY, B.S., M.D., *Associate Professor of Bacteriology and Pathology.*

GEORGE JOSEPH BRILMYER, M.S., M.D., *Associate Professor of Pathology.*

CLIFT PALSGROVE BERGER, A.M., *Associate Professor of Bacteriology.*

LEON STUART GORDON, A.M., M.D., *Instructor in Pathology.*

SAMUEL ROSS TAGGERT, M.D., *Instructor in Bacteriology and Pathology.*

WILLIAM FRANKLIN SHERIDAN, A.B., *Instructor in Pathology.*

CHARLES ROSENBERG, A.M., *Instructor in Bacteriology.*

WILLIAM FELLER, A.M., *Instructor in Bacteriology.*

Total number of hours required in Bacteriology and Pathology for the M.D. degree—701.

151. *Bacteriology* (144-32)

Hunter, Choisser, Gordon,  
Berger, Rosenberg, Feller

Lectures and quizzes in the field of bacteriology and immunology and their application to human medicine and welfare. The laboratory work covers the preparation of all the standard culture media, the general principles of sterilization and bacteriologic technic from the study of about a dozen typical, widely different non-pathogenic organisms. Subsequently, about fifty pathogenic bacteria are carefully examined by microscopic, cultural and serologic methods. The students prepare as far as practicable such special media as are needed for this work. 12 hours per week in the first trimester of the second year.

152-153. *Pathology* (392-64)

Hunter, Choisser, Gordon,  
Brilmyer, Taggert, Sheridan

General pathology, covers inflammation, repair, degenerations, the effects of plant (including bacteria) and animal parasites on the body, the effects of chemical and physical agents, the formation of new growths, etc. This is followed by special pathology of the organs and of the specific diseases. The laboratory work consists primarily of the histologic study of diseased tissues and neoplasms. Between two and three hundred sections are stained, mounted and loaned to each student. These sections are carefully exam-

ined and studied by the student who makes colored-pencil drawings of the characteristic lesions shown by them. 12 hours per week in the second and 19 hours per week in the third trimester of the second year. Autopsies for second, third and fourth year students are held at the University and affiliated hospitals. Each autopsy includes presentation of the history and clinical findings of the case and demonstration of the gross pathology, followed later by clinical conferences with presentation of the microscopical findings.

154-155. *Preventive Medicine and Hygiene* (63-12)

Choisser, Rosenberg, Berger

The course in Preventive Medicine and Hygiene consists of lectures, recitations, laboratory work, sanitary excursions and sanitary surveys. Visits are made to the two principal types of water treatment plants, sewage treatment works, refuse disposal plants, dairy and pasteurization plants, schools, various industrial plants, and a county health organization. A study will be made of the organization and functioning of a city health department and students will make sanitary surveys of small towns. 3 hours per week in the second and third trimesters of the second year.

201-203. *Clinical Microscopy and Parasitology* (72-24)

Hunter, Choisser, Brilmyer, Berger

In the course in Clinical Microscopy the student is trained in the counting of the red and white blood cells, in the various methods of hemoglobin estimation, in differential leucocyte counting, in the study of malarial and other parasites, in the estimation of blood coagulation time, etc., in the microscopic study of the sediments of normal and pathologic urines, in the microscopic examination of stomach contents, of the feces, including a detailed study of those animal parasites, which are of interest from a medical standpoint, beginning with the protozoa and passing through the helminths and arthropods, in the microscopic examination of sputum, spinal fluids, pleural exudates, etc. The venomous animals, their venoms and the problems of immunity in this group are studied. The significance and value of all these microscopic findings as applied to pathology and diagnosis are considered. 3 hours per week, first 24 weeks of the third year.

261-263. *Clinical Pathological Conferences* (30-0)

Medical Staff and Hunter  
Clinical records of cases dying in the University and Gal-  
linger Hospitals are presented by the student assigned to  
the case in the wards. Autopsy and clinical findings are  
compared with the clinical, and the specimens are demon-  
strated and examined by all present. 1 hour per week  
throughout the fourth year.

## BIOCHEMISTRY

JOSEPH HYRAM ROE, PH.D., *Professor of Biochemistry, Executive Officer.*  
 OLIVER JOHN IRISH, M.S., *Associate Professor of Biochemistry.*  
 HAROLD ALBERT CRAFT, M.S., *Assistant Professor of Biochemistry.*

Total number of hours required in Biochemistry for the M.D. degree—239.

### 101-102. *Biochemistry* (176-80)

Roe, Irish, Craft

A series of lectures and recitations, supplemented by laboratory work, upon such subjects as hydrogen-ion concentration, indicators, methods of quantitative analysis, dialysis, osmosis, colloids, enzymes, radio-activity, and the structure of the atom, is given for about six weeks. The remainder of the course is devoted to physiological chemistry, which includes a study of the chemical structure and reactions of carbohydrates, fats, and proteins; the composition of the tissues of the body, and of milk, urine, and the secretions; the digestion and absorption of foods; metabolism; the basic principles of nutrition. Laboratory work is planned to supplement the lectures by a qualitative and quantitative study of the substances and physiological processes discussed, concluding with special experiments in metabolism. 8 hours per week in the first and second trimesters of the first year.

### 152-153. *Clinical Chemistry* (63-21)

Roe, Irish, Craft

A lecture and laboratory course covering the biochemical methods of analysis used as aids in the diagnosis of disease. This consists of the usual qualitative and quantitative methods of analysis of urine, blood, gastric juice and feces; the kidney and liver function tests; and the interpretation of laboratory findings with respect to diseased conditions. These studies are carried out upon pathological material from the University Hospital and other sources. 3 hours per week in the second and third trimesters of the second year.

### 297-298. *Research*

Roe

Hours, fees, and credits by arrangement.

## MEDICINE

---

Total number of hours required in Medicine for the M.D. degree—958.

---

201-203. *Physical Diagnosis* (132-24)

Conklin, Minor, Belt, Ruffin, Friedenberg

A didactic course is given at the beginning, being necessary to outline general principles. The course is in the main clinical, consisting of section demonstrations and practice on the normal and abnormal subject. The clinical sections receive their instruction at Gallinger Municipal Hospital. 4 hours per week throughout the third year.

204-206. *General Medicine* (132-132)

Mallory, Bloedorn, Halley

Systematic course of lectures and recitations covering diseases of the respiratory, blood-circulatory, gastro-intestinal, and endocrine systems. 4 hours weekly throughout the third year.

207-209. *Medical Clinics* (408)

Clinical Medical Staff

Well organized group clinics are presented in general medicine, dermatology, neurology, pediatrics and psychiatry at

the bedside and in hospital dispensaries. Clinical conferences with the third or fourth year class in attendance are held weekly. The clinical teaching staff particularly emphasizes the technic and practice of case study. Bedside demonstrations and quizzes play a large part in clinical instruction. Daily throughout the third and fourth years.

225-227. *Therapeutics* (33-33) Glenn

Lectures embracing the clinical application of drugs, and a comprehensive discussion of dietetics, physio-therapy and other therapeutic resources. 1 hour per week throughout the third year.

231. *Pediatrics* (24-24) Donnelly

The course consists of lectures and demonstrations. 2 hours per week in the first trimester of the third year. (Clinical hours are included in the schedule of medical clinics.)

241-242. *Dermatology* (22-22) Simpson

A course of lectures in the first 22 weeks of the third year supplemented by dermatologic clinics in general dispensaries. (Clinical hours are included in hour schedule of medical clinics.)

243-245. *Tropical Medicine* (33-33) Higgins

The course is similar to that given in the Army and Navy Medical Schools, special attention being given to diseases prevalent in the United States and its possessions. 1 hour per week throughout the third year.

247. *Medical Jurisprudence* (12-12) Earnest

Lectures on the rights and obligations of physicians, both legal and ethical, and on the legal problems with which the physician is brought into contact. 1 hour per week in the first semester of the third year.

251-253. *Medical Clinics* Clinical Medical Staff

Continuation of *Medical Clinics* 207-209.

261-262. *Neurology* (22-22) Freeman

This course of clinical lectures is given at the Government Hospital for the Insane. 1 hour per week, first and second trimesters, fourth year. (Clinical hours are included in hour schedule of medical clinics.)

271-273. *Psychiatry* (38-38) White and Staff

Clinical lectures exhibiting common types of mental deterioration, supplemented by ward and conference clinics.

38 hours throughout the fourth year. (Clinical hours are included in the hour schedule of medical clinics.)

292. *Ethics* (6-6)

W. C. Borden

A course of lectures on general ethics, including personal hygiene, care of laboratory equipment and general conduct, in the first year, and on medical ethics and adaptability for the profession in the fourth year. 6 hours in the fourth year.

293. *Medical Psychology* (10-10)

Hall

A course of lectures presenting the fundamentals of psychology from the medical standpoint. 1 hour weekly, first trimester, fourth year.

## MILITARY SCIENCE AND TACTICS

WILLIAM OLENDORF WETMORE, M.D., Major, Medical Corps, United States Army, *Professor of Military Science and Tactics.*

The Reserve Officers Training course is elective.

101-103. *(Basic Medical Course) Military Science and Tactics* Wetmore

Practical and theoretical instruction in the following subjects: Military courtesy and discipline, policy, organization, administration, law, medicine, hygiene and first aid. 1 hour per week throughout the first year.

151-153. *(Basic Medical Course) Military Science and Tactics* Wetmore

Map reading, organization of the medical department for caring for, transporting of the sick and wounded from the firing line to the hospitals, in the interior, tactics and technique of the several branches of the Army, hospitalization, sanitation with reference to posts, camps, and marches. 1 hour per week throughout the second year.

A summer course at Carlisle Barracks, Pa., following the second year. Six weeks of physical training, athletics, drill, practice marches, practical sanitation, company administration, military tactics and map drawing.

201-203. *(Advanced Medical Course) Military Science and Tactics* Wetmore

Physical examinations of masses as employed in the Army, food and its relation to disease, water and its relation to disease, prevention and control of communicable diseases from the military standpoint, sanitation in field and garrison. 1 hour per week throughout the third year.

251-253. *(Advanced Medical Course) Military Science and Tactics* Wetmore

Service in the O. R. C., military hospitals and hospitalization in war, medical and surgical diseases peculiar to war, medical aspects of chemical warfare, aviation medicine, medical aspects of mobilization. Inspection of dairies, ice cream plants and packing houses. Methods used by the Army in selecting meats and meat products. Regulations concerning the slaughtering and preparation of meat and meat products. 1 hour per week throughout the fourth year.

## OBSTETRICS AND GYNECOLOGY

- HURON WILLIS LAWSON, M.S., M.D., *Professor of Obstetrics and Gynecology, Executive Officer.*
- HOWARD FRANCIS KANE, A.B., M.D., *Associate Professor of Obstetrics.*
- ELIJAH WHITE TITUS, PHAR.D., M.D., *Associate Professor of Gynecology.*
- THOMAS EDWIN NEILL, M.D., *Clinical Professor of Gynecology.*
- RICHARD LEE SILVESTER, M.S., M.D., *Clinical Professor of Obstetrics.*
- JACOB KOTZ, M.D., *Associate in Gynecology.*
- HENRY LAURAN DARNER, A.B., M.D., *Clinical Associate in Gynecology.*
- JOSEPH HARRIS, A.B., M.D., *Instructor in Obstetrics.*
- VIRGIL B. JACKSON, M.D., *Clinical Instructor in Gynecology.*
- HELEN GLADYS KAIN, B.S., M.D., *Clinical Instructor in Gynecology.*
- GEORGE NORDLINGER, A.B., M.D., *Clinical Instructor in Obstetrics.*
- HENRY JOHN RUSSELL McNITT, B.S., M.D., *Clinical Instructor in Obstetrics.*
- HERBERT PERCY RAMSAY, A.B., M.D., *Clinical Instructor in Gynecology.*
- WILLIAM RAYMOND THOMAS, M.D., *Clinical Instructor in Obstetrics.*
- LAURENCE LEE COCKERILLE, M.D., *Clinical Instructor in Obstetrics.*
- BERNARD NOTES, M.D., *Clinical Instructor in Obstetrics.*
- FRANK EDWARD GANTZ, M.D., *Clinical Instructor in Gynecology.*
- WILLIAM PRESTON HAYNES, M.D., *Clinical Instructor in Obstetrics.*
- ESTHER ALSYLVIA NATHANSON, A.B., M.D., *Clinical Instructor in Gynecology.*
- CLAYTON HOWARD HIXSON, M.D., *Clinical Instructor in Obstetrics.*
- ALEC AMBROSE PREECE, M.D., *Clinical Instructor in Obstetrics.*

---

Total number of hours required in Obstetrics and Gynecology for the M.D. degree—214.

- 
- 211-213. *Normal Obstetrics* (66-66) Lawson, Kane, Silvester, Thomas  
Lectures and recitations on the physiology and management of normal pregnancy, labor and the puerperium. The physiology and the immediate care of the newborn child are included. Complications of pregnancy are considered in this course near the end of the year. 2 hours per week throughout the third year.
214. *Obstetrical Demonstrations* (14-0) Harris, Thomas, Notes  
During the first part of this course laboratory studies are made of the bony pelvis in relation to childbearing, the changes in the soft tissues due to pregnancy, and the fetus at different ages. During the latter half of the course methods of antepartum examinations are demonstrated in the dispensaries and the clinical course and management of

normal labor studied in the delivery wards. The student observes at least four normal deliveries. Sections, 2 hours per week, seven weeks throughout the third year.

- 223-225. *Principles and Practice of Gynecology* (33-33) Titus, Kotz  
A course of lectures and recitations on the subject matter of gynecology, medical and surgical, as generally accepted, with dispensary clinics to demonstrate principles taught. 1 hour per week throughout the third year.

- 251-253. *Abnormal Obstetrics* (30-30) Lawson  
Lectures, recitations and conferences on the pathology of pregnancy, labor and the puerperium. Birth injuries to the fetus are discussed and demonstrated. The course concludes with a consideration of operative obstetrics. 1 hour per week throughout the fourth year.

258. *Manikin Demonstrations* (6-0) Harris, Notes  
A course of exercises on the mechanism, diagnosis of presentation and position of labor, version and extraction, delivery by forceps, and other manipulations and operations, use being made of bony and metal pelvis, the manikin and fetuses. Sections 2 hours per week for three weeks throughout the fourth year.

- 261-263. *Clinical Obstetrics* (50-0) Lawson, Silvester, Harris,  
Thomas, Cockerille, Notes, Hixson  
This embraces dispensary clinics on prenatal care, ward clinics, observation of abnormal deliveries, and the attendance under supervision of six cases in the out-patient service. Throughout the fourth year.

273. *Clinical Gynecology* (15-0) Lawson, Titus, Miller, Neill,  
Kotz, McNitt, Jackson, Ramsay, Darner  
Clinical instruction in various hospitals covering the more important gynecological diseases and operations. Sections throughout the fourth year.

## PHARMACOLOGY

GEORGE BYRON ROTH, A.B., M.D., *Professor of Pharmacology, Executive Officer.*

JAMES HOLMES DEFANDORF, A.M., *Associate Professor of Pharmacology.*

Total number of hours required in Pharmacology for the M.D. degree—172.

151. *Chemical Pharmacology* (36-0)

Defandorf

This laboratory course aims to teach the elements of the pharmacy of the more important medicinal agents and to acquaint the student with the fundamentals underlying the chemical incompatibilities of drugs. The characteristic reactions of the important constituents in drugs are emphasized and the excretion of certain drugs in man is investigated. 3 hours per week in the first trimester of the second year.

152. *Pharmacodynamics* (50-0)

Roth, Defandorf

The instruction in Pharmacodynamics is also practical and consists of demonstrations and student experiments to illustrate the biological effects and nature of the action of the more important pharmacological agents, proceeding from the simple to the more complex tissues and finally to the organism as a whole. If possible, the site of the action of the drug is ascertained, thus affording a rational basis for its use in therapeutics. 5 hours per week in the second trimester of the second year.

161-163. *Systematic Pharmacology* (76-76)

Roth

This is a didactic course, supplemented by demonstration, which correlates the most prominent facts relating to the more important therapeutic agents and brings them into more intimate connection with their clinical use, special consideration being given to the drugs found in the United States Pharmacopoeia and New and Non-Official Remedies. 2 hours per week in the first and third trimesters, and 3 hours per week in the second trimester of the second year.

174. *Principles of Prescription Writing* (10-0)

Roth

Conferences on the form of the prescription and drill in elemental prescription writing. 1 hour per week in the second trimester of the second year.

## PHYSIOLOGY

LESLIE HOWSON FRENCH, M.D., *Professor of Physiology, Executive Officer.*  
 ROBERT JOSEPH BOSWORTH, A.B., M.D., *Associate Professor of Physiology.*  
 \_\_\_\_\_, *Instructor in Physiology.*

Total number of hours required in Physiology for the M.D. degree—279.

- 111-113. *Physiology* (145-145) French, Bosworth  
 Course of systematic lectures, recitations and conferences covering the physiology of Muscle, Nerve, Blood, Lymph, Circulation, Respiration, Digestion, Excretion, Secretion, Sense Organs, Metabolism, Endocrine and Central Nervous Systems. 3 hours weekly, first and second trimesters; 5 hours weekly, last trimester of the first year; 2 hours weekly, first trimester of the second year.
151. *Experimental Physiology* (120-0) French, Bosworth  
 Course of laboratory exercises and demonstrations selected to illustrate the fundamental principles of physiology and to impress the student with the importance of observation and correlation. Quizzes and conferences precede each laboratory session. The course includes practical instruction in Electro-cardiography and Metabology. 10 hours per week in the first trimester of the second year.
152. *Physiology* French, Bosworth  
 Continuation of *Physiology* 111-113.
251. *Clinical Physiology* (14-0) French  
 Course of laboratory exercises, ward demonstrations, and conferences covering clinical disturbances of function. The subject matter is presented in such a way as to interpret clinical pictures, explain certain functional diagnostic procedures and suggest rational preventive and curative therapeutic principles. Sections, 2 hours weekly for seven weeks, fourth year.

GENERAL INFORMATION

## INTRODUCTORY STATEMENT

The George Washington University Law School, established in 1826, discontinued somewhat later and reorganized in 1865, is the oldest in the District of Columbia. The course of instruction for the degree of Bachelor of Laws, originally requiring two years, was increased in 1898 to three years. A course leading to the degree of Master of Laws was added in 1877. In 1900 the school took part in the organization of the Association of American Law Schools, and has been a member of the Association since that time. In 1911 the school became co-educational. In 1924, in compliance with the requirements of the American Bar Association and of the Association of American Law Schools, the late afternoon course for employed students was increased to four years. On September 1, 1925, the entrance requirements, also in compliance with the requirements of the associations mentioned above, were increased to two years of college work. The school is approved by the Council of Legal Education of the American Bar Association. Since September 1, 1925, it has occupied a new law building, designed and constructed for its use. This building has been named Stockton Hall in honor of the late Rear Admiral Charles H. Stockton, President of the University from 1910 to 1918. The building contains nine class rooms, library space with a maximum capacity of 40,000 volumes, and ten offices for professors.

## LIBRARY

The Law School Library contains the decisions of the highest courts of all the States, the reports of the United States Supreme Court and other federal courts, the English Reprints and English Law Reports, the United States statutes, the statutes of forty-one states, the English statutes, the principal English and American digests, legal encyclopedias and collections of annotated cases, and the leading text books and legal periodicals.

The library is open from 9:00 A. M. to 11:00 P. M. on week days and from 2:00 to 6:00 P. M. on Sundays.

## ACADEMIC YEAR

The academic year 1930-31 begins on Wednesday, September 24, 1930, and closes Wednesday, June 10, 1931.

The academic year is divided into two semesters, the second beginning Monday, February 2. In addition there is a summer session of two terms of six and a half weeks each. The summer session of 1930 will begin June 15, the second term beginning July 30.

Registration is permitted at the beginning of the second semester. First year students taking the late afternoon classes may enter at that time for a regular course of ten hours per week. Such students may, by attending the following summer session, complete most of the first year afternoon course. Other students may register for second semester subjects which they are qualified to take but not for year subjects.

Students who complete their work for the degree at the end of the first semester may be recommended for graduation at the mid-winter convocation February 22.

## ADMISSION REQUIREMENTS

### FOR THE DEGREE OF BACHELOR OF LAWS

Candidates for this degree must have completed before admission fifteen units of approved secondary school work, and at least two years, sixty semester hour credits, of approved college work. The completion of this work must be evidenced by proper certificates. In no case will a student be admitted conditioned in any part of the entrance requirement. An application for admission may be rejected on the ground of unsatisfactory scholarship in pre-legal studies.

The college work required for admission may be completed in The Junior College of The George Washington University. Applicants for such college work should communicate with the Registrar of the University, 2033 G Street Northwest.

*Advanced Standing.* Students from approved law schools may receive not more than two years' credit toward the degree of Bachelor of Laws for work done in such schools. Applicants for admission with advanced standing must file certified transcripts of record showing high school, college, and law credits. The right is reserved to refuse such credit, in whole or part, or to allow it conditionally or after examination, and credit given may be withdrawn for subsequent poor work. No student will be admitted who has been in attendance at another law school and is ineligible, because of poor scholarship, to return to that school.

### FOR THE DEGREE OF MASTER OF LAWS

Candidates for this degree must have at the time they register the degree of Bachelor of Arts or an equivalent degree from an approved college, and the degree of Bachelor of Laws or an equivalent degree from an approved law school. The two degrees must have been obtained in not less than six academic years.

### SPECIAL STUDENTS

A limited number of persons who cannot qualify as candidates for a degree but who are over twenty-five years of age and because of their maturity, educational training and practical experience seem qualified to pursue the study of law, may be admitted by the Executive Committee of the Faculty as special students. No special student will be admitted who has not completed at least a four-year high school course.

Candidates for admission as special students must file written applications setting forth their qualifications in detail, and letters and certificates to prove the facts stated therein as to their education and experience. Work done by special students will not be counted toward the degree.

### UNCLASSIFIED STUDENTS

Persons eligible for admission to regular standing may, in the discretion of the Dean, be admitted as unclassified students, to courses aggregating not more than four hours per week.

### APPLICATION FOR ADMISSION

Applications for admission and certificates of pre-legal study should be filed with the Secretary of The Law School not later than ten days before the registration period. Applications for admission with advanced standing should be filed with the Dean of The Law School not later than ten days before the registration period.

### REGISTRATION

Before attending classes each student must present himself in person for registration. No student will be registered in The Law School until proper credentials have been filed and approved by the proper officers of The Law School. (See Admission, above.)

Only with the approval of the Executive Committee may a student be permitted to register in the second semester of a year subject before he has completed the attendance in the first semester of that subject.

In all cases where students are permitted to register in one semester of a year subject they must register for the other semester of that subject not later than one calendar year from the time attendance in the first semester was completed.

Registration at the beginning of the academic year indicates the student's program of study for the entire year unless otherwise stated. At the beginning of the second semester all programs for that semester must be re-checked and approved, and the initial payment of tuition fees made. Until this has been done the student will not be placed on the rolls for the semester.

Registration days for the academic year 1930-31 will be Friday to Tuesday, September 19 to 23, both inclusive, and Friday and Saturday, January 30 and 31. Except where special permission is given, students must register on the regular registration days. A late registration fee of \$5.00 will be charged each student who is permitted to register after the regular registration days. No registration may be made for a semester subject after the first two weeks of a semester or for a year subject after the first four weeks of the year.

*Change of Registration.* Registration may be changed only with the permission of the Dean. A fee of \$2.00 will be charged for each change authorized after registration.

#### FEES

1. *University fee, per semester	\$ 6.00
2. Tuition fee, per semester hour	8.00
Minimum tuition fee per semester	24.00
3. Graduation fee	20.00
4. Reinstatement fee	4.00
5. Late registration fee	5.00
6. Change fee	2.00
7. Fee for a special examination	10.00

#### FINANCIAL REGULATIONS

- (a) All fees are payable at the Office of the Comptroller, 2033 G Street.
- (b) No student is permitted to complete registration or to attend classes until he has paid all fees due.
- (c) Fees for each semester are due and payable in advance at the time of registration.
- (d) In exceptional cases, subject to the approval of the Comptroller, students registering for more than three semester hours may sign contracts for semester charges, except for the University fee, permitting installment payments as follows:

##### *First Semester*

- One-third at the time of registration
- One-third on November first
- One-third on December first

##### *Second Semester*

- One-third at the time of registration
- One-third on March first
- One-third on April first

\* Students entering prior to the 1928 Summer Session pay \$4.00 a semester

(e) Students who fail to meet installment payments by the tenth of the month will be suspended, and may not attend classes until they have paid all accrued fees, a reinstatement fee of \$4.00, and have been officially reinstated. A suspended student may not be reinstated for the semester after two weeks from the date of suspension. Applications for reinstatement are to be made to the Dean of The Law School.

(f) No student may register in The Law School who owes fees in any other Department of the University.

#### REFUNDS

No part of an installment payment shall be returnable. In no case will tuition be reduced because of non-attendance upon classes.

#### WITHDRAWALS

No permission to withdraw and no certificate of work done will be given a student who has not a clear financial record.

#### SCHOLARSHIPS AND LOAN FUNDS

*Scholarships.* Scholarships are administered by the University Committee on Student Loans and Scholarships. Applications should be made to The Registrar of the University, in accordance with instructions stated on pages 53 and 63.

*Loan Funds.* Through the generosity of friends of the University a number of loan funds are available to students in The Law School. Among these is the Henry Strong-William A. Maury Scholarship Loan Fund, established by the Henry Strong Educational Foundation in memory of Henry Strong and William A. Maury.

#### PRIZES

*Ellsworth Prize.* The Ellsworth Prize of \$25.00 is offered by Mr. Fritz v. Briesen to the student doing the best work in the subject of Patent Law Practice. Awarded in 1928-29 to Arturo Casanova.

*Samuel Herrick Prize.* A prize of \$25.00 donated by Samuel Herrick, Esq., is awarded annually to that member of the graduating class (excepting the winner of the John Bell Larner Prize) who has attained the highest average grade in the work of the third year. Awarded in 1928-29 to Marian B. Phelps.

*John Bell Larner Prize.* A gold medal donated by Mr. John Bell Larner, Chairman of the Board of Trustees of the University, is awarded annually to that member of the graduating class who has attained the highest average grade in the entire course for the degree of Bachelor of Laws. Awarded in 1928-29 to Charles V. Laughlin.

*Ordronaux Prizes.* A prize of \$50.00 is awarded annually to the student taking the regular full-time course who has attained the highest average grade in the work of the first year. A prize of \$50.00 is awarded annually to the student taking the regular full-time course who has attained the highest average grade in the work of the second year. This was formerly awarded annually as one prize to the student taking the regular course who attained the highest average grade in the work of the second year. Awarded in 1928-29 to Francis Kirkham.

#### ORDER OF THE COIF

The Order of the Coif is a national honor society with chapters in twenty-eight law schools, the purpose of which is "to foster a spirit of careful study and to mark in a fitting manner those who have attained a high grade of scholarship." The George Washington University Chapter was established in 1926. Students are elected each year from the highest ranking ten per cent of the Senior Class of The Law School.

#### DEGREES

The degrees are Bachelor of Laws and Master of Laws.

*Six-Year Combined Course for the Degrees of Bachelor of Arts and Bachelor of Laws.* The University will confer the degree of Bachelor of Arts upon the completion of three years of college work and the first year in The Law School. (See *Columbian College Announcement*, page 97.) The Bachelor of Laws degree will be conferred upon the completion of the remainder of the work for that degree.

*Six-Year Combined Course for the Degrees of Bachelor of Science in Engineering and Bachelor of Laws.* The University will confer the degree of Bachelor of Science in Engineering upon the completion of the first three years of the course for that degree in the College of Engineering of The George Washington University and the first year in The Law School. (See *announcement of the general course in The School of Engineering*, page 133.) The Bachelor of Laws degree will be conferred upon the completion of the remainder of the work for that degree.

**REQUIREMENTS FOR THE DEGREE OF BACHELOR OF LAWS**

Candidates for the degree of Bachelor of Laws must satisfy the admission, residence, and scholarship requirements and complete the prescribed number of credit and required subjects.

*Residence.* The attendance requirement for this degree is three academic years for full-time students and four academic years for part-time students of which at least one academic year must be spent in residence at The George Washington University Law School. A year's attendance in the late afternoon classes for part-time students is counted as residence for three-fourths of a year.

*Number of Credits.* The credit requirement is 80 semester hours. A semester hour is an hour a week of class work for one semester.

*Scholarship.* The 80 semester hours of work required must be completed with an average grade of at least "C," and not more than sixteen hours with a grade of "D" may be counted toward the degree.

*Required Subject.* The following subjects are required for the degree of Bachelor of Laws: 111-112, Contracts; 124, Criminal Law and Procedure; 133-134, Personal Property; 137-138, Real Property I; 141-142, Torts; 163-164, Bills and Notes; 167-168, Civil Procedure; 171-172, Equity II; 177-178, Evidence; 187-188, Real Property II; 251-252, Constitutional Law; 257-258, Corporations; 281-282, Moot Court, or Patent Moot Court.

*Honors.* The degree of Bachelor of Laws "With Distinction" will be awarded students who obtain an average grade of "A."

**REQUIREMENTS FOR THE DEGREE OF MASTER OF LAWS**

Candidates for the degree of Master of Laws must complete twenty semester hours of work in subjects not counted toward the degree of Bachelor of Laws and must present a satisfactory thesis in a subject which has been counted toward the Master's degree.

Trusts, Conflict of Laws, and Constitutional Law, must be included in the course for the degree of Master of Laws if not previously taken. No first year subject and no second year required subject may be counted toward this degree.

This degree will not be conferred until one academic year after the candidate receives the degree of Bachelor of Laws.

*Scholarship.* Courses taken for the Master's degree must be completed with a grade of not less than "C" in each subject and with an average grade of not less than "B."

## REGULATIONS REGARDING DEGREES

*Non-continuous Attendance.* Candidates absent for more than one continuous academic year may re-enter and continue their work only under the rules and regulations in force at the time of their return. The Executive Committee, however, may permit such students to continue their work under the entrance requirements in force at the time they were admitted to the School.

*Right to Refuse.* The right is reserved to refuse to confer a degree upon a candidate whose attendance or conduct has been unsatisfactory.

*Application for Graduation.* Application for graduation should be filed in the office of the Secretary at the beginning of the senior year.

## HOURS OF INSTRUCTION

*Hours.* The regular course for full-time students is given from 9:00 A. M. until 1:00 P. M. Employed students may take the regular course in the classes held at 5:10 P. M. and 6:10 P. M.

*Courses Offered.* The statement of the courses of study offered will be found beginning on page 23.

## REGULATIONS

Students registered in The Law School are governed by the University regulations as stated beginning on page 65 of the University Catalogue.

## AMOUNT OF WORK

A student who takes a majority of his courses in the full-time section, from 9:00 A. M. to 1:00 P. M., may with the permission of the Dean take work not exceeding fifteen hours a week. For such students the minimum period of attendance is three academic years.

A student who takes a majority of his courses in the afternoon sections or in classes held before 9:00 A. M., may not register for more than ten hours per week. For such students the minimum period of attendance is four academic years.

The amount of work carried by any student may be restricted when in the judgment of the Dean the best interests of the student require it.

## GRADES

The grade of a student in each subject is indicated by the letter P, Pass; D, Conditional Pass; or F, Failed. The meaning of these grades is as follows:

P, Pass, means that the work has been successfully completed and full credit given for the subject.

D, Conditional Pass, means that credit is given for the subject but not more than sixteen semester hours of such credit may be counted toward the degree.

F, Failed, means that the work in the subject has been a failure and that no credit will be given. To obtain credit the student must repeat the subject; but a student who, in the work of the year has received a grade of F in one subject only and obtained a general average of C, may take the next regular examination in that subject, and if on such reexamination he attains the grade of C or better he will be given a grade of D (60) in the subject.

At the end of each academic year each student is given an average numerical grade for his work for the year. These numerical grades rank as follows: A, excellent, 85-100; B, good, 75-84; C, pass, 65-74; D, conditional pass, 55-64; F, failure, below 55.

#### SCHOLARSHIP REQUIREMENTS

Unless a student in each academic year receives a grade above F in at least three-fourths of the semester hours in which he is registered and obtains a numerical average grade of not less than 60 he will be denied registration in the future, but upon written application to the Committee on Reinstatement showing sufficient cause, and after a personal hearing if he so desires, he may be reinstated on such conditions as the committee may impose.

*Graduation Requirement.* See "Requirements for the Degree of Bachelor of Laws," page 17.

#### ATTENDANCE

No student will be allowed credit in any subject unless he has been regularly registered and in regular attendance and has done all the work required in the course in that subject.

In the case of absences exceeding ten per cent of the class hours and less than twenty-five per cent, these absences shall be added at the end of the academic year and for each fifteen hours of such absence the student's credit for the year shall be reduced by one semester hour. If a student is absent for more than twenty-five per cent of the classes in any subject he shall not be eligible to take the examination in that subject or to receive credit therefor. In all cases absences due to late registration shall be included.

#### CHANGES AND WITHDRAWALS

Changes in courses and withdrawals may be arranged *only in the office of the Dean or Secretary*. Unless this is done students will be treated as registered for the subjects shown on the original registration blanks and fees will be charged accordingly.

*In no case will tuition fees be reduced because of non-attendance upon classes.*

Withdrawals during a semester may be granted by the Dean upon *written application* setting forth reasons. See also page 15.

A fee of \$2.00 will be charged for any change in courses after registration.

### EXAMINATIONS

Written examinations are held at the close of the first semester in subjects which are then completed and at the close of the second semester in all other subjects. All students are required to take the regular examinations in the subjects pursued, unless excused by the Dean. A student who, with the consent of the Dean, does not take the final examination in a subject with the class in which he is enrolled, may take the next regular examination given in the subject.

No student shall be given an examination in nor permitted to receive credit in less than an entire subject. In any case where a student is permitted to register for one semester only of a year subject he shall not take the examination in that subject until the other semester has been completed. If no regular examination in that subject is scheduled at the time the other semester is completed, then the student shall not be given a special examination but shall be required to take the next regular examination.

No special examinations will be given; except, that upon written application to the Executive Committee, showing sufficient cause, a candidate for a degree at a convocation before the next regular examination, if he would be entitled to take that examination, may, in the discretion of the committee, be given a special examination not less than sixty days after the one which he failed to take or pass.

### CLASSIFICATION OF STUDENTS

Students are divided into classes on the completion of semester hours of credit as follows:

First year to 27; Second year, 28 to 55; Third year, 56 or more.

### BOARD AND ROOM

Registers of rooms which have been inspected and approved are kept in the office of the Secretary for Women's Activities, where inquiries in respect to housing facilities should be addressed.

Single rooms usually range in price from twenty to thirty dollars a month, and double from ten to twenty dollars a month a person. Rooms with board, including breakfast and dinner, cost from forty to fifty dollars a month a person.

All women students under twenty-three years of age must have their residence approved by the Secretary for Women's Activities, unless they are living with family or relatives. Registration is not complete until such approval is given.

## HEALTH ADMINISTRATION

The payment of the University fee entitles students to health services hereinafter described. Through reports from the students and University officials the University attempts to keep informed as to all cases of sickness among its students, and sees that no one suffers from inattention, or the lack of proper care and treatment.

*Medical privileges include:* Three visits by the University physician or surgeon, office or home, in any one illness, exclusive of a specialist, surgical operation or X-ray examination; hospitalization, including board, medicine, and undergraduate nursing in the University Hospital for not more than two weeks during the regular school term, necessity to be determined by the Director of the Health Administration. Duration of hospitalization (maximum two weeks) period is also to be determined by the Director of Health Administration.

(This benefit does not include: Treatment for illness or disability incurred previous to University term or prior to payment of the University registration fee.)

*Students are allowed, if they so desire, to engage physician and nurses of their own choice, but when they do so they will be responsible for the fees charged.*

*Rules:*

1. The Director of Health Administration is empowered to limit or deny the medical benefits where in his discretion a student has by his misconduct or breach of the rules of the University made himself ineligible.
2. The Director of Health Administration has authority to determine the necessity and length of hospitalization.
3. Students who have severed their connection with the University are ineligible for medical benefits.
4. Students intending to train for athletic teams are required to pass a careful examination at the beginning of each semester.
5. During the Summer Session of the University the above regulations will apply with one exception: Hospitalization is not offered at this period.

## EMPLOYMENT

The University maintains an employment bureau which will assist students to find employment. Prospective students should have the means of support for at least half a year to give them time to secure positions.

Many out-of-town students take the United States Civil Service examinations in their various states and secure positions in the Government departments in Washington, where the hours of employment enable them to pursue a limited course in the late afternoon.

The Appointment Office,  
The George Washington University,  
Washington, D. C.

## STUDENT ACTIVITIES

*Privileges.* The following student activity privileges are included in the payment of the University fee charged all students:

1. Gymnasium privileges, including participation in intrauniversity athletic sports and the use of the University tennis courts.
2. The University Hatchet, the official student newspaper issued weekly.
3. Admission to home athletic contests.
4. Admission to University debates.
5. Admission at special rates to other University events.

*Eligibility.* No person who is not regularly enrolled as a student and who has not met the eligibility requirements of the school or division in which he is registered may participate in student activities or represent the University on its athletic teams or other student activity.

In order to be eligible to represent the University in any activity, a student must be registered for at least 60 per cent of the number of hours constituting a full course in his department.

No student who has not been registered and in attendance in the University for at least one academic year shall represent the University on a Varsity athletic team in an intercollegiate contest.

## COURSES OF INSTRUCTION

Note:—First year courses are numbered 101 to 150; second year courses, 151 to 200; third and fourth year courses, above 200. First semester courses are given odd numbers, 1, 3, 5, etc., and second semester courses even numbers, 2, 4, 6, etc. A course running throughout the year is given a double number, as, 101-102. The number of semester hours credit given in each course is indicated in parentheses, as, a year course giving two hours credit each semester is marked (2-2). When a course is given in more than one section, the morning section is designated "A" and the afternoon section "B".
